Symbiosis and Autonomy Franz Ruppert.2012-07 This is the third book by Professor Franz Ruppert to be translated into English. In it he explores the relationship between our symbiotic interconnectedness and our ability to be autonomous in our lives. The relationship between these two aspects of being is absolutely influenced by early attachment trauma, what Ruppert has termed 'symbiotic trauma': the trauma of an infant attempting to connect with a mother who is herself already traumatised. Additionally Ruppert gives a detailed account of the 'Constellation of the Intention', the process he has devised for working with the psychological splits induced by trauma. This is a particular form of constellation that addresses issues of fragmentation. For those interested in trauma, and understanding how to work with it, this is truly groundbreaking work. Ruppert's thinking draws on many historical roots but is, even so, particularly unique. It takes us outside our normal ways of thinking about trauma, attachment and what it means to be a human being.

Putting Family First William J. Doherty,Barbara Carlson.2002-08-02 The founders of a lauded family advocacy organization present a guide for reclaiming family life, even in the most hectic households. In the past twenty years, children's free time has declined by twelve hours a week, time spent on structured sports activities has doubled, family dinners are down by a third, and the number of families taking vacations together has decreased by 28 percent. When William J. Doherty and Barbara Z. Carlson observed this trend in their own families and community, they took action and founded Family Life First, an organization committed to helping parents reclaim family time. Doherty and Carlson offer realistic ways to regain valuable family connections and embark on more balanced, meaningful relationships at home. Drawing on their years of hands-on experience, they share tips for time-crunched parents on how to: --get everyone to sit down for family meals --make bedtime a meaningful end to the day --plan family outings and vacations --make time for your marriage More than just a time-management manual, this book delves into the issues that lie at the heart of all family-related choices, revealing innovative ways to address scheduling conflicts, competitiveness, and the many other situations that cause daily angst. Offering a new perspective on a fraying institution, Putting Family First restores a sense of fulfillment, fun, and security to the family once again.

Burnout in Families Charles R. Figley.1997-12-29 Sleeplessness, depression, anxiety... these are common symptoms of the burnout that often accompanies living with a loved one who has experienced some kind of traumatic stress. It's well known that the loss of a child, a life-threatening injury, sexual assault or combat experience can affect the victim in traumatic ways, but what's often overlooked is how this trauma affects those closest to the victim - the family. Burnout in Families focuses on the emotional vulnerability of families exposed to the chronic or acute stress of one of its members. Editor Charles R. Figley brings together seven psychologists from around the United States to take a closer look at what's now known as secondary traumatic stress disorder - the burnout that occurs when family members care for or just live with other family members who have undergone a traumatic life event. The authors provide a comprehensive review of the available literature and offer solutions for treating and preventing family burnout and the marital and family discord that inevitably follows. Burnout in Families is an ideal text for university-level psychology, family therapy and social work courses.

Michelle Remembers Michelle Smith,Lawrence Pazder.1989-07-15 A best-seller, Michelle Remembers was the first book written on the subject of satanic ritual abuse and is an important part of the controversies

beginning in the 1980s regarding satanic ritual abuse and recovered memory. The book has subsequently been discredited by several investigations which found no corroboration of the book's events, and that the events described in the book were extremely unlikely and in some cases impossible. ... Soon after the book's publication, Pazder was forced to withdraw his assertion that it was the Church of Satan that had abused Smith when Anton LaVey (who founded the church years after the alleged events of Michelle Remembers) threatened to sue for libel--Wikipedia.

Wege aus der Mitgeföhlsmüdigkeit Angelika Rohwetter.2019 Ein Gefühl von Unlust und Ungeduld gewissen Patienten gegenüber zu haben, ist häufig Thema in Supervisionen - und kann Ausdruck einer sogenannten Mitgeföhlsmüdigkeit (Compassion Fatigue) sein. Die eigenen Ressourcen sind erschöpft, Gedanken wie Mensch, so schlimm ist das ja nicht prägen den Arbeitsalltag anstelle eines empathischen und geduldigen Umgangs mit den Patienten. Eine konstruktive Behandlung ist nicht möglich. Aber: Übermüdet zu sein vom eigenen Beruf, gelangweilt von vielen Wiederholungen - das ist ein Tabu für Psychotherapeut_innen, jedoch kein seltenes Phänomen: Die Mitgeföhlsmüdigkeit mag sich lange unbemerkt im Laufe vieler Jahre psychotherapeutischer Arbeit entwickeln, kann jedoch durchaus auch bei jüngeren Psychotherapeut_innen auftreten. Das Anliegen dieses Fachbuchs ist es, im Rahmen guter Selbstfürsorge Wege aus dieser Mitgeföhlsmüdigkeit aufzuzeigen. Nach einer Einführung und Übersicht über Theorien zur Mitgeföhlsmüdigkeit wird im praktischen Teil mit einer Fülle an praktischen Vorschlägen und Übungen gezeigt, was man dagegen tun kann und wo jeder einzelne bei sich ansetzen kann.

Brain Talk David Schnarch.2018-01-13 Have you ever done something you knew would make someone else happy, sad or angry? Have you ever bought a thoughtful gift for someone you love? Or realized someone was being sarcastic with you? Or enjoyed someone else's misfortune? These everyday events involve mind mapping, your brain's ability to create mental pictures of how someone else's mind works. Mind mapping underlies all aspects of daily life, from the best to the worst. You won't find an aspect of your life where mind mapping isn't involved-and you probably never heard about mind mapping before! Brain Talk offers what you need to know about mind mapping and the emerging brain science of interpersonal neurobiology (how interacting with other people affects your brain). Brain Talk is written for the general public in an easy-to-read style and establishes a personal relationship with you. It creates vivid pictures in your mind with attention-grabbling examples, and walks you into powerful new insights about yourself and the important people in your life. Reading Brain Talk can be a life-changing experience. * Part One explains mind mapping and increases your ability to read people and map their minds (and your own). It helps you know what they want, what they're feeling and thinking, and what they're likely to do. Part One also covers mind masking (shielding your mind from being mapped), lying and deception. Brain Talk revolutionizes your understandings of yourself, your spouse or romantic partner, and your children, parents, siblings, and coworkers. * Part Two explores the darker aspects of mind mapping, like traumatic mind mapping and antisocial empathy.Traumatic mind mapping occurs when mapping some else's mind leaves your brain/mind traumatized. Did you grow up in a troubled home with experiences that produced vivid flashbulb memories lingering in your mind? Do you have recurring thoughts about someone you're dealing with who does disturbing things? Brain Talk helps you understand subtle interpersonal trauma and reveals the short- and long-term negative impacts of traumatic mind mapping. * Part Three shows you how to repair the negative impacts of traumatic mind mapping and effectively handle the difficult people in your life. Brain Talk also details how to use mind mapping to create positive healthy interactions with those you love, and ends on an uplifting note. Brain Talk is based on Crucible(r) Neurobiological Therapy, developed through fifteen years of clinical research with highly troubled clients. Brain Talk is also a crossover book for therapists, educators, and avid readers of brain science. * Four Appendices contain the scientific research underlying the main text and offer in-depth discussions of important topics and treatment details (over 100 pages and 400 references). Brain Talk is available in three versions: paperback and TWO Kindle versions (Standard and Professional). Brain Talk Professional Edition offers the additional functionality of directly downloading FREE scientific brain research articles published online. Consider this electronic edition if you a mental health professional, academic, graduate student, or die-hard brain wonk.(Read about Brain Talk Pro here.) Brain Talk is written by the award-winning clinical psychologist, Dr. David Schnarch, renowned relationship expert and author of the international best-selling books, *Passionate Marriage and Intimacy & Desire*. He has a proven track record for creating innovative therapies, and making complex brain science understandable and useful to the general public. His ground-breaking professional contributions have received awards from the American Psychological Association, the American Assn. for Marriage and Family Therapy, and the American Assn. of Sex Educators, Counselors, and Therapists. He is Board Certified in Couple and Family Psychology (ABPP), and his textbook *Constructing the Sexual Crucible* is used by therapist training programs around the world.
