**Perfect Pairs, 3-5** Melissa Stewart,Nancy Chesley.2023-10-10 Hands-on lessons can be fun and compelling, but when it comes to life science, they aren't always possible, practical, effective, or safe. Children can't follow wolves as they hunt elk, visit a prehistoric swamp, or shrink down to the size of a molecule and observe photosynthesis firsthand. But they can explore a whole world of animals, plants, and ecosystems through the pages of beautifully illustrated, science-themed picture books. Perfect Pairs , which marries fiction and nonfiction picture books focused on life science, helps educators think about and teach life science in a whole new way. Each of the twenty lessons in this book is built around a pair of books that introduces a critical life science concept and guides

students through an inquiry-based investigative process to explore that idea-;from life cycles and animal-environment interactions to the inheritance of traits and the critical role of energy in our world. Each lesson starts with a Wonder Statement and comprises three stages. Engaging Students features a hands-on activity that captures student interest, uncovers current thinking, and generates vocabulary. The heart of the investigative process, Exploring with Students, spotlights the paired books as the teacher reads aloud and helps students find and organize information into data tables. Encouraging Students to Draw Conclusions shows students how to review and analyze the information they have collected. Bringing high-quality science-themed picture books into the classroom engages a broad range of students, addresses the Performance Expectations outlined in the Next Generation Science Standards, and supports the goals of the Common Core State Standards for English Language Arts. Even if you are science shy, Perfect Pairs can help you become a more confident teacher whose classroom buzzes with curious students eager to explore their natural world.

**Amplify Student Voices** AnnMarie Baines,Diana Medina,Caitlin Healy.2023-01-26 Learn how to cultivate student voices and facilitate equitable participation so that young people are prepared to speak up and lead when the moment calls for it. In a world where public speaking often determines whose needs are addressed and whose values prevail, how can we create brave classroom spaces where young people can effectively express their thoughts and advocate for themselves and others? In *Amplify Student Voices*, AnnMarie Baines, Diana Medina, and Caitlin Healy introduce Expression-Driven Teaching to show how centering youth voices and expression in the classroom meets both academic and social and emotional learning goals. The authors promote instruction in various forms of public speaking—storytelling, debate, poetry, presentation, and self-advocacy—as a way to pursue equity in education and counter the oppression that has long silenced the voices of marginalized groups. This engaging book features extensive first-person accounts from young people who describe their journey toward effective public speaking and how it has helped them affirm their identity, confront life's many challenges, and pursue opportunities with increased confidence. Their insights also inform and supplement the authors' practical recommendations and how-tos for incorporating the various public speaking formats into everyday instruction at all grade levels and across subject areas. Both informative and inspiring, *Amplify Student Voices* challenges traditional notions of good public speaking, broadens its definition, and demonstrates how to engage learners to create a world that is more inclusive and just.

*Making Poetry Happen* Sue Dymoke, Myra Barrs, Andrew Lambirth, Anthony Wilson. 2015-01-29 UKLA Academic Book Award 2016: Highly Commended *Making Poetry Happen* provides a valuable resource for trainee and practicing teachers, enabling them to become more confident and creative in teaching what is recognized as a very challenging aspect of the English curriculum. The volume editors draw together a wide-range of perspectives to provide support for development of creative practices across the age phases, drawing on learners' and teachers' perceptions of what poetry teaching is like in all its forms and within a variety of contexts, including: - inspiring young people to write poems - engaging invisible pupils (especially boys) - listening to poetry - performing poetry Throughout, the contributors include practical, tried-and-tested materials, including activities, and draw on case studies. This approach ensures that the theory is clearly linked to practice as they consider teaching and learning poetry to those aged between 5 and 19 from different perspectives, looking at reading; writing; speaking and listening; and transformative poetry cultures. Each of the four parts includes teacher commentaries on how they have adapted and developed the poetry activities for use in their own classroom.

Offering an approach to architectural conservation practice focused on the design and implementation processes, it provides a post-occupation evaluation of the effects of such physical actions on historic learning environments and their values. A comprehensive study of architectural conservation and Theory of Change (ToC) is supported by an extensive literature review and personal insights from the author's everyday practice. Using a selection of recently rehabilitated historic secondary schools in Portugal (liceus), the text presents insights into their existing cultural significance, identifying the design strategies

applied and assessing the short-term effects of design decisions on the cultural values. It demonstrates that, whilst design strategies were less concerned with social values, material cultural values were generally considered and preserved, contributing to the enhancement of intangible values. The implications of this research highlight the importance of evaluating actual effects in cultural heritage theory, architectural conservation practice and heritage management policy. Following worldwide investment in the rehabilitation of schools, the interest in this topic has grown among architectural heritage academics and practitioners, who seek to better understand and approach these learning environments in order to achieve better outcomes. The book will also be of interest to public policy makers, given its emphasis on the importance of stakeholder engagement in the conservation process and in the sustainability of re-using existing buildings. Furthermore, it will capture the attention of schools' stakeholders, including students, parents, teachers, non-teaching staff, alumni and the local community, for whom the school environment is a collective, shared memory.

**Dictionary of the Old Testament: Wisdom, Poetry & Writings** Tremper Longman III, Peter Enns. 2010-05-11 Christianity Today Merit Award winner ECPA Gold Medallion The Old Testament books of wisdom and poetry carry themselves differently from those of the Pentateuch, the histories or the prophets. The divine voice does not peal from Sinai, there are no narratives carried along by prophetic interpretation nor are oracles declaimed by a prophet. Here Scripture often speaks in the words of human response to God and God's world. The hymns, laments and thanksgivings of Israel, the dirge of Lamentations, the questionings of Qohelet, the love poetry of the Song of Songs, the bold drama of Job and the proverbial wisdom of Israel all offer their textures to this great body of biblical literature. Then too there are the finely crafted stories of Ruth and Esther that narrate the silent providence of God in the course of Israelite and Jewish lives. This third Old Testament volume in InterVarsity Press's celebrated Black Dictionary series offers nearly 150 articles covering all the important aspects of Job, Proverbs, Ecclesiastes, Psalms, Song of Songs, Lamentations, Ruth and Esther. Over ninety contributors, many of them experts in this literature, have contributed to the Dictionary of the Old Testament: Wisdom, Poetry Writings. This volume maintains the quality of scholarship that students, scholars and pastors have come to expect from this series. Coverage of each biblical book includes an introduction to the book itself as well as separate articles on its ancient Near Eastern background and its history of interpretation. Additional articles amply explore the literary dimensions of Hebrew poetry and prose, including acrostic, ellipsis, inclusio, intertextuality, parallelism and rhyme. And there are well-rounded treatments of Israelite wisdom

and wisdom literature, including wisdom poems, sources and theology. In addition, a wide range of interpretive approaches is canvassed in articles on hermeneutics, feminist interpretation, form criticism, historical criticism, rhetorical criticism and social-scientific approaches. The Dictionary of the Old Testament: Wisdom, Poetry Writings is sure to command shelf space within arm's reach of any student, teacher or preacher working in this portion of biblical literature. Tremper Longman III and Peter E. Enns edit this collection of 148 articles by 90 contributors on Job, Psalms, Proverbs, Ecclesiastes, Song of Songs, Lamentations, Ruth and Esther. Reference volumes in the IVP Bible Dictionary Series provide in-depth treatment of biblical and theological topics in an accessible, encyclopedia format, including cross-sectional themes, methods of interpretation, significant historical or cultural background, and each Old and New Testament book as a whole.

Psalms 1-50, Volume 19 Peter C. Craigie, Marvin Tate. 2018-04-24 The Word Biblical Commentary delivers the best in biblical scholarship, from the leading scholars of our day who share a commitment to Scripture as divine revelation. This series emphasizes a thorough analysis of textual, linguistic, structural, and theological evidence. The result is judicious and balanced insight into the meanings of the text in the framework of biblical theology. These widely acclaimed commentaries serve as exceptional resources for the professional theologian and instructor, the seminary or university student, the working minister, and everyone concerned with building theological understanding from a solid base of biblical scholarship. Overview of Commentary Organization Introduction—covers issues pertaining to the whole book, including context, date, authorship, composition, interpretive issues, purpose, and theology. Each section of the commentary includes: Pericope Bibliography—a helpful resource containing the most important works that pertain to each particular pericope. Translation—the author's own translation of the biblical text, reflecting the end

result of exegesis and attending to Hebrew and Greek idiomatic usage of words, phrases, and tenses, yet in reasonably good English. Notes—the author’s notes to the translation that address any textual variants, grammatical forms, syntactical constructions, basic meanings of words, and problems of translation. Form/Structure/Setting—a discussion of redaction, genre, sources, and tradition as they concern the origin of the pericope, its canonical form, and its relation to the biblical and extra-biblical contexts in order to illuminate the structure and character of the pericope. Rhetorical or compositional features important to understanding the passage are also introduced here. Comment—verse-by-verse interpretation of the text and dialogue with other interpreters, engaging with current opinion and scholarly research. Explanation—brings together all the results of the discussion in previous sections to expose the meaning and intention of the text at several levels: (1) within the context of the book itself; (2) its meaning in the OT or NT; (3) its place in the entire canon; (4) theological relevance to broader OT or NT issues. General Bibliography—occurring at the end of each volume, this extensive bibliography contains all sources used anywhere in the commentary.
