You can search for a specific title or browse by genre (books in the same genre are gathered together in bookshelves). It's a shame that fiction and non-fiction aren't separated, and you have to open a bookshelf before you can sort books by country, but those are fairly minor quibbles. Some recipes, for example, appear to be paraphrased from well-known chefs. Being an Android device owner can have its own perks as you can have access to its Google Play marketplace or the Google eBookstore to be precise from your mobile or tablet. You can go to its "Books" section and select the "Free" option

Still not a terrible deal! Overdrive is the cleanest, fastest, and most legal way to access millions of ebooks—not just ones in the public domain, but even recently released mainstream titles. There is one hitch though: you'll need a valid and active public library card. Overdrive works with over 30,000 public libraries in over 40 different countries worldwide.
