Childhood of Kalam Srijan Pal Singh.2020-01-01 Greatness is not by accident. Greatness is a quality processed, honed and learnt over a lifetime of learning and hard work. Great human beings are built when a curious mind is met with life changing lessons, often early in the childhood. Just like the nature and quality of a tree is decided by the characteristic of the seed and how it is sown, the

worth of a human life is shaped in the early stage of childhood. Often these life teachings as a growing up child, transform into the values which set the boundaries of one's adult actions and govern one's decisions. We all know Dr. Kalam as an eminent teacher, an excellent President, an exception scientist, a talented rocket scientist, a team man, an institution builder and a man of ethics and integrity. But what went behind the scenes, in the formative days of "Little Kalam" which shaped him slowly but surely into Dr. Kalam - the man we remember and admire. This books aspires to take you in this early history of childhood of Kalam tracking "Little Kalam" as he begins his first steps into the sands of Rameshwaram - which one day will translate into a march to the Rashtrapati Bhawan.

Learning From Other Countries APJ Abdul Kalam,YS Rajan.2018-11-30 India has never been averse to welcoming ideas and people from outside. Over the years it has assimilated many ideas, cultures, technologies—after shaping them to suit its genius and its environment. However, somewhere down the line, in our long history, we appear to have lost faith in ourselves. Moreover, we haven't yet become bold enough to set a course of our own. In such a case, it is good to hear and see what other countries have done, and are doing—although, the conclusions regarding what is good for our country are to be shaped by our people. With this in mind, we should look at how other countries like USA, Malaysia, Japan, South Korea, and a few European countries have generated

vision documents of their own. In *Learning From Other Countries*, APJ Abdul Kalam and YS Rajan highlight the importance of getting inspiration from other developed countries in order to walk the path of development ourselves. Read on.
