Changing Woman Jay Scott.1993 The art Helen Hardin created was the product of her deliberate effort to both retain the mystical elements of her heritage (Santa Clara Pueblo) and depart from the traditional style favored by many of the artists whose work surrounded her.

**Visionary Women** Andrea Barnet.2018-03-13 Winner of The Green Prize for Sustainable Literature A Finalist for the PEN/Bograd Weld Prize for Biography Four influential women we thought we knew well—Jane Jacobs, Rachel Carson, Jane Goodall, and Alice Waters—and how they spearheaded the modern progressive movement This is the story of four visionaries who profoundly shaped the world we live in today. Together, these women—linked not by friendship or field, but by their choice to break with convention—showed what one person speaking truth to power can do. Jane Jacobs fought for livable cities and strong communities; Rachel Carson warned us about poisoning the environment; Jane Goodall demonstrated the indelible kinship between humans and animals; and Alice Waters urged us to reconsider what and how we eat. With a keen eye for historical detail, Andrea Barnet traces the arc of each woman’s career and explores how their work collectively changed the course of history. While they hailed from different generations, Carson, Jacobs, Goodall, and Waters found their voices in the early sixties. At a time of enormous upheaval, all four stood as bulwarks against 1950s corporate culture and its war on nature. Consummate outsiders, each prevailed against powerful and mostly male adversaries while also anticipating the disaffections of the emerging counterculture. All told, their efforts ignited a transformative progressive movement while offering people a new way to think about the world and a more positive way of living in it.

**Women of Visionary Art** David Jay Brown,Rebecca Ann Hill.2018-11-13 An exploration of the role that dreaming, psychedelic experiences, and mystical visions play in visionary art • Includes discussions with 18 well-known female artists, including Josephine Wall, Allyson Grey, Amanda Sage, Martina Hoffmann, Penny Slinger, and Carolyn Mary Kleefeld • Reveals how they have all been inspired by deep inner experiences and seek to express non-ordinary visions of reality, reminiscent of shamanic trance states, lucid dreams, and spiritually transcendent experiences • Shows how visionary art often contains an abundance of feminine energy, helping us to heal ourselves and see that we are all connected Since early humans first painted from their mystic eye onto cave walls, artists have sought to share their sacred visions with the world. Created in every medium, from oil painting and sculpture to contemporary digital modeling, these visionary works of art give those who experience them a chance to “see the unseen,” realize wider modes of perception, and discover spiritual and mystical realms. In this full-color illustrated book, David Jay Brown and Rebecca Ann Hill examine the work and inspirations of eighteen of today’s leading female visionary artists, including Josephine Wall, Allyson Grey, Amanda Sage, Martina Hoffmann, Penny Slinger, and Carolyn Mary Kleefeld. They explore the creative process and the role that dreaming, psychedelic experiences, sexuality, and divine guidance play in the work of these women, alongside full-color examples of their art. They discuss the future of visionary art and reveal how these artists have all been informed and inspired by deep inner experiences and seek to express non-ordinary visions of reality, often reminiscent of those encountered in shamanic trance, lucid dreams, psychedelic states, spiritually transcendent experiences, and other altered states. Showing how visionary art often contains an abundance of feminine energy, helping us to heal ourselves and see that we are all connected, the authors explore with each artist what it is about being a woman that has most influenced their artwork. They also examine the connection between visionary art and spirituality, the influence of Nature and sacred geometry, and how this creative form is simultaneously ancient, futuristic, and timeless, providing an accessible doorway into the visionary realm.

Women, Art, and Society (Sixth) (World of Art) Whitney Chadwick.2020-09-08 A new edition of the groundbreaking book by Whitney Chadwick maps the complete history of women artists from the Middle Ages and the Renaissance to today. Art historian Whitney Chadwick’s acclaimed bestselling study challenges the assumption that great women artists are exceptions to the rule who “transcended” their gender to produce major works of art. While introducing some of the many women since the Middle Ages whose contributions to visual culture have often been neglected, Chadwick’s survey reexamines the works themselves and the ways in which they have been perceived as marginal, often in direct reference to gender. In her discussion of feminism and its influence on such a reappraisal, she also addresses the closely related issues of ethnicity, class, and sexuality. This revised edition features a completely redesigned interior and full-color illustrations. With a new preface and epilogue from this emerging authority on the history of women artists, curator and professor Flavia Frigeri, this revised edition continues the project of charting the evolution of feminist art history and pedagogy, revealing how artists have responded to new strategies of feminism for the current moment.

**Singular Women** Kristen Frederickson.2003-03-04 Contemporary art historians - all of them women - probe the dilemmas and complexities of writing about the woman artist, past and present. **Authority and Authorship in Medieval and Seventeenth Century Women's Visionary Writings** Deborah Frick.2021-05-31 In medieval and early modern times, female visionary writers used the mode of prophecy to voice their concerns and ideas, against the backdrop of cultural restrictions and negative stereotypes. In this book, Deborah Frick analyses medieval visionary writings by Julian of Norwich and Margery Kempe in comparison to seventeenth-century visionary writings by authors such as Anna Trapnel, Mary Carey, Anne Wentworth and Katherine Chidley, in order to investigate how these women authorised themselves in their writings and what topoi they use to find a voice and place of their own. This comparison, furthermore, and the strikingly similar topoi that are used by the female visionaries not only allows to question and examine topics such as authority, authorship, images of voice and body; it also breaks down preconceived and artificial boundaries and definitions.

Women Artists on the Leading Edge Joan M. Marter.2019-10-07 How do students develop a personal style from their instruction in a visual arts program? *Women Artists on the Leading Edge* explores this question as it describes the emergence of an important group of young women artists from an innovative post-war visual arts program at Douglass College. The women who studied with avant-garde artists at Douglas were among the first students in the nation to be introduced to performance art, conceptual art, Fluxus, and Pop Art. These young artists were among the first to experience new approaches to artmaking that rejected the predominant style of the 1950s: Abstract Expressionism. The New Art espoused by faculty including Robert Watts, Allan Kaprow, Roy Lichtenstein, Geoffrey Hendricks, and others advocated that art should be based on everyday life. The phrase “anything can be art” was frequently repeated in the creation of Happenings, multi-media installations, and video art. Experimental approaches to methods of creation using a remarkable range of materials were investigated by these young women. Interdisciplinary aspects of the Douglass curriculum became the basis for performances, videos, photography, and constructions. Sculpture was created using new technologies and industrial materials. The Douglass women artists included in this book were among the first to implement the message and direction of their instructors. Ultimately, the artistic careers of these young women have reflected the successful interaction of students with a cutting-edge faculty. From this BA and MFA program in the Visual Arts emerged women such as Alice Aycock, Rita Myers, Joan Snyder, Mimi Smith, and Jackie Winsor, who went on to become lifelong innovators. Camaraderie was important among the Douglass art students, and many continue to be instructors within a close circle of associates from their college years. Even before the inception of the women’s art movement of the 1970s, these women students

were encouraged to pursue professional careers, and to remain independent in their approach to making art. The message of the New Art was to relate one's art production to life itself and to personal experiences. From these directions emerged a "proto-feminist" art of great originality identified with women's issues. The legacy of these artists can be found in radical changes in art instruction since the 1950s, the promotion of non-hierarchical approaches to media, and acceptance of conceptual art as a viable art form.

**Women, Art, and Power** Linda Nochlin.1988 *Women, Art, and Power* --seven landmark essays on women artists and women in art history--brings together the work of almost twenty years of scholarship and speculation.

*Women Artists at the Millennium* Carol M. Armstrong, M. Catherine de Zegher.2006 More than thirty years after the birth of the modern women's movement and the beginnings of feminist art-making and art history, the time is ripe to examine the legacies of those revolutions. In *Women Artists at the Millennium*, artists, art historians, and critics examine the differences that feminist art practice and critical theory have made in late twentieth-century art and the discourses surrounding it. In 1971, when Linda Nochlin published her essay *Why Have There Been No Great Women Artists?* in a special issue of *Art News*, there were no women's studies, no feminist theory, no such thing as feminist art criticism; there was instead a focus on the mythic figure of the great (male) artist through history. Since then, the woman artist has not simply been assimilated into the canon of greatness but has expanded art-making into a multiplicity of practices with new parameters and perspectives. In *Women Artists at the Millennium* artists including Martha Rosler and Yvonne Rainer reflect upon their own varied practices and art historians discuss the innovative work of such figures as Louise Bourgeois, Lygia Clark, Mona Hatoum, and Carrie Mae Weems. And Linda Nochlin considers changes since her landmark essay and looks to the future, writing, We will need all our wit and courage to make sure that women's voices are heard, their work seen and written about.

**Women, Art, and Society** Whitney Chadwick.2002 This expanded edition is brought up to date in the light of the most recent developments in contemporary art. **The Art of the Sister Chapel** Andrew Hottle.2017-07-05 The *Sister Chapel* (1974-78) was an important collaborative installation that materialized at the height of the women's art movement. Conceived as a nonhierarchical, secular commemoration of female role models, The *Sister Chapel* consisted of an eighteen-foot abstract ceiling that hung above a circular arrangement of eleven monumental canvases, each depicting the standing figure of a heroic woman. The choice of subject was left entirely to the creator of each work. As a result, the paintings formed a visually cohesive group without compromising the individuality of the artists. Contemporary and historical women, deities, and conceptual figures were portrayed by distinguished New York painters-Alice Neel, May Stevens, and Sylvia Sleigh-as well as their accomplished but less prominent colleagues. Among the role models depicted were Artemisia Gentileschi, Frida Kahlo, Betty Friedan, Joan of Arc, and a female incarnation of God. Although last exhibited in 1980, The *Sister Chapel* has lingered in the minds of art historians who continue to note its significance as an exemplar of feminist collaboration. Based on previously-unpublished archival materials and featuring dozens of rarely-seen works of art, this comprehensive study details the fascinating history of The *Sister Chapel*, its constituent paintings, and its ambitious creators.

**Women in the Picture** Catherine McCormack.2021-05-06 'Incisive and provocative ... a sensitive and probing critique' The New York Times 'Essential reading ... gripping, inspirational, beautifully written and highly thought-provoking' Dr Helen Gørrill, author of *Women Can't Paint* A bold reconsideration of women in art - from the 'Old Masters' to the posts of Instagram influencers A perfect pin-up, a damsel in distress, a saintly mother, a femme fatale ... Women's identity has long been stifled by a limited set of archetypes, found everywhere in pictures from art history's classics to advertising, while women artists have been overlooked and held back from shaping more empowering roles. In this impassioned book, art historian Catherine McCormack asks us to look again at what these images have told us to value, opening up our most loved images - from those of Titian and Botticelli to Picasso and the Pre-Raphaelites. She also shows us how women artists - from Berthe Morisot to Beyoncé, Judy Chicago to Kara Walker - have offered us new ways of thinking about women's identity, sexuality, race and power. *Women in the Picture* gives us new ways of seeing the art of the past and the familiar images of today so that we might free women from these restrictive roles and embrace the breadth of women's vision. **Visionary Women Writers of Chicago's Black Arts Movement** Carmen L. Phelps. 2013 A disproportionate number of male writers continue to be credited for constructing the iconic and ideological foundations for what would be perpetuated as the Black Art Movement (BAM). Though an increasing amount of scholarship has recognized leading women artists, activists, and leaders of this period, these new perspectives have yet to recognize adequately the ways women aspired to far more than a mere dismantling of male-oriented ideals. This book examines the work of several women artists working in Chicago, a key focal point for the energy and production of the movement.

**Feminine Mysticism in Art** Victoria Christian, Susan Stedman. 2018-08-23 There is a growing awareness that we are doomed as a species and planet unless we have a radical shift in consciousness and the re-emergence of the Goddess is becoming the symbol and metaphor for this transformation. *Feminine Mysticism in Art* fills the void of Goddess imagery in the West by providing images and writings offered by 70 contemporary visionary artists and writers (male and female) who have committed their life's work to the re-birth of the Divine Feminine in the West. Some of the visionary artists are: AfraShe Asungi, Yasmin Hernandez, Martina Hoffmann, Autumn Skye Morrison, Penny SlingerHrana Janto, Heather Taylor, Mark Henson, Abba Yahudah, David Joaquin, Andrew Annenberg, Paul Heussenstamm, etc. Some of the visionary writers are: Anne Baring, Margaret Starbird, Vicki Noble, Llewellyn Vaughn-Lee, Lotus Linton, Sandra Ingerman, Hank Wessel. It is an epic anthology by powerful voices in the Women's Spirituality movement, Inter-Spirituality movement, the Transcendental Art movement, The mission of the book is to not only document a genre of art referred to as feminine mysticism or Goddess art, but also to reveal powerful images of the Divine in his/her myriad forms. The ultimate mission of the book is to assist humanity in evolving our conceptualization of the Divine, transcending out of antagonistic, dualistic, and hierarchical gender associations and into a new mode of consciousness that is more inclusive of all of God's creation. In order for this to occur, however, it is essential that the sacred feminine be firmly rooted in human consciousness. Since the masculine side of God has been so heavily portrayed in Western culture, a large number of people are yearning for images of the Goddess in order to provide alternatives to the conventional dominance of men in religion and society. In contrast, the Goddesses show us that the female can also be symbolic of all that is creative and powerful in the universe as well as provide us with an orientation that can help us save the planet from ecological destruction. Feminine mysticism is a spiritual movement devoted to the re-enchantment of the feminine principle or feminine side of God. Feminine mysticism is a spiritual journey for women, as well as for men, which has been lost to many Westerners, but is beginning to resurface in various ways. In the past thirty years, scholars from various disciplines have documented the ancient cultures and religions of the Goddess and the ways in which they had been intentionally subjugated by the patriarchal religions of Judaism, Christianity, and Islam. Archeological and historical evidence all reveal that for thousands of years, matriarchal religions and patriarchal societies existed simultaneously, and that over time, matriarchal or pagan religions suffered under centuries of persecution and suppression by the patriarchal societies, which held male deities as supreme. As a result, the feminine side of God has been hidden from view, leading to a deconstructed perception of humanity and disrespect towards many attributes associated with the feminine. Although the reign of matriarchal societies is long gone, the time of union between the masculine and feminine principles are close at hand. The Goddess is revealing herself to the human psyche in an assortment of ways, from the arts to the sciences. Her re-emergence is crucial to our society's shift into a new paradigm, a symbiotic union between the masculine and feminine aspects within the human psyche, society, and the world of spirit. However, before this shift in consciousness can occur, the awakening of the Divine Mother needs to occur on a worldwide level, which is why it is crucial to get as many images of HER as possible into the public's view at this time. **Agnes Martin: Her Life and Art** Nancy Princenthal. 2015-06-16 The first biography of visionary artist Agnes Martin, one of the most original and influential painters of the postwar period Over the course of a career that spanned fifty years, Agnes Martin's austere, serene work anticipated and helped to define Minimalism, even as she battled psychological crises and carved out a solitary existence in the American Southwest. Martin identified with the Abstract Expressionists but her commitment to linear geometry caused her to be associated in turn with Minimalist, feminist, and even outsider artists. She moved through some of the liveliest art communities of her time while maintaining a legendary reserve. "I paint with my back to the world," she says both at the beginning and at the conclusion of a documentary filmed when she was in her late eighties. When she died at ninety-two, in Taos, New Mexico, it is said she had not read a newspaper in half a century. No substantial critical monograph exists on this acclaimed artist—the recipient of two career retrospectives as well as the National Medal of the Arts—who was championed by critics as diverse in their approaches as Lucy Lippard, Lawrence Alloway, and Rosalind Krauss. Furthermore, no attempt has been made to describe her extraordinary life. The whole engrossing story, told here for the first time, Agnes Martin is essential reading for anyone interested in abstract art or the history of women artists in America.

**Outsider Art** Daniel Wojcik. 2016-08-25 Outsider art has exploded onto the international art scene, gaining widespread attention for its startling originality and visual power. As an expression of raw creativity, outsider art remains associated with self-taught visionaries, psychiatric patients, trance mediums, eccentric outcasts, and unschooled artistic geniuses who create things outside of mainstream artistic trends and styles. *Outsider Art: Visionary Worlds and Trauma* provides a comprehensive guide through the contested terrain of outsider art and the related domains of art brut, visionary art, art of the insane, and folk art. The book examines the history and primary issues of the field as well as explores the intersection between culture and individual creativity that is at the very heart of outsider art definitions and debates. Daniel Wojcik's interdisciplinary study challenges prevailing assumptions about the idiosyncratic status of outsider artists. This wide-ranging investigation of the art and lives of those labeled outsiders focuses on the ways that personal tragedies and suffering have inspired the art-making process. In some cases, trauma has triggered a creative transformation that has helped artists confront otherwise overwhelming life events. Additionally, Wojcik's study illustrates how vernacular traditions, religious worldviews, ethnic heritage, and popular culture have influenced such art. With its detailed consideration of personal motivations, cultural milieu, and the potentially therapeutic aspects of art making, this volume provides a deeper understanding of the artistic impulse and human creativity.

The mission of the book is to not only document a genre of art referred to as feminine mysticism or Goddess art, but also to reveal powerful images of the Divine in his/her myriad forms. The ultimate mission of the book is to assist humanity in evolving our conceptualization of the Divine, transcending out of antagonistic, dualistic, and hierarchical gender associations and into a new mode of consciousness that is more inclusive of all of God's creation. In order for this to occur, however, it is essential that the sacred feminine be firmly rooted in human consciousness. Since the masculine side of God has been so heavily portrayed in Western culture, a large number of people are yearning for images of the Goddess in order to provide alternatives to the conventional dominance of men in religion and society. In contrast, the Goddesses show us that the female can also be symbolic of all that is creative and powerful in the universe as well as provide us with an orientation that can help us save the planet from ecological destruction. Feminine mysticism is a spiritual movement devoted to the re-enchantment of the feminine principle or feminine side of God. Feminine mysticism is a spiritual journey for women, as well as for men, which has been lost to many Westerners, but is beginning to resurface in various ways. In the past thirty years, scholars from various disciplines have documented the ancient cultures and religions of the Goddess and the ways in which they had been intentionally subjugated by the patriarchal religions of Judaism, Christianity, and Islam. Archeological and historical evidence all reveal that for thousands of years, matriarchal religions and patriarchal societies existed simultaneously, and that over time, matriarchal or pagan religions suffered under centuries of persecution and suppression by the patriarchal societies, which held male deities as supreme. As a result, the feminine side of God has been hidden from view, leading to a deconstructed perception of humanity and disrespect towards many attributes associated with the feminine. Although the reign of matriarchal societies is long gone, the time of union between the masculine and feminine principles are close at hand. The Goddess is revealing herself to the human psyche in an assortment of ways, from the arts to the sciences. Her re-emergence is crucial to our society's shift into a new paradigm, a symbiotic union between the masculine and feminine aspects within the human psyche, society, and the world of spirit. However, before this shift in consciousness can occur, the awakening of the Divine Mother needs to occur on a worldwide level, which is why it is crucial to get as many images of HER as possible into the public's view at this time. **The Visual and the Visionary** Jeffrey F. Hamburger.1998-04-12 A new interpretation of the role of the visual arts in the spiritual lives of women in late medieval monastic communities. The Visual and the Visionary adds a new dimension to the study of female spirituality, with its nuanced account of the changing roles of images in medieval monasticism from the twelfth century to the Reformation. In nine essays embracing the histories of art, religion, and literature, Jeffrey Hamburger explores the interrelationships between the visual arts and female spirituality in the context of the curatorial, the pastoral care of nuns. Used as instruments of instruction and inspiration, images occupied a central place in debates over devotional practice, monastic reform, and mystical expression. Far from supplementing a history of art from which they have been excluded, the images made by and for women shaped that history decisively by defining novel modes of religious expression, above all, the relationship between sight and subjectivity. With this book, the study of female piety and artistic patronage becomes an integral part of the general history of medieval art and spirituality.

**Women Making Art** Abu al-Futouh Ahmad Radwan, مريم مرساوي, Marsha Meskimmon.2003 Examining work by a wide range of women artists from different cultures and historical periods, Women Making Art asks why women's work has been seen as secondary, and mobilizes contemporary feminist thinking to reconsider how and why women have made art.

**Visionary Women Writers of Chicago's Black Arts Movement** Carmen L. Phelps.2013 A disproportionate number of male writers, including such figures as Amiri Baraka, Larry Neal, Maulana Karenga, and Haki Madhubuti, continue to be credited for constructing the iconic and ideological foundations for what would be perpetuated as the Black Art Movement. Though there has arisen an increasing amount of scholarship that recognizes leading women artists, activists, and leaders of this period, these new perspectives have yet to recognize adequately the ways women aspired to far more than a mere dismantling of male-oriented ideals. In Visionary Women Writers of Chicago's Black Arts Movement, Carmen L. Phelps examines the work of several women artists working in Chicago, a key focal point for the energy and production of the movement. Angela Jackson, Johari Amiri, and Carolyn Rodgers reflect in their writing specific cultural, local, and regional insights, and demonstrate the capaciousness of Black Art rather than its constraints. Expanding from these three writers, Phelps analyzes the breadth of women's writing in BAM. In doing so, Phelps argues that these and other women attained advantageous and unique positions to represent the potential of the BAM aesthetic, even if their experiences and artistic perspectives were informed by both social conventions and constraints. In this book, Phelps's examination brings forward a powerful and crucial contribution to the aesthetics and history of a movement that still inspires.
