Reunion in Barsaloi Corinne Hofmann.2014-05-14 Fourteen years after fleeing Kenya with her baby daughter, Corinne returned in the summer of 2004 to meet Lketinga and his family again in their village, Barsaloi. Nervous as she was, and uncertain as to how he would react on seeing her again, she found to her relief that she was welcomed unreservedly by all those who remembered her - by Lketinga, who still thought of her as his 'wife number one', by his brother, James, now a schoolteacher and especially by Lketinga's mother, who had looked after Corinne with such care all those years before. Corinne Hofmann revisits an area of a country which she cares about passionately, describing in her immensely readable style the changes she saw after her time away, and once again bringing to life the atmosphere and characters in the Masai village.

Tanks of the USSR, 1917-1945 Alexander Ludeke.2017-11-30 The Soviet Union had already begun building an armored industry as early as the 1920s. Although initially limited to reconstructing and developing Western European armored vehicles, an independent line of powerful and easy-to-produce models had been established by 1939. Even after the Second World War, the USSR expanded its armament force considerably, even planning to cross western Europe in a massive armoured wave in the event of any conflict with NATO. In this book, Alexander Ldeke looks at all the important Soviet tanks that were built from 1917 up until the end of the Second World War

The Porsche 911 Book Jürgen Lewandowski.2018 The introduction of the Porsche 901 in 1963 marked a milestone in automotive history. Although the name later had to be changed because Peugeot had patented having a 0 in the middle of car model numbers, the 911 didn't let anything stand in the way of its becoming an iconic sports car. This success story spans all the way from the 901 and the Carrera RS 2.7 (which with its characteristic rear spoiler--the so-called ducktail--was the fastest production car of its time) right up to the current generation of the 991. For the 50th birthday of the populous 911 family, the famous automotive photographer Rene Staud, whose *The Mercedes-Benz 300 SL Book* has also been published by teNeues, showcases the most important models--all in his typically radiant and distinctive style.

Fire Islands Eleanor Ford.2019-05-06 Steep verdant rice terraces, ancient rainforest and fire-breathing volcanoes create the landscape of the world's largest archipelago. Indonesia is a travellers' paradise, with cuisine as vibrant and thrilling as its scenery. For these are the original spice islands, whose fertile volcanic soil grows ingredients that once changed the flavour of food across the world. On today's noisy streets, chilli-spiked sambals are served with rich noodle broths, and salty peanut sauce sweetens chargrilled sate sticks. In homes, shared feasts of creamy coconut curries, stir-fries and spiced rice are fragrant with ginger, tamarind, lemongrass and lime. The air hangs with the tang of chilli and burnt sugar, citrus and spice. Eleanor Ford gives a personal, intimate portrait of a country and its cooking, the recipes exotic yet achievable, and the food brought to life by stunning photography.

Olympic Education Roland Naul.2008 Olympic Education is not only a text book for students and teachers in physical and sport education but also for course instructors and coaches in children's youth sport programmes, as well as for executives in sports federations. It answers the question, what the term Olympic really means in the broader context of the Olympic Games movement and as a global purpose and new challenge for a balanced physical, social and moral education. Olympic education has a traditional vision and an important future mission that is relevant for all children and youths, in schools as well as in sport clubs. In five parts and fifteen chapters, the book shows why the Olympic ideals are a modern challenge not only for a new physical and sport education but also for the development of essential life skills for today. It introduces pedagogical and didactical fundamentals for an Olympic education, in order to bring motor abilities, social behaviour and moral actions in sports and everyday life back together again - in the mind, learning and actions of children and youths, but also of grown-ups in the social settings where young people live.

Mãn Kim Thúy.2015-07-07 A triumph of poetic beauty and a moving meditation on how love and food are inextricably entwined, Mãn is a seductive

and luminous work of literature from Kim Thúy, whose first book, *Ru*, was shortlisted for the Scotiabank Giller Prize, received a Governor General's Literary Award and won the nationwide book competition Canada Reads. *Mãn* has three mothers: the one who gives birth to her in wartime, the nun who plucks her from a vegetable garden, and her beloved Maman, who becomes a spy to survive. Seeking security for her grown daughter, Maman finds Mãn a husband--a lonely Vietnamese restaurateur who lives in Montreal. Thrown into a new world, Mãn discovers her natural talent as a chef. Gracefully she practices her art, with food as her medium. She creates dishes that are much more than sustenance for the body: they evoke memory and emotion, time and place, and even bring her customers to tears. *Mãn* is a mystery--her name means perfect fulfillment, yet she and her husband seem to drift along, respectfully and dutifully. But when she encounters a married chef in Paris, everything changes in the instant of a fleeting touch, and Mãn discovers the all-encompassing obsession and ever-present dangers of a love affair. Full of indelible images of beauty, delicacy and quiet power, *Mãn* is a novel that begs to be savoured for its language, its sensuousness and its love of life.

THE HELP meets TO KILL A MOCKINGBIRD in this powerfully emotional and gripping debut novel. Bergwanderungen in Albanien Karl Steinmetz. 2016-09-12 Am Ende des 19. und am Anfang des 20. Jahrhunderts war Albanien ein Land, das es zu entdecken galt. Das ewig unruhige Balkanland gehörte noch zu dem in Zerfall begriffenen, großen Osmanischen Reich und war für europäische Reisende nicht einfach zugänglich. Dennoch strömten viele europäische Forscher und Reisende nach Albanien, um den letzten weißen Fleck auf der Karte Europas zu erkunden. Unter ihnen spielte der österreichische Ingenieur Karl Steinmetz eine besondere Rolle. Im Gegensatz zu den meisten Entdeckern und Reisenden war er auf seine Expeditionen gut vorbereitet. Er lernte albanisch, scheinbar gut, und war dadurch in die Lage versetzt, selbstständig kreuz und quer durch die bis dahin schwer zugänglichen Berge zu reisen und mit den angeblich so schießwütigen Einheimischen umzugehen. Diese Ausgabe umfasst die drei Reiseschilderungen des abenteuerlustigen Karl Steinmetz aus den Jahre 1903, 1904 und 1905.

What Einstein Told His Barber Robert Wolke. 2009-07-29 What makes ice cubes cloudy? How do shark attacks make airplanes safer? Can a person traveling in a car at the speed of sound still hear the radio? Moreover, would they want to...? Do you often find yourself pondering life's little conundrums? Have you ever wondered why the ocean is blue? Or why birds don't get electrocuted when perching on high-voltage power lines? Robert L. Wolke, professor emeritus of chemistry at the University of Pittsburgh and acclaimed author of *What Einstein Didn't Know*, understands the need to...well, understand. Now he provides more amusing explanations of such everyday phenomena as gravity (If you're in a falling elevator, will jumping at the last instant save your life?) and acoustics (Why does a whip make such a loud cracking noise?), along with amazing facts, belly-up-to-the-bar bets, and mind-blowing reality bites all with his trademark wit and wisdom. If you shoot a bullet into the air, can it kill somebody when it comes down? You can find out about all this and more in an astonishing compendium of the proverbial mind-boggling mysteries of the physical world we inhabit. Arranged in a question-and-answer format and grouped by subject for browsing ease, WHAT EINSTEIN TOLD HIS BARBER is for anyone who ever pondered such things as why colors fade in sunlight, what happens to the rubber from worn-out tires, what makes red-hot objects glow red, and other scientific curiosities. Perfect for fans of *Newton's Apple*, *Jeopardy!*, and *The Discovery Channel*, WHAT EINSTEIN TOLD HIS BARBER also includes a glossary of important scientific buzz words and a comprehensive index. -->

Palace of Flies Walter Kappacher. 2022-05-03 One of those rare biographical novels that bring a whole world to life in a way that lingers in memory. --Jay Parini, author of *Borges and Me* This absorbing, sensitive novel portrays a famed author in a moment of crisis: an aging Hugo von Hofmannsthal returns to a summer resort outside of Salzburg that he visited as a child. But in the spa town where he once thrilled to the joys of youth, he now feels

unproductive and uninspired, adrift in the modern world born after World War One. Over ten days in 1924 in a ramshackle inn that has been renamed the Grand Hotel, Hofmannsthal fruitlessly attempts to complete a play he's long been wrestling with. The writer is plagued by feelings of loneliness and failure that echo in a buzz of inner monologues, imaginary conversations and nostalgic memories of relationships with glittering cultural figures. *Palace of Flies* conjures up an individual state of distress and disruption at a time of fundamental societal transformation that speaks eloquently to our own age.

Open Space Technology Harrison Owen.2009-03 This book, like all books, comes to an end, but that is by no means the end of the story of Open Space. In fact it is safe to say that we have barely begun. The total simplicity of Open Space (sit in a circle, create a bulletin board, open a marketplace, and go to work) contrasts radically with the quality of results and speed of achievement. The conventional theory and practice of meeting and organization would suggest that what happens in Open Space should not occur. But it does, not once but thousands of times in all parts of the world. So the continuing story of Open Space is all about this wonderful anomaly. Why does it work? How does it work? And perhaps most intriguing - if it works in Open Space (whatever it is) why couldn't it work twenty-four hours a day, seven days a week, 365 days of the year? My best guess is that it is the primal power of self-organization, and if so the real significance of Open Space has little to do with better meetings, and everything to do with a deepening understanding of who we really are and how we might most effectively get on in this world. But all of that is an unfolding story and, as I would see it, a wonderful, ongoing natural experiment. And you are invited to participate. ---- Harrison Owen, Camden, Maine

Tarzan Economics Will Page.2023-01-05 A stunning new insight into how the most crucial lesson you can learn in today's challenging business environment is how to change the fundamentals of what you do, rather than carry on fighting a battle that is already lost. The near destruction of the music industry at the hands of online piracy and its subsequent recovery on the backs of digital streaming platforms is more than just the biggest story of disruption and reinvention of the digital age. It is also a trove of insights on how to confront the metamorphosis we are all facing in dealing with the Covid-19 era, as accelerating tech and economic changes reshape our work, our play and our very minds. Will Page, Spotify's first chief economist, extrapolates music's journey into eight guiding principles for pivoting through the ubiquitous disruption in nearly all industries. Expect the unexpected with transferable lessons coming from Starbucks, Tupperware and even Groucho Marx. The notion of 'Tarzan Economics' ties these principles together: a framework for recognising and acting on disruption, by letting go of the old vine and grabbing onto the new. Page joyfully brings these insights to life and provides a guide for knowing not just how to grab the new vine, but when. He assesses the new dynamics of the 'long tail', identifies friends and foes in the battle for scarce attention and provides a practical tool for discovering the right role for each of us to succeed in this new modern world. As we emerge from the unprecedented disruption of a global pandemic, *Pivot* shows all of us - individuals, organisations and institutions - that if the vine we are holding onto is withering, we can have confidence to reach out for a new one in 2023 and beyond.

Going to the Mountain Ndaba Mandela.2018-06-28 'You empower yourself and then you reach out to others.' Uplifting life lessons from one of the greatest leaders the world has ever known... through the eyes of the grandson whose life he changed forever. In his book *Going to the Mountain*, Ndaba Mandela shares the story of his coming-of-age alongside South Africa's rebirth. It is a remarkable journey, and one that took him from the violent, segregated Soweto ghettos to his grandfather's presidential home. As a young boy, Ndaba was constantly shunted from place to place. But at eleven years old he was unexpectedly invited to live with his grandfather, Nelson Mandela, even though he had met him only once before, during a prison visit. And, slowly, they built a relationship that would affect both of them profoundly. Ndaba's teenage years were complicated, but as he approached his twenty-first birthday, Mandela decided that Ndaba was finally ready to 'go to the mountain' - a test of courage during which you become a man. At the end of this gruelling ritual journey, the elders of the Mandelas' tribe gathered and Ndaba's grandfather was there, as ever, to share his greatest life lessons. From Nelson Mandela, Ndaba learned the spirit of endurance, the triumph of forgiveness, the power of resistance and the beauty of reconciliation. And as Mandela grew older, Ndaba had the chance to repay his grandfather's love and support by demonstrating the ways in which he'd understood all that he had taught him. Intimate and inspirational, *Going to the Mountain* is a powerful reminder of how one person can impact profoundly on another, and a testament to the awesome power within us to change ourselves and our world.

A staple of millennial lingo, the term is used to request sexually explicit photographs, typically over text messaging and dating apps. Over time, #SENDNUDES has also evolved into a meme, deployed as a common punchline in image and video internet jokes. Today, #SENDNUDES is making another transition -- as the title of a carefully curated book of nude photography. In collaboration with Iman Whitfield, MENDO reached out to photographers all over the world and asked them to send their favorite shots of female sensuality and intimacy. The result is a visually stunning photo collection approaching erotic photography from a female point of view, celebrating the diversity of female beauty and body confidence, and teasing the delicate line between that which is revealed and that which remains private. The featured images were sent from all over the world, from such highly skilled erotic photographers as Dennis Swiatkowski, Fauve Bouwman, and Paul Bellaart -- each bringing a distinctive style and approach to female sensuality, intimacy, and elegance.
