Fields of Plenty .2005-10-13 Fields of Plenty is the memoir of respected farmer, writer, and photographer Michael Ableman as he and his son travel from his own farm in British Columbia across the United States in search of innovative and passionate farmers who are making a difference in what we eat and how we experience food. From California to New York, this story captures the essence of each farmer's vision, the spirit of the land that they work, and the beauty and flavors of the foods that they lovingly produce. Ableman's odyssey takes him to a melon grower who is militant about flavor, sheep-cheese producers who have built their own culturing caves, an urban farmer growing heirloom tomatoes for market on abandoned lots, and others who are trying to answer the complex questions of sustenance philosophically and, most important, practically. Fields of Plenty is a hopeful memoir that reveals the larger issues of food in a modern world. Illustrated with Ableman's photographs and flavored with recipes that feature each farmer's bounty, Fields of Plenty is an intimate portrait of food and agriculture at a critical crossroads.--BOOK JACKET.

German Army Uniforms of World War II Stephen

Bull.2021-02-04 In the years after World War I, the defeated and much-reduced German Army developed new clothing and personal equipment that drew upon the lessons learned in the trenches. In place of the wide variety of uniforms and insignia that had been worn by the Imperial German Army, a standardized approach was followed, culminating in the uniform items introduced in the 1930s as the Nazi Party came to shape every aspect of German national life. The outbreak of war in 1939

prompted further adaptations and simplifications of uniforms and insignia, while the increasing use of camouflaged items and the accelerated pace of weapons development led to the appearance of new clothing and personal equipment. Medals and awards increased in number as the war went on, with grades being added for existing awards and new decorations introduced to reflect battlefield feats. Specialists such as mountain troops, tank crews and combat engineers were issued distinctive uniform items and kit, while the ever-expanding variety of fronts on which the German Army fought - from the North African desert to the Russian steppe - prompted the rapid development of clothing and equipment for different climates and conditions. In addition, severe shortages of raw materials and the demands of clothing and equipping an army that numbered in the millions forced the simplification of many items and the increasing use of substitute materials in their manufacture. In this fully illustrated book noted authority Dr Stephen Bull examines the German Army's wide range of uniforms, personal equipment, weapons, medals and awards, and offers a comprehensive guide to the transformation that the German Army soldier underwent in the period from September 1939 to May 1945.

Summer with Monika Roger McGough. 2017-06-29 *Summer with Monika* is an honest and touching portrait of a romance, charting the progress of a love affair from the delicious intimacy of the honeymoon, with the milk bottles turning to cheese on the doorstep, through the stage of quarrels, jealousy, recriminations and boredom, to the point where love is as nice as a cup of tea in bed. Re-issued for its 50th anniversary, *Summer with Monika* is a hidden gem of British love poetry featuring beautiful illustrations from Children's Laureate Chris Riddell.

French Cinema in the 1980s Phil Powrie. 1997 French film in the 1980s might have lacked the invention of the New Wave but gritty police thrillers and nostalgic costume-dramas such as *Jean de Florette* and *Manon des Sources* brought French cinema to a

wider audience than ever before. This landmark study is not merely a history of French film in the 1980s, but offers a set of critical essays on the crisis of masculinity in contemporary French culture, and its interrelationship with nostalgia. After a brief overview both of the crisis in the French film industry during the 1980s, and of the socio-political crisis of masculinity in the wake of 1970s feminism, the book is divided into three sections: the retro-nostalgic film, the Polar, or police thriller, and the comic film. Films studied in detail include *Diva*, *Subway*, *Coup de foudre*, *Vivement dimanche*, *La Vie est un long fleuve tranquille*, and *Tenue de soirée*, while the volume covers actors from Gérard Depardieu, Daniel Auteuil, and Yves Montand to Isabelle Adjani, Isabelle Huppert, and Emmanuelle Béart.

Written entirely in French, it focuses on the most difficult grammar points and their usage, rather than on their formation. Variations stylistiques includes an abundance of oral and written exercises that are practical, relevant, creative, and fun, encouraging students to use the grammar in meaningful contexts. By highlighting the many linguistic variants employed by native speakers, Dansereau provides an engaging alternative to traditional French grammar textbooks. A pioneer of experimental video art, Pipilotti Rist is celebrated for her expansive installations that bridge the spaces between fine art and popular culture, the natural world and the technological sublime. Through vivid colors, audaciously sensuous imagery, and playful sexuality, Rist's art—which ranges from single-channel videos to multilayered environments—absorbs viewers in a hyperfeminine aesthetic interlaced with deeper themes of pain, innocence, and transformation.

Experiments in architectural education in the post-World War II era that challenged and transformed architectural discourse and practice. In the decades after World War II, new forms of learning transformed architectural education. These radical experiments sought to upend disciplinary foundations and conventional assumptions about the nature of architecture as much as they challenged modernist and colonial norms, decentered building,

imagined new roles for the architect, and envisioned participatory forms of practice. Although many of the experimental programs were subsequently abandoned, terminated, or assimilated, they nevertheless helped shape and in some sense define architectural discourse and practice. This book explores and documents these radical pedagogies and efforts to defy architecture's status quo. The experiments include the adaptation of Bauhaus pedagogy as a means of "unlearning" under the conditions of decolonization in Africa; a movement to design for "every body," including the disabled, by architecture students and faculty at the University of California, Berkeley; the founding of a support network for women interested in the built environment, regardless of their academic backgrounds; and a design studio in the USSR that offered an alternative to the widespread functionalist approach in Soviet design. Viewed through their dissolution and afterlife as well as through their founding stories, these projects from the last century raise provocative questions about architecture's role in the new century.

Promise at Dawn Romain Gary. 2017-10-31 A classic of modern French literature, the thrilling real-life story of the military hero, ambassador, ladies man, writer, and loving son I grew up longing for the day when I could tear down the veil of darkness and absurdity concealing the true face of the universe and discover at last a smile of kindness and wisdom; I grew up in the certitude that one day I should help my fellow men to wrest the world from our enemies and give back the earth to those who ennoble it with their courage and warm it with their love. *Promise at Dawn* begins as the story of a mother's sacrifice: alone and poor, she fights fiercely to give her son the very best. Romain Gary chronicles his childhood in Russia, Poland, and on the French Riviera; he recounts his adventurous life as a young man fighting for France in World War II. But above all he tells the story of the love for his mother that was his very life—their secret and private planet, their wonderland "born out of a mother's murmur into a

Marina Abramovic: 7 Deaths of Maria Callas Marina

Abramovic.2020-09-29 A clothbound companion to Marina Abramovic's tribute to Maria Callas, a new performance that recreates the iconic opera diva's famous onstage death scenes An opera production conceived by the legendary performance artist Marina Abramovic (born 1946), 7 Deaths of Maria Callas is a continuation of the artist's lifelong meditation on the female body as a source of both power and pain. Here Abramovic turns her focus to renowned opera singer Maria Callas, whose stunning soprano voice captivated audiences around the world in the mid-20th century. Though she remains one of opera's greatest singers, Callas' life was beset by struggle and scandal. Today, the opera diva is remembered for having been a figure of both talent and tragedy. Through a mix of narrative opera and film, Abramovic recreates seven iconic death scenes from the American-born Greek singer's most important roles--in La Traviata, Tosca, Otello, Madame Butterfly, Carmen, Lucia di Lammermoor and Norma--followed by an interpretive recreation of Callas' own death performed onstage by Abramovic herself. This clothbound volume serves as a companion to the live performance and provides insight into the conception, planning and execution of Abramovic's project, probing the many creative elements that make up this dynamic exploration of female suffering.

Encyclopedia of French Film Directors Philippe

Rège.2009-12-11 Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli_s, Alice Guy BlachZ and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean-Luc Godard.

The Poetry of Rimbaud Robert Greer Cohn.1999 The standard work on Rimbaud returns to print In this proven study on Arthur Rimbaud, the world's leading authority on Stéphane Mallarmé provides a guide to the understanding and appreciation of Rimbaud's entire poetic oeuvre. Robert Greer Cohn begins with an outline of the poet's life, focusing particularly on a childhood and adolescence that produced astoundingly original and frequently exquisite works, the whole body of poetry by a writer who ended his literary creation in his twentieth year. Cohn's analysis, combined with a substantial introduction, weaves together the known biographical facts with major clues from the poems to present a coherent portrait of the inner and outwardly imaged world of the young poet. Cohn draws on non-doctrinaire and open-minded approaches of modern depth psychology and philosophy and, most particularly, on the dazzlingly integral

cosmic vision of Mallarmé. The resulting unified view affords insights into the meaning of many difficult passages, especially in the most hermetic and resistant of the Illuminations. Cohn also reveals the early poems, which heretofore received little attention, to be rich in poetic humanity. He suggests that the seeds of Rimbaud's later development lie in these early poems, which provide convincing paths into subsequent complexities.
