Judith Baumel, contest judge, states: ...Hamilton offers a new ambition and a new voice to contemporary poetry. Here is a poet who is witness to the physical world as much as the intellectual ... a great chorus of the loud and the soft, the public, the personal. EARTH SONGS offers energetic and beautifully controlled language and a precise and lyrical eye. We can be grateful to M. Hamilton for [this] vision of the world....

The Song of the Earth Jonathan Bate. 2000 As we enter a new millennium ruled by technology, will poetry still matter? *The Song of the Earth* answers eloquently in the affirmative. A book about our growing alienation from nature, it is also a brilliant meditation on the capacity of the writer to bring us back to earth, our home. In the first ecological reading of English literature, Jonathan Bate traces the distinctions among nature, culture, and environment and shows how their meanings have changed since their appearance in the literature of the eighteenth century. An intricate interweaving of climatic, topographical, and political elements poetically deployed, his book ranges from greenhouses in Jane Austen's novels to fruit bats in the poetry of Les Murray, by way of Thomas Hardy's woodlands, Dr. Frankenstein's Creature, John Clare's birds' nests, Wordsworth's rivers, Byron's bear, and an early nineteenth-century novel about an orangutan who stands for Parliament. Though grounded in the English Romantic tradition, the book also explores American, Central European, and Caribbean poets and engages theoretically with Rousseau, Adorno, Bachelard, and especially Heidegger. The model for an innovative and sophisticated new ecopoetics, *The Song of the Earth* is at once an essential history of environmental consciousness and an impassioned argument for the necessity of literature in a time of ecological crisis.

Song of the Earth John R. Dann, Jonathan Bate. 2000-06-01 In the brilliantly engaging style that characterised *The Genius of Shakespeare*, Jonathan Bate has written a series of compelling pieces on the link between literature and the environment and why poetry matters in the new millennium. In fascinating detail, Bate explains how words like 'culture' and 'environment' have evolved since the writing of Jane Austen, Thomas Hardy and the Romantics to the present day.

Out of Doors Annie Johnson Flint. 2019-06-21 This collection of evocative poems based upon scenes in nature are based upon the author's faith in God, and her love of beauty in the natural world. A beautiful and moving anthology of verses, *Out of Doors* offers a look at both the great outdoors in all its boundless splendor, and the author's personal connection with her Christian faith. Expressing both personal and earthly devotion, Annie Flint's words are eloquent and rich in imagery, her descriptions of the interplay of plant and animal life joyful. Many of the poems concern the passing of the seasons, the splendid colors of autumn as the leaves fall, or the blossom of new life in the spring. Earth Song: A Nature Poems Experience Sara Barkat.2022-06-30 Born from a pivotal moment of personal connection with nature, while the world seemed burning with pandemic fever and climate fire, this anthology of ecopoetry gathered by editor Sara Barkat is infused with vision and care. Holding the collection is like cradling a rare crystal that focuses longing, love, tenderness, hope, and a wish for the world to keep turning... in unutterable ways. Thus: the visceral need for poetry. Words that sing more than speak. Images that invite more than opine. Arranged to mirror the experience of an orchestral piece-with repeating refrains of Teasdale and Hopkins, Earth Song unfolds its lyric moments through a wide range of voices. Historic. Modern-day. Cross-cultural. Global-with many poems in beautiful translation. The collection includes both emerging poets and greats like Neruda, Berry, Hirshfield, Darwish, Dickinson, McKay and Merwin. Leaving off anger, which is the single emotion that many people have come to associate with environmental concern, this collection puts forth a vision more nuanced, more poignant, and not easily brushed aside. Like an irresistible piece of music, it draws readers to embrace their care for the world-starting so simply: celebrating life moment by small moment. ****Full List of Poets Featured in Earth Song**** Scott Edward Anderson, Crisosto Apache, L. Song of a Nature Lover Michael Basse Johnson.2021-02-22 Earth, mountains, rivers, trees, and flowers! Chirping crickets, babbling creeks and the sweet earthy smell of petrichor! If you are a fan of the great outdoors, you have probably noticed that you feel happier beyond the confines of your home. Did you know that it is scientifically proven that flowers make you feel better? And even just looking at pictures of nature lowers your stress level? Song of a Nature Lover is an exquisite collection of inspired thoughts (short poems and esoteric musings) that presents the mysteriousness and intricacies of Mother Nature, and how we the Earthmen decode it. It captures the soul, the imagination and the senses, while at the same time reflect on the words and wisdom of the poet about the wealth and splendor of the flora and fauna. Getting in tune with our environment and deciphering its cryptic language connects us with ourselves. It forms a nexus between us and the loving presence of the great mystery. And if perchance, we find ourselves in the most unpleasant of situations, all we need do is delve into nature to unwind, meditate, and seek solace. This miniature, yet sophisticated collectanea promises to take the writer, the thinker, the mystic, the poet, the lover, the artist, the photographer, and every soul under the golden sun on a mental tour to explore their own latent feelings, and to be a living witness of the grandeur, tapestry of colour, and meaning that nature, in its pristine state, adds to the human experience.

Songs of Nature Steve Robison.2013-03-18 A collection of fifty poems, inspired by nature's beauty and spiritual perfection, by Steve Robison.

Nature is divine, and in nature there are lessons. This book presents poetically the lessons which lead the reader to deeper understanding of the world and its mystery. God is in the atom, said Einstein. Poet Steve Robison finds God in the tree, in the flight of a seagull, in the sunrise and sunset. There are many paths to enlightenment; nature is a soft and gentle teacher. The poems in this collection move, lead, nudge, and inspire the discovery of the light in all us, reflected through the mirror of nature and her creatures. To seek purpose in nature is to lose some of its beauty. Nature's essence is alive and breathing and artful and glorious. The song of a warbler The warmth of a fresh rose The touch of soft rain Beyond what forever knows Forever in tune Cohesively, they grow Flowers, plants, weeds and trees Giving wonderment that always shows

Earth, Sky and Air in Song (Classic Reprint) William Harold Neidlinger.2017-05-20 Excerpt from *Earth, Sky and Air in Song* His series of books is presented in the hope of aiding the youth of T our country to form the habit of observation of Nature, than which there is no greater power for education. The series consists of two volumes, Book One and Book Two. It is recommended that they be taken up in the order indicated, though each book is independent of the other. It has been my endeavor in writing the words of these songs to use the child's language, and to recognize the child's sense of humor, which seems to me of great importance. In the music I have tried to adhere naturally to the elocutionary expression of the text. It is impossible to give satisfactory directions as to the manner in which songs are to be sung; but if teachers and others who may use these books will bear in mind the above fact and allow the children to sing the words as they would read them, taking all the liberties necessary for the elocutionary expression of the text, the best results will, I am sure, be obtained.
