Ojibway Heritage Basil Johnston.2011-01-28 Rarely accessible beyond the limits of its people, Ojibway mythology is as rich in meaning and mystery, as broad, as deep, and as innately appealing as the mythologies of Greece, Rome, Egypt, and other civilizations. In *Ojibway Heritage*, Basil Johnston sets forth the broad spectrum of his people's life, legends, and beliefs. Stories to be read, enjoyed, dwelt on, and freely interpreted, their authorship is perhaps most properly attributed to the tribal storytellers who have carried on the oral tradition which Basil Johnston records and preserves in this book.

The St. Bartholomew's Day Massacre Barbara B. Diefendorf.2008-09-02 A riveting account of the Saint Bartholomew's Day Massacre, its origins, and its aftermath, this volume by Barbara B. Diefendorf introduces students to the most notorious episode in France's sixteenth century civil and religious wars and an event of lasting historical importance. The murder of thousands of French Protestants by Catholics in August 1572 influenced not only the subsequent course of France's civil wars and state building, but also patterns of international alliance and long-standing cultural values across Europe. The book begins with an introduction that explores the political and religious context for the massacre and traces the course of the massacre and its aftermath. The featured documents offer a rich array of sources on the conflict — including royal edicts, popular songs, polemics, eyewitness accounts, memoirs, paintings, and engravings — to enable students to explore the massacre, the nature of church-state relations, the moral responsibility of secular and religious authorities, and the origins and consequences of religious persecution and intolerance in this period. Useful pedagogic aids include headnotes and gloss notes to the documents, a list of major figures, a chronology of key events, questions for consideration, a selected bibliography, and an index.

Deformed Discourse David Williams.1999 Adult survivors of children's stories can be forgiven for thinking the only function of medieval monsters was to fail, just barely, to eat virgins and to die, just barely, under the hero's ministrations. Williams (English, McGill U.) enlarges the view, tracing the poetics of teratology, the study of monsters, to Christian neoplatonic theology, especially the concept that God cannot be known except by knowing what he is not. He also provides a taxonomy of monsters with glosses, and examines the monstrous and deformed in three heroic sagas and three saints' lives. Includes many reproductions. World Heritage and Sustainable Development Peter Bille Larsen, William Logan. 2018-07-03 In 2015, the General Assembly of State Parties to the World Heritage Convention passed a ground-breaking Sustainable Development policy that seeks to bring the World Heritage system into line with the UN's sustainable development agenda (UNESCO 2015). World Heritage and Sustainable Development provides a broad overview of the process that brought about the new policy and the implications of its enactment. The book is divided into four parts. Part I puts the policy in its historical and theoretical context, and Part II offers an analysis of the four policy dimensions on which the policy is based – environmental sustainability, inclusive social development, inclusive economic development and the fostering of peace and security. Part III presents perspectives from IUCN, ICOMOS and ICCROM – the three Advisory Bodies to the World Heritage Committee, and Part IV offers 'case study' perspectives on the practical implications of the policy. Contributions come from a wide range of experienced heritage professionals and practitioners who offer both 'inside' perspectives on the evolution of the policy and 'outside' perspectives on its implications. Combined, they present and analyse the main ideas, debates and implications of the policy change. This book is key reading for all heritage professionals interested in developing a better understanding of the new Sustainable Development policy. It is also essential reading for scholars and students working in the area.

Biodiversity and Protected Areas Karen Beazley, Robert Baldwin. 2019-04-16 Biodiversity and Protected Areas assembles twelve topics from around the world, illustrating the complexities and promise of addressing the biodiversity crisis. Authors from Mongolia, Africa, India, Canada, Iraq, and the United States dwell on particular aspects and challenges relevant to those regions. Lessons and approaches from interesting localities, coupled with global analyses give the reader a synthetic view of emerging problems. The opportunities for understanding common issues across different geographies abound, such as comparing local conservation in sub-Saharan Africa with a distribution of very small protected areas in Massachusetts. Several topics will be of immediate interest to policymakers. The book is illustrated with numerous color maps and figures and the authors strove for clear, uncomplicated writing. The editors provide an overview of chapters, placing them in the context of other biodiversity and protected area literature. Students and conservationists attempting to broaden their views of biodiversity and protected areas should find this collection to be interesting.

Lost in the Barrens Farley Mowat. 2009-01-13 Awasin, a Cree Indian boy, and Jamie, a Canadian orphan living with his uncle, the trapper Angus Macnair, are enchanted by the magic of the great Arctic wastes. They set out on an adventure that proves longer and more dangerous than they could have imagined. Drawing on his knowledge of the ways of the wilderness and the implacable northern elements, Farley Mowat has created a memorable tale of daring and adventure. When first published in 1956, *Lost in the Barrens* won the Governor-General's Award for Juvenile Literature, the Book-of-the-Year Medal of the Canadian Association of Children's Librarians and the Boys' Club of America Junior Book Award.

Hill Jean Giono. 2016-04-05 An NYRB Classics Original Deep in Provence, a century ago, four stone houses perch on a hillside. Wilderness presses in from all sides. Beyond a patchwork of fields, a mass of green threatens to overwhelm the village. The animal world—a miming cat, a malevolent boar—displays a mind of its own. The four houses have a dozen residents—and then there is Gagou, a mute drifter. Janet, the eldest of the men, is bedridden; he feels snakes writhing in his fingers and speaks in tongues. Even so, all is well until the village fountain suddenly stops running. From this point on, humans and the natural world are locked in a life-and-death struggle. All the

elements—fire, water, earth, and air—come into play. From an early age, Jean Giono roamed the hills of his native Provence. He absorbed oral traditions and, at the same time, devoured the Greek and Roman classics. *Hill*, his first novel and the first winner of the Prix Brentano, comes fully back to life in Paul Eprile's poetic translation.

Peace was Made Here Renger Evert Bruin, Maarten Brinkman. 2013 The Treaty of Utrecht does not exist, at least not in the form of a single document bearing the signatures and seals of all parties. Instead it comprises a series of treaties, concluded in 1713 and in subsequent years, and not just in Utrecht but also in the South-German town of Rastatt, in Swiss Baden, and in Madrid. These treaties represent a turning point in world history. They not only put an end to a long series of wars that left much of Europe in ruins, but also to conflicts involving overseas colonies. A European exhibition is highlighting this historical event; first in Utrecht and then, in adapted form, in Madrid, Rastatt and Baden. In this book, scholars from the Netherlands, Germany, Switzerland, Spain, Great Britain and the United States describe and explain well-known and especially less-known aspects of war and peace. The catalogue section provides explanatory notes to the main items displayed in the exhibitions.

The Pataphysician's Library Ben Fisher. 2000-01-01 The Pataphysician's Library is a study of aspects of 1890s French literature, with specific reference to the traditions of Symbolism and Decadence. Its main focus is Alfred Jarry, who has proved, perhaps surprisingly, to be one of the more durable fin-de-siècle authors. The originality of this study lies in its use of the enigmatic list of books termed the livres pairs, which appears in Jarry's 1898 novel *Gestes et Opinions du docteur Faustroll*, pataphysicien, his best-known prose work. The greatest interest of the livres pairs lies in a group of works by Jarry's friends and contemporaries, primarily Leon Bloy, Georges Darien, Gustave Kahn, Catulle Mendès, Josephin Madan, Rachilde, and Henri de Regnier. Several of these authors feature as the lords of islands visited by the pataphysician Dr Faustroll in his curious voyage around Paris. In conjunction with Jarry's own works, the contemporary livres pairs serve to illustrate the vibrant and experimental atmosphere in which these authors worked.

Montaigne and Bayle Craig B. Brush. 2012-12-06 It is traditional in the literature on Pierre Bayle to make some reference to Montaigne as one of the masters of skepticism in whose tracks he follows, albeit hardly so closely as Charron had. Time and again critics feel the need to mention Montaigne and Bayle in the same context, sometimes to contrast their brands of Pyrrhonism, more often to explain similarities in their ideas and methods, which have frequently been regarded as important steps in the gradual evolution of un-Christian, even anti-Christian, thought. Their names were already associated during Bayle's life, for example, in the mediocre work by Dom Alexis Gaudin, *La Distinction et la Nature du Bien et du Mal, Traite ou l'on combat l'erreur des Manicheens, les sentimens de Jvfontaigne & de Charron, & ceux de J. Vfonsieur Bayle*. In the nineteenth century, the author of the *Dictionnaire historique et critique* was generally classified as a skeptic; and his name was inevitably linked with the essayist's. In his *Port-Royal*, Sainte-Beuve pictured Bayle as one of the avowed skeptics in Montaigne's funeral cortege and spoke of both men as *d'autant plus fourbes qu'ils ne le sont pas toujours*. His later works show that he revised his opinion on each somewhat, but in this he was unusual for his century.

Myth and Symbol I Synnøve Des Bouvrie.2002

Mother of the Gods Philippe Borgeaud.2004-11-12 Worshipped throughout the ancient Mediterranean world, the Mother of the Gods was known by a variety of names. Among peoples of Asia Minor, where her cult first began, she often shared the names of local mountains. The Greeks commonly called her Cybele, the name given to her by the Phrygians of Asia Minor, and identified her with their own mother goddesses Rhea, Gaia, and Demeter. The Romans adopted her worship at the end of the Second Punic War and called her Mater Magna, Great Mother. Her cult became one of the three most important mystery cults in the Roman Empire, along with those of Mithras and Isis. And as Christianity took hold in the Roman world, ritual elements of her cult were incorporated into the burgeoning cult of the Virgin Mary. In *Mother of the Gods*, Philippe Borgeaud traces the journey of this divine figure through Asia Minor, Greece, and Rome between the sixth century B.C. and the fourth century A.D. He examines how the Mother of the Gods was integrated into specific cultures, what she represented to those who worshiped her, and how she was used as a symbol in art, myth, and even politics. The Mother of the Gods was often seen as a dualistic figure: ancestral and foreign, aristocratic and disreputable, nurturing and dangerous. Borgeaud's challenging and nuanced portrait opens new windows on the ancient world's sophisticated religious beliefs and shifting cultural identities.

Narratives of fear and safety Kaisa Kaukiainen,Kaisa Kurikka,Hanna Mäkelä,Elise Nykänen,Sanna Nyqvist,Juha Raipola,Anne Riippa,Hanna Samola.2020-09-01 The essays in this edited volume, written in English and French, tackle the intriguing problems of fear and safety by analysing their various meanings and manifestations in literature and other narrative media. The articles bring forth new, cross-cultural interpretations on fear and safety through examining what kinds of genre-specific means of world-making narratives use to express these two affectivities. The articles also show how important it is to study these themes in order to understand challenges in times of global threats, such as the climate crisis. The main themes of the book are approached from various theoretical perspectives as related to their literary and cultural representations. Recent trends in research, such as affect and risk theory, serve as the basis for the discussion. The articles in the volume also draw from disciplines such as gender studies and trauma studies to examine the threats posed by collective fears and aggression on individuals' lives and propose ways of coping with fear. These themes are addressed also in articles analysing new adaptations of old myths that retell stories of the past. Many of the articles in the volume discuss apocalyptic and dystopian narratives that currently permeate the entire cultural landscape. Dystopian narratives do not only deal with future threats, such as totalitarianism, technocracy, or environmental disasters, but also suggest alternative ways of being and new hopes in the form of political resistance.

Contexts of Conscience in Early Modern Europe, 1500-1700 H. Braun,E. Vallance.2003-12-16 In the early modern period, the conscience stood as a powerful mediator between God and man, directing and judging moral actions. This collection conveys the breadth of the conscience's jurisdiction, analyzing its impact on politics, religion, science, and the understanding of gender and sexuality. It demonstrates how individuals resolved ethical problems in these areas through applying the methods of casuistry, the branch of theology devoted to resolving difficult moral cases. However, casuistry itself was challenged by newer sources of moral guidance.

Managing Environmental Disputes Pieter Glasbergen.1995-06-30 The concept of sustainable development is a source of inspiration for many, who see it as a call to cooperative action. In practice, however, policies intended to further this goal often generate conflicts of interest. The ensuing disputes occur among governmental organizations, but disputes also arise between public authorities, private interest groups, and the environmental movement. In the opinion of the authors, the fact that environmental policy can provoke such conflict may be attributed largely to decision making procedures in our society. Accordingly, the authors are convinced that a new approach to managing environmental disputes is needed in order to deal effectively with environmental problems. Indeed, this book presents a viable alternative, which is called network management.

Christ's Churches Purely Reformed Philip Benedict.2008-10-01 This sweeping and eminently readable book is the first synthetic history of Calvinism in almost fifty years. It tells the story of the Reformed tradition from its birth in the cities of Switzerland to the unraveling of orthodoxy amid the new intellectual currents of the seventeenth century. As befits a pan-European movement, Benedict's canvas stretches from the British Isles to Eastern Europe. The course and causes of Calvinism's remarkable expansion, the inner workings of the diverse national churches, and the theological debates that shaped Reformed doctrine all receive ample attention. The English Reformation is situated within the history of continental Protestantism in a way that reveals the international significance of English developments. A fresh examination of Calvinist worship, piety, and discipline permits an up-to-date assessment of the classic theories linking Calvinism to capitalism and democracy. Benedict not only paints a vivid picture of the greatest early spokesmen of the cause, Huldrych Zwingli and John Calvin, but also restores many lesser-known figures to their rightful place. Ambitious in conception, attentive to detail, this book offers a model of how to think about the history and significance of religious change across the long Reformation era.
