The Roman Triumph Mary Beard.2009-05-31 It followed every major military victory in ancient Rome: the successful general drove through the streets to the temple of Jupiter on the Capitoline Hill; behind him streamed his raucous soldiers; in front were his most glamorous prisoners, as well as the booty he'd captured, from enemy ships and precious statues to plants and animals from the conquered territory. Occasionally there was so much on display that the show lasted two or three days. A radical reexamination of this most extraordinary of ancient ceremonies, this book explores the magnificence of the Roman triumph, but also its darker side. What did it mean when the axle broke under Julius Caesar's chariot? Or when Pompey's elephants got stuck trying to squeeze through an arch? Or when exotic or pathetic prisoners stole the general's show? And what are the implications of the Roman triumph, as a celebration of imperialism and military might, for questions about military power and "victory" in our own day? The triumph, Mary Beard contends, prompted

the Romans to question as well as celebrate military glory. Her richly illustrated work is a testament to the profound importance of the triumph in Roman culture—and for monarchs, dynasts and generals ever since. But how can we re-create the ceremony as it was celebrated in Rome? How can we piece together its elusive traces in art and literature? Beard addresses these questions, opening a window on the intriguing process of sifting through and making sense of what constitutes “history.”

E-Retailing Eleonora Pantano, Bang Nguyen, Charles Dennis, Sabine Gerlach, Bill Merrilees. 2004-08-26 Most experts agree that the advent of internet retailing has transformed the marketplace, but until now students of the subject have had to search far and wide for comprehensive up-to-date analyses of the new business landscape. Coverage of the recent dot-com boom and bust obscured the fact that e-retailing is now firmly established in global business, promising growth rates that will continue to rise globally. This much-needed book provides readers with a guide to the implementation and operation of a successful e-retailing business, and has been written for students, entrepreneurs and researchers at all levels. By identifying and explaining the underlying principles of e-retailing and its relationship with conventional retail methods, this research-based book leads readers through this exciting and emerging subject. Throughout, case studies are explored, including: Ipod Nike Amazon e-Bay McDonald's Nokia. With accessibly written features such as key learning points, questions, think points and further reading, e-Retailing is core reading for anyone using, studying or researching the internet or e-retailing.

Slave Stealers Timothy Ballard.2018 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day underground railroad which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The Conductor; Abraham Lincoln--the Great Emancipator; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Strategic Market Relationships Bill Donaldson, Tom O'Toole.2007-05-21 *Strategic Market Relationships*, 2nd Edition develops the reader's understanding of the nature, relevance and importance of creating and sustaining relationships as a strategic resource. It takes a managerial perspective to the study of relationships, from strategy to implementation. The first edition was the first text that comprehensively addressed relationships as a strategic issue, and considering relationships as strategic and as a basis for competition is central to this book. In a nutshell, strategic market relationships is the process of analyzing, formulating and implementing a relationship strategy for an organisation. The new edition is being totally restructured in the light of teaching experience with the book and new research since it was published. Most of the existing content will still be there but presented in a new logic. Continues to map relationships from strategy to implementation Text more clearly divided into strategy and implementation parts Continues to focus on close relationships and on the management of relationships Continues with introductory case illustration and end of chapter teaching cases with many new ones All chapter updated with new research since the last publication Revamped chapter on relationship planning including a stronger focus on strategic choice and relationship development New chapter on relationship types/archetypes to develop on the theme of classification and the management of specific relationships New chapter on organizing relationships New chapter on people and relationships E-relationship chapter integrated into chapter on communication and dialogue in a relationship New chapter on channel relationships Chapter on relationship performance restructured around costs and value. Ethics and researching relationships expanded in the conclusion chapter

Business in Context David Needle.1994 Provides an introduction to business functions, issues and

Supporting Workplace Learning Rob F. Poell, Marianne van Woerkom.2011-01-19 During the 1990s, the workplace was rediscovered as a rich source of learning. The issue of workplace learning has since received increasing attention from academics and practitioners alike but is still under-researched empirically. This book brings together a range of state-of-the-art research papers addressing interventions to support learning in the workplace. The authors are experienced international scholars who have an interest in making HRD and workplace learning practices more evidence-based through practical relevant research. Although workplace learning is largely an autonomous process, many organizations want to manage it as part of their broader HRD strategy. There are limits, however, to the extent to which the complex dynamics of learning in the workplace can be guided in pre-determined desirable directions. This tension between the possible strengths of workplace learning and the limits of managing it is at the heart of this volume. The book is broken into three sections. The first section deals with workplace learning interventions, including HRD practitioners' strategies, training and development activities, and e-learning programs. The second section investigates the impact of social support, or lack thereof, in workplace learning, such as mentoring, coaching, and socialization practices. The third section addresses collective learning in the workplace, looking at teams, knowledge productivity, and collaborative capability building.

Marketing Channels Lou E. Pelton, David Strutton, James R. Lumpkin.2002 This is the first text to use

the relationship marketing perspective in the channels course. The authors have created a Channels Relationship Model (CRM), which is the guiding framework of the book. This book is a combination of text, cases, and readings. It contains coverage of global and ethical issues. Careful attention is paid to the pacing of material throughout the semester.

Groupthink in Government Paul 't Hart.1994-09-01 Why do groups of talented and experienced individuals make disastrously bad collective judgments, such as the Kennedy administration's flawed decision to proceed with the Bay of Pigs invasion in 1961? In his pioneering research on collective decision making, Irving Janis introduced the concept of groupthink—a deliberately Orwellian neologism—to describe such occurrences. Now, in the first book-length study of groupthink since Janis's work, Paul 't Hart has provided a rigorous and systematic version of this influential theory which opens several new avenues for research.

Insight Tasha Eurich.2017-05-18 Do you understand who you really are? Or how others really see you? We all know people with a stunning lack of self-awareness - but how often do we consider whether we might have the same problem? Research shows that self-awareness is the meta-skill of the 21st century - the foundation for high performance, smart choices, and lasting relationships. Unfortunately, we are remarkably poor judges of ourselves and how we come across, and it's rare to

get candid, objective feedback from colleagues, employees, and even friends and family. Integrating hundreds of studies with her own research and work in the Fortune 500 world, organizational psychologist Tasha Eurich shatters conventional assumptions about what it takes to truly know ourselves - like why introspection isn't a bullet train to insight, how experience is the enemy of self-knowledge, and just how far others will go to avoid telling us the truth about ourselves. Through stories of people who've made dramatic self-awareness gains, she offers surprising secrets, techniques and strategies to help readers do the same - and therefore improve their work performance, career satisfaction, leadership potential, relationships, and more. At a time when self-awareness matters more than ever, *Insight* is the essential playbook for surviving and thriving in an unaware world.

Corporate Finance and Investment Richard Pike, Bill Neale. 2012-02-01 This package includes a physical copy of *Corporate Finance and Investment: Decisions and Strategies, 7/e* by Richard Pike, Bill Neale and Philip Linsley, as well as access to the eText and MyFinanceLab. *Corporate Finance and Investments*, now in its seventh edition, is a popular and well-regarded text for students of corporate finance. The text takes a practical approach, focusing on the strategic issues of finance in a business setting. With clear and accessible language and an international perspective, the seventh edition will provide students with both essential knowledge of corporate finance and the tools to apply it.

Unfolding Stakeholder Thinking 2 Jörg Andriof, Sandra Waddock, Bryan Husted, Sandra Sutherland Rahman. 2017-09-08 This book is the companion to *Unfolding Stakeholder Thinking: Theory, Responsibility and Engagement*, which examined many emerging theoretical and normative issues and was released to acclaim in October 2002. *Unfolding Stakeholder Thinking 2* collects a series of

essays by leading researchers worldwide to focus on the practice of stakeholder engagement in terms of relationship management, communication, reporting and performance. As stakeholder relationships and business in society have become increasingly central to the unfolding of stakeholder thinking, important new topics have begun to take centre stage in both the worlds of practice and academia. The first part of the book makes clear that simply engaging with stakeholders is insufficient to build successful stakeholder strategies. Companies, considered as the focal entity in a relationship, also need to actively communicate with stakeholders and manage their relationships. Dialogue is essential but can only be useful if companies listen to the messages that stakeholders are sending them. It is also essential to understand the role of power and influence in stakeholder engagement strategies especially if partnerships or collaborations emerge from the relationships that are engendered. The book examines a wide range of corporate-NGO collaborations to determine what makes them effective - and what makes them fail. Conflict management in stakeholder alliances is also discussed. The second part of the book addresses the critically important element of emerging schemes for the assessment, measurement and reporting of business in society and relationships involving stakeholders. A variety of current approaches to stakeholder assessment and reporting are discussed here including social auditing and sustainability reporting. The evolution of stakeholder thinking has led to a new view of the firm as an organism embedded in a complex web of relationships with other organisms. The role of management becomes immensely more challenging, when stakeholders are no longer seen as simply the objects of managerial action but rather as subjects with their own objectives and purposes. This book captures the complexity of managing relationships with stakeholders and will provide both practitioners and researchers with a wealth of information on the benefits and consequences of this

practice.

Acts of Contrition William Heffernan.1987 Taut and grittily realistic, this explosive novel of deceit and revenge weaves a suspenseful tale of a man who built his career on his ability to cover up the past, and of the woman who made it her business to expose it. From the author of *The Corsican*. Reissued in anticipation of the sales of Heffernan's forthcoming hardcover, *Ritual*.

Understanding Strategic Management Claire Capon.2008 A brand new introductory text in strategic management which presents the key theories and frameworks for the analysis, formulation and implementation of strategy in a concise and accessible format. The book has been written for undergraduate and postgraduate students on one-semester or short courses. It is also particularly well suited to students of e.g. engineering, computing or other non-business disciplines taking a module in business strategy.

Libraries, Digital Information, and COVID David Baker, Lucy Ellis.2021-07-02 COVID-19 is profoundly affecting the ways in which we live, learn, plan, and develop. What does COVID-19 mean

for the future of digital information use and delivery, and for more traditional forms of library provision? Libraries, Digital Information, and COVID gives immediate and long-term solutions for librarians responding to the challenge of COVID-19. The book helps library leaders prepare for a post-COVID-19 world, giving guidance on developing sustainable solutions. The need for sustainable digital access has now become acute, and while offering a physical space will remain important, current events are likely to trigger a shift toward off-site working and study, making online access to information more crucial. Libraries have already been providing access to digital information as a premium service. New forms and use of materials all serve to eliminate the need for direct contact in a physical space. Such spaces will come to be predicated on evolving systems of digital information, as critical needs are met by remote delivery of goods and services. Intensified financial pressure will also shape the future, with a reassessment of information and its commercial value. In response, there will be a massification of provision through increased cooperation and collaboration. These significant transitions are driving professionals to rethink and question their identities, values, and purpose. This book responds to these issues by examining the practicalities of running a library during and after the pandemic, answering questions such as: What do we know so far? How are institutions coping? Where are providers placing themselves on the digital/print and the remote/face-to-face continuums? This edited volume gives analysis and examples from around the globe on how libraries are managing to deliver access and services during COVID-19. This practical and thoughtful book provides a framework within which library directors and their staff can plan sustainable services and collections for an uncertain future. Focuses on the immediate practicalities of service provision under COVID-19 Considers longer-term strategic responses to emerging challenges Identifies key concerns and problems for librarians and library leaders Analyzes

approaches to COVID-19 planning Presents and examines exemplars of best practice from around the world Offers practical models and a useful framework for the future

Free Kindle Books and Tips is another source for free Kindle books but discounted books are also

mixed in every day. It would be nice if we're able to download free e-book and take it with us. That's why we've again crawled deep into the Internet to compile this list of 20 places to download free e-books for your use. Our comprehensive range of products, services, and resources includes books supplied from more than 15,000 U.S., Canadian, and U.K. publishers and more. Another site that isn't strictly for free books, Slideshare does offer a large amount of free content for you to read. It is an online forum where anyone can upload a digital presentation on any subject. Millions of people utilize SlideShare for research, sharing ideas, and learning about new technologies. SlideShare supports documents and PDF files, and all these are available for free download (after free registration). These are some of our favorite free e-reader apps: Kindle Ereader App: This app lets you read Kindle books on all your devices, whether you use Android, iOS, Windows, Mac, BlackBerry, etc. A big advantage of the Kindle

reading app is that you can download it on several different devices and it will sync up with one another, saving the page you're on across all your devices. If you have an internet connection, simply go to BookYards and download educational documents, eBooks, information and content that is freely available to all. The web page is pretty simple where you can either publish books, download eBooks based on authors/categories or share links for free. You also have the option to donate, download the iBook app and visit the educational links. Google Books will remember which page you were on, so you can start reading a book on your desktop computer and continue reading on your tablet or Android phone without missing a page. The site itself is available in English, German, French, Italian, and Portuguese, and the catalog includes books in all languages. There's a heavy bias towards English-language works and translations, but the same is true of all the ebook download sites we've looked at here. It's easy to

search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.
