Pediatric Hydrocephalus G. Cinalli,W.J. Maixner,C. Sainte-Rose.2012-12-06 In the last ten years the pediatric neurosurgeon has witnessed a real revolution in the diagnosis and treatment of pediatric hydrocephalus, the most frequently encountered condition in everyday clinical practice. The evolution of MRI and the advent of neuroendoscopic surgery have resuscitated the interest in the classification, etiology and pathophysiology of hydrocephalus. The book offers an updated overview on the recent progress in this field, and a new approach to hydrocephalus: the reader will find in it a modern and new presentation of an old disease, where genetics, endoscopy, cost-effectiveness analyses and many other aspects of the various therapies are extensively discussed. The volume will be useful not only for neurosurgeons, but for all specialists interested in the various aspects of hydrocephalus: pediatricians, radiologists, endocrinologists, pathologists and geneticists.

The Strasbourg Manuscript Sylvie Neven.2016 - This book is the first to be dedicated to a comprehensive study with English of the early 15th century Strasbourg - One of the oldest technical manuals to include a recipe collection describing the preparation of drying oil media and their application in panel paintingThis book is the first to be dedicated to a comprehensive study with English translation (plus extensive commentary) of the early 15th century Strasbourg Manuscript - believed to have been the oldest German-language source for the study of Northern European painting techniques and considered to be the northern counterpart to Cennini's Il Libro dell arte. It is also one of the oldest technical manuals to include a recipe collection describing the preparation of drying oil media and their application in panel painting. Lost in a fire at the Strasbourg Library in 1870, this recipe collection was preserved in the only known copy commissioned by Sir Charles Eastlake, the first director of the National Gallery which was partially published in 1847. The author's extensive research is based on this copy, two later books based on it and also on comparison with other manuscripts of the Strasbourg tradition, which allowed her to reconstruct the text of the lost manuscript.

The Dare Harley Laroux.2021-01-26 Warning: This erotica contains scenes and elements that may be disturbing to some readers. Please review the full content warning below.Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The freak, Manson Reed: her favorite victim. But a lot changes after high school.A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game?Only revenge?Only a dare?Or is it something more?This book contains intense fantasy scenes of hard kinks/edgeplay, graphic sex, and harsh language. It is intended only for an adult audience. Beware: this is a dark, weird, kinky read. The activities depicted therein are dangerous and are not meant to be an example of realistic BDSM. Reader discretion is advised.Kinks/Fetishes within: erotic humiliation, fearplay, painplay, knifeplay, consensual non-consent (CNC), orgasm denial, boot worship, spanking, crying, blowjobs, clowns, group sexual activities, spit, bondage, public play, bloodplay.

Save Twilight Julio Cortazar.1997-12 The power of Eros, the enduring beauty of art, a love-hate nostalgia for his Argentine homeland, the bonds of friendship and the tragic folly of politics are some of the themes of Save Twilight. Informed by his immersion in world literature, music, art, and history, and most of his own emotional geography, Cortazar's poetry traces his paradoxical evolution from provincial Argentinean sophisticate to cosmopolitan Parisian Romantic, always maintaining the sense of astonishment of an artist surprised by life.

Diagnostic Hematology Bernadette F. Rodak.1995 The purpose of this text is to present a complete hematology course for Clinical Laboratory Science (CLS) students, as well as to provide a resource for clinical laboratory practitioners, medical students, and residents. It presents an in-depth study of cell counting, morphologic differentiation and evaluation, and related areas, such as flow cytometry, immunohistochemistry, and cytogenetics. A chapter on specific age groups covers the unique aspects of hematology in the pediatric and geriatric populations. A section on the etiology and treatment of leukocyte neoplasms has been included to provide some insight into the special considerations of oncologic disorders. Chapters begin with an outline and learning objectives, and color figures are presented as close to the citation as possible to facilitate understanding of the discussion. Most chapters end with a summary, and in many cases, review questions or case studies are included to assess or reinforce understanding of the material.

Decision Making in Psychopharmacology Siegfried Kasper,Dan Stein,Joseph Zohar.2002-10-10 This book has been written for psychiatrists to use when reconsidering their own clinical decisions in the light of recent major changes in psychopharmacology and neuroscience. It does not intend to provide treatment guidelines but rather to highlight the different available avenues of treatment and stimulate discussion about the evaluative processes. Summaries of all the main diagnostic groups are presented here to ensure that medics are fully aware of these developments.

Letters from Mom Julio Cortázar.2022-01-25 Luis and Laura, an Argentine couple looking for a new beginning, settle in France, connected to their former home only through occasional letters from Luis's mother in Buenos Aires. But when a name from the past appears in an otherwise unremarkable letter, it comes with a dark shadow. What emerges is a psychological study of grief swirling with guilt, equal parts love-triangle and ghost story. Letters from Mom is one of Julio Cortázar's most beloved short stories, part of the same collection (Las armas secretas) that gave us Blow-up and At Your Service. It is translated here into English for the first time.

A Manual for Manuel Julio Cortázar.1978 A Cuban of our acquaintance describes Cortázar as the best French writer in Spanish. Not only because he has the candor to set his fiction in Paris, where so many South American writers have found breathing room, but because he has a truly French feel for the miscellaneous, kitchen-sinky, birds-eye texture of dally life. In A Manual for Manuel, you'll meet Andres, Marco, Francine, Lonstein, Lucienne, Patricio, and Susanna: a mixed group of French intellectuals and Argentines who don't know what they're doing in Paris. Together they make up the Screwery, a collective that's more pataphysical than strictly revolutionary - involved in projects as diverse as collecting a scrapbook of newspaper clippings for Manuel (Patricio and Susanna's baby son), guerrilla theatre in department stores, counterfeiting and currency smuggling, and, grandest of all, the kidnapping of a bigwig from a multinational corporation in return for the release of captured revolutionaries in Latin America. Cortázar's narrative, as we've come to expect, is totally fractured into digressions, essays, undifferentiated dialogue, philosophical meditation, Finnegan's Wake-ish pun-prose, letters, Telexes, etc. Even the book's big, wonderful action scene (this charming crew's disastrous kidnap attempt) is muffled under all the stylistic swaddling. Cortázar is often at his best here: writing about a large group of friends, making them individual yet coherent - smart people being confused together. But the book suffers by comparison with his earlier, more substantial Hopscotch; even in Rabassa's adept and sympathetic translation, Manuel seems to lack the intensity and rich ambience we look for in prime Cortázar.--Kirkus

Cape Horn and Other Stories from the End of the World Francisco Coloane.2003 The 16 stories in this collection deal with confrontation, struggle, and survival amidst the unforgiving violence of nature. Set in the hauntingly beautiful and dangerously remote lands of southern Patagonia and Tierra del Fuego, the narration acquires a magical tone in describing the strife of man in the doubly isolating landscape of human nature within the surrounding environment.

Capital Investment for Health Bernd Rechel.2009 Capital investment in European health systems has to take account of an array of challenges and opportunities: the demographic and epidemiological transitions associated with an ageing population; advances in medical technologies and pharmaceuticals; rising public expectations; and persistent health inequalities. This volume presents 11 case studies from across Europe and these offer a variety of perspectives on current issues relating to health capital investment and ways of trying to meet present challenges as well as those of the future. The case studies include the Orbis Medical Centre, Sittard, and the Martini Hospital, Groningen (both in the Netherlands); the St Olav's Hospital in Trondheim (Norway); the New Karolinska Solna Hospital in Stockholm (Sweden); the Coxa Hospital in Tampere (Finland); the Rhön Klinikum Group (Germany); the John Paul II Hospital in Krakow (Poland); the Alzira model in the Valencia region (Spain); regional planning in Northern Ireland and Tuscany (Italy); and the Private Finance Initiative (England).

Cennino Cennini's Il Libro Dell'arte Lara Broecke.2015-03-31 This book, a new translation (with introduction and notes) of Il Libro dell'Arte, marks a great step forward in our understanding of Cennino Cennini - his life and times - and the materials and techniques employed by artists in fourteenth century Italy. Over eighty years ago, D. V. Thompson presented his translation entitled The Craftsman's Handbook as a workshop manual aimed at readers who wished to produce a work of art by following Cennino's instructions. The present volume not only establishes more precisely what Cennino actually wrote, by correcting more than 400 errors in Thompson's text, but also includes the transcribed Italian text and very extensive notes on both the language and the technical descriptions. In addition, the author's most informative introduction places Cennino in context and accounts for the genesis of the libro dell'arte by reference to the society in which it was produced. This volume is a landmark text for students and professionals in the field of art history.

Contents: Foreword; Acknowledgements; Introduction; Why a new translation?; Who was Cennino Cennini?; What is the Libro dell'arte?; The transmission and translation of the Libro dell'arte; Notes on the transcription; Notes on the translation; Il libro dell'arte: English translation and commentary and Italian transcription; Notes on substantive differences from Thompson's translation; Appendix; Bibliography.

Java Database Development Martin L. Rinehart.1998 Not a Java tutorial or introduction to Java database programming, this is literally a documented software package that contains specialized code which programmers can take directly from the CD-ROM and plug into their applications. Contained within the book is all the information the programmer requires to customize and tune code for specific needs.

Pray for a Brave Heart Helen Macinnes.2013-01-08 It was 1953, and nothing could shake William Denning's resolve to leave the army and return to the States. Nothing, except one of the largest diamond hauls ever - which, in the wrong hands, on the wrong side of the Iron Curtain, was a potentially lethal force. In a small village in the Swiss mountains, Denning discovered that there was not only a jewellery robbery at stake. In the ruthless world of espionage and international conspiracy his adversaries were the most unlikely people - and the most dangerous.

Border Dialogues Iain Chambers.1990 The essays in Border Dialogues embark on journeys into some of the most challenging territories of contemporary culture, philosophy and criticism. They intervene in the debate on modernism and postmodernism through critical encounters with a diverse range of theoretical and cultural topics. By exploring the interstitial zones where traditional disciplines and discourses overlap, Chambers seeks to widen some of the terms of contemporary critical thought. The common goal of the essays in Border Dialogues is a reading of postmodernity in which the different voices and vocabularies in contemporary theory come together in an increasingly shared network.

Blood Cells Barbara J. Bain.2008-04-15 Blood Cells has been written with both the practising haematologist and the trainee in mind. It aims to provide a guide for use in the diagnostic haematology laboratory, covering methods of collection of blood specimens, blood film preparation and staining, the principles of manual and automated blood counts and the assessment of the morphological features of blood cells. The practising haematologist should find this book sufficiently comprehensive to be a reference source while, at the same time, the trainee haematologist and biomedical scientist should find it a straightforward and practical bench manual. Enables both the haematologist and laboratory scientist to identify blood cell features, from the most common to the more obscure Provides essential information on methods of collection, blood film preparation and staining, together with the principles of manual and automated blood counts Completely revised and updated, incorporating much newly published information: now includes advice on further tests when a specific diagnosis is suspected Four hundred high quality photographs to aid with blood cell identification Highlights the purpose and clinical relevance of haematology laboratory tests throughout

Polyunsaturated Fatty Acid Metabolism Graham C. Burdge.2018-05-04 Polyunsaturated Fatty Acid Metabolism explores a number of major roles of PUFA in the body, including its role as a component of cell membranes and how it provides substrates for the synthesis of lipid second messengers. Recent studies are unraveling the effect of interactions between diet and endocrine factors and genetic and epigenetic variation on the regulation of PUFA biosynthesis in animals. Together, these recent findings provide novel insights into the impact of differences in PUFA supply on health. This book captures these findings in a manner that marks the state-of-the-art, placing them in the wider context of PUFA metabolism and nutritional science. Users will find a comprehensive discussion on the topic that presents the contributions of leading researchers who combine their knowledge to create a cohesive academic resource for researchers, those involved in production, and health policymakers. Provides a comprehensive view of polyunsaturated fatty acid metabolism Describes underlying metabolism on lipids that include polyunsaturated fatty acids Includes discussions on recent findings on the genetic and epigenetic regulation of polyunsaturated fatty acid metabolism

The Diary of Andrés Fava Julio Cortázar.2005 Diary of Andres Fava is pure reflection: on his reading, dreams, conversations, and writing. This unpredictable journal of the protagonist of Julio Cortazar's posthumously published *El Examen* is peppered with quotes from French poets and American jazzmen. Exploratory and honest, Diary of Andres Fava lets us in on his own intimate reflections on literature, music, friendship, love, and the act of writing.--BOOK JACKET.

The Ghetto Tamara Kamenszain.2018 Poetry. Latinx Studies. Jewish Studies. Translated from the Spanish by Seth Michelson. The poems in Tamara Kamenszain's book *THE GHETTO* breathe and live boldly and beautifully in Seth Michelson's spot-on translations. Written in Spanish, with the ghosts of Hebrew and Yiddish never far in the background, these poems cast a discerning eye toward the meaning of words such as 'ghetto,' 'exile,' and 'ancestors' in a world of borders, edges, and death. Yet, as in the poetry of Paul Celan, one of the guiding spirits of this book, what is beautiful is never fully abandoned. 'Today in the crowns of the trees all my roots flower,' she writes in the poem 'Tree of Life,' offering vision and salvation from within the landscape of a Jewish cemetery in Buenos Aires. Thanks to Seth Michelson, this book is now a marvelous and significant contribution to English language as well as Argentinean verse.--Gail Wronsky

Medellín: environment urbanism society Michel Hermelin Arbaux, Alejandro Echeverri Restrepo, Jorge Giraldo.2012-01-01 In recent times what has become known as the case of Medellín has generated a growing interest in the international community. These urban transformations that Medellín has experimented have become a focus of attention and reference for experts in many fields, around the world. The book 'Medellin: Environment, Urbanism and Society', that now published the Center for Urban and Environmental Studies, Urbam, of EAFIT University is a testimony of the value given by our culture to the accomplishments of the city, to the idea of the public sphere and the growing relationship between the technical sphere and the political sphere, understood in the broad sense as a form of disciplinary knowledge and construction of civil society. This book brings together a knowledge of the city from multiple perspectives; knowledge that is, without any doubt, impressive for its extension and profundity, as well as for its capacity to combine objective data with conceptual reflections about the scope and impact of the different perspectives concerning the theme of urban transformation and the different actors that have participated in such processes. The book weaves a broad net over the city, its history and development, adopting a multidisciplinary vision. I think that this will be the first step in creating a speech that might finally liberate itself from the strict disciplinary boundaries, building a trans-disciplinary perspective that can amplify the urban dimension of the city. This is the beginning of a profound and complex reflection that is, at the same time, a project of knowledge and an instrument of action and participation.

Endocrine Psychiatry Edward Shorter, Max Fink.2010-05-12 Melancholia, a severe form of depression, has stumped generations of clinicians. In the mid twentieth century it was connected to dysfunctions between the brain and the endocrine system. The authors trace the rise and fall of endocrine psychiatry from 1900 to the present in an effort to solve the mystery of melancholia.

Robert Smithson Robert A. Sobieszek, Robert Smithson.1993 There have been other exhibitions of his works, but Robert Smithson: Photo Works is the first to examine his use of the camera and to present the way he saw the unique landscapes in which he traveled and located his art. As demonstrated by curator of photography Robert A. Sobieszek, the photographic image was central to Smithson's art, whether in collages, montages, sequences, films, or alone. Smithson's final projects attempted a collaboration art and industry. He believed artists could assist in reclaiming such devastated areas as open-face strip mines. Our expanding presence in and impact upon the land may have become so pervasive that the boundaries between nature and culture have been all but obliterated. Now two decades after his death, Robert Smithson's lessons are all the more vital and significant.-from preface.
