

Der Panzer Und Die Mechanisierung Des Krieges Ein

Militärisches Entscheiden Martin Clauss, Christoph Nübel. 2020-06-24 Militärisches Handeln ist, so suggerieren Quellen und Historiografie, vor allem Entscheidungshandeln. Entscheidungen werden so zu Schlüsselereignissen in der Kriegführung stilisiert, die über Sieg und Niederlage bestimmen. Damit werden Fragen nach den Rahmenbedingungen und Merkmalen militärischer Entscheidungsprozesse und den Konstanten des militärischen Entscheidens aufgeworfen. Die Beiträge dieses Bandes analysieren epochenübergreifend die Voraussetzungen, Prozesse und Repräsentationen militärischen Entscheidens und bestimmen erstmals die Rahmenbedingungen und Merkmale des Entscheidens im militärischen Kontext.

Söldner, Schädel und Soldaten Christoph J. Eppler. 2018 Der Krieg gibt sich in all seinem gräßlich-archaischen Schrecken als zeitenüberdauerndes Signum der Menschheit zu erkennen. Er und seine mehr oder weniger freiwilligen Akteure, Söldner, Schädel und Soldaten, scheinen angeboren, unausrottbare, unauslöschliche in der menschlichen Natur verankert? Diese Untersuchung intendiert, das Phänomen Krieg mit seinem fürchterlichen Folgen über einen Zeitraum von 3.000 Jahren mit all seinen politisch-pädagogischen, philosophisch-anthropologischen, soziologisch-historischen Aspekten darzustellen.

A Theory of Catastrophe Bryan S. Turner. 2023-05-08 Sociology has developed theories of social

change in the fields of evolution, conflict and modernization, viewing modern society as essentially unstable and conflict driven. However, it has not seriously studied catastrophe. A Theory of Catastrophe develops a sociology of catastrophes, comparing natural, social and political causes and consequences, and the social theories that might offer explanations. A catastrophe is a general and systematic breakdown of social and political institutions resulting, among other things, in what we could call a catastrophe consciousness. The Greek 'cata-strophe' formed the conclusion to a dramatic sequence of strophes. The cata-strophe was the final act of a drama, namely its denouement. Catastrophic denouements are without hope: genocides, military occupations, plagues, famines and earthquakes. A Theory of Catastrophe analyzes Pompeii, the Black Death, colonial genocide in North America, WWI and the Spanish Flu, and Nazi Germany and finally this century: terrorism, new wars, climate change and pandemics. As a study of sociological theory, Bryan Turner discusses Spengler's Decline of the West, Marxism as a theory of catastrophic capitalism, messianic movements, Weber on modernity, and risk society. He concludes by comparing optimism and pessimism, and the idea of inter-generational justice.

Der Krieg im 20. und 21. Jahrhundert Malte Riemann. 2020-08-19 War is a chameleon, as the famous Prussian General Carl von Clausewitz remarked in the nineteenth century. And war can in fact take on different outward forms. Particularly during the last 120 years, the modes and strategies of war have changed several times & from people=s war and total war, through the Cold War, to ?humanitarian= and asymmetric war. All of these forms of war also make statements about the social, political and economic conditions in the states that wage them. Studying war is therefore not merely a specialized discipline in military history, but rather an integral component of a critical view of history. Malte Riemann provides a concise introduction to the various forms of war and the

way in which they have developed since the early twentieth century. He vividly discusses types of war, war technologies and military strategies. Beyond the narrow military field, the effects of war on societies and on the politics of the belligerent countries are also described. In the introduction, the author recounts debates in the history of ideas on the nature of war in modern times. This is followed by seven chronologically arranged chapters, initially considering the First World War (a people=s, positional and colonial war). This is followed by a description of the Second World War as a ?total= war. Subsequent chapters are devoted, among other matters, to the Cold War and the wars that followed the dissolution of the Soviet Union. In conclusion, the author provides a forward look towards potential scenarios for the future of war, based on current developments (the war on terror, asymmetric war, drone war, ?private war= conducted by mercenaries, and automated war). The fact that the topic of war has never been off the political agenda since 1990, and that even in Germany we are by no means living in an age of perfect peace, is made particularly clear whenever the Bundestag has to decide yet again on the deployment of the Federal Armed Forces abroad. It is this topical relevance of the issue that has given the New Military History its impetus, attracting wide interest both from the general public and in the academic field.

Stauffenberg Thomas Karlauf.2019-03-11 Ausgezeichnet als das historische Buch des Jahres und beste Biografie des Jahres von DAMALS - Das Magazin für Geschichte. Wer war Claus von Stauffenberg? Die Figur des Oberst, der am Mittag des 20. Juli 1944 die Bombe zündete, die Hitler töten sollte, blieb in der Literatur immer schemenhaft. Wir kennen den langen Weg der Opposition, der schließlich zu dem Anschlag geführt hat, aber bis heute besitzen wir kein überzeugendes Bild von der Persönlichkeit des Attentäters. Weil wir in erster Linie nach moralischen Kriterien urteilen, tun wir uns mit der Einordnung des militärischen Widerstands generell schwer. Die neue

Stauffenberg-Biografie versucht, aufbauend auf dem aktuellen Forschungsstand und unter Berücksichtigung bisher unbekannter Quellen, die Ideenwelt des Attentäters zu rekonstruieren. Die Normen, die sein Denken und Handeln bestimmten, waren für ihn lange Zeit vereinbar mit Hitlers Politik. Erst im Sommer 1942 begann er umzudenken und die politische Verantwortung des Offiziers höher zu stellen als Pflicht und Gehorsam. Als er zwei Jahre später zur Tat schritt, fühlte er sich von den meisten seiner Mitverschwörer im Stich gelassen. In jedem anderen Land Europas wäre einem Hitler-Attentäter schon wenige Tage nach Kriegsende ein Denkmal errichtet worden. Warum das in Deutschland nicht möglich war, zeigt dieses Buch.

Tank Warfare Jeremy Black.2020-10-27 “An “insightful and informative” overview of the role of tanks in combat from the First World War to the present day (Dennis Showalter, author of *Armor and Blood*). The story of the battlefield in the twentieth century was dominated by a handful of developments. Foremost of these was the introduction and refinement of tanks. In *Tank Warfare*, Jeremy Black, a recipient of the Samuel Eliot Morison Prize from the Society for Military History, offers a comprehensive global account of the history of tanks and armored warfare in the twentieth and twenty-first centuries. First introduced onto the battlefield during World War I, tanks represented the reconciliation of firepower and mobility and immediately seized the imagination of commanders and commentators concerned about the constraints of ordinary infantry. The developments of technology and tactics in the interwar years were realized in the German blitzkrieg in World War II and beyond. Yet the account of armor on the battlefield is a tale of limitations and defeats as well as of potential and achievements. *Tank Warfare* examines the traditional narrative of armored warfare while at the same time challenging it, and Black suggests that tanks were no “silver bullet” on the battlefield. Instead, their success was based on their inclusion in the general

mix of weaponry available to commanders and the context in which they were used. “An excellent overview of the subject.” —Alaric Searle, author of *Armoured Warfare: A Military, Political and Global History*

The German Way of War Robert Michael Citino. 2005 For Frederick the Great, the prescription for warfare was simple: kurz und vives (short and lively) - wars that relied upon swift, powerful, and decisive military operations. Robert Citino takes us on a dramatic march through Prussian and German military history to show how that primal theme played out time and time again. Citino focuses on operational warfare to demonstrate continuity in German military campaigns from the time of Elector Frederick Wilhelm and his great sleigh-drive against the Swedes to the age of Adolf Hitler and the blitzkrieg to the gates of Moscow. Along the way, he underscores the role played by the Prussian army in elevating a small, vulnerable state to the ranks of the European powers, describes how nineteenth-century victories over Austria and France made the German army the most respected in Europe, and reviews the lessons learned from the trenches of World War I.

Hitler's Panzer Generals David Stahel. 2023-05-04 Germany's success in the Second World War was built upon its tank forces; however, many of its leading generals, with the notable exception of Heinz Guderian, are largely unknown. This biographical study of four German panzer army commanders serving on the Eastern Front is based upon their unpublished wartime letters to their wives. David Stahel offers a complete picture of the men conducting Hitler's war in the East, with an emphasis on the private fears and public pressures they operated under. He also illuminates their response to the criminal dimension of the war as well as their role as leading military commanders conducting large-scale operations. While the focus is on four of Germany's most important panzer generals - Guderian, Hoepner, Reinhardt and Schmidt - the evidence from their private correspondence sheds

new light on the broader institutional norms and cultural ethos of the Wehrmacht's Panzertruppe. Leerstelle(n)? Christine Chiriac, Aliaksandr Dalhouski, Anna Engelking, Janine Fubel, Laura Haendel, Andreas Hilger, Ulrike Jureit, Andrea Kamp, Konrad Kwiet, Babette Quinkert, Johannes Spohr. 2019-02-28 Der deutsche Vernichtungskrieg in der Sowjetunion (1941-1944) spielt in der öffentlichen Wahrnehmung und Erinnerung der Bundesrepublik Deutschland eine marginale Rolle. Zu den blinden Flecken gehören etwa die Politik der 'verbrannten Erde', das Ausmaß der Massenerschießungen von Juden und Jüdinnen, der jüdische Widerstand gegen die 'Endlösung', insbesondere in den Wäldern Weißrusslands, die Dimension der Ermordung der sowjetischen Kriegsgefangenen sowie die konkreten Tatorte und deren damalige und heutige materielle Beschaffenheit. Diesen Leerstellen widmet sich die vorliegende Publikation. Die Beiträge befassen sich mit der Sichtbarkeit und Nicht-Sichtbarmachung der NS-Verbrechen, dem Zusammenhang von Raum und Erinnerung sowie der Vergegenwärtigung des Vernichtungskriegs im Rahmen von Ausstellungen, Parlamentsdebatten und Schulbüchern.

Unternehmen "Walküre" Winfried Heinemann. 2019-02-19 Am 20. Juli 1944 verübte ein Offizier ein Attentat auf Hitler. Stauffenberg und andere Heeresoffiziere versuchten, das NS-Regime zu stürzen und den ausweglosen Krieg zu beenden. War es nur ein Aufstand des Gewissens? In welcher militärischen Tradition standen die Verschwörer? Und welche militärischen Überlegungen lagen ihrem Handeln zugrunde? Der Band analysiert die Ereignisse aus einer spezifisch militärgeschichtlichen Perspektive und nimmt im Schwerpunkt die militärischen Umsturzplanungen in den Blick. Er fragt aber auch nach den Auswirkungen von Attentat und Staatsstreichversuch auf das Militär der Nachkriegszeit in West- und Ostdeutschland sowie in Österreich. Dass Stauffenberg und seine Mitverschwörer einer anderen Vorstellung von der Rolle des Militärs im Staat anhängen,

machte es für die Nachkriegsarmeen nicht einfach, sich in die Tradition des Aufstandes gegen den Krieg und das verbrecherische Regime zu stellen.

The Historiography of World War I from 1918 to the Present Christoph Cornelissen, Arndt Weinrich. 2022-11-11 From the Treaty of Versailles to the 2018 centenary and beyond, the history of the First World War has been continually written and rewritten, studied and contested, producing a rich historiography shaped by the social and cultural circumstances of its creation. Writing the Great War provides a groundbreaking survey of this vast body of work, assembling contributions on a variety of national and regional historiographies from some of the most prominent scholars in the field. By analyzing perceptions of the war in contexts ranging from Nazi Germany to India's struggle for independence, this is an illuminating collective study of the complex interplay of memory and history.

Die Alpen im Kalten Krieg Dieter Krüger, Felix Schneider. 2012 Der Alpenraum war im Kalten Krieg von scheinbar zweitrangiger geopolitischer Bedeutung, doch seine Aufteilung auf zwei neutrale, einen blockfreien und drei westliche Staaten verlieh ihm eine Sonderstellung. Die Beiträge dieses Bandes spannen den Bogen von der Betrachtung der einzelstaatlichen Sicherheitsinteressen zu den übergreifenden Linien des globalen Konflikts. Dabei findet die Bedeutung der neutralen Länder für die Außenpolitik auf beiden Seiten besondere Beachtung.

Revolution and (Post) War, 1917-1922 Clara Isabel Serrano, Sergio Neto. 2023-08-04 This book focuses on the Russian Revolution of 1917, the legacy of the First World War, and Mussolini and Italian fascism - offering an important overview of the major themes of the early 20th century. Using a methodical approach and employing a wide range of sources, the nine chapters provide a re-analysis and synthesis of these three major subjects and look at how the world was reshaped during

the period of 1917–1922. This volume also discusses lesser-known subjects in Anglo-Saxon historiography: the effects of the Russian Revolution in Spain and in the Islamic world, as well as the consequences of the Portuguese participation in the First World War in Africa, and the German memory of that conflict. By linking these themes, this book sheds a light on how since the early 21st century we have witnessed a rise of populism and extremism. Dealing with one of the most paradigmatic periods of Contemporary History, this book is essential for scholars and students of History, International Relations, Postcolonial Studies, and African Studies programs, as well as librarians and diplomats, and for advanced training institutions, peacebuilding organizations, international NGOs, and the wider public.

The 12th SS Panzer Division "Hitlerjugend" Adrian Dragoş Defta.2021-06-21 This book demythologises one of the top Waffen-SS units during the Second World War, the Hitlerjugend Division. In addition to bringing together new research in European historiography, it also represents an innovative scientific approach using social psychology. It provides insights into inner psychological mechanisms that facilitated moral disengagement and culminated in the division's unparalleled combat motivation and war crimes. Best known for their alleged fanaticism, Nazi indoctrination and inclination to perpetrate atrocities, Hitlerjugend soldiers are analysed here using perspectives drawn from across sociology, anthropology and psychology.

Tannenberg 1914 John Zimmermann.2021-09-07 Tannenberg war nicht nur der Ort eines mythenumwobenen deutschen Sieges Ende August 1914. Die Schlacht bei Tannenberg zu Beginn des Ersten Weltkrieges galt vielen als Beweis für die überlegene deutsche militärische Führungskunst und die Richtigkeit des Dogmas der Vernichtungsschlacht. Sie bescherte dem Oberbefehlshaber der 8. Armee Paul von Hindenburg Legendenstatus, der den „Retter Ostpreußens

schließlich bis ins Präsidentenamt der Weimarer Republik trug. Geschickt inszenierte die zeitgenössische Propaganda den umfassenden Sieg als erfolgreichen Kampf des „Germanentums gegen das „Slawentum. Schon die Benennung nach dem Ort Tannenberg, der eher am Rande des Geschehens lag, weist in diese Richtung: Sie sollte an die gleichnamige Schlacht von 1410 erinnern, in der ein Heer des Deutschen Ordens vernichtend von einem polnisch-litauischen Heer geschlagen wurde. John Zimmermann analysiert auf breiter Quellenbasis den Verlauf und die Folgen der Schlacht. Er hinterfragt die Mythenbildung und legt anschaulich dar, warum der Mythos „Tannenberg nach 1945 ausgedient hatte.

Der Lichtkrieg Karl Hufnagl.2023-01-06 Im Zeichen der Zeitenwende findet eine Reorientierung zu einer Politik der militärischen Stärke statt. Gleichzeitig schreitet die technische Entwicklung weiter voran und wirft die Frage auf, wohin sich die Kriegsführung entwickelt. Dieses Buch soll für einen Teilaspekt zukünftiger Streitkräfte Anregungen und Orientierung bieten. Die Rahmenbedingungen der Landkriegsführung werden von dem Wechselspiel der Potentiale von Feuer und Bewegung vorgegeben, die wiederum Ausdruck der technischen Entwicklung sind. In einer tiefgehenden historischen Analyse wird der Verlauf dieser Potentiale nachgezeichnet und ein Ausblick auf die nahe Zukunft eröffnet. Im Ergebnis überwiegt das Feuer deutlich, was kostspielige Abnutzungskriege begünstigt. Der Lichtkrieg schildert in einer konkreten Vision, wie demgegenüber mit der innovativen Kombination von neuen Technologien zu einem ganzheitlichen militärischen Konzept die Bewegung wieder aufgewertet werden kann. Damit bietet er eine Lösung zur Herstellung zukünftiger militärischer Überlegenheit, die der Abschreckung, sowie der Erfüllung unserer Sicherheitsversprechen unseren Europäischen Partnern gegenüber dient.

Über Panzer Lutz Unterseher. Von Leonardo da Vinci, dem Vater des Panzers, des rundum

geschützten Kampffahrzeugs, über den Vater der Panzerwaffe, Guderian, bis zu Paul Werner Krapke, dem Vater des Leopard, spannt der Autor dieses Breviers den Bogen. Unterseher legt eine kurze Sammlung wichtiger Stellen aus vierzig Jahren Analyse dessen vor, was er Politikern, Militärs und Ingenieuren zur Planung, Leistung, Nutzung und Effizienz von gepanzerten Kampffahrzeugen hinter die Ohren geschrieben wissen will. Nicht zuletzt - und akut: mit dem Ukraine-Krieg vor Augen.

Die unbewältigte Niederlage Gerd Krumeich.2021-04-07 Die Niederlage im Ersten Weltkrieg, die Kriegsschuldfrage und die problematischen Friedensbedingungen des Versailler Vertrages von 1919 prägten die politische Entwicklung Deutschlands nachhaltig. Die Dolchstoßlegende wurde zu einer der wirksamsten propagandistischen Waffen gegen die Weimarer Republik.Gerd Krumeich erzählt entlang der Quellen und konsequent aus der Sicht der Zeitgenossen, wie das Trauma der Niederlage in eine Kultur des Hasses mündete. Das kontroverse Buch, das nun als überarbeitete Taschenbuchausgabe mit einem neuen Vorwort des Autors erscheint, ist längst zu einem wichtigen Beitrag in der Debatte um die Weimarer Republik geworden.

Die Deutsche Kriegswirtschaft im Bereich der Heeresverwaltung 1914-1918 Marcel Boldorf,Rainer Haus.2016-10-24 Die Neuauflage der volkswirtschaftlichen Untersuchungen des Preußischen Kriegsministeriums erweitert das Verständnis der deutschen Wirtschaft im Ersten Weltkrieg. Ihr kritischer Umgang mit Versäumnissen der Kriegsvorbereitung und -planung bietet Ansätze zur Neubewertung der wirtschaftlichen Ordnungspolitik. Sie enthalten eine Fülle von Informationen zu den Schlüsselsektoren Eisen-, Textil-, Waffen- und Munitionswirtschaft.

Nerven und Krieg Gundula Gahlen,Ralf Gnosa,Oliver Janz.2020-07-22

The "German Spirit" in the Ottoman and Turkish Army, 1908-1938 Gerhard Grüßhaber.2018-04-09

The study focuses on the mutual transfer of military knowledge between the German and the Ottoman/ Turkish army between the 1908 Young Turk revolution and the death of Atatürk in 1938. Whereas the Ottoman and later the Turkish army were the main beneficiaries of this selective appropriation, the German armed forces evaluated their (prospective) ally's military experiences to a lesser extent. Through the analysis of archival and published sources and memoir literature the study provides evidence for the impact of this exchange on the armies of both countries and on the Turkish civil society. Indeed, the officer corps in both countries was a small but influential group of the society for the further development of their nations.

Sprachwechsel - Perspektivenwechsel? Gabriella Pelloni,Ievgeniia Voloshchuk.2023-11-30

Literarische Texte von Autor*innen mit Migrationserfahrungen können ein kulturelles und ästhetisches Potential entfalten, das homogene Identitätskonzepte auflöst, nationale Paradigmen unterminiert und verschiedenartige Grenzen überwindet. Die Beiträge des Bandes legen dar, in welchen Formen und mit welchen Funktionen literarische Mehrsprachigkeit in Prozessen der Transkulturation zum Ausdruck kommt. Dabei fragen sie nach der spezifischen Qualität und Prägung literarischer Mehrsprachigkeit sowie nach Wechselwirkungen mit dem »transkulturellen Schreiben« bei deutschsprachigen Gegenwartsautor*innen mit Migrationshintergrund.

1918 Gerhard Hirschfeld,Gerd Krumeich,Irina Renz.2018

Der Zweite Weltkrieg Marco Sigg.2014-09-22 Als größter Krieg der Menschheitsgeschichte bleibt der Zweite Weltkrieg mit seinen politischen, gesellschaftlichen, rechtlichen und militärischen Auswirkungen bis heute spürbar. Die Brutalität dieses Krieges machte die Abgründe der Menschheit sichtbar wie kaum ein Konflikt zuvor und danach. In diesem Buch soll der Zweite Weltkrieg in seiner Globalität und Totalität betrachtet werden. Besonderes Augenmerk liegt darauf zu zeigen, wie sehr

die europäische und außereuropäische Welt in diesen Krieg und seine Ursachen verwickelt war. Dabei werden die Ausgangslage nach dem Ersten Weltkrieg sowie die politisch-militärischen Entwicklungen und der Einfluss schwelender Konflikte der Zwischenkriegszeit dargestellt. Neben der chronologischen Behandlung der wichtigsten Kriegsschauplätze und Akteure werden der See- und Luftkrieg gesondert untersucht. Schließlich sollen unter dem Begriff des Totalen Krieges auch die gesellschaftliche und wirtschaftliche Mobilisierung, die Rolle der Technologie sowie die Entgrenzung der Gewalt und die Kriegsverbrechen thematisiert werden. Damit einher geht der Blick auf die Opfer, Schäden und Kosten sowie auf die Folgen und die Erinnerung an diesen totalsten aller Kriege.

Der Totenkopf als Motiv Adrian Ruda.2023-10-09 Was bedeuten Totenkopfsymbole? Über die Medien- und Konsumkultur zieren sie das Erscheinungsbild von Waren und Menschen. Sie stiften Attitüden, die in den letzten Jahrzehnten verstärkt als attraktiv und cool, aber auch als geschmacklos und bedrohlich bewertet werden. Spätestens wenn machtvolle oder nach Macht strebende Gruppen das Symbol nutzen, stellt sich die Frage, was es signalisiert. Die Studie analysiert aus historisch-kulturanthropologischer Perspektive Totenkopfmotive bei Piraten, Husaren, Freikorps, SS und Halbstarken. Aus dem historischen Militärwesen heraus haben sie multiple Bedeutungen für die Moden in Vergangenheit und Gegenwart entfaltet: Erst wer die Geschichte kennt, vermag die Relevanz der teils stark belasteten Motive einzuschätzen.

1918 - Der Weg zum Frieden Ignaz Miller.2019-01-21 «Von einem Krieg weiss man immer nur, wie er anfängt», meinte Charles de Gaulle einmal. Ignaz Miller konzentriert sich darauf, das Ende des Grossen Kriegs zu erklären. Eine seiner Thesen lautet: Das parlamentarisch-demokratische System, wie es etwa Frankreich und England kannten, war dem Kaiserreich in dieser Krisenzeit

überlegen. Als Opfer seiner eigenen Propaganda war Deutschland in den Krieg gezogen, und als solches beendete es den Krieg: Das Angebot der Alliierten zum ersehnten Waffenstillstand ersparte dem Reich die Kapitulation. Keine vier Wochen später begrüßte jedoch der nachmalige Reichspräsident Friedrich Ebert die paradierenden Truppen mit den Worten «Unbesiegt im Felde!» Ignaz Miller dekonstruiert auf anschauliche Weise verschiedene Mythen, die seit 1918 aufgebaut wurden und noch heute zirkulieren.

Der Panzer und die Mechanisierung des Krieges Markus Pöhlmann.2016 Der Panzer ist eine alte Idee, aber eine junge Erfindung. In seiner charakteristischen Anordnung von Feuerkraft, Panzerung und Beweglichkeit hat er den Landkrieg im 20. Jahrhundert revolutioniert. Dieses Buch untersucht die Geschichte des Panzers als Waffe und Symbol in Deutschland zwischen 1890 und 1945. Anhand der zeitgenössischen Kriegsbilder, der Rüstung, der Operationen und der Bilder vom Panzer beschreibt das Buch den Stellenwert des Waffensystems in den deutschen Streitkräften. Dabei wird deutlich, dass das idealisierende Vorstellungen vom Panzers seine tatsächliche militärische Wirkung oft überlagerten. Das Waffensystem Panzer wurde zum Indikator für soldatische Auffassungen über Technik, zum Symbol für die Niederlage von 1918, aber auch für die Blitzkriege von 1939/40 und für militärische Hybris. Im Panzer treffen Mensch und Maschine auf existenzielle Weise aufeinander. Das macht ihn bedeutsam bis in die Gegenwart.

Nerven, Krieg und militärische Führung Gundula Gahlen.2022-11-23 Welche Anforderungen stellten Militär, Medizin, Politik und Gesellschaft an die nervliche Belastbarkeit von Offizieren im Krieg in Deutschland zwischen 1890 und 1939? Wie gingen sie mit psychisch erkrankten Offizieren um? Wie nahmen die Betroffenen selbst ihre Erkrankungen wahr? Und welche Auswirkungen hatten diese auf ihr Selbstbild und ihre Lebensläufe? Gundula Gahlen untersucht diese Fragen vom Kaiserreich über

die Weimarer Republik bis zur NS-Zeit. Ihre Studie füllt eine Lücke, da sich die bisherige Forschung zu kriegsbedingten psychischen Erkrankungen vor allem mit Mannschaftssoldaten beschäftigte, obwohl das Offizierskorps zu Beginn des 20. Jahrhunderts in Deutschland eine herausgehobene Herrschafts- und Werteelite war und zeitgenössische Leitvorstellungen von Willensstärke und Männlichkeit verkörperte. <https://creativecommons.org/licenses/by/4.0>

Ein »planerisches Dilemma« Wolf Stephan.2023-09-28 Das Buch beleuchtet Organisation, Bedarfsentwicklung und Probleme der Rüstungsplanung der Bundeswehr von 1989 bis 1994.

Panzergrenadiere - eine Truppengattung im Kalten Krieg André Deinhardt.2015-03-10 An der Entwicklung einer ganzen Truppengattung der Bundeswehr auf dem Höhepunkt des Kalten Kriegs lässt sich paradigmatisch die komplexe Wirkung, welche die Bundeswehr im Schatten der bundesdeutschen Zivilgesellschaft der 1960er Jahre entwickelte, zeigen. Die Rahmenbedingungen wurden durch die sicherheitspolitischen, wirtschaftlichen und gesellschaftlichen Entwicklungen der 1960er Jahre vorgegeben, wobei insbesondere der Wechsel der NATO-Strategie vom Konzept der Massive Retaliation zur Flexible Response bedeutsam war. Die Panzergrenadiertruppe dient als markantes Beispiel zur Überprüfung der strategischen und dabei vor allem der atomaren Optionen im Kalten Krieg der 1960er Jahre. Methodisch werden die Rahmenbedingungen, die Strukturen, die Besonderheiten der Führungs- und Kampfweise sowie die Ausrüstung der Panzergrenadiere untersucht.

Tanks Oscar E. Gilbert,Romain V. Cansière.2017-08-19 "For all the history buffs on warfare of the last century, Tanks is a perfect choice . . . packed with fascinating information" (San Francisco Book Review). This Casemate Short History—by the authors of Tanks in Hell: A Marine Corps Tank Company on Tarawa—provides an informative and entertaining introduction to this iconic weapon of

the last hundred years. Tanks first ventured into battle on the Somme in 1916, and by the end of the war, countries were beginning to choose “heavy” or “light” tank designs to suit their preferred doctrine. Design then stagnated until World War II brought about rapid change. Tanks would prove integral to fighting in almost every theater; the Germans swept across Europe using tanks to spearhead their blitzkrieg method of war, until Soviet tanks proved more than their match and led to some epic tank battles on a huge scale. After World War II, tank designs became increasingly sophisticated and armor undertook a variety of roles in conflicts, with mixed results. American armor in Korea was soon forced into an infantry support role, which it reprised in Vietnam, while Soviet armor was defeated in guerrilla warfare in Afghanistan. However, tanks played a pivotal role in the American “shock and awe” doctrine in two wars in Iraq, and tanks remain a crucial weapons system on the battlefield. “Comprehensive despite its conciseness. For example, it addresses the employment of tanks in lesser-known conflicts such as the Indio-Pakistani and Sino-Vietnamese wars. The book provides context for contemporary tank operations and offers a perspective on the way ahead.” —Military Review

Blood and Ruins Richard Overy.2023-04-04 “Monumental... [A] vast and detailed study that is surely the finest single-volume history of World War II. Richard Overy has given us a powerful reminder of the horror of war and the threat posed by dictators with dreams of empire.” - The Wall Street Journal A thought-provoking and original reassessment of World War II, from Britain’s leading military historian A New York Times bestseller Richard Overy sets out in *Blood and Ruins* to recast the way in which we view the Second World War and its origins and aftermath. As one of Britain’s most decorated and respected World War II historians, he argues that this was the “last imperial war,” with almost a century-long lead-up of global imperial expansion, which reached its peak in the

territorial ambitions of Italy, Germany and Japan in the 1930s and early 1940s, before descending into the largest and costliest war in human history and the end, after 1945, of all territorial empires. Overy also argues for a more global perspective on the war, one that looks broader than the typical focus on military conflict between the Allied and Axis states. Above all, Overy explains the bitter cost for those involved in fighting, and the exceptional level of crime and atrocity that marked the war and its protracted aftermath—which extended far beyond 1945. *Blood and Ruins* is a masterpiece, a new and definitive look at the ultimate struggle over the future of the global order, which will compel us to view the war in novel and unfamiliar ways. Thought-provoking, original and challenging, *Blood and Ruins* sets out to understand the war anew.

Der Sport des Militärs Martin Elbe, Frank Reichherzer. 2023-05-22 Sport hat für das Militär generell und für die Soldaten und Soldatinnen in ihrem Dienstalltag und in Einsatzsituationen eine herausgehobene Bedeutung. Die Rolle des Sports in den Streitkräften geht dabei weit über die Ertüchtigung des Körpers hinaus. Dieser Band ist das erste umfassende Werk, das sich der Thematik Sport und Militär und ihren Dimensionen aus verschiedenen Disziplinen – Sozialwissenschaften und Geschichte sowie Medizin, Sportwissenschaft und Psychologie – nähert. Der Schwerpunkt liegt auf dem Zusammenhang von Sport und Militär im 20. Jahrhundert und auf der Ausgestaltung dieses Beziehungsgeflechts in der Bundeswehr. Der Band gliedert sich in fünf Sektionen. Zunächst werden die grundlegenden Beziehungen von Sport und Militär betrachtet – aus wissenschaftlicher wie aus praktischer Sicht. Die zweite Sektion widmet sich aus sportwissenschaftlicher Perspektive der Praxis des Sports im Militär, die dritte Sektion der Förderung des Spitzensports. Die vierte Sektion liefert historische Analysen. Eine abschließende Sektion blickt mit zeitgeschichtlichem Ansatz auf das Verhältnis von Sport und Militär in anderen Ländern bzw. Streitkräften.

Militär-geschichtliche Zeitschrift .2018

Porsche Wolfram Pyta,Nils Havemann,Jutta Braun.2017-09-18 Porsche und der Aufstieg zum Weltunternehmen 1931 gründete Ferdinand Porsche sein „Konstruktionsbüro“. Der geniale Techniker – zuvor Konstrukteur von Elektrokutschen und Rennwagen sowie Chefentwickler von Daimler-Benz – sollte bis zu seinem Tod 1951 die Grundlagen für das spätere Weltunternehmen schaffen. Wolfram Pyta erzählt die Geschichte des Unternehmens in diesen turbulenten Anfangsjahren: von der Entstehung des Volkswagens über das Arrangement mit den Nazis und die Kriegsproduktion bis zur Entwicklung zur exklusiven Sportwagenschmiede – eine faszinierende Darstellung, die Unternehmens-, Automobil- und Zeitgeschichte miteinander verknüpft.

Designing the T-34 Peter Samsonov.2019-12-27 When the German army launched Operation Barbarossa – the invasion of the Soviet Union – on June 22, 1941, it was expecting to face and easily defeat outdated and obsolete tanks and for the most part it did, but it also received a nasty shock when it came up against the T-34. With its powerful gun and sloped armour, the T-34 was more than a match for the best German tanks at that time and the Germans regarded it with awe. German Field Marshal von Kleist, who commanded the latter stages of Barbarossa, called it “the finest tank in the world”. Using original wartime documents author and historian Peter Samsonov, creator of the Tank Archives blog, explains how the Soviets came to develop what was arguably the war’s most revolutionary tank design.

Tanks Richard Ogorkiewicz.2015-02-20 From an internationally acclaimed expert in the field comes a detailed, analytical and comprehensive account of the worldwide evolution of tanks, from their inception a century ago to the present day. With new ideas stemming from the latest academic research, this study presents a reappraisal of the development of tanks and their evolution during

World War I and how the surge in technological development during World War II and the subsequent Cold War drove developments in armour in Europe and America, transforming tanks into fast, resilient and powerful fighting machines. From the primitive, bizarre-looking Mark V to the Matilda and from the menacing King Tiger to the superlative M1 Abrams, Professor Ogorkiewicz shows how tanks gradually acquired the enhanced capabilities that enabled them to become what they are today – the core of combined-arms, mechanized warfare.

Panzer Tactics Wolfgang Schneider.2020-09-01 Ultimate inside view of the blitzkrieg in World War II Diagrams, maps, and schematics illustrate key principles Hundreds of rare photos show Panzers and crews in action Wolfgang Schneider has written the definitive account of German small-unit armor tactics. Using period training manuals, after-action reports, countless interviews with Panzer veterans, and his own experiences as an armor commander in the modern German Army, Schneider describes World War II Panzer tactics, coupling his narrative with scores of illustrations that highlight armor concepts. Schneider covers the major types of small-unit operational art-offensive and defensive-and also discusses road marches, reconnaissance, command and control, working with other arms of service, life in a tank, armor training, gunnery, and the future of armor. The book provides useful insight into armor tactics for both the layman and the armor enthusiast.

Operation Valhalla Friedrich Kittler.2021-03-02 Operation Valhalla collects eighteen texts by German media theorist Friedrich Kittler on the close connections between war and media technology. In these essays, public lectures, interviews, literary analyses, and autobiographical musings, Kittler outlines how war has been a central driver of media's evolution, from Prussia's wars against Napoleon to the so-called War on Terror. Covering an eclectic array of topics, he charts the intertwined military and theatrical histories of the searchlight and the stage lamp, traces the

microprocessor's genealogy back to the tank, shows how rapid-fire guns brought about new standards for optics and acoustics, and reads Thomas Pynchon's *Gravity's Rainbow* to upset established claims about the relationship between war, technology, and history in the twentieth century. Throughout, *Operation Valhalla* foregrounds the outsize role of war in media history as well as Kittler's importance as a daring and original thinker.

Operation "Valkyrie" Winfried Heinemann. 2021-11-08 20 July 1944 is usually associated with the bomb plot to murder Hitler. However, what distinguishes Colonel Stauffenberg's plan from all others is that the attempt on the Führer's life was only to be the initial stage of a full military coup d'état. The aim was to overthrow the murderous regime, and to end the war as soon as possible. The conspiracy has long been analyzed from political, social, religious, or moral points of view. This book asks what the military dimension of the plan was. What traditions in the German army were at work, how was planning and preparation done, and why did the plot fail eventually? What is more: how did the conspiracy affect the German armies created in East and West after World War II, and also the Austrian Army? As the politicians among the conspirators thought in categories of Imperial Germany or at least the Weimar Republic, the officers among them were conditioned by the Reichswehr. Yet, Stauffenberg and some others were also bright intellectuals who were willing to incorporate their war experience into their plans, rendering them surprisingly modern at times. The coup d'état had been planned as meticulously as circumstances in war-torn Berlin allowed. However, as most officers had foreseen, once it became public knowledge that Hitler had survived Stauffenberg's bomb, army units refused to act. The myth surrounding the Führer effectively prevented any military action against him. Still, the failed uprising had its effects: the regime took the opportunity to tilt the balance of power further in favor of Himmler and his fiefdom (SS, Gestapo, Police), to the detriment

of the army which Hitler felt was too reactionary anyway. The leadership of the West German Bundeswehr always saw the failed uprising as part of its tradition, but it took time for this attitude to percolate down to the rank and file. For decades, some of the former Wehrmacht soldiers viewed Stauffenberg and his friends as traitors. The book is the first to approach this important event in German history from a specifically military point of view, and that results in some surprising new results.

Immerse yourself in heartwarming tales of love and emotion with Explore Love with Christian G. Meyer is touching creation, Tender Moments: **Der Panzer Und Die Mechanisierung Des Krieges Ein** . Der Panzer Und Die Mechanisierung Des Krieges Ein Introduction

In today's digital age, the availability of Der Panzer Und Die Mechanisierung Des Krieges Ein books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Der Panzer Und Die Mechanisierung Des Krieges Ein books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Der Panzer Und Die

Mechanisierung Des Krieges Ein books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Der Panzer Und Die Mechanisierung Des Krieges Ein versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Der Panzer Und Die Mechanisierung Des Krieges Ein books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge.

Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Der Panzer Und Die Mechanisierung Des Krieges Ein books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Der Panzer Und Die Mechanisierung Des

Krieges Ein books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Der Panzer

Und Die Mechanisierung Des Krieges Ein books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Der Panzer Und Die Mechanisierung Des Krieges Ein books and manuals for download and embark on your journey of knowledge?

FAQs About Der Panzer Und Die Mechanisierung Des Krieges Ein Books

1. Where can I buy Der Panzer Und Die Mechanisierung Des Krieges Ein books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Der Panzer Und Die Mechanisierung Des Krieges Ein book to

read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.

4. How do I take care of Der Panzer Und Die Mechanisierung Des Krieges Ein books?

Storage: Keep them away from direct sunlight and in a dry environment.

Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.

5. Can I borrow books without buying them?

Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.

6. How can I track my reading progress or

manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.

7. What are Der Panzer Und Die Mechanisierung Des Krieges Ein audiobooks, and where can I find them?

Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.

8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores.

Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or

recommend them to friends.
