**Advance Care Planning in End of Life Care** Keri Thomas,Ben Lobo,Karen Detering.2018 Advance Care Planning (ACP) is an essential part of end of life care in the UK and most developed countries. It enables more people to live well and die as they would choose, and has significant implications for the individual person, their family and carers, and our wider society. In the context of an ageing population and increasing possibilities for medical interventions, ACP is a particularly important aspect of quality care. Expanded and fully updated throughout, this new edition gives a comprehensive overview of ACP and explores a wide range of issues and practicalities in providing end of life care. Written by experts from around the world, the book takes a comprehensive look at the subject by exploring the wide range of issues and practicalities in providing ACP; framing the purpose, process, and outcomes of these plans; and providing an important update on national and international research, policy and practice. Chapters also discuss values, goals and priorities, and include detailed case examples to aid best practice. This book is an invaluable resource for all clinicians involved in the caring for people in their final stages of life. It is of particular value to GPs, palliative care specialists, geriatricians, social care teams, researchers and policy leads interested in improving end of life care.

*Kingship, Society, and the Church in Anglo-Saxon Yorkshire* Thomas Pickles.2018-06-21 Inspired by studies of Carolingian Europe, *Kingship, Society and the Church in Anglo-Saxon Yorkshire* argues that the social strategies of local kin-groups drove conversion to Christianity and church building in Yorkshire from 400-1066 AD. It challenges the emphasis that has been placed on the role and agency of Anglo-Saxon kings in conversion and church building. It moves forward the debate surrounding the 'minster hypothesis' through an inter-disciplinary case study. The kingdom of the Deirans stretched from the Humber to the Tees and the North Sea to the Pennines between 600 and 867. The Scandinavian kings at York probably established an administration for much of this area between 867 and 954. The West Saxon kings incorporated it into an English kingdom between 954 and 1066 and established the 'shire' from which the name Yorkshire derives. Members of Deiran kin-groups faced uncertainties that predisposed them to consider conversion as a social strategy. Their decision to convert produced a new social fraction - the 'ecclesiastical aristocracy' - with a distinctive but fragile identity. The 'ecclesiastical aristocracy' transformed kingship, established a network of religious communities, and engaged in the conversion of the laity. The social and political instabilities produced by conversion along with the fragility of ecclesiastical identity resulted in the expropriation and re-organization of many religious communities. Nevertheless, the Scandinavian and West Saxon kings and their nobles allied with wealthy and influential archbishops of York, and there is evidence for the survival, revival, or foundation of religious communities as well as the establishment of local churches.

*The Viking Wars* Max Adams.2018-08-07 A history of Britain in the violent and unruly era between the first Scandinavian raids in 789 and the final expulsion of the Vikings from York in 954. In 865, a great Viking army landed in East Anglia, precipitating a series of wars that would last until the middle of the following century. It was in this time of crisis that the modern kingdoms of Britain were born. In their responses to the Viking threat,

these kingdoms forged their identities as hybrid cultures: vibrant and entrepreneurial peoples adapting to instability and opportunity. Traditionally, Alfred the Great is cast as the central player in the story of Viking Age Britain. But Max Adams, while stressing the genius of Alfred as war leader, law-giver, and forger of the English nation, has a more nuanced narrative approach to this conventional version of history. The Britain encountered by the Scandinavians of the ninth and tenth centuries was one of regional diversity and self-conscious cultural identities, depicted in glorious narrative fashion in *The Viking Wars*.

**Social Theory of the Scottish Enlightenment** Christopher Berry. 2020-03-31 David Hume, Adam Smith, William Robertson, Adam Ferguson, Lord Kames, John Millar, James Dunbar and Gilbert Stuart were at the heart of Scottish Enlightenment thought. This introductory survey offers the student a clear, accessible interpretation and synthesis of the social thought of these historically significant thinkers. Organised thematically, it takes the student through their accounts of social institutions, their critique of individualism, their methodology, their views of progress and of moral and cultural values. By taking human sociality as their premise, the book shows how they produced important analyses of historical change, politics and morality, together with an assessment of their own commercial society.

*Care Poverty* Teppo Kröger. 2022 In this book, Teppo Kröger provides us with a new way of analysing inequalities associated with long-term care - this is a necessary and welcome contribution on care at a vital time. -Mary Daly, Professor, University of Oxford, United Kingdom This open access book turns the research attention of social policy scholars and long-term care researchers from comparative descriptions of care systems, focusing mostly on expenditures and volumes of long-term care services, to outcomes, and in particular to the question whether older people really receive the support that they need. Without knowledge about which needs and which social groups are currently inadequately covered, it is impossible to guide policy development. The book puts forward a novel theoretical framework to guide future research work and public discussion on the issue of unmet long-term care needs, by broadening the current discussion so that inadequate care is seen in its societal and policy contexts, taking structural issues and policy designs into account. Kröger outlines three different domains of care poverty (personal care poverty, practical care poverty and socio-emotional care poverty) and differentiates between main methods how unmet needs are measured. This book summarises the existing knowledge on the prevalence, factors and consequences of unmet care needs and interprets these comparatively in the light of social inequalities and care policy models of different welfare states. It will be invaluable to students and scholars of social policy, social work, social gerontology, sociology and political science, and to all disciplines across the field of social sciences that study welfare state policies and care for older people. Teppo Kröger is Professor of Social and Public Policy, Department of Social Sciences and Philosophy, University of Jyväskylä, Finland. .
