Doctor De Soto William Steig.2013-07-30 From the incomparable William Steig, creator of Shrek, comes a story that proves even a fox can be out-foxed by a clever mouse in *Doctor De Soto*, a Newbery Honor Book. Doctor De Soto, the dentist, did very good work. With the aid of his able assistant, Mrs. De Soto, he copes with the toothaches of animals large and small. His expertise is so great that his fortunate patients never feel any pain. Since he's a mouse, Doctor De Soto refuses to treat dangerous animals--that is, animals who have a taste for mice. But one day a fox shows up and begs for relief from the tooth that's killing him. How can the kindhearted De Sotos turn him away? But how can they make sure that the fox doesn't give in to his baser instincts once his tooth is fixed? Those clever De Sotos will find a way. *Doctor De Soto* is a 1982 New York Times Book Review Notable Children's Book of the Year and Outstanding Book of the Year, a 1983 Boston Globe - Horn Book Awards Honor Book for Picture Books, and a 1983 Newbery Honor Book. Made into an animated short film in 1984 by American director and animator Michael Sporn.

Assessing Young Learners of English: Global and Local Perspectives Marianne Nikolov.2015-10-29 This volume documents international, national, and small-scale testing and assessment projects of English language education for young learners, across a range of educational contexts. It covers three main areas: age-appropriate 'can do statements' and task types for teaching and testing learners between the ages of 6 to 13; innovative approaches to self-assessment, diagnostic testing, self-perception, and computer-based testing; and findings on how young learners perform on vocabulary, listening, speaking, pronunciation, and reading comprehension tests in European and Asian contexts. Early language learning has become a major trend in English language education around the globe. As a result of the spread of teaching English to a growing number of young children, assessment of and for learning have emerged as key issues. In line with this development, there is a clear and emerging need to make early language programs accountable and to assess both the progress children make over time and to quantify their achievement at various stages of development. This volume informs stakeholders about the realistic goals of early language learning, their efficiency, and how much progress children make over time.

Of course Mom imagines life with a six-foot-long iguana eating them out of house and home. Alex's reassures her: It takes fifteen years for an iguana to get that big. I'll be married by then and probably living in my own house His mom's reply: How are you going to get a girl to marry you when you own a giant reptile? Kis will be in hysterics as the negotiations go back and forth through notes, and the lively, imaginative illustrations showing their polar opposite dreams of life with an iguana take the humor to even higher heights.
