In so doing, the report reveals the hidden challenges and the nature of problems faced by administrators in attempting to build an effective teacher workforce which serves the needs of all of India's 200 million school children. The report examines states with varying characteristics, thus generating knowledge and evidence likely to be of interest to policy makers and practitioners in a wide range of contexts.

**Planter Raj to Swaraj** Amalendu Guha.2021-02-25 This is a re-issue of Amalendu Guha's influential work on Assam and the Northeast, 30 years after its original publication, with a new introduction by the author. Guha's analysis extends from Assam in 1826, the year of the British annexation, to the post-independence conditions in 1950. The peculiar features of the region's plantation economy; the imperialism of opium cultivation; the problems of a steady influx of immigrants and the backlash of a local linguistic chauvinism; peasants' and workers' struggles; the evolution of the ryot sabhas, the Congress, trade unions and later of the Communist Party - such are the themes that have received attention in this book, alongside an analysis of legislative and administrative processes. The narrative is structured chronologically within an integrated Marxist framework of historical perspective, and is based on a wide range of primary sources.

**Decolonizing Trans/Gender 101** B. Binaohan.2014-06-01 tired of reading yet another trans/gender 101 entirely centered around white people and their normative narratives? tired of feeling like you must be \_this\_ tall to be trans enough to belong in the community ? tired of feeling like the white trans community is erasing your experiences? having gender feels but not understanding how they fit into the current white hegemonic discourse on gender? decolonizing trans/gender 101 is a short, accessible (and non-academic) critique of many of the fundamental concepts in white trans/gender theory and discourse. written for the indigenous and/or person of colour trying to understand how their gender is/has been impacted by whiteness and colonialism.

**Migrants, Refugees and the Stateless in South Asia** Partha S. Ghosh.2016-03-29 A comprehensive assessment of the economic, social and cultural impacts of migration within South Asia This book addresses the concept of migration with the aim of building theory as well as drawing from existing theories to understand South Asian realities. It highlights the less-explored cultural dimensions of migration--music, literature, cinema and art--thereby extending migration research into the realms of security discourse. The author explores how ideas migrate along with people, and the extent to which the process of transformation and adaptation of these ideas is necessitated by social interactions in the adopted society. Since South Asia is culturally diverse, most migrants need to adapt themselves to unfamiliar social milieus, and this juxtaposition finds expression in rich and diverse cultural forms. The book will be indispensable to researchers and scholars of migration studies, South Asia studies, social anthropology and international relations.

**Public Administration in South Asia** Meghna Sabharwal,Evan M. Berman.2016-04-19 A state-of-the-art, one-stop resource, Public Administration in South Asia: India, Bangladesh, and Pakistan examines public administration issues and advances in the Indian subcontinent. The book fulfills a critical need. These nations have the largest public administration programs in South Asia, yet existing knowledge on them is fragmented at best. Bringing together leading scholars from these countries, this book provides both an insider perspective and a scholarly look at the challenges and accomplishments in the region. Focusing on the machinery of government, the book explores questions such as: What is the history of public administration development? How are major decisions made in the agencies? Why are anti-corruption efforts so much a challenge? What is the significance of intergovernmental relations? What is the success of administrative reform? What are examples of successful social development programs? How successful is e-government, and what are its challenges? Why is civil service reform difficult to achieve? How is freedom of information being used as a means to combat corruption and invoke grassroots activism? What can be learned from the successes and failures? While public administration practice and education have become considerably professionalized in the last decade, a sufficiently in-depth and well-rounded reference on public administration in these countries is sorely lacking. Most available books tackle only aspects of public administration such as administrative reforms, civil service, economic developments, or public policy, and are country specific. None provide the in-depth analysis of the sphere of public action in South Asia found in this book. It supplies an understanding of how public administration can be either the source of, or solution to, so many of the problems and achievements in the Indian subcontinent.

**Beyond Religion in India and Pakistan** Virinder S. Kalra,Navtej K. Purewal.2019-12-12 Drawing on insights from theoretical engagements with borders and subalternity, *Beyond Religion in India and Pakistan* suggests new frameworks for understanding religious boundaries in South Asia. It looks at the ways in which social categories and structures constitute the bordering logics inherent within enactments of these boundaries, and positions hegemony and resistance through popular religion as an important indication of wider developments of political and social change. The book also shows how borders are continually being maintained through violence at national, community and individual levels. By exploring selected sites and expressions of piety including shrines, texts, practices and movements, Virinder S. Kalra and Navtej K. Purewal argue that the popular

religion of Punjab should neither be limited to a polarised picture between formal, institutional religion, nor the 'enchanted universe' of rituals, saints, shrines and village deities. Instead, the book presents a picture of 'religion' as a realm of movement, mobilization, resistance and power in which gender and caste are connate of what comes to be known as 'religious'. Through extensive ethnographic research, the authors explore the reality of the complex, dynamic and contested relations that characterize everyday material and religious lives on the ground. Ultimately, the book highlights how popular religion challenges the borders and boundaries of religious and communal categories, nationalism and theological frameworks while simultaneously reflecting gender/caste society.

**With Respect to Sex** Gayatri Reddy.2010-05-15 With Respect to Sex is an intimate ethnography that offers a provocative account of sexual and social difference in India. The subjects of this study are hijras or the third sex of India—individuals who occupy a unique, liminal space between male and female, sacred and profane. Hijras are men who sacrifice their genitalia to a goddess in return for the power to confer fertility on newlyweds and newborn children, a ritual role they are respected for, at the same time as they are stigmatized for their ambiguous sexuality. By focusing on the hijra community, Gayatri Reddy sheds new light on Indian society and the intricate negotiations of identity across various domains of everyday life. Further, by reframing hijra identity through the local economy of respect, this ethnography highlights the complex relationships among local and global, sexual and moral, economies. This book will be regarded as the definitive work on hijras, one that will be of enormous interest to anthropologists, students of South Asian culture, and specialists in the study of gender and sexuality.

**Modern South Asia** Sugata Bose,Ayesha Jalal.2004-07-31 The South Asian subcontinent is home to nearly a billion people and has been the site of fierce historical contestation. It is a panoply of languages and religions with a rich and complex history and culture. Drawing on the newest and most sophisticated historical research and scholarship in the field, Modern South Asia is written in an accessible style for all those with an intellectual curiosity about the region. After sketching the pre-modern history of the subcontinent, the book concentrates on the last three centuries from c.1700 to the present. Jointly written by two leading Indian and Pakistani historians, it offers a rare depth of historical understanding of the politics, cultures and economies that shape the lives of more than a fifth of humanity. In this comprehensive study, the authors debate and challenge the striking developments in contemporary South Asian history and historical writing. The book provides new insights into the structure and ideology of the British raj, the meaning of subaltern resistance, the refashioning of social relations along lines of caste, class, community and gender, the different strands of anti-colonial nationalism and the dynamics of decolonization. This book is a work of synthesis and interpretation covering the entire spectrum of modern South Asian history - social, economic and political. The authors offer an understanding of this strategically and economically vital part of the world.

**Indian Literature and the World** Rossella Ciocca,Neelam Srivastava.2017-05-09 This book is about the most vibrant yet under-studied aspects of Indian writing today. It examines multilingualism, current debates on postcolonial versus world literature, the impact of translation on an "Indian" literary canon, and Indian authors' engagement with the public sphere. The essays cover political activism and the North-East Tribal novel; the role of work in the contemporary Indian fictional imaginary; history as felt and reconceived by the acclaimed Hindi author Krishna Sobti; Bombay fictions; the Dalit autobiography in translation and its problematic international success; development, ecocriticism and activist literature; casteism and access to literacy in the South; and gender and diaspora as dominant themes in writing from and about the subcontinent. Troubling Eurocentric genre distinctions and the split between citizen and subject, the collection approaches Indian literature from the perspective of its constant interactions between private and public narratives, thereby proposing a method of reading Indian texts that goes beyond their habitual postcolonial identifications as "national allegories".

**Decolonizing the Transgender Imaginary** Aren Z. Aizura, Marcia Ochoa, Salvador Vidal-Ortiz, Trystan Cotton. 2014 What is at stake in acknowledging transgender studies' Anglophone roots in the global North and West? What kinds of politics might emerge from challenging the assumption that biological sex—or the categories man and woman—is stable and self-evident across time, space, and culture? This collection asks how trans scholarship can decolonize, rather than reproduce, dominant imaginaries of sexuality and gender. The issue highlights roadblocks as well as unexpected openings in the global circulation of trans politics and culture. A First Nations scholar recovers lost tribal knowledge of non-Eurocentric gender. A Thai trans filmmaker negotiates culturally incommensurable categories of self. Two contributors consider what is lost as the term transgender replaces local, vernacular categories of difference in India. A study of genderqueer childhood in Peru disrupts colonial ethnographer-informant roles, while another author critiques the colonialist ethnography on the sarimbavy, gender nonconforming categories of Madagascar. Another essay follows the global commodity chain of synthetic hormones to explore the biopolitics of transgender bodies and race. Finally, a roundtable discussion among a transnational panel of activists, culture makers, and scholars offers perspectives on decolonizing the transgender imaginary that range from the celebratory to the cynical.

**Nightmarch** Alpa Shah. 2019-04-23 Shortlisted for the Orwell Prize Shortlisted for the New India Foundation Book Prize Anthropologist Alpa Shah found herself in an active platoon of Naxalites—one of the longest-running guerrilla insurgencies in the world. The only woman, and the only person without a weapon, she walked alongside the militants for seven nights across 150 miles of dense, hilly forests in eastern India. Nightmarch is the riveting story of Shah's journey, grounded in her years of living with India's tribal people, an eye-opening exploration of the movement's history and future and a powerful contemplation of how disadvantaged people fight back against unjust systems in today's world. The Naxalites have fought for a communist society for the past fifty years, caught in a conflict that has so far claimed at least forty thousand lives. Yet surprisingly little is known about these fighters in the West. Framed by the Indian state as a deadly terrorist group, the movement is actually made up of Marxist ideologues and lower-caste and tribal combatants, all of whom seek to overthrow a system that has abused them for decades. In Nightmarch, Shah shares some of their gritty untold stories: here we meet a high-caste leader who spent almost thirty years underground, a young Adivasi foot soldier, and an Adivasi youth who defected. Speaking with them and living for years with villagers in guerrilla strongholds, Shah has sought to understand why some of India's poor have shunned the world's largest democracy and taken up arms to fight for a fairer society—and asks whether they might be undermining their own aims. By shining a light on this largely ignored corner of the world, Shah raises important questions about the uncaring advance of capitalism and offers a compelling reflection on dispossession and conflict at the heart of contemporary India.

**Power, Postcolonialism and International Relations** Chowdhry Geeta, Sheila Nair. 2013-10-15 Chowdhry and Nair, along with the authors of this volume, make a timely, vital, and deeply necessary intervention in international relations - one that informs theoretically, enriches our knowledge of the world through its narratives, and forces us to confront the differentiated wholeness of our humanity. Readers will want to emulate the skills and sensibilities they offer.. Naeem Inayatullah, Ithaca College This work uses postcolonial theory to examine the implications of race, class and gender

relations for the structuring of world politics. It addresses further themes central to postcolonial theory, such as the impact of representation on power relations, the relationship between global capital and power and the space for resistance and agency in the context of global power asymmetries.

**Muslims against the Muslim League** Ali Usman Qasmi, Megan Eaton Robb. 2017-09-15 The popularity of the Muslim League and its idea of Pakistan has been measured in terms of its success in achieving the goal of a sovereign state in the Muslim majority regions of North West and North East India. It led to an oversight of Muslim leaders and organizations which were opposed to this demand, predicating their opposition to the League on its understanding of the history and ideological content of the Muslim nation. This volume takes stock of multiple narratives about Muslim identity formation in the context of debates about partition, historicizes those narratives, and reads them in the light of the larger political milieu of the period. Focusing on the critiques of the Muslim League, its concept of the Muslim nation, and the political settlement demanded on its behalf, it studies how the movement for Pakistan inspired a contentious, influential conversation on the definition of the Muslim nation.

*Statistical Methods* Jyotiprasad Medhi. 1992 The Preface elucidates that the text is designed for degree courses in India. However, I imagine that it could play a useful role for those in Britain. It is mainly intended as an introductory text for those studying social sciences and economics. Individuals from other disciplines would, no doubt, still find it useful as a general reference. The chapters are well written and easy to follow. An appealing feature of the book is that much emphasis is placed on the understanding and application of statistical methods. There is avoidance of excessive presentation of formulae. For these reasons alone I think that students will find the text attractive. Each chapter finishes with a series of well-formulated questions, which test the readers' understanding. The two chapters on statistical inference and tests of significance are excellent. It is a comprehensive and interesting text, one that I think most students would find useful. Indeed, it is a useful addition to my library, having already referred to it often. *The Statistician*, London, Vol. 45, No. 3 (1996).

*The Defining Moments in Bengal* Sabyasachi Bhattacharya. 2014-05-27 This work explores some of the constitutive elements in the life and mind of Bengal in the twentieth century. The author addresses some frequently unasked questions about the history of modern Bengal. In what way was twentieth-century Bengal different from 'Renaissance' Bengal of the late-nineteenth century? How was a regional identity consciousness redefined? Did the lineaments of politics in Bengal differ from the pattern in the rest of India? What social experiences drove the Muslim community's identity perception? How did Bengal cope with such crises as the impact of World War II, the famine of 1943 and the communal clashes that climaxed with the Calcutta riots of 1946? The author has chosen a significant period in the history of the region and draws on a wealth of sources archival and published documents, mainstream dailies, a host of rare Bengali magazines, memoirs and the literature of the time to tell his story. Looking closely at the momentous changes taking place in the region's economy, politics and socio-cultural milieu in the historically transformative years 1920-47, this book highlights myriad issues that cast a shadow on the decades that followed, arguably till our times.
