Quirkology Richard Wiseman.2007-11-20 For over twenty years, psychologist Richard Wiseman has examined the quirky science of everyday life. In *Quirkology*, he navigates the oddities of human behavior, explaining the tell-tale signs that give away a liar, the secret science behind speed-dating and personal ads, and what a person's sense of humor reveals about the innermost workings of his or her mind—all along paying tribute to others who have carried out similarly weird and wonderful work. Wiseman's research has involved secretly observing people as they go about their daily business, conducting unusual experiments in art exhibitions and music concerts, and even staging fake séances in allegedly haunted buildings. With thousands of research subjects from all over the world, including enamored couples, unwitting pedestrians, and guileless dinner guests, Wiseman presents a fun, clever, and unexpected picture of the human mind.

Cooking In A Bedsitter Katharine Whitehorn.2011-06-02 There is one powerful smell closely associated with the making of coffee in bedsitters. It is the smell of burning plastic, and will go away if you move the handle of the pot away from the flame. Legendary journalist Katharine Whitehorn's classic handbook of quick, simple meals - including Swedish Sausage Casserole, Lamb Tomato Quickie and Shrimp Wiggle - became the essential survival manual for the busy single person living in their first rented room. Whitehorn's trademark intelligent, practical and fabulously funny writing shines as brightly as ever, addressing the problems of 'cooking at ground level, in a hurry, with nowhere to put the salad but the washing-up bowl, which is in any case full of socks'. Delightful, entertaining and utterly indispensable. Praise for Katharine Whitehorn: 'A meteor: clever, funny, compassionate, insightful, beautiful' RACHEL COOKE 'Everyone grabbed the Observer to read her column on a Sunday morning' JILLY COOPER 'Wise, witty, mischievous' JAY RAYNER
