The Human Rights to Water and Sanitation Léo Heller. 2022-05-12 This analysis of the human rights to safe drinking water and sanitation (HRtWS) uncovers why some groups around the world are still excluded from these rights. Léo Heller, former United Nations Special Rapporteur on the human rights to water and sanitation, draws on his own research in nine countries and reviews the theoretical, legal, and political issues involved. The first part presents the origins of the HRtWS, their legal and normative meanings and the debates surrounding them. Part II discusses the drivers, mainly external to the water and sanitation sector, that shape public policies and explain why individuals and groups are included in or excluded from access to services. In Part III, public policies guided by the realization of HRtWS are addressed. Part IV highlights populations and spheres of living that have been particularly neglected in efforts to promote access to services.

Suicide Warfare Rosemarie Skaine. 2013-01-09 This book provides up-to-date coverage of the policies, strategies, and effects of suicide in war, examining this subject from societal and military perspectives to shed light on the justifications for using human beings as expendable weapons. Suicide warfare has expanded over the years and become a global phenomenon. In some parts of the world, it has become rooted in the fabric of society. *Westerners often find it difficult to grasp why someone would be willing to sacrifice their life in order to take the lives of others. Suicide Warfare: Culture, the Military, and the Individual as a Weapon* provides a thorough examination of the topic that enables readers to understand the justification for suicide warfare and better appreciate how the ideology of the individuals and organizations that resort to suicide warfare greatly complicates security issues in the 21st century. The book covers the policies, strategies, and effects of suicide in war, examining suicide warfare in its entirety from a theoretical standpoint, and then applying those theories to the actual manifestations of and politico-military responses to suicide warfare. The author discusses specific organizations such as Al Qaeda and the Chechen rebels, analyzing each within its societal context, military justification, individual motivation, and outcomes, and addresses principles of sociological and conflict theory to place suicide warfare in a clearer conceptual framework. The book presents case studies that allow readers to better understand abstract theories and make distinctions between individual cases of suicide warfare.

The Professor Is In Karen Kelsky. 2015-08-04 The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site *The Professor is In*, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right *The Professor Is In* addresses all of these issues, and many more.

A Very Private Public Citizen Nancy Peterson Hill. 2014-11-18 Grenville Clark was born to wealth and privilege in Manhattan, where his maternal grandfather, LeGrand Bouton Cannon, was an industry titan, retired Civil War colonel, and personal friend of Abraham Lincoln. Clark grew up on a first-name basis with both Presidents Roosevelt, and his close friends included Supreme Court justices. He was well known and respected in the inner circles of business, government, and education. In *A Very Private Public Citizen: The Life of Grenville Clark*, Nancy Peterson Hill gives life to the unsung account of this great and largely anonymous American hero and reveals how the scope of Clark's life and career reflected his selfless passion for progress, equality, and peace. As a member of the "Corporation," Harvard's elite governing board, Clark wrote a still-relevant treatise on academic freedom. He fought a successful public battle with his good friend President Franklin Roosevelt over FDR's attempt to "pack" the Supreme Court in 1937. He refused pay while serving as a private advisor for the Secretary of War of the United States during the Second World War, and he worked closely with the NAACP to uphold civil rights for African Americans during the tumultuous 1950s and '60s. Clark devoted his last decades to a quest for world peace through limited but enforceable world law, rewriting the charter of the United Nations and traveling the globe to lobby the world's leaders. An enthusiastic husband, father, and friend, Clark was a lawyer, civil rights activist, traveler, advisor, and world citizen at large. Memories from Clark's family and friends weave through the book, as do Clark's own inimitable observations on his life and the world in which he lived. *A Very Private Public Citizen* brings Clark out of the shadows, offering readers an inspiring example of a true patriot and humanitarian, more concerned with the well-being of his country and his fellow man than with his own fame.

Women Writers in Pre-revolutionary France Colette H. Winn, Donna Kuizenga.1997 This extensive collection of English-language essays examines the many strategies of resistance to male domination that women in France from the 16th through the 18th centuries utilized in their lives and their writings. Themes treated include women's views on marriage, religion, education, careers, tradition, and narrative and rhetorical innovation. The 28 essays cover such well-known writers as Marguerite de Navarre and Madame de Charri re, as well as unjustly neglected figures from H lisenne de Crenne to Mme d'Aulnoy. Nearly all genres are discussed: novels, theater, short stories, poetry, textual commentary, letters, autobiography and memoirs. While most essays focus on one writer, some deal with such topics as the development of a women's rhetoric, the association of letter writing with women, or the fairy tale; and all of the studies are informed by the various currents of feminist criticism.

Digital Frontiers in Gender and Security Alexis Henshaw.2023-03-29 Exploring the digital frontiers of feminist international relations, this book investigates how gender can be mainstreamed into discourse about technology and security. With a focus on big data, communications technology, social media, cryptocurrency and decentralized finance, the book explores the ways in which technology presents sites for gender-based violence. Crucially, it examines potential avenues for resistance at these sites, especially regarding the actions of major tech companies, surveillance by repressive governments and attempts to use the Global South as a laboratory for new interventions. The book draws valuable insights that will be essential to researchers in international relations, security studies and feminist security studies.

Women's Human Rights Anne Hellum, Henriette Sinding Aasen.2013-07-11 As an instrument which addresses the circumstances which affect women's lives and enjoyment of rights in a diverse world, the CEDAW is slowly but surely making its mark on the development of international and national law. Using national case studies from South Asia, Southern Africa, Australia, Canada and Northern Europe, Women's Human Rights examines the potential and actual added value of the Convention on the Elimination of All Forms of Discrimination against Women in comparison and interaction with other equality and anti-discrimination mechanisms. The studies demonstrate how state and non-state actors have invoked, adopted or resisted the CEDAW and related instruments in different legal, political, economic and socio-cultural contexts, and how the various international, regional and national regimes have drawn inspiration and learned from each other.

The World Bank Great Britain: Parliament: House of Commons: International Development Committee, Malcolm Bruce.2011-03 This report cautiously welcomes DFID's increased contributions to the World Bank development programme, but calls for greater Parliamentary scrutiny of its spending and warns that the Bank must be reformed. It calls for: a more open process for selecting the current President's successor; a more equitable allocation of voting shares for developing countries; the Bank's main watchdog, the Independent Evaluation Group, to be strengthened; the promotion of girls' education to be made an early priority; more support to improve the financial viability of renewable energy. The Government must give MPs the chance to fully debate the key decisions taken by the Bank given the large sums of money being donated by Britain. In December the Government announced that its contribution to the International Development Association (IDA) - the aid arm of the World Bank - would increase to an average of £888 million a year for each of the three years (a total of £2.7 billion) in its sixteenth programme. The UK should use its role as one of the largest contributors to the International Development Association to ensure that a robust system is put in place to evaluate the performance of the President during his or her tenure.

Beyond Bylines Barbara M. Freeman.2011-12-14 Beyond Bylines: Media Workers and Women's Rights in Canada explores the ways in which several of Canada's women journalists, broadcasters, and other media workers reached well beyond the glory of their personal bylines to advocate for the most controversial women's rights of their eras. To do so, some of them adopted conventional feminine identities, while others refused to conform altogether, openly and defiantly challenging the gender expectations of their day. The book consists of a series of case studies of the women in question as they grappled with the concerns close to their hearts: higher education for women, healthy dress reforms, the vote, equal opportunities at work, abortion, lesbianism, and Aboriginal women's rights. Their media reflected their respective eras: intellectual magazines, daily and weekly newspapers, radio, feminist public relations, alternative women's periodicals, and documentary film made for television. Barbara Freeman takes an interdisciplinary approach, combining biography, history, and communication studies to demonstrate how their use of different media both enabled and limited these women in their ability to be daring advocates for gender equality. She shows how a number of these women were linked through the generations by their memberships in activist women's organizations.

Prosecuting Conflict-Related Sexual Violence at the ICTY Baron Serge Brammertz, Michelle Jarvis.2016-04-14 Although sexual violence directed at both females and males is a reality in many on-going conflicts throughout the world today, accountability for the perpetrators of such violence remains the exception rather than the rule. While awareness of the problem is growing, more effective approaches are urgently needed for the investigation and prosecution of conflict-related sexual violence crimes. Upon its establishment in 1993, the Office of the Prosecutor (OTP) of the International Criminal Tribunal for the Former Yugoslavia (ICTY) began the challenging task of prosecuting the perpetrators of conflict-related sexual violence crimes, alongside the many other atrocities committed during the conflicts in the former Yugoslavia. This book documents the experiences, achievements, challenges, and fundamental insights of the OTP in prosecuting conflict-related sexual violence crimes at the ICTY over the past two decades. It draws on an extensive dossier of OTP documentation, court filings, trial exhibits, testimony, ICTY judgements, and other materials, as well as interviews with current and former OTP staff members. The authors provide a unique analytical perspective on the obstacles faced in prioritizing, investigating, and prosecuting conflict-related sexual violence crimes. While ICTY has made great strides in developing international criminal law in this area, this volume exposes the pressing need for determined and increasingly sophisticated strategies in order to overcome the ongoing obstacles in prosecuting conflict-related sexual violence crimes. The book presents concrete recommendations to inform future work being done at the national and international levels, including that of the International Criminal Court, international investigation commissions, and countries developing transitional justice processes. It provides an essential resource for investigators and criminal lawyers, human rights fact-finders, policy makers, rule

of law experts, and academics.

Progress of the World's Women 2015-2016 Summary UN Women.2015 This UN Women's flagship report shows that, all too often, women's economic and social rights are held back, because they are forced to fit into a 'man's world'. But, it is possible to move beyond the status quo, to picture a world where economies are built with women's rights at their heart. It is being published as the international community comes together to define a transformative post-2015 development agenda, and coincides with the 20th anniversary commemoration of the landmark Fourth World Conference on Women in Beijing, China which set out a comprehensive agenda to advance gender equality. This publication brings together human rights and economic policymaking, and provides the key elements for a far-reaching new policy agenda that can transform economies and make women's rights a reality. Through solid in-depth analysis and data, this evidence-based report provides key recommendations on moving towards an economy that truly works for women, for the benefit of all.
