Interpreting David Bowen, Margareta Bowen. 1990-01-01 This volume is concerned with the profession and discipline of interpretation. The range of perspectives presented in this collection of essays exemplifies the rich diversity of the profession as we know it today. Interpreting has been known to exist through the ages, though it was not necessarily considered a profession as such. We can attribute the current standing of the practice, in large part, to the historical circumstances which determined it and the efforts of those who responded to the need for communication within these circumstances. In the same way, our anticipation of future needs and the measures we are taking to prepare our next generation of interpreters to meet them will undoubtedly shape the direction our profession takes in the 21st century. The contributors to this volume are practicing interpreters, teachers of interpretation, and administrators.

M/E/A/N/I/N/G Mira Schor, Susan Bee. 2000-12-27 *M/E/A/N/I/N/G* brings together essays and commentary by over a hundred artists, critics, and poets, culled from the art magazine of the same name. The editors—artists Susan Bee and Mira Schor—have selected the liveliest and most provocative pieces from the maverick magazine that bucked commercial gallery interests and media hype during its ten-year tenure (1986–96) to explore visual pleasure with a culturally activist edge. With its emphasis on artists' perspectives of aesthetic and social issues, this anthology provides a unique opportunity to enter into the fray of the most hotly contested art issues of the past few decades: the visibility of women artists, sexuality and the arts, censorship, art world racism, the legacies of modernism, artists as mothers, visual art in the digital age, and the rewards and toils of a lifelong career in art. The stellar cast of contributing artists and art writers includes Nancy Spero, Richard Tuttle, David Humphrey, Thomas McEvilly, Laura Cottingham, Johanna Drucker, David Reed, Carolee Schneemann, Whitney Chadwick, Robert Storr, Leon Golub, Charles Bernstein, and Alison Knowles. This compelling and theoretically savvy collection will be of interest to artists, art historians, critics, and a general audience interested in the views of practicing artists.

On Ethics and Interpreters Małgorzata Tryuk. 2015 The main goal of the book is to present the lives, loyalties, and identities of a large number of interpreters who, either by choice or by force, had to work in various extreme conditions, in wartime, armed conflict zones, during war criminals trials after World War II and in the Nazi concentration camps.

Decades of Crisis Ivan T. Berend. 2023-11-10 Only by understanding Central and Eastern Europe's turbulent history during the first half of the twentieth century can we hope to make sense of the conflicts and crises that have followed World War II and, after that, the collapse of Soviet-controlled state socialism. Ivan Berend looks closely at the fateful decades preceding World War II and at twelve countries whose absence from the roster of major players was enough in itself, he says, to precipitate much of the turmoil. As waves of modernization swept over Europe, the less developed countries on the periphery tried with little or no success to imitate Western capitalism and liberalism. Instead they remained, as Berend shows, rural, agrarian societies notable for the tenacious survival of feudal and aristocratic institutions. In that context of frustration and disappointment, rebellion was inevitable. Berend leads the reader skillfully through the maze of social, cultural, economic, and political changes in Hungary, Czechoslovakia, Yugoslavia, Poland, Romania, Bulgaria, Albania, Austria, Latvia, Lithuania, Estonia, and the Soviet Union, showing how every path ended in dictatorship and despotism by the start of World War II.

New Insights in the History of Interpreting Kayoko Takeda, Jesús Baigorri-Jalón. 2016-03-10 Who mediated intercultural exchanges in 9th-century East Asia or in early voyages to the Americas? Did the Soviets or the Americans invent simultaneous interpreting equipment? How did the US government train its first Chinese interpreters? Why is it that Taiwanese interpreters were executed for Japanese war crimes? Bringing together papers from an international symposium held at Rikkyo University in 2014 along with two select pieces, this volume pursues such questions in an eclectic exploration of the practice of interpreting, the recruitment of interpreters, and the challenges interpreters have faced in diplomacy, colonization, religion, war, and occupation. It also introduces innovative use of photography, artifacts, personal journals, and fiction as tools for the historical study of interpreters and interpreting. Targeted at practitioners, scholars, and students of interpreting, translation, and history, the new insights presented in the ten original articles aim to spark discussion and research on the vital roles interpreters have played in intercultural communication through history. Interpreting in Nazi Concentration Camps Michaela Wolf. 2016-07-28 This significant new study is concerned with the role of interpreting in Nazi concentration camps, where prisoners were of 30 to 40 different nationalities. With German as the only official language in the lager, communication was vital to the prisoners' survival. While in the last few decades there has been extensive research on the language used by the camp inmates, investigation into the mediating role of interpreters between SS guards and prisoners on the one hand, and among inmates on the other, has been almost nonexistent. On the basis of Primo Levi's considerations on communication in the Nazi concentrationary system, this book investigates the ambivalent role of interpreting in the camps. One of the central questions is what the role of interpreting was in the wider context of shaping life in concentration camps. And in what way did the knowledge of languages, and accordingly, certain communication skills, contribute to the survival of concentration camp inmates and of the interpreting person? The main sources under investigation are both archive materials and survivors' memoirs and testimonials in various languages. On a different level, *Interpreting in Nazi Concentration Camps* also asks in what way the study of communication in concentration camps enhances our understanding of the ambiguous role of interpreting in more general terms. And in what way does the study of interpreting in concentration camps shape an interpreting concept which can help us to better understand the violent nature of interpreting in contexts other than the Holocaust?
