How to Make Money Online - The Real Secrets Revealed Wisdom Gabriel.2017-09-14 NO PRIOR EXPERIENCE REQUIRED. ALL INSTRUCTIONS ARE FULLY DETAILED AND STEP-BY-STEP SO ANYONE CAN FOLLOW THEM EASILY. Online passive income is the ultimate dream. Making money while you sleep. Everybody wants it. But is it really possible? The short answer is YES The longer answer is yes, but it isn't easy to accomplish. If it was, wouldn't everyone be doing it? In my ebook, I give you a step-by-step plan on how to develop a passive income online business and show you how making money online actually works (with links to supporting lessons for extra clarity). The specific plan I teach is designed to make you \$5,000+ per month in passive income earnings, based on Blogging, Affiliate Marketing, Freelancing and Selling of Digital Products. Once you understand the process though, you can decide to work with any of them or with all. When you stop is up to you (and yes, there are people making tens of thousands of dollars per month on the Internet based on these concepts-they just love the work and don't ever stop. What's great about the business plan that I teach you is not only the income level you will accomplish if you follow through, but all that you will learn in the process. The skills you learn in this ebook will enable you to build all kinds of online businesses and open the door for all kinds of entrepreneurial projects you may have. Not only that, you will be able to evaluate business ideas much more intelligently once you've gone through this whole process. You will understand the fundamentals of keyword research & analysis, traffic & lead generation, social & affiliate marketing, monetization & conversion testing, and traffic analysis. These skills will help you immensely in ANY business you ever decide to start (online or not, passive or not). Generating an online passive income won't happen overnight and takes a lot of hard work, but going through the process is completely worth it and having an exact plan of action is the ONLY way to ensure success. Let me put it this way: if you were offered no pay for six months for 40+ hours of work per week, but after those six months, you got \$5,000+ per month for the rest of your life, would that be worth it to you? If that idea isn't unbelievably exciting to you, then this isn't the business for you. This isn't a get rich quick scheme. This is a business. Except with this business, instead of trading your time for money (like most jobs), you are investing your time. You work hard now and continue to reap the benefits indefinitely. Building an online business takes a lot of work and a lot of patience, but the rewards can be amazing. That's the kind of business that I teach you in this ebook. Here's what you will learn 1. The Truth Behind the Internet and making money online 2. The only ways you can truly make money online 3. Blogging - What is blogging? 4. Affiliate Marketing - What is Affiliate Marketing? 5. Freelancing - what is freelancing? and much more things you will learn.

How to Make \$2,000 a Month Online McVal Osborne.2018-08-10 Imagine waking up every day with the freedom to decide where you want to travel to, and how much you want to work the next week. Imagine making six-figures a MONTH, rather than a YEAR. Well, what if I told you you could be making \$2,000 extra each month within 30 days? You'd think I was some kind of scam artist, right? I've read over 100 books on online money making and freelancing in the last two years alone. I've also interviewed dozens of experts who agreed to speak to me about the topic and how they got to where they are today. Don't get me wrong, it's not like I have some magic ability for getting people to make money online and start working remotely. It's just that I know one thing lots of other people don't: It's all about mindset. Top freelancers, remote workers and location independent entrepreneurs are willing to take risks, learn new skills, and sell solutions that customers really want. They don't care if they have credentials. They don't care if they've done this before. They don't even care if they have the necessary skills (yet). The bottom line? They shift their frame of mind away from the self and concentrate on what people out in the market are saying they want.

Legitimate Work from Home Jobs Richard Foreman.2015-06-02 Now mind you, some people do not view it as such. They simply get up every day, go to work, come home, have dinner, maybe read the paper, maybe watch some t.v., maybe work on a hobby, and eventually go to bed only to do it all over again the next day. Then one day, they wake up 40 years later and all of a sudden they realize that they are 65 years old and the best years of their life are now behind them. Well guess what....NO THANK YOU. As for me, and now you, I have found a better way. A way that will not make me as rich as Bill Gates or Donald Trump or Robert Kiyosaki or fill in the blank, but it certainly will allow me to quit the rat race and live life on my own terms. You also can get to a state of financial freedom that will allow you to live life on your own terms as opposed to the terms dictated to you by your J.O.B. Now maybe freedom for you is simply time freedom where you can spend more of your time doing the things you want to do with your family. Well if you follow my teachings, you can reach the level of time freedom that you seek. In this book, I will show you how you can start your very own home based business in your spare time. Remember from above where I said...maybe read the paper, maybe watch t.v., maybe work on a hobby...that's the spare time that I am referring to. Forget all that other stuff and pay attention here. Before you know it, you will have built a nice business for yourself that you can even sell for a tidy sum as you shall see. Eventually, what will happen is that you will start to see a small (maybe even minuscule) amount of money flow into your bank account from your online business. Once this happens, fireworks will start to go off in your head. You will start to say things like wow, this really works and wow, that book I bought by John C. Borg was the real deal and wow, who would have thought that you could really make money by working at home part time with an online venture and wow, if I work hard enough at this, I really will be able to quit the rat race.

Income is the consumption and saving opportunity gained by an entity within a specified timeframe, which is generally expressed in monetary terms.[1][2][3] For households and individuals, income is the sum of all the wages, salaries, profits, interest payments, rents, and other forms of earnings received in a given period of time.[4] (also known as gross income). Net income is defined as the gross income minus taxes and other deductions (e.g., mandatory pension contributions), and is usually the basis to calculate how much income tax is owed.

1. EARNED (ACTIVE) INCOME Definition: Earned income is money earned from working that requires your time. This is the income you receive from actively working. You work and you are paid for your work. Examples: Salary; wages; bonuses; contract work. Tax implications: Earned income is taxed higher than any other income, at a rate of 10%-35%, plus Medicare, Social Security, and other taxes, which can reach close to 50% based on tax calculators and estimators. Characteristics: It's hard to become wealthy solely from earned income for a few reasons. First, it's taxed at the highest rate, and second, there are only so many hours in the day for you to work (you can work and work and work, but if you have to be there to make the money, there's a cap on your income because time is limited). Another downside besides taxes is that once you stop working, the money stops coming in. On the upside, earned income is the easiest type of income to make. You can just go get a job or side job pretty easily in the US and make some money. This is why most people make money this way—it's easy to do. A great way to switch over into better types of income is to use earned income by putting it into a portfolio or to start a side hustle or business (this is what I did by starting a blog, which is now my full time business).

2. PORTFOLIO INCOME Definition: Portfolio income is money you receive from selling an investment for more than what you paid for it (portfolio income is also referred to as capital gains). Examples: 1) trading assets, like stocks, bonds, and mutual funds, 2) buy and selling real estate, and 3) buying and selling other assets, like a car. Tax implications:

Portfolio income is taxed at 10%-20% for investments held over 12 months and taxed as earned income if held less than 12 months. However, portfolio income is not taxed for Medicare or Social Security. Capital gains can be offset by losses on other investments, which is a huge plus. Characteristics: One downside is that for the average person, investing can seem intimidating. This often keeps people away from doing it. It wasn't until I became a Certified Financial Planner that I really understood what was going on with respect to portfolio income. If you're just getting started with investing, read this post - 21 tips for investing in your 30's. Also, this type of income can take a long time to generate if you believe in many of the widely held investing concepts that require buying and holding for years. If you're a trader and attempt to do it much faster, you better be really good at it, because otherwise, it's sort of like gambling. You have to have money to invest upfront to create portfolio income. This is a huge reason why people say they don't invest. You can start with a small amount and contribute to your investments over time, but it requires you to have the capital to do it. If you want to get started with hiring someone to help you with your money, read this post on questions you should ask your financial advisor before hiring her. I like using investing as a supplemental income strategy. I don't want to retire, but I like the idea that I could if I ever change my mind or it became medically necessary. So, I save and invest as a bit of a safety net, but not as the end goal of retiring as soon as possible. I like contributing to the world through my work, and I also like creating a lot of income. I just don't ever tie my "hard work" or time to income generated. This way, I know my income potential is unlimited.

3. PASSIVE INCOME Definition: Passive income is money generated from assets you own, where you are not actively working. Examples: Rental income, business income (as long as it's not earned based on time and effort), creating/selling intellectual property (e.g.: books). Tax implications: Passive income receives the most favorable tax treatment. Characteristics: Passive income is thought to be the key to building wealth. Once you have an investment that generates recurring income, you don't have to do much to maintain it (so time is not a limitation). Typically, there isn't much start up cost to passive income that you have to provide yourself. For example, you can use your time to create a business or you can get funding from investors for your real estate properties or start up company. It's not as easy as earned income, but it's not as challenging as portfolio income (in terms of start up funds). It takes a lot of money to make a lot of portfolio income, whereas you can generate a lot of passive income with less. I started a blog with the idea of generating passive income (the Smart Passive Income podcast used to be on repeat!). It's one of the best things I ever did! A FINAL NOTE! Understanding how income works is important because it affects how you go about deciding what results you want with money in your future. Do you want to retire? Do you want financial independence early? Do you want to focus on contributing to the world through your work as an entrepreneur? Do you want money just to be a scorecard of the value you provide? Do you believe that "hard work" and time create money? (So many questions!) These are philosophical questions, but whatever you believe will drive your feelings, which will drive your actions, which will drive your results. So, ultimately, your beliefs drive your results (you can read more about this in the 5 step framework to master your mindset post here). Based on what you choose to believe, you could end up financial independent and retiring very young and living off 4% of your investment portfolio, with frugal values, while traveling, and doing whatever else you want to experience the world while you're alive. Or, you could end up a multimillionaire focusing on serving the world through your work and never retiring. Completely different results. Both involve a lot of money. What you choose matters. What you believe about money matters. What you do matters. The three different types of income are a way of learning how to use money to your advantage to get the results you want most. This is the way our system works. The sooner you understand how money works, the sooner you can make better decisions that will help you achieve financial success (whatever that looks like to you).
