Land Your Dream Career Tori Randolph Terhune, Betsy A. Hays.2013-03-14 Contrary to what students, and society, are conditioned to think, obtaining a college degree does not automatically result in a job, let alone a dream career. In the last year, alone, half of college graduates are either jobless or underemployed in positions that don't fully use their skills and knowledge. Authors Tori Randolph Terhune, a gainfully-employed young college graduate herself, and Betsy A. Hays, a college professor, show readers what they can do in college to successfully pave the way for future employment in Land Your Dream Career. The authors provide eleven easy-to-follow strategies for effectively using time on campus to start building a career. Terhune and Hays leads students through content designed to help students set themselves up for success, without focusing on grades or papers. The 11 steps include tips about how students can become experts in their fields, build their brand, get involved in and outside the classroom, allow for wiggle room, network, follow the 75/25 rule (75% thinking, 25% doing) and use new media, such as social networking and blogging, to launch their career. Any student looking for that connection from college to getting to their dream career needs to read Land Your Dream Career. Terhune and Hays make it known that landing a good job is not impossible!

Swimming Upstream Antonio M. Bravata.2018-01-15 Swimming Upstream is a book that talked about why people live a life of excuses and how you can train yourself to get out of that mindset and begin to execute your dreams. It talks about how to become a leader and the reality of what it takes to attain a leadership position and keep in once you get there. Conventional theory says leaders must be kind, team players, motivational and that they must make sure they inspire you. However is that reality? There is an alternate side of leadership that is not talked about. Once you attain the position you seek, you then must learn how to strategically keep moving forward. As you begin to swim upstream, against the current you will be faced with opposition, however then, and only then can innovation and true growth occur. These are the laws of a leader.

One Stop Shop: To help land your dream job in your cart Ankit Kalonia. 2017-04-18 If you ask me to describe in one word, as to what leaves the maximum impact on an Interviewer, I would say that it is your 'personality'. As lot of positions have functions which the employer can teach you but personality is something they can't teach you. And let me tell you that it is your personality itself which creates a negative or positive impression on the interviewer. Now, I am sure that you'll agree to me that it takes a tremendous effort over several years to build up your personality, depending upon your upbringing, the school you went to, the quality of education imparted, the subjects studied by you, the life lessons taught to you by your elders, your personal habits, the books you read, your friends' mentality, your approach towards life and many more factors. Therefore, personality is a much more holistic term which forms through a vast bunch of things, done all through your life. Thus, you may carry the notion that personality cannot be imparted to someone. Well, I would argue no! My belief stands at a distance than yours. What if I say that it can be trained to anyone through the source of a book? Sounds astonishing... isn't it! That's the beauty of this book. As it tells you that by simply following some basic set of rules, you can construct an appropriate tone, form a pleasing personality and therefore give an impression of having decent etiquettes to your interviewer. And let me tell you that personality goes a long way. Hence, I firmly believe that this book has the power to get you your dream job and transform your future.

When to Jump Mike Lewis. 2019-01-08 "A lively and inspiring guidebook for anyone who wants to make the jump from normal to extraordinary." —Tony Robbins, #1 New York Times bestselling author of Unshakeable and MONEY: Master the Game An inspirational book that lays out the "Jump Curve"—four steps to wholeheartedly pursuing the career of your dreams—through experiences from a variety of people who have jumped and never looked back When Mike Lewis was twenty-four and working in a prestigious corporate job, he eagerly wanted to leave and pursue his dream of becoming a professional squash player. But he had questions: When is the right time to move from work that is comfortable to a career you have only dared to dream of? How have other people made such a jump? What did they feel when making that jump—and afterward? Mike sought guidance from others who had "jumped," and the responses he got—from a banker who started a brewery, a publicist who became a Bishop, a garbage collector who became a furniture designer, and on and on—were so clear-eyed and inspiring that Mike wanted to share what he had learned with others who might be helped by those stories. First, though, he started playing squash professionally. The right book at the right time, When to Jump offers more than forty heartening stories (from the founder of Bonobos, the author of The Big Short, the designer of the Lyft logo, the Humans of New York creator, and many more) and takeaways that will inspire, instruct, and reassure, including the ingenious four-phase Jump Curve.

The authors provide eleven easy-to-follow strategies for effectively using time on campus to start building a career. Terhune and Hays leads students through content designed to help students set themselves up for success, without focusing on grades or papers. The eleven steps include tips about how students can become experts in their fields, build their brand, get involved in and outside the classroom, allow for wiggle room, network, follow the 75/25 rule (75% thinking, 25% doing) and use new media, such as social networking and blogging, to launch their career. Any student looking for that connection from college to getting to their dream career needs to read Land Your Dream Career. Terhune and Hays make it known that landing a good job is not impossible!
