Gatekeepers Franca Iacovetta.2006-10-01 An in-depth study of European immigrants to Canada during the Cold War, *Gatekeepers* explores the interactions among these immigrants and the “gatekeepers”-mostly middle-class individuals and institutions whose definitions of citizenship significantly shaped the immigrant experience. Iacovetta’s deft discussion examines how dominant bourgeois gender and Cold War ideologies of the day shaped attitudes towards new Canadians. She shows how the newcomers themselves were significant actors who influenced Canadian culture and society, even as their own behaviour was being modified. Generously illustrated, *Gatekeepers* explores a side of Cold War history that has been left largely untapped. It offers a long overdue Canadian perspective on one of the defining eras of the last century.

that these policies enabled the development of minority language education systems and laid the foundations for the language rights contained in the Canadian Charter of Rights and Freedoms. --

Teaching English as a Foreign Or Second Language, Second Edition Jerry G.

Gebhard.2006-01-10 Teaching English as a Foreign or Second Language, Second Edition, is designed for those new to ESL/EFL teaching and for self-motivated teachers who seek to maximize their potential and enhance the learning of their students. This guide provides basic information that ESL/EFL teachers should know before they start teaching and many ideas on how to guide students in the skills of listening, speaking, reading, and writing. It stresses the multifaceted nature of teaching the English language to non-native speakers and is based on the real experiences of teachers. The second edition of Teaching English as a Foreign or Second Language includes a wider range of examples to coincide with a variety of teaching contexts-from K-12 schools, to university intensive language programs and refugee programs. It is also updated with discussions of technology throughout, and it considers ways in which technology can be used in teaching language skills. Sources for further study are included in each chapter and in the appendixes.

Proceedings of the 2nd International Conference on Languages and Arts across Cultures (ICLAAC 2022) I. G. A. Lokita Purnamika Utami,Ni Putu Era Marsakawati.2022-12-14 This is an open access book. The 2nd International Conference on Languages and Arts across Cultures (ICLAAC) aims to

provide a venue for lecturers, teachers, researchers, as well as language and art professionals to share their insights, experiences, and ideas. This conference will also bridge the knowledge gap by presenting their works on languages and arts issues. The event will provide limitless resources and opportunities to interact with prominent scholars in this field worldwide. This will allow us to significantly expand our existing global network. The conference theme will give us a better understanding of humans through languages and arts. The development of cultural value occurring in today's global communities is certainly a stimulant for artist and language users in creating their artifacts. Restoring cross-cultural understanding is a bridge to understanding the complexities of language, culture, and the role of art in them. Cross-cultural understanding refers to people's attempts to understand one another, particularly between people of different cultural backgrounds. Significant cultural and artistic creations are incorporated into a language that promotes scholarly debate and scientific comprehension. As an attempt to minimize the spread of covid-19 virus, the conference presenters will be invited to present their papers online via zoom.

Barriers Down Diana Lemberg. 2019-09-10 Freedom of information is a principle commonly associated with the United States' First Amendment traditions or digital-era technology boosters. *Barriers Down* reveals its unexpected origins in political, economic, and cultural battles over analog media in the mid-twentieth century. Diana Lemberg traces how the United States shaped media around the world after 1945 under the banner of the "free flow of information," showing how the push for global media access acted as a vehicle for American power. *Barriers Down* considers debates over civil liberties and censorship in Nazi Germany, the Soviet Union, and elsewhere alongside Americans' efforts to circumvent foreign regulatory systems in the quest to expand markets and bring their ideas to new publics. Lemberg shows how in the decades following the Second World War American free-flow policies reshaped the world's information landscape, though not always as intended. Through burgeoning information diplomacy and development aid, Washington diffused new media ranging from television and satellite broadcasting to global English. But these actions also spurred overseas actors to articulate alternative understandings of information freedom and of how information flows might be regulated. Bridging the historiographies of the United States in the world, human rights, decolonization and development, and media and

technology, *Barriers Down* excavates the analog roots of digital-age debates over the politics and ethics of transnational information flows.
