*The Historic Core of Los Angeles* Curtis C. Roseman, Ruth Wallach, Dace Taube, Linda McCann. 2004-11-10 In the early 20th century, there was no better example of a classic American downtown than Los Angeles. Since World War II, Los Angeles's Historic Core has been passively preserved, with most of its historic buildings left intact. Recent renovations of the area for residential use and the construction of Disney Hall and the Staples Center are shining a new spotlight on its many pre-1930s Beaux Arts, Art Deco, and Spanish Baroque buildings.

**City at the Edge of Forever** Peter Lunenfeld. 2020-08-11 An engaging account of the uniquely creative spirit and bustling cultural ecology of contemporary Los Angeles How did Los Angeles start the 20th century as a dusty frontier town and end up a century later as one of the globe's supercities - with unparalleled cultural, economic, and technological reach? In *City at the Edge of Forever*, Peter Lunenfeld constructs an urban portrait, layer by layer, from serendipitous affinities, historical anomalies, and uncanny correspondences. In its pages, modernist architecture and lifestyle capitalism come together via a surfer girl named Gidget; Joan Didion's yellow Corvette is the brainchild of a car-crazy Japanese-American kid interned at Manzanar; and the music of the Manson Family segues into the birth of sci-fi fandom. One of the book's innovations is to brand Los Angeles as the alchemical city. Earth became real estate when the Yankees took control in the nineteenth century. Fire fueled the city's early explosive growth as the Southland's oil fields supplied the inexhaustible demands of drivers and their cars. Air defined the area from WWII to the end of the Cold War, with aeronautics and aerospace dominating the region's industries. Water is now the key element, and Southern California's ports are the largest in the western hemisphere. What alchemists identify as the ethereal fifth element, or quintessence, this book positions as the glamour of Hollywood, a spell that sustains the city but also needs to be broken in order to understand Los Angeles now. Lunenfeld weaves together the city's art, architecture, and design, juxtaposes its entertainment and literary histories, and moves from restaurant kitchens to recording studios to ultra-secret research and development labs. In the process, he reimagines Los Angeles as simultaneously an exemplar and cautionary tale for the 21st century.

*Shades of L.A.* Carolyn Kozo Cole, Kathy Kobayashi, Los Angeles Public Library. 1996 *Shades of L.A.*, a collection of more than one hundred photographs selected from the family albums of eight different communities, makes available, for the first time, rare images of family life in Southern California. Taken not by outsiders reporting to the world, but by families recording their own history, these photographs are important cultural documents of the twentieth century. Together with a timeline of L.A.'s ethnic history, they give a compelling portrait of life in one of America's most diverse cities from the 1880s to the 1960s.

*Public Los Angeles* Don Parson. 2019-11-15 *Public Los Angeles* is a collection of unpublished essays by scholar Don Parson focusing on little-known characters and histories located in the first half of twentieth-century Los Angeles. An infamously private city in the eyes of outside observers,

structured around single-family homes and an aggressively competitive regional economy, Los Angeles has often been celebrated or caricatured as the epitome of an American society bent on individualism, entrepreneurialism, and market ingenuity. But Don Parson presents a different vision for the vast Southern California metropolis, one that is deftly illustrated by stories of sustained struggles for social and economic justice led by activists, social workers, architects, housing officials, and a courageous judge. Public Los Angeles presents insights into LA's historic collectivism, networks of solidarity, and government policy. A follow-up to Parson's seminal *Making a Better World: Public Housing, the Red Scare, and the Direction of Modern Los Angeles* (2005), this volume helps shape our understanding of public housing, gender and housework, judicial activism, and race and class in modernday Los Angeles and asks us if history is repeating. Parson's work anchors a collection of nine essays by friends and mentors who deepen the discussion of his themes: Dana Cuff, Mike Davis, Steven Flusty, Greg Goldin, Jacqueline Leavitt, Laura Pulido, Sue Ruddick, Tom Sitton, Edward W. Soja, and Jennifer Wolch. The book is richly illustrated. Biographical and curatorial essays by the book's editors, Roger Keil and Judy Branfman, provide background material and a coherent storyline for a mosaic of fresh Los Angeles research.

**El Pueblo** Jean Bruce Poole, Tevvy Ball. 2002 *El Pueblo* vividly recounts the story of the birthplace of Los Angeles. An engaging historical narrative is complemented by abundant illustrations and a tour of the pueblo's historic buildings. The book also describes initiatives to preserve the pueblo's rich heritage and considers the significance of its multicultural legacy for Los Angeles today.--

The World from Here Cynthia Burlingham, Bruce Whiteman. 2001 Essays by Nicholas Barker, Kenneth Breisch, Anthony Grafton Few people are aware of Los Angeles' vast collective resource of rare books, manuscripts, and related objects, housed in Los Angeles-area libraries. Featuring more than three hundred selections from area collections, *The World from Here* explores this treasure trove of rare books and ephemera. Included are materials ranging from a 1482 atlas of the known world to fiction classics, early botanical and scientific texts, letters, posters, and artists' books. Selections were culled from nearly forty institutions, including the Huntington Library, Getty Research Institute, Los Angeles Public Library and the libraries at the University of California, Los Angeles, and the University of Southern California. Essays on libraries in the American West, the history of book collecting in Los Angeles, and library buildings in Los Angeles during the twentieth century make *The World from Here* an engaging study of this impressive, yet little-known, cultural resource. It catalogues an exhibit at the UCLA Hammer Museum until January 13, 2002.

**Los Angeles** David Rieff.2013-02-19 David Rieff looks at a city that was long the epitome of the American Dream and is now, for many, the emblem of the American urban nightmare. Writing before the riots of 1992, Rieff found not a city of dreams but a city of bitter contradictions. A city that, like the United States itself, was being transformed by immigrants and refugees from Latin America and East Asia from an extension of Europe to a diverse patchwork of the peoples of the world. This is an L.A. that has never been described before. With a new afterword.

Overground Railroad Candacy A. Taylor.2020-01-07 This historical exploration of the Green Book offers “a fascinating [and] sweeping story of black travel within Jim Crow America across four decades” (The New York Times Book Review). Published from 1936 to 1966, the Green Book was hailed

as the “black travel guide to America.” At that time, it was very dangerous and difficult for African-Americans to travel because they couldn’t eat, sleep, or buy gas at most white-owned businesses. The Green Book listed hotels, restaurants, gas stations, and other businesses that were safe for black travelers. It was a resourceful and innovative solution to a horrific problem. It took courage to be listed in the Green Book, and Overground Railroad celebrates the stories of those who put their names in the book and stood up against segregation. Author Candacy A. Taylor shows the history of the Green Book, how we arrived at our present historical moment, and how far we still have to go when it comes to race relations in America. **City of Inmates** Kelly Lytle Hernández.2017-02-15 Los Angeles incarcerates more people than any other city in the United States, which imprisons more people than any other nation on Earth. This book explains how the City of Angels became the capital city of the world's leading incarcerator. Marshaling more than two centuries of evidence, historian Kelly Lytle Hernandez unmaskes how histories of native elimination, immigrant exclusion, and black disappearance drove the rise of incarceration in Los Angeles. In this telling, which spans from the Spanish colonial era to the outbreak of the 1965 Watts Rebellion, Hernandez documents the persistent historical bond between the racial fantasies of conquest, namely its settler colonial form, and the eliminatory capacities of incarceration. But *City of Inmates* is also a chronicle of resilience and rebellion, documenting how targeted peoples and communities have always fought back. They busted out of jail, forced Supreme Court rulings, advanced revolution across bars and borders, and, as in the summer of 1965, set fire to the belly of the city. With these acts those who fought the rise of incarceration in Los Angeles altered the course of history in the city, the borderlands, and beyond. This book recounts how the dynamics of conquest met deep reservoirs of rebellion as Los Angeles became the City of Inmates, the nation's carceral core. It is a story that is far from over.

Metropolis in the Making Tom Sitton.2001-08-01 Los Angeles came of age in the 1920s. The great boom of that decade gave shape to the L.A. of

today: its vast suburban sprawl and reliance on the automobile, its prominence as a financial and industrial center, and the rise of Hollywood as the film capital of the world. This collection of original essays explores the making of the Los Angeles metropolis during this remarkable decade. The authors examine the city's racial, political, cultural, and industrial dynamics, making this volume an essential guide to understanding the rise of Los Angeles as one of the most important cities in the world. These essays showcase the work of a new generation of scholars who are turning their attention to the history of the City of Angels to create a richer, more detailed picture of our urban past. The essays provide a fascinating look at life in the new suburbs, in the oil fields, in the movie studios, at church, and at the polling place as they reconceptualize the origins of contemporary urban problems and promise in Los Angeles and beyond. Adding to its interest, the volume is illustrated with period photography, much of which has not been published before.

**Water and Los Angeles** William Deverell, Tom Sitton. 2017 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program for monographs. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. Los Angeles rose to significance in the first half of the twentieth century by way of its complex relationship to three rivers: the Los Angeles, the Owens, and the Colorado. The remarkable urban and suburban trajectory of southern California since then cannot be fully understood without reference to the ways in which each of these three river systems came to be connected to the future of the metropolitan region. This history of growth must be understood in full consideration of all three rivers and the challenges and opportunities they presented to those who would come to make Los Angeles a global power. Full of primary sources and original documents, *Water and Los Angeles* will be of interest to both students of Los Angeles and general readers interested in the origins of the city.

**Everything Now** Rosecrans Baldwin. 2021-06-15 A LOS ANGELES TIMES BESTSELLER. NAMED A BEST CALIFORNIA BOOKS OF 2021 BY THE NEW YORK TIMES A provocative, exhilaratingly new understanding of the United States' most confounding metropolis—not just a great city, but a full-blown modern city-state America is obsessed with Los Angeles. And America has been thinking about Los Angeles all wrong, for decades, on repeat. Los Angeles is not just the place where the American dream hits the Pacific. (It has its own dreams.) Not just the vanishing point of America's western drive. (It has its own compass.) Functionally, aesthetically, mythologically, even technologically, an independent territory, defined less by distinct borders than by an aura of autonomy and a sense of unfurling destiny—this is the city-state of Los Angeles. Deeply reported and researched, provocatively argued, and eloquently written, Rosecrans Baldwin's *Everything Now* approaches the metropolis from unexpected angles, nimbly

interleaving his own voice with a chorus of others, from canonical L.A. literature to everyday citizens. Here, Octavia E. Butler and Joan Didion are in conversation with activists and astronauts, vampires and veterans. Baldwin records the stories of countless Angelenos, discovering people both upended and reborn: by disasters natural and economic, following gospels of wealth or self-help or personal destiny. The result is a story of a kaleidoscopic, vibrant nation unto itself—vastly more than its many, many parts. Baldwin's concept of the city-state allows us, finally, to grasp a place—Los Angeles—whose idiosyncrasies both magnify those of America, and are so fully its own. Here, space and time don't quite work the same as they do elsewhere, and contradictions are as stark as southern California's natural environment. Perhaps no better place exists to watch the United States's past, and its possible futures, play themselves out. Welcome to Los Angeles, the Great American City-State.

**Land of Sunshine** William Deverell, Greg Hise. 2006-06-30 Most people equate Los Angeles with smog, sprawl, forty suburbs in search of a city—the great what-not-to-do of twentieth-century city building. But there's much more to LA's story than this shallow stereotype. History shows that Los Angeles was intensely, ubiquitously planned. The consequences of that planning—the environmental history of urbanism—is one place to turn for the more complex lessons LA has to offer. Working forward from ancient times and ancient ecologies to the very recent past, *Land of Sunshine* is a fascinating exploration of the environmental history of greater Los Angeles. Rather than rehearsing a litany of errors or insults against nature, rather than decrying the lost opportunities of roads not taken, these essays, by nineteen leading geologists, ecologists, and historians, instead consider the changing dynamics both of the city and of nature. In the nineteenth century, for example, density was considered an evil, and reformers struggled mightily to move the working poor out to areas where better sanitation and flowers and parks made life seem worth the living. We now call that vision sprawl, and we struggle just as much to bring middle-class people back into the core of American cities. There's nothing natural, or inevitable, about such turns of events. It's only by paying very close attention to the ways metropolitan nature has been constructed and construed that meaningful lessons can be drawn. History matters. So here are the plants and animals of the Los Angeles basin, its rivers and watersheds. Here are the landscapes of fact and fantasy, the historical actors, events, and circumstances that have proved transformative over and over again. The result is a nuanced and rich portrait of Los Angeles that will serve planners, communities, and environmentalists as they look to the past for clues, if not blueprints, for enhancing the quality and viability of cities.

*Theatres in Los Angeles* Suzanne Tarbell Cooper, Amy Ronnebeck Hall, Marc Wanamaker. 2008 Los Angeles and the movies grew up together, and a natural extension of the picture business was the premium presentation of the product—the biggest, best, and brightest theatres imaginable. The magnificent movie palaces along Broadway in downtown Los Angeles still represent the highest concentration of vintage theatres in the world. With Hollywood and the movies practically synonymous, the theatres in the studios' neighborhood were state-of-the-art for showbiz, whether they were designed for film, vaudeville, or stage productions. From the elegant Orpheum and the exotic Grauman's Chinese to the modest El Rey, this volume celebrates the architecture and social history of Los Angeles's unique collection of historic theatres past and present. The common threads that connect them all, from the grandest movie palace to the smallest neighborhood theatre, are stories and the ghosts of audiences past waiting in the dark for the show to begin.

**A People's Guide to Los Angeles** Laura Pulido, Laura Barraclough, Wendy Cheng. 2012-04-23 This book documents 115 little-known sites in Los Angeles where struggles related to race, class, gender, sexuality, and the environment have occurred. They introduce us to people and events usually ignored by mainstream media and, in the process, create a fresh history of Los Angeles.

**Building Downtown Los Angeles** Leland T. Saito. 2022-07-26 From the 1970s on, Los Angeles was transformed into a center for entertainment, consumption, and commerce for the affluent. Mirroring the urban development trend across the nation, new construction led to the displacement of

low-income and working-class racial minorities, as city officials targeted these neighborhoods for demolition in order to spur economic growth and bring in affluent residents. Responding to the displacement, there emerged a coalition of unions, community organizers, and faith-based groups advocating for policy change. In *Building Downtown Los Angeles* Leland Saito traces these two parallel trends through specific construction projects and the backlash they provoked. He uses these events to theorize the past and present processes of racial formation and the racialization of place, drawing new insights on the relationships between race, place, and policy. Saito brings to bear the importance of historical events on contemporary processes of gentrification and integrates the fluidity of racial categories into his analysis. He explores these forces in action, as buyers and entrepreneurs meet in the real estate marketplace, carrying with them a fraught history of exclusion and vast disparities in wealth among racial groups.

*El Pueblo* Jean Bruce Poole, Tevvy Ball. 2002 Founded in 1781 by pioneers from what is today northern Mexico, El Pueblo de Los Angeles mirrors the history and heritage of the city to which it gave birth. When the pueblo was the capital of Mexico's Alta California, the region's rancheros came here to celebrate mass or to attend fiestas in the historic Plaza. Following California's statehood in 1850, the pueblo for a time ranked among the most lawless towns of the American West. American speculators, wealthy rancheros, and Italian wine merchants crowded its dusty streets. The town's first barrio and the vibrant precincts of Old Chinatown soon grew up nearby. As Los Angeles burgeoned into a modern metropolis, its historic heart fell into ruin, to be revitalized by the creation in 1930 of the romantic Mexican marketplace at Olvera Street. Here, two years later, David Alfaro Siqueiros painted the landmark mural *América Tropical*, whose story is a fascinating tale of art, politics, and censorship. In the decades since, the pueblo has remained one of Southern California's most enduring and most complex cultural symbols. *El Pueblo* vividly recounts the story of the birthplace of Los Angeles. An engaging historical narrative is complemented by abundant illustrations and a tour of the pueblo's historic buildings. The book also describes initiatives to preserve the pueblo's rich heritage and considers the significance of its multicultural legacy for Los Angeles today
