The Philosophy of Desire in the Buddhist Pali Canon David Webster.2005 David Webster explores the notion of desire as found in the Buddhist Pali Canon. Beginning by addressing the idea of a 'paradox of desire', whereby we must desire to end desire, the varieties of desire that are articulated in the Pali texts are examined. A range of views of desire, as found in Western thought, are presented as well as Hindu and Jain approaches. An exploration of the concept of ditthi(view or opinion) is also provided, exploring the way in which 'holding views' can be seen as analogous to the process of desiring. Other subjects investigated include the mind-body relationship, the range of Pali terms for desire, and desire's positive spiritual value. A comparative exploration of the various approaches completes the work.

The Ocean Challenge Badge Food and Agriculture Organization of the United Nations.2018-05-08 The ocean covers 70 percent of the Earth's surface, and is essential for life on our planet - even for those of us who live nowhere near the sea! It provides us all with food and other materials that we need, regulates our climate and provides half of the oxygen we breathe. The ocean also offers us various means of transport and opportunities for recreation. People have long thought that the

ocean was so wide and bountiful that it would go on supplying our needs forever, but this is not the case: human activities are causing significant damage to life in the ocean. People are often unaware of the problems created by this heavy reliance, as few of us have the opportunity to look beneath the surface of the sea and see the damage that our actions have caused. This is where the Ocean Challenge Badge comes in: let it take you on a journey to discover the ocean! It is packed with activities to help you learn about how the ocean works, the creatures that live in it, and just how important it is in our everyday lives. You will also discover how YOU can play a role in protecting our ocean for future generations. We hope you will be inspired to take the challenge and celebrate our ocean. So dive in and begin your aquatic discoveries!

I, Lucifer Glen Duncan.2007-12-01 "A fiendishly sharp, intelligent examination of modern human life that is as funny as hell." —The Times (London) The end is nigh and the Prince of Darkness has just been offered one hell of a deal: reentry into Heaven for eternity—if he can live out a well-behaved life in a human body on earth. It's the ultimate case of trying without buying and, despite the limitations of the human body in question (previous owner one suicidally unsuccessful writer, Declan Gunn), Luce seizes the opportunity to run riot through the realm of the senses. This is his chance to straighten the biblical record (Adam, it's hinted, was a misguided variation on the Eve design), to celebrate his favorite achievements (everything from the Inquisition to Elton John), and, most important, to get Julia Roberts attached to his screenplay. But the experience of walking among us isn't what His Majesty expected: instead of teaching us what it's like to be him, Lucifer finds himself understanding what it's like to be us. By an author hailed by the Times Literary Supplement as one of Britain's top twenty young novelists, I, Lucifer is "a masterpiece . . . startlingly witty, original and beautifully written" (Good Book Guide). "Duncan's witty and perverse, yet somehow life-affirming, Lucifer is powerful indeed." —Booklist

The Pattern Under the Plough George Ewart Evans.2012-11-15 Following his two classics, *Ask the Fellows Who Cut the Hay* and *The Horse in the Furrow*, renowned oral historian George Ewart Evans continues his study of the vanishing customs, working habits and rich language of the farming communities of East Anglia with *The Pattern Under the Plough* (Faber, 1966). Although based on East Anglia, this book was and remains of wider interest, for - as the author pointed out at the time - similar changes were occurring in North America, and also happening with remarkable speed in Africa. In chronicling the old culture George Ewart Evans has taken its two chief aspects, the home and the farm. He describes the house with its fascinating constructional details, the magic invoked for its protection, the mystique of the hearth, the link of the bees with the people of the house, and some of their fears and pre-occupations. Among the chapters on the farm is one of Evans's most original pieces of research: the description of the secret horse societies. Beautifully illustrated by

David Gentleman, this book is important not only for the material it reveals about the past but for the implications for present-day society. 'As real (and as valuable) as the evidence unearthed by the spadework of archaeology.' Observer
