Paul Kossoff: All Right Now J. P. James. 2017-11-02 Affectionately known as 'Koss', Paul Kossoff's playing touched people. It still does today, more than forty years after his sad and untimely death at the age of twenty-five. This authorised biography pays fitting tribute to a much-loved and widely admired musician whose influence and inspiration is still very evident. It's all here: Kossoff's musical childhood, his formative years with Black Cat Bones, forming Free at seventeen, that group's dizzying success, breakup, reforming and dissolution, the solo years, Back Street Crawler - the sessions, the tours and big concerts, the triumphs, the tragedies and the heartbreak - J.P. James takes the reader right there. Over four distinct sections, Kossoff's many guitars and the equipment he used to make them sing are fully documented; a brand-new detailed analysis of Kossoff's distinctive playing style and technique is presented for the first time; a broad overview of Kossoff's creative life draws on the voices of family, friends and fellow musicians; and finally, Kossoff's musical influences, approach to playing and his wider musical interests,

hopes and dreams are explored - all drawn from his own words. Cramming so much into his short years, Paul Kossoff left a rich musical legacy, and he is indeed All Right Now. Thoroughly researched and sensitively written, given often in Kossoff's own words and packed with anecdotes from those who were there, musicians and fans alike will enjoy this authoritative and comprehensive biography.

The Numinous Legacy Adair Butchins.2002 Where is God in the universe if anywhere? Why did God make germs? Why should we be so special? Could the universe have been different? This is a book that brings home, in no uncertain fashion, the discrepancy between the universe envisaged by the ancient sages and prophets and that of modern scientific cosmology, where the possibility of divine intervention looks less and less likely. Butchins demonstrates with clarity how the scientific method may be used, despite certain drawbacks, in an attempt to verify objective truth. It describes how the effect of the Copernican Revolution in the seventeenth century has steadily undermined the basic structure of the three great monotheistic religions of our day, Judaism, Christianity, and Islam, especially with respect to their eschatological concepts. The Eastern religions, being less anthropomorphic, are less affected. The theistic argument from design is shown to be powerful enough to have caused disagreement among present-day scientists, in spite of the strictures of Professor Dawkins. In general, the book attempts to make some sense of the structure of the universe in terms of our own consciousness; it behoves the reader to consider the

Matilda Bone Karen Cushman.2000-10-16 Into the fascinating, pungent setting of Blood and Bone Alley, home of leech, barber-surgeon, and apothecary, comes Matilda, raised by a priest to disdain worldly affairs and focus on spiritual matters. To Matilda's dismay, her work will not involve Latin or writing, but practical tasks: lighting the fire, going to market, mixing plasters and poultices, and helping Peg treat patients. She is appalled by

the worldliness of her new surroundings, and the sharp-tongued saints she turns to for advice are no help at all. Filled with the witty dialogue and richly authentic detail that Karen Cushman's work is known for, *Matilda Bone* is a compelling comic novel about a girl who learns to see herself and others clearly, to laugh, and to live contentedly in this world. Author's note.

90 Two (HB) Dastan Khalili.2022-02-23 90 Two (HB) By: Dastan Khalili DiaVerse, dia meaning "two" and verse for the poetic rhyme, is a brand-new style of poetry where the only rule is all stanzas must have a maximum of two words. Created by poet Dastan Khalili, the style of DiaVerse breathes new life into poetry. The restraint of DiaVerse forces poets to use the purest forms of expression. 90 Two is ninety of Khalili's DiaVerse poems, written over the last five years. He combines his poetic verses with digital artwork and imagery, each conveying a sensation of inspiration that came to life with each poem.

My Journey from Paris to Java Honoré de Balzac.2010 In this delightful little volume, Honoré de Balzac, the renowned 19th century French novelist and playwright, takes readers on a short fantasy journey to the mystical island of Java where he - or rather the narrateur - encounters a deadly poison-breathing tree, civilized monkeys, a love-sick sparrow, and the epitome of Oriental desirability of the day - the women of Java.

A Nation upon the Ocean Sea Daviken Studnicki-Gizbert.2007-01-04 With the opening of sea routes in the fifteenth century, groups of men and women left Portugal to establish themselves across the ports and cities of the Atlantic or Ocean sea. They were refugees and migrants, traders and mariners, Jews, Catholics, and the Marranos of mixed Judaic-Catholic culture. They formed a diasporic community known by contemporaries as the Portuguese Nation. By the early

seventeenth century, this nation without a state had created a remarkable trading network that spanned the Atlantic, reached into the Indian Ocean and Asia, and generated millions of pesos that were used to bankroll the Spanish empire. *A Nation Upon the Ocean Sea* traces the story of the Portuguese Nation from its emergence in the late fifteenth century to its fragmentation in the middle of the seventeenth and situates it in relation to the parallel expansion and crisis of Spanish imperial dominion in the Atlantic. Against the backdrop of this relationship, the book reconstitutes the rich inner life of a community based on movement, maritime trade, and cultural hybridity. We are introduced to mariners and traders in such disparate places as Lima, Seville and Amsterdam, their day-to-day interactions and understandings, their houses and domestic relations, their private reflections and public arguments. This finally-textured account reveals how the Portuguese Nation created a cohesive and meaningful community despite the mobility and dispersion of its members; how its forms of sociability fed into the development of robust transatlantic commercial networks; and how the day-to-day experience of trade was translated into the sphere of Spanish imperial politics of commercial reform based on religious-ethnic toleration and the liberalization of trade. *A microhistory, A Nation Upon the Ocean Sea* contributes to our understanding of the broader histories of capitalism, empire, and diaspora in the early Atlantic.

In contemporary philosophy, substantive moral theories are

typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

India V. S. Naipaul. 2011-03-22 A New York Times Notable Book

Nobel laureate V. S. Naipaul's impassioned and prescient travelogue of his journeys through his ancestral homeland, with a new preface by the author. Arising out of Naipaul's lifelong obsession and passion for a country that is at once his and totally alien, *India: A Million Mutinies Now* relates the stories of many of the people he met traveling there more than fifty years ago. He explores how they have been steered by the innumerable frictions present in Indian society—the contradictions and compromises of religious faith, the whim and chaos of random political forces. This book represents Naipaul's last word on his homeland, complementing his two other India travelogues, *An Area of Darkness* and *India: A Wounded Civilization*.

Journal of My Life Jacques-Louis Ménétra. 1986 Jacques-Louis

Menetra's journal reads like a historian's dream come true. It conveys his understanding of what it meant to grow up in Paris, where he was born in 1738; to tramp around provincial shops on a journeyman's tour de France; to settle down as a Parisian master with a shop and family of his own; and to live through the great events of the Revolution as a militant in his local Section.

Councils in Action Audrey Richards, Adam Kuper, Fellow of the British Academy Adam Kuper. 1971-11-30 A collection of seven papers by social anthropologists on the processes of decision-making in councils. Types of council described are one community-in-council, two arena councils, an elite council, two modern local government councils and a non-council, a temporary negotiating group which nevertheless displays certain features of the council proper. Most of the examples come from Africa (including Madagascar), but there is also an account of politics and decision-making in an English town council. The editors discuss the papers in a comparative framework, considering also other accounts of conciliar structure and decision-making. They

review the ways in which decisions are reached and implemented in societies with very different structures and activities and discuss the impact of written records, colonial overrule and political independence. They attempt to outline some general principles of conciliar structure and process.
