Climate Change Damage and International Law Roda Verheyen.2005-11-01 This book is the first comprehensive assessment of the legal duties of states with regard to human induced climate change damage

**Global Warming** Ernesto Zedillo.2008-08-01 The latest report from the Intergovernmental Panel on Climate Change (IPCC) reflects the growing international consensus that the earth's climate is being changed by anthropogenic greenhouse gases. Evidence presented by the IPCC and others points to the potential for increasingly dangerous weather, new disease outbreaks, regional water shortages, the loss of habitat and species, and other disturbing developments that could have profound social and economic impacts. Opinions on what should be done, however, remain sharply divided within and among countries. Though monumental in its efforts, the Kyoto Protocol has left much to be agreed upon and achieved, with the world's largest emitter of carbon dioxide—the United States—rejecting it. In *Global Warming: Looking Beyond Kyoto*, some of the best-known and respected authorities in climate policy provide a comprehensive agenda for global collective action. Representing both industrialized and developing nations, the contributors present a thought-provoking examination of the economic, social, and political context of climate policy within their countries. With Kyoto's emissions targets set to expire in 2012, these authors call for a multilateral approach that goes beyond the mitigation-focused Kyoto policies, balancing them with strategies for adaptation. They also stress the importance of generating policies that work within a time frame commensurate with that of climate change itself. Informed, insightful, and even-handed, this book gives a new impetus to the increasingly important global climate policy debate. Contributors include R.K. Pachauri (Energy Resources Institute and the IPCC), Richard S. Lindzen (Massachusetts Institute of Technology), Stefan Rahmstorf (Potsdam Institute for Climate Impact Research), Stephen H. Schneider and Thomas Heller (Stanford University), Robert Mendelsohn and William D. Nordhaus (Yale University), Gernot Klepper and Sonja Peterson (Kiel Institute for World Economics), Robert N. Stavins (Harvard University), Alexander Golub (Environmental Defense), Howard Dalton (U.K. Department for Environment, Food and Rural Affairs), John Stone (Carleton University, Ottawa), Jyoti Parikh (Integrated Research and Action for Development), and Shen Longhai (China Energy Conservation Association)

Handbook of Global Environmental Politics Peter Dauvergne.2012-01-01 The second edition of this Handbook contains more than 30 new and original articles as well six essential updates by leading scholars of global environmental politics. This landmark book maps the latest theoretical and empirical research in this energetic and growing field. Captured here are the pioneering and lively debates over concerns for the health of the planet and how they might best be addressed. The introduction explores the intellectual trends and evolving parameters in the field of global environmental politics. It makes a case for an expansive definition of the field, one that embraces an interdisciplinary literature on the connections between global politics and environmental change. The remaining chapters are divided into four broad themes – states and cooperation; global governance; the political economy of governance; and knowledge and ethics – with each section covering key emerging issues. In-depth explorations are given to topics such as climate change, multinational corporations, international agreements and UN organizations, regulations and business standards, trade and international finance, multilevel and transnational governance, and ecological citizenship. *Handbook of Global Environmental Politics, Second Edition* is a comprehensive review of the field and offers cutting-edge ideas for further research. As such, scholars, students and policymakers will find themselves looking to it for many years to come.

**Law and the Environment** Robert V. Percival, Dorothy C. Alevizatos.1997 *Law and the Environment: A Multi-disciplinary Reader* brings together for the first time some of the most important original work on environmental policy by scientists, ecologists, philosophers, historians,

economists, and legal scholars. Each of the book's four parts provides a different focus on the nature and scope of environmental problems and attempts to use public policy to address these concerns. Part I examines how ecology, economics, and ethics analyze environmental problems and why they support collective action to respond to them. Part II examines the history and present state of environmental law, from early attempts to engage the government to the current debate over the effectiveness of environmental policy. Part III explores the process by which environmental law gets translated into regulatory policy. Part IV considers the future of environmental law at a time when international environmental concerns have become a major force in global diplomacy and international trade agreements. In drawing together a wide variety of perspectives on these issues, Robert V. Percival and Dorothy C. Alevizatos offer a comprehensive examination of how society has responded to the difficult challenges posed by environmental problems. The selections provide a rich introduction to the complexities of environmental policy disputes. Author note: Robert V. Percival is Professor of Law, Robert Stanton Scholar and Director of the Environmental Law Program of the University of Maryland School of Law. He is the principal author of *Environmental Regulation: Law, Science, and Policy*, and numerous articles on law and the environment. >P> Dorothy C. Alevizatos is an environmental lawyer with a Baltimore law firm. She has an M.S. in conservation biology from the University of Maryland.

Anarchic Dance Liz Aggiss, Billy Cowie. 2006-04-18 Liz Aggiss and Billy Cowie, known collectively as Divas Dance Theatre, are renowned for their highly visual, interdisciplinary brand of dance performance that incorporates elements of theatre, film, opera, poetry and vaudevillian humour. *Anarchic Dance*, consisting of a book and DVD-Rom, is a visual and textual record of their boundary-shattering performance work. The DVD-Rom features extracts from Aggiss and Cowie's work, including the highly-acclaimed dance film *Motion Control* (premiered on BBC2 in 2002), rare video footage of their punk-comic live performances as *The Wild Wigglers* and reconstructions of Aggiss's solo performance in *Grotesque Dancer*. These films are cross-referenced in the book, allowing readers to match performance and commentary as Aggiss and Cowie invite a broad range of writers to examine their live performance and dance screen practice through analysis, theory, discussion and personal response. Extensively illustrated with black and white and colour photographs *Anarchic Dance*, provides a comprehensive investigation into Cowie and Aggiss's collaborative partnership and demonstrates a range of exciting approaches through which dance performance can be engaged critically.

Critical Inquiries Lynn Caldwell, Darryl Leroux, Carrienne K. Y. Leung. 2013 This book takes a bold, critical approach to Canadian Studies, framing Canada as an ongoing colonial project. The contributors assess how policy programs, such as multiculturalism and national arts funding and cultural monuments and symbols, such as the Famous Five Monument, the Tunnels of Moose Jaw and Saskatchewan's Centennial, are all shaped within this colonial matrix. Furthermore, the contributors in this collection argue that the making of Canada as an extension of British-European colonialism has celebrated whiteness and has subjugated racialized others to the dominant group's

economic, cultural and societal norms. As a critical Canadian Studies unmasker, unearther, repositioner, rereader, reworker and remaker, it also works to produce new modes of relational logics and conditions in which the intimacies that European colonial expansion produced for us might be refashioned.— From the foreword, by Rinaldo Walcott

**Rambo Solo** Nature Theater of Oklahoma. 2009 A continuation of Nature Theater of Oklahoma's investigation into transcription as epic theater.

*The Hunger Angel* Herta Müller. 2012-05-03 'I know you'll return.' These are his grandmother's last words to him. Leo has them in his head as he boards the truck to Russia one freezing mid-January morning in 1945. They keep him alive - through hunger, pain, and despair - during his time in the Gulag. And, eventually, they will bring him back home. Müller has distilled Leo's struggle into words of breathtaking intensity that take us on a journey far beyond one man's physical travails and into the depths of the human soul.

Global Corruption Report: Climate Change Transparency International. 2013-11-26 The global response to climate change will demand unprecedented international cooperation, deep economic transformation and resource transfers at a significant scale. Corruption threatens to jeopardise these efforts. Transparency International's Global Corruption Report: Climate Change is the first publication to comprehensively explore such corruption risks. More than fifty leading experts and practitioners contribute, covering four key areas: governance: investigating major governance challenges towards tackling climate change mitigating climate change: reducing greenhouse gas emissions with transparency and accountability adapting to climate change: identifying corruption risks in climate-proofing development, financing and implementation of adaptation forestry governance: responding to the corruption challenges plaguing the forestry sector, and how these challenges need to be integrated into current international strategies to halt deforestation and promote reforestation. The Global Corruption Report: Climate Change provides essential policy analysis to help policy-makers, practitioners and other stakeholders understand these risks and develop effective responses at a critical point in time when the main architecture for climate governance is being developed.

An Ecological Approach to International Law Prue Taylor. 2008-01-28 An Ecological Approach to International Law shows that international environmental law is fundamentally flawed and not equipped to meet global challenges. The book examines international legal responses to global climate change by analysing key concepts such as the doctrine of state sovereignty, the law on state responsibility, environmental rights and common heritage of mankind.

Aesthetics of Absence Heiner Goebbels. 2015-02-20 Aesthetics of Absence presents a significant challenge to the many embedded assumptions and hierarchical structures that have become 'naturalised' in western theatre production. This is the first English translation of a new collection of writings and lectures by Heiner Goebbels, the renowned German theatre director, composer and teacher. These writings map Goebbels' engagement with 'Aesthetics of Absence' through his own experience at the forefront of innovative music-theatre and performance making. In this volume, Goebbels reflects on works created over a period of more than 20 years staged throughout the world; introduces some of his key artistic influences, including Robert Wilson and Jean-Luc Godard; discusses the work of his students and ex-students, the collective Rimini Protokoll; and sets out the case for a radical rethinking of theatre and performance education. He gives us a rare insight into the rehearsal process of critically acclaimed works such as Eraritjaritjaka and Stiftern Ding, and

explaining in meticulous detail the way he weaves an eclectic range of references from fine art, theatre, literature, politics, anthropology, contemporary and classical music, jazz and folk, into his multi-textured music-theatre compositions. As an artist who is prepared to share his research and demystify the processes through which his own works come into being, as a teacher with a coherent pedagogical strategy for educating the next generation of theatre-makers, in this volume, Goebbel brings together practice, research and scholarship.
