Kinderculture Shirley R. Steinberg.2018-05-04 America is a corporatized society defined by a culture of consumerism, and the youth market is one of the groups that corporations target most. By marketing directly to children, through television, movies, radio, video games, toys, books, and fast food, advertisers have produced a 'kinderculture'. In this eye-opening book, editor Shirley R. Steinberg reveals the profound impact that our purchasing-obsessed culture has on our children and argues that the experience of childhood has been reshaped into something that is prefabricated. Analyzing the pervasive influence of these corporate productions, top experts in the fields of education, sociology, communications, and cultural studies contribute incisive essays that students, parents, educators, and general readers will find insightful and entertaining. Including seven new chapters, this third edition is thoroughly updated with examinations of the icons that shape the values and consciousness of today's children, including Twilight, True Blood, and vampires, hip hop, Hannah Montana, Disney, and others.

Mixturao and Other Poems Tato Laviera.2008-09-30 In the title poem of Tato Laviera's fifth poetry collection, "Mixturao," he celebrates the mix of diverse cultures and languages that make up America, and challenges those who advocate a monolingual existence: "We who integrate / urban America / simmering in each other's / slangs indigenous / nativizing our tongues / cruising accents / who are you, English, / telling me, 'Speak only English / or die?'" Laviera deftly combines English and Spanish in this poetic celebration of his own bilingual, bicultural existence and the ever-increasing use of both languages in all fields, from music to technology. In his poem entitled "Spanglish," he writes: "pues estoy creando spanglish / bi-cultural systems / scientific lexicographical / inter-textual integrations / two expressions / existentially wired / two dominant languages / continentally abrazándose" Divided into sections that examine borders, women, men, neighborhoods, and folklore, Laviera continues his life-long poetic exploration of his Afro-Puerto Rican roots planted in the urban cacophony of New York City. In "Nideaquinedeall" ("Neither from Here nor from There"), he writes about the sense of alienation that all immigrants face when they are considered foreigners in both their native and adopted lands. The poems of Tato Laviera are complex and engaging, and through his words, his spirit, his bilingualism, and his dual identity, he offers the reader poems that are a celebration of life and identity.

Border Crossings Henry A. Giroux.2007-05-11 The concept of border and border crossing has important implications for how we theorize cultural politics, power, ideology, pedagogy and critical intellectual work. This completely revised and updated edition takes these areas and draws new connections between postmodernism, feminism, cultural studies and critical pedagogy. Highly relevant to the times which we currently live, Giroux reflects on the limits and possibilities of border crossings in the twenty-first century and argues that in the post-9/11 world, borders have not been collapsing but vigorously rebuilt. The author identifies the most pressing issues facing critical educators at the turn of the century and discusses topics such as the struggle over the academic canon; the role of popular culture in the curriculum; and the cultural war the New Right has waged on schools. New sections deal with militarization in public spaces, empire building, and the cultural politics of neoliberalism. Those interested in cultural studies, critical race theory, education, sociology and speech communication will find this a valuable source of information.

Cecilia Valdés or El Angel Hill Cirilo Villaverde.2005-09-29 Cecilia Valdés is arguably the most important novel of 19th century Cuba. Originally published in New York City in 1882, Cirilo Villaverde's novel has fascinated readers inside and outside Cuba since the late 19th century. In this new English translation, a vast landscape emerges of the moral, political, and sexual depravity caused by slavery and colonialism. Set in the Havana of the 1830s, the novel introduces us to Cecilia, a beautiful light-skinned mulatta, who is being pursued by the son of a Spanish slave trader, named Leonardo. Unbeknownst to the two, they are the children of the same father. Eventually Cecilia gives in to Leonardo's advances; she becomes pregnant and gives birth to a baby girl. When Leonardo, who gets bored with Cecilia after a while, agrees to marry a white upper class woman, Cecilia vows revenge. A mulatto friend and suitor of hers kills Leonardo, and Cecilia is thrown into prison as an accessory to the crime. For the contemporary reader Helen Lane's masterful translation of Cecilia Valdés opens a new window into the intricate problems of race relations in Cuba and the Caribbean. There are the elite social circles of European and New World Whites, the rich culture of the free people of color, the class to which Cecilia herself belonged, and then the slaves, divided among themselves between those who were born in Africa and those who were born in the New World, and those who worked on the sugar plantation and those who worked in the households of the rich people in Havana. Cecilia Valdés thus presents a vast portrait of sexual, social, and racial oppression, and the lived experience of Spanish colonialism in Cuba.

I have also attempted to give these research findings and observations meaning from my experience as a teacher, counselor, and principal in a high school and as a college teacher and counselor, roles in which I have met many highly creative individuals. I have also drawn upon my research concerning behavior under emergency and extreme conditions, especially situations involving coercion.

Violence against Women in Politics Mona Lena Krook.2020-07-16 Women have made significant inroads into political life in recent years, but in many parts of the world, their increased engagement has spurred attacks, intimidation, and harassment. This book provides the first comprehensive account of this phenomenon, exploring how women came to give these experiences a name: violence against women in politics. Tracing its global emergence as a concept, Mona Lena Krook draws on insights from multiple disciplines--political science, sociology, history, gender studies, economics, linguistics, psychology, and forensic science--to develop a more robust version of this concept to support ongoing activism and inform future scholarly work. Krook argues that violence against women in politics is not simply a gendered extension of existing definitions of political violence privileging physical aggressions against rivals. Rather, it is a distinct phenomenon involving a broad range of harms to attack and undermine women as political actors, taking physical, psychological, sexual, economic, and semiotic forms. Incorporating a wide range of country examples, she illustrates what this violence looks like in practice, catalogues emerging solutions around the world, and considers how to document this phenomenon more effectively. Highlighting its implications for democracy, human rights, and gender equality, the book asserts that addressing this issue requires ongoing dialogue and collaboration to ensure women's equal rights to participate--freely and safely--in political life around the globe.
