An Introduction to Feminism Lorna Finlayson.2016-02-11 As well as providing a clear and critical introduction to the theory, this refreshing overview focuses on the practice of feminism with coverage of actions and activism, bringing the subject to life for newcomers as well as offering fresh perspectives for advanced students. Explanations of the main strands to feminism, such as liberalism, sit alongside an exploration of a range of approaches, such as radical, anarchist and Marxist feminism, and provide much-needed context against which more familiar historical themes may be understood. The author's broad and inclusive view conveys the diversity and disagreement within feminism with accessible clarity. The analysis of key terms equips readers with a critical understanding of the vocabulary of feminist debates that will be invaluable to undergraduate students.

Palace of Flies Walter Kappacher.2022-05-03 One of those rare biographical novels that bring a whole world to life in a way that lingers in memory. —Jay Parini, author of *Borges and Me* This absorbing, sensitive novel portrays a famed author in a moment of crisis: an aging Hugo von Hofmannsthal returns to a summer resort outside of Salzburg that he visited as a child. But in the spa town where he once thrilled to the joys of youth, he now feels unproductive and uninspired, adrift in the modern world born after World War One. Over ten days in 1924 in a ramshackle inn that has been renamed the Grand Hotel, Hofmannsthal fruitlessly attempts to complete a play he's long been wrestling with. The writer is plagued by feelings of loneliness and failure that echo in a buzz of inner monologues, imaginary conversations and nostalgic memories of relationships with glittering cultural figures. *Palace of Flies* conjures up an individual state of distress and disruption at a time of fundamental societal transformation that speaks eloquently to our own age.

Earth Is My Witness Art Wolfe.2017-10-31 Art Wolfe's definitive opus, *Earth Is My Witness* represents forty years of expeditionary photography. For

the first time, Wolfe presents the three subjects at the heart of his work—landscapes, wildlife, and cultures on the edge of extinction—in a single masterpiece that takes us through the world’s ecosystems and geographical regions in a vivid display of the fragility and interconnectivity of life on Earth, while simultaneously exploring his evolution as an artist and the techniques he uses to capture the nuances and rhythms of nature. *Earth Is My Witness* is the most extensive collection of Art Wolfe photography ever compiled. This lavishly produced work spans the globe, bringing the beauty of the planet’s fast-disappearing landscapes, wildlife, and cultures into stunning focus. Containing unpublished work from throughout Wolfe’s widely celebrated career, *Earth Is My Witness* offers a riveting and comprehensive look at the world’s ecosystems and geographical regions. Here Wolfe presents an encyclopedic selection of his photography along with intimate stories that exemplify his boundless curiosity. From the rich sights and smells of the Pushkar Camel Fair to the exact moment when a polar bear and her cubs leave their Arctic den, these images represent what Wolfe has lived for: moments when circumstance, light, and subject miraculously collide to form an iconic image. These photographs and the stories behind them explore the delicate interconnectivity of life across our planet. Setting the stage for this fascinating journey is award-winning author Wade Davis. Together, photographer and author present a world that borders on the fantastic but is all the more precious for its fragility. At the heart of Wolfe’s work is the appeal for environmental, cultural, and wildlife preservation, which he makes with beautiful, far-reaching precision in this definitive opus.

Animal Beauty Christiane Nusslein-Volhard.2019-05-14 An illustrated exploration of colors and patterns in the animal kingdom, what they communicate, and how they function in the social life of animals. Are animals able to appreciate what humans refer to as “beauty”? The term scarcely ever appears nowadays in a scientific description of living things, but we humans may nonetheless find the colors, patterns, and songs of animals to be beautiful in apparently the same way that we see beauty in works of art. In *Animal Beauty*, Nobel Prize-winning biologist Christiane Nüsslein-Volhard describes how the colors and patterns displayed by animals arise, what they communicate, and how they function in the social life of animals. Watercolor drawings illustrate these amazing instances of animal beauty. Darwin addressed the topic of ornament in his 1871 book *The Descent of Man and Selection in Relation to Sex*, and did not hesitate to engage with criteria of beauty, convinced that animals experienced color and ornament as attractive and agreeable in the same way that we do, and that the role this played in mate choice pointed to a “sexual selection” distinct from natural selection. Nüsslein-Volhard examines key examples of ornament and sexual selection in the animal kingdom and lays the groundwork for biological aesthetics. Noting that color patterns have not been a research priority—perhaps because they appeared to be nonessential luxuries rather than functional necessities—Nüsslein-Volhard looks at recent scientific developments on the topic. In part because of Nüsslein-Volhard's own research on the zebrafish, it is now possible to decipher the molecular genetic mechanisms that lead to production of colors in animal skin and its appendages and control its pattern and distribution.

Manifesto of New Realism Maurizio Ferraris. 2014-12-01 Retraces the history of postmodern philosophy and proposes solutions to overcome its impasses. Philosophical realism has taken a number of different forms, each applied to different topics and set against different forms of idealism and subjectivism. Maurizio Ferraris's *Manifesto of New Realism* takes aim at postmodernism and hermeneutics, arguing against their emphasis on reality as constructed and interpreted. While acknowledging the value of these criticisms of traditional, dogmatic realism, Ferraris insists that the insights of postmodernism have reached a dead end. Calling for the discipline to turn its focus back to truth and the external world, Ferraris's manifesto—which sparked lively debate in Italy and beyond—offers a wiser realism with social and political relevance. Maurizio Ferraris is Full Professor of Philosophy and Director of the Laboratory for Ontology at the University of Turin, Italy. His books include *Goodbye, Kant! What Still Stands of the Critique of Pure Reason*, also published by SUNY Press. Sarah De Sanctis is a PhD candidate in contemporary forms of realism in literature and philosophy at the London Graduate School and a translator for the Department of Philosophy at the University of Turin.
