Essential Oil Make and Takes Jen O'Sullivan.2017-04-23 DIY Make & Take projects for both beginner and intermediate classes. The recipes use the most beloved Young Living essential oils, plus options using only oils in the Premium Starter Kit. Hosting a Make & Take Essential Oil party can be exciting and fun, yet completely overwhelming and very hard on your pocketbook. It is easy to go crazy making what we think will wow our guests by Martha-ing the party to death! You know the drill-clean the house top to bottom, create the most delicious oil-infused food, goodies, and treats, have Lavender Spa Lemonade.... And forget about dull make and take items-you go all out by coming up with 6 amazing DIY Make & Take stations all throughout your kitchen, dining room, and living room. You even have a great decorating station, complete with the cutest DIY labels, pens, and washi tape. You make plans to have your husband and kids all go to a movie to have the whole house to yourself. The guests arrive to the most fun they have had at an in-home party that they can remember. You socialize and laugh hysterically, make great oily projects, decorate them all to the nines, and everyone leaves with amazing products to try...and NO ONE buys a kit! The sad reality is that this happens more often than not. Make & Takes, while very fun, are not IPAs (Income Producing Activities). There are two types of people who come to a Make & Take: current customers and

potential customers. Strategically invite so you know which type of Make & Take party to throw. For ease of describing the parties, the Make & Take parties for newbies who are not yet customers will be referred to as Make & Take 101. For current customers, these parties will be referred to as Make & Take 102. The concept is to create a fun class for new people as an Oil 101 combined with an easy introduction Make & Take that only uses oils in the Premium Starter Kit (PSK). Make it super simple and easy. Do not overdo it. Resist the urge! For your current customers, you would also make it simple, but create a customer appreciation class where you teach a more advanced project and you introduce oils outside the PSK. This book contains some of the most loved Make & Take projects and will help you determine which type of party they are best suited for. You will also notice the projects are made with oils from the PSK, or there will be a line item that suggests which PSK oil to use as an alternative. All item sizes are based on personal use. It is suggested you use the smallest size available. For instance, instead of using a 15mL dropper bottle, cut the recipe in thirds and use a 5mL dropper, or even smaller by using a 2mL dropper bottle. Make sure the cost for all items totals less than \$3 each with all supplies. For the Make & Take 102, your customers would bring their own oils and you would introduce new oils for them to smell (but not use). Teach them how to add the new oils after class. If you would rather allow them to use your oils, it is very important that you make smaller sample-size batches and charge accordingly. Making full-size eye serums for everyone will get very expensive, and the goal is to have them purchase their own oils to make the project again after class.

How to Make Perfume at Home Anne Robinson.2020-10-20 Here are three statements, see if you agree with me People always complement others who smell great Wearing a great perfume or cologne can uplift someone's mood A great perfume or cologne can also be a great confidence booster But designer perfume and cologne can also be expensive. What if you could make your favorite scents at home? In my book, How to Make Perfume at Home, I will teach you all about how to craft beautiful, luxurious, natural aromatherapy products in the comfort of your home kitchen. Perfumes make life interesting. Even if you are not in a good mood, the sweet scent of perfume will give you the will to face your day with more energy. A good perfume offers more than just a pleasant smell to your body. It exudes confidence and makes an individual feel special in one way or another. When I was a little kid, I can recall being absolutely captivated by the scents my mother wore. In fact, most of my earliest memories are related to smells. As an adult, I became almost obsessed with the idea of creating and recreating those amazing scents which capture my memories. This led me to study

aromatherapy, perfumes, colognes, and creating natural scents. I wrote this book to share this love with aromas and smells with the world. From a fashion standpoint, perfume makes the outfit. If you smell good, you feel good. Your confidence soars, and it makes you feel amazing. You can be your very best when you're wearing perfume and a smile! This book takes a practical approach, and every person who wishes to benefit from it must be practical. I have divided the book into three main practical sections and one informational section. To help you benefit from the book the most, we start off with the informational section. In the informational chapters, we mainly look at the general information about perfumes. For instance, the first chapter covers the terminologies you should expect in the book. This chapter offers a clear view of what the book should contain. Without reading the first chapter, you may not know the meaning of terms such as accord, notes, scent, perfume, etc. These terms are vital in the practical steps of developing perfumes from scratch. In the practical sections of the book, we start by looking at the tools we will need for the entire project. We look at the materials needed to acquire essential oils, plant matter extracts such as tinctures, and infusions for the project. After determining the tools and materials, we look at the process that can help us extract essential oils, tinctures, infusions, and other extracts from plants. Most of our recipes mainly involve naturally occurring scents that can be extracted from plants. In the second section of our practical guide, we look at the step by step process of preparing liquid perfumes. The book elaborates and outlines the basic steps involved in perfume preparation. The book further introduces you to practical scent development. We show you how to come up with a unique scent, how to add essential oils to an existing scent, and how to improve the duration of the particular scent. We then move on to preparing unique perfumes based on customized recipes. All the perfumes we have prepared are made out of natural ingredients with some additions such as preservatives and fixatives. We show you how to prepare both liquid and solid perfumes that can be applied at home. Finally, finish up the book by looking at some precautionary measures you should take and the mistakes you should avoid. We also look at special tips that will help you prepare the best perfumes and how to wear your perfume. There are tricks that you can practice to make your perfume or cologne last longer, I share those tips and tricks that you can master very easily. Enjoy!

DIY Aromatherapy Daisy Courtenay.2018-04-24 DIY Aromatherapy: 40 Spring Essential Oil Blends for Diffuser This book, DIY Aromatherapy: 40 Spring Essential Oil Blends for Diffuser, is a great read for any person wishing to create the spirit of spring at any time of the year. The season of spring emerges to find people who have been hiding from winter's biting cold, some already down with seasonal colds and others simply dull. It is, therefore, with joy that spring is embraced, with people happy to imbibe the scents the season brings with it - floral, woody and herbaceous. Gladly, this book introduces to you recipes that you can use to create that aura of spring, the one that elicits hope and excitement being representative of promises of better things to come. In this book, you will find specific names of the major essential oils suitable for the spring oil blends, and better still, you will be able to see the therapeutic effects they have. Another great thing about this book is that it has grouped together for you the essential oils that are compatible, thus giving you whole spring essential oil recipes. Often some people rely on trial and error methods, and while you are likely to finally find the correct match to make a good oil blend, the process can be wasteful and sometimes frustrating. That is why a guide such as this one is handy, because all you need to do is identify a recipe of your liking and proceed to prepare it. Luckily, the book distinguishes for you the recipes with woody scents, those whose scents are herbaceous, the ones that are calming, and even those that are uplifting. Also, the recipes in the book make use of essential oils that are easy to find, and which are also reasonably priced. On the overall, the book explains in simple terms: Reasons people look forward to spring Best way to diffuse your essential oil blends Specific essential oils best for spring aromatherapy Specific essential oil blends to uplift your mood Specific essential oil blends to improve your breathing Specific essential oil blends to bring calmness and enhance relaxation Specific essential oils to bring floral goodness indoors Specific essential oils to bring the woody and herbal scents indoors.
