Fork-Tail Devil James G. Speight.2015-01-16 This is an American story as told to me during many conversations that I had over a four-year period with Robert Carl Milliken (Bob). The book is important because it tells of men and women who stood up to be counted when their country called - people whose deeds are fading into history and soon may be forgotten. The book incorporates the early history of Wyoming by starting with the first arrival of Bob's family in the Wyoming Territory before Statehood was conferred and follows the events which led Bob to his actions as a World War II Fighter Ace (he flew 68 combat missions). For the reader, I have also placed Bob's life in the perspective of the parallel actions that occurred in the Western United States and then during World War II in the European and Pacific Theaters. The book will serve as a reminder for those readers who are not familiar with the events of World War II but who will appreciate and understand events outside of their own experience. In addition, it will help the families of World War II veterans to remember with pride the men and women who answered the call of their country. And last but definitely not least, there is also Zella's story - the young woman who Bob married on August 25 1946 and who bore four children, three daughters and one son. Zella's family history is also interesting - the family can be traced back to 1617 in England and she is a descendent of one of the two regicide judges who authorized the execution of King Charles I of England after he was deposed by the forces of Oliver Cromwell during the English Civil War (1642-1649). Furthermore, this book is not only a tribute to Bob and Zella but also to Zella's brother Bobby (Master Sergeant Robert Lewis Bell) who saw action on many missions as the belly gunner in a B-24 bomber and who researched the history of the Bell family in considerable detail.

Their toy motor vehicles go back to the early days of the automobile--which was itself born in Germany. In this new book, Ed Force shows the work of the leading German manufacturers of diecast toys. Included are Conrad, Cursor, Gama, Marklin, N.Z.G. Schabak Schuco, Ziss and R.W., and others. Corgi Toys David Cooke.2008-10-21 Although the name Corgi Toys was not introduced until 1955, the roots of the original holding company, Mettoy, go back to 1932 when a German toymaker called Philipp Ullmann arrived in Britain to form a new toy manufacturing company. This company produced many types of toys, both before and after the Second World War, mainly in tinplate. In the 1950s Mettoy began to produce diecast metal toys and hence, in 1956 the first Corgi Toys were released to the children's toy market and proved an immediate success. Over the next 30 years hundreds of miniature vehicles would be modeled on contemporary vehicles such as Vauxhalls, Rileys, Hillmans, Standards, Commers and ERFs. Corgi also made daring and successful ventures into film-and-TV related toys with their versions of James Bond, The Saint and Batmobile cars selling millions. Life-long collector David Cooke explores the history of Corgi Toys, describing the various models and illustrating how these simple children's toys became valuable collectables. He also charts the recent financial problems faced by the company, and their resurgence based upon Limited Edition collectors' models sold direct to an adult market.
