Sigmar Polke Margit Rowell, Sigmar Polke, Michael Semff, Bice Curiger, Museum of Modern Art (New York, N.Y.). 1999 Sigmar Polke's thirty-five-year career, during which he has produced a vast range of work in all mediums, has earned him a reputation as one of the most significant artists of his generation. Born in 1941, he began his creative output around 1963 in Dusseldorf during a time of enormous social, cultural, and artistic changes in Germany and elsewhere. Few of his works demonstrate more vividly his imagination, sardonic wit, and subversive approach than the drawings, watercolors, and gouaches produced during the 1960s and early 1970s. Embedded in these images are incisive and parodic commentaries on consumer society, the postwar political scene in Germany, and classic artistic conventions.

**Norms of Word Association** Leo Postman, Geoffrey

Keppel. 2014-05-10 Norms of Word Association contains a heterogeneous collection of word association norms. This book brings together nine sets of association norms that were collected independently at different times during a 15-year period. Each chapter is a self-contained unit. The order in which the norms are

presented is arbitrary, although an attempt is made to group together norms that seem to belong together. The 1952 Minnesota norms are presented first, due to age and in recognition of the fact that a number of the norms that follow are direct outgrowths of this work. The next three norms in this collection are responses to the Russell-Jenkins stimuli obtained from subjects representing different linguistic communities. A summary of association norms collected from British and Australian subjects are reported along with association norms from German and French college students and French workmen. Four sets of norms that are not directly related to the 1952 Minnesota collection are included. The text will be of interest to historians and researchers in the field of verbal learning and verbal behavior.

Dewell.2011 This is really two books in one: a valuable reference resource, and a groundbreaking case study that represents a new approach to constructional semantics. It presents a detailed descriptive survey, using extensive examples collected from the Internet, of German verb constructions in which the expressions *durch* ('through'), *über* ('over'), *unter* ('under'), and *um* ('around') occur either as inseparable verb prefixes or as separable verb particles. Based on that evidence, the author argues that the prefixed verb constructions and particle verb constructions themselves have meaning, and that this meaning involves subjective construal processes rather than objective information. The constructions prompt us to distribute focal attention according to patterns that can be articulated in terms of Talmy's notion of [perspectival modes]. Among the other topics that play an important role in the analysis are incremental themes, reflexive trajectors, fictive motion, [multi-directional paths], and [accusative landmarks].

The tendency towards the morbid and the decadent was most pronounced in Belgian Symbolism. Many of the impulses for this avant-garde came from Belgian artists, such as the disreputable Félicien Rops, the subtle Fernand Khnopff, the occult Jean Delville and the eccentric Léon Spilliaert and James Ensor.--back cover.

Third Edition is an innovative reference guide to German, combining traditional and function-based grammar in a single volume. The Grammar is divided into two parts. Part A covers grammatical categories such as word order, nouns, verbs and adjectives. Part B is organised according to language functions and notions such as: making introductions asking for something to be done delivering a speech possibility satisfaction. The book addresses learners' practical needs and presents grammar in both a traditional and a communicative setting. New to this edition, and building on feedback from the previous edition: The rules of the latest (and so far final) spelling reform have been implemented throughout. Examples of usage have been updated and consideration given to Swiss and Austrian variants. The chapter on register has been expanded and now includes youth language and frequently used Anglicisms in German. The Index now has even more key words; it has also been redesigned to differentiate between German words, grammar terms, and functions, thus making it more user-friendly. The Grammar assumes no previous grammatical training and is intended for all those who have a basic knowledge of German, from intermediate learners in schools and adult education to undergraduates taking German as a major or minor part of their studies. The Grammar is accompanied by a third edition of Modern German Grammar Workbook (ISBN 978-0-415-56725-1) which features exercises and activities directly linked to the Grammar. Ruth Whittle is Lecturer, John Klapper is Professor of Foreign Language Pedagogy, Katharina Glöckel is the Austrian Lektorin and Bill Dodd is Professor of Modern German Studies - all at the University of Birmingham. Christine Eckhard-Black is Tutor and Advisor in German at the Oxford University Language Centre.

1800-1850 This publication contains papers from the CATS conference - Technology & Practice: Studying the European Visual Arts 1800-1850. The conference focused on artists' techniques and materials, written sources, conservation science, the history of science and technology, history of trade, and innovation of artists' materials during the first half of the 19th century. In the preceding several decades a succession of art academies emerged throughout Europe, and another focal point of the conference was the impact of these institutions on a new generation of artists, examining how this manifested itself in their paintings, sculpture, interiors and art on paper.

acclaimed painter and television personality. This exclusive authorized collection of art, derived directly from Bob Ross's own paintings, offers his legions of fans a contemplative, relaxing, and inspiring way to connect with the work and personality of the pop-culture icon. Featuring many of Ross's most famous quotes and catchphrases about happy little trees, friendly squirrels, and more, the book also includes a gallery of his original artwork. But as he would no doubt want, coloring fans of all ages are encouraged to make their own decisions, embrace their mistakes, and make each painting their own. Bob Ross is a cult figure around the world among varying age groups, especially Generation X. And everyone agrees he is about more than just painting. His fans—few of whom identify themselves as artists—agree that his quiet, nurturing disposition is a form of therapy, making his work the absolutely perfect subject of an adult coloring book. This coloring book presents more than seventy-five line drawings created from Ross's own artwork.

**From Goethe to Gundolf** Roger Paulin.2021-08-24 From Goethe to Gundolf: Essays on German Literature and Culture is a collection of Roger Paulin's groundbreaking essays, spanning the last forty years. The work represents his major research interests of Romanticism and the reception of Shakespeare in Germany, but also explores a broader range of themes, from poetry and the public memorialization of poets to fairy stories - all meticulously researched, yet highly accessible. As a comprehensive examination of German literary history in the period 1700-1900, the collection not only includes accounts of the lives and work of Goethe, Schiller, the Schlegels, and Gundolf (amongst others), serving to nuance our understanding of these figures in history, but also considers diverse (and often underexplored) topics, from academic freedom to the rise of travel literature. The essays have been reformulated, corrected, and updated to add references to recent works. However, the core foundations of the originals remain, and just as when they were first published, the value of these essays - to researchers, students, and all those who are interested in German literary history - cannot be overstated.

**Klingsor's Last Summer** Hermann Hesse. 2013-01-22 This is the first English-language edition of Klingsor's Last Summer, which was originally published in 1920, a year after Demian and two years before Siddhartha. The book has three parts: a story called A Child's Heart, followed by Klein and Wagner and Klingsor's Last Summer, Hesse's two longest and finest novellas. These novellas, along with Siddhartha (the three works were republished in 1931 under the title The Inward Way), are the first fruits of the period that began in the spring of 1919, when Hesse settled in the Ticino mountain village of Montagnola to start a new life without his wife and children. A Child's Heart, written in January 1919, in Basel, concerns the transmutation of a boy's innocence into knowledge of good and evil, and the painful guilt that accompanies this process. Both Klein and Wagner (written in May-June 1919, immediately after the arrival in Montagnola) and Klingsor's Last Summer (written shortly after) are set in a southern landscape that reflects Hesse's life that summer; both novellas have heroes who are more or less Hesse's age at the time; and in both the hero's death is preceded by a grand vision of unity in which the polarities of life are resolved. Hesse exposes himself mercilessly in Klein and Wagner, a story of escape, wrenching loose, letting go. But the expressionist painter Klingsor is a more direct self-portrait of the Hesse of 1919.
