After getting rid of the odd antiques in a garage sale, Nick befriends some local kids--Mitch, Caitlin, and Vincent--and they discover that all of the objects have extraordinary properties. What's more, Nick figures out that the attic is a strange magnetic vortex, which attracts all sorts of trouble. It's as if the attic itself has an intelligence . . . and a purpose. Ultimately Nick learns that the genius Nikola Tesla placed the items--his last inventions--in the attic as part of a larger plan that he mathematically predicted. Nick and his new friends must retrieve everything that was sold at the garage sale and keep it safe. But the task is fraught with peril--in addition to the dangers inherent in Tesla's mysterious and powerful creations, a secret society of physicists, the Accelerati, is determined to stop Nick and alter destiny to achieve its own devious ends. One day, all that changed, thanks to a bad dream and the hooting of an owl, and some ferocious Norman soldiers. The magic Catweazle used that day was unlike any other: it worked. The only trouble was it sped him through the centuries into 1970s Britain. There, by good fortune, he befriended a farmer's son, Carrot, and began the process of adjusting - or not - to modern life. How Catweazle manages to deal with cars and telephones and electricity (or 'electrickery', as he calls it) made for hilarious viewing on the LWT TV series and wickedly funny reading in the Puffin novelisation. And here it is again, for older readers to rediscover and as a timeless treat for children today.
