The Economywide Effects of Teff, Wheat, and Maize Production Increases in Ethiopia Benson, Todd,Engida, Ermias,Thurlow, James. The government of Ethiopia is investing significant public resources to increase overall national production of teff, wheat, and maize. To better understand the likely economywide effects of increases of between 12 and 14 percent in the national production of these cereals, a set of production increase scenarios for each crop were run using a computable general equilibrium model of the Ethiopian economy. The analyses were extended to also consider the effects of several international wheat price and wheat import scenarios, a wheat subsidy program, and maize exports. Among the effects considered are changes in economic growth, prices, total household consumption, cereal and calorie consumption levels, and poverty measures.

**Sweet People Are Everywhere** Alice Walker.2021-09-28 Sweet People Are Everywhere, an illustrated picture book featuring a poem by internationally renowned writer and activist Alice Walker, is a powerful celebration of humanity. The poem addresses a young boy getting his first passport, taking the boy--and the reader--on a journey through a series of countries around the globe where "sweet people" can be found. Sweet People Are Everywhere, an illustrated picture book for children ages 4-8 (and readers of all ages) by internationally renowned writer and activist Alice Walker, focuses on a common thread of the "sweet people" who can be found all over the world. The poem addresses a young boy getting his first passport, taking the boy--and the reader--on a journey through a series of countries around the globe. The poem is a powerful celebration of humanity and globalism, embodying a generosity of spirit that is inspiring, timely, and timeless. After journeying through dozens of countries and pointing out the sweet people in each place, Walker writes these beautiful, hopeful, and haunting words: We are lost if we can no longer experience how sweet human beings can be. Promise me never to forget this. The book's full-color illustrations by Quim Torres include a world map highlighting the many countries referenced, and the book includes an interview with Alice Walker. The evocative free verse poem was first published in Walker's 2018 poetry collection Taking the Arrow Out of the Heart, winner of the NAACP Image Award for Outstanding Literary Work. Library Journal praised the book for its "poems of love and hope" and, in a starred review, Booklist commended Walker's "prodding wisdom of an elder suggesting that we can cope by taking comfort in beauty, friendship, and human kindness; by always expressing gratitude; and by turning inward to hold ourselves accountable for what we contribute." Sweet People Are Everywhere is Walker's sixth book for children, and it explores and builds on some of the same themes as her 2007 title Why War Is Never a Good Idea; her first children's book was Langston Hughes: American Poet (1974).

Bite Back Saru Jayaraman,Kathryn De Master.2020 The food system is broken, but there is a revolution underway to fix it. Bite Back presents an urgent call and vision for disrupting corporate power in the food system, a vision shared with countless organizers and advocates worldwide. In this provocative and inspiring new book, editors Saru Jayaraman and Kathryn De Master bring together leading experts and activists who are challenging corporate power by addressing injustices in our

food system, from wage inequality to environmental destruction to corporate bullying. Each topical section presents an overview of a problem related to corporate control of the food system and then offers the story of a successful organizing campaign that tackled the problem. This unique solutions-oriented book allows readers to explore the core contemporary challenges embedded in our food system and learn how people and communities can push back against corporate greed to benefit workers and consumers everywhere. It is essential reading for anyone interested in food today--

**Naming A Love** AuthorHouse.2014-04-02 I read this Journal against the background of a visit that I had with Ben just before his transfer to the church eternal. After some pleasant conversation, we shuffled out of the house and climbed into a golf cart. As Ben shuttled us around his beloved farm, he shared story after story about the land and the mortals who had populated the environs in and around Adams, Tennessee. He was doing something that is not easy for many of us to do. He was verbally and visually taking me back to his roots. As we carted around the farm, he was introducing me to a whole web of his roots: historical, natural, cultural, spiritual, land, history, nature, family, community, and church. His relationship to his roots was dearer to him than I had imagined. This Journal takes the reader into the well lived life of a husband, father, grandfather, pastor and friend. As you turn the pages you will get a glimpse into how the Reverend Dr. Ben Alford reflected on life from the vantage point of faith ? roots and all. Bishop Joseph E. Pennel, Jr. United Methodist Church Martin

**Aid State** Jake Johnston.2024-01-30 Haiti's state is near-collapse: armed groups have overrun the country, many government officials have fled after the 2021 assassination of President Moise and not a single elected leader holds office, refugees desperately set out on boats to reach the US and Latin America, and the economy reels from the after-effects of disasters, both man-made and natural, that destroyed much of Haiti's infrastructure and institutions. How did a nation founded on liberation—a people that successfully revolted against their colonizers and enslavers—come to such a precipice? In *Aid State*, Jake Johnston, a researcher and writer at the Center for Economic and Policy Research in Washington, DC, reveals how long-standing US and European capitalist goals ensnared and re-enslaved Haiti under the guise of helping it. To the global West, Haiti has always been a place where labor is cheap, politicians are compliant, and profits are to be made. Over the course of nearly 100 years, the US has sought to control Haiti and its people with occupying police, military, and euphemistically-called peacekeeping forces, as well as hand-picked leaders meant to quell uprisings and protect corporate interests. Earthquakes and hurricanes only further devastated a state already decimated by the aid industrial complex. Based on years of on-the-ground reporting in Haiti and interviews with politicians in the US and Haiti, independent aid contractors, UN officials, and Haitians who struggle for their lives, homes, and families, *Aid State* is a conscience-searing book of witness.

**Municipal Fiscal Stress, Bankruptcies, and Other Financial Emergencies** Tatyana Guzman,Natalia Ermasova.2022-11-30 It is difficult to find someone who has not heard about the Puerto Rico, Detroit, Michigan, or Orange County, California, bankruptcies. While guides for responsibly managing government finances exist, problems often originate not because of poor financial reporting or financial deficiencies but because issues external to financial wellbeing arise,

such as economic, demographic, political, legal, or even environmental factors. Exacerbating the problem, there is not much advice in the existing literature on how to act when municipalities face financial struggles. Filling this important gap, this book explores fiscal health and fiscal hardships, municipal defaults and bankruptcies, and many other aspects to help guide local governments during fiscal distress. Fiscal hardships negatively affect the quality and availability of public goods and services and, consequently, the wellbeing of residents and businesses living and working in distressed municipalities. Turned off streetlights, unmaintained public parks, potholes, inconsistent garbage pickup, longer response time from emergency services, and multiple other issues that residents of the struggling municipalities deal with, lead to higher crime rates, lower quality of K-12 education, dangerous road conditions, lower housing values, outmigration of wealthier population, and numerous other problems. The COVID-19 pandemic put additional unprecedented pressure on municipal finances nationwide. In this book authors Tatyana Guzman and Natalia Ermasova evaluate distressed cities and municipalities and provide practical recommendations on improving their financial conditions. What are conditions and signs to look for to not to find yourself in similar situations? What can be done if your municipality is already experiencing fiscal hardships? What are the consequences of fiscal misfortunes? How does one exit a fiscal emergency? This book answers these and other questions and serves as a guide to fiscal health and prosperity for U.S. municipal governments, students and researchers in public finance, and general public management fields. *Legislative Calendar* United States. **A Brighter Future** Richard P. F. Holt, Daphne Greenwood.2014-12-18 As the United States continues its slow climb out of the Great Recession, it is important to focus on new directions to improve the standard of living in America. This book explores what is behind a faltering standard of living in the United States since the early 1980s and what can be done to restore it. The book is uniquely valuable in going beyond mainstream thinking about how to restore prosperity. Economics has traditionally equated economic growth (increases in per capita income) with improvements in quality of life and the standard of living. This book questions that assumption. The different chapters in the book show the standard of living as being more than income, to include many non-market aspects such as access to public goods (roads, clean air and water, schools, parks, and museums), intangible aspects of quality of life such as equity and a sense of community, and broadly based economic opportunities. This means that improving the standard of living is a multi-dimensional challenge rather than one of solely increasing aggregate demand, productivity, or GDP. This book embodies a pluralistic approach and draws on the expertise of a wide array of thinkers. The intended audience is for various courses offered in economics, sociology, political science, public policy programs, and in environmental and ecological studies.
