Architecture in Development Aggregate Architectural History Collaborative. 2022-04-25 This extensive text investigates how architects, planners, and other related experts responded to the contexts and discourses of “development” after World War II. Development theory did not manifest itself in tracts of economic and political theory alone. It manifested itself in every sphere of expression where economic predicaments might be seen to impinge on cultural factors. Architecture appears in development discourse as a terrain between culture and economics, in that practitioners took on the mantle of modernist expression while also acquiring government contracts and immersing themselves in bureaucratic processes. This book considers how, for a brief period, architects, planners, structural engineers, and various practitioners of the built environment employed themselves in designing all the intimate spheres of life, but from a consolidated space of expertise. Seen in these terms, development was, to cite Arturo Escobar, an immense design project itself, one that requires radical disassembly and rethinking beyond the umbrella terms of “global modernism” and “colonial modernities,” which risk erasing the sinews of conflict encountered in globalizing and modernizing architecture. Encompassing countries as diverse as Israel, Ghana, Greece, Belgium, France, India, Mexico, the United States, Venezuela, the Philippines, South Korea, Sierra Leone, Singapore, Turkey, Cyprus, Iraq, Zambia, and Canada, the set of essays in this book cannot be considered exhaustive, nor a “field guide” in the traditional sense. Instead, it offers theoretical reflections “from the field,” based on extensive archival research. This book sets out to

examine the arrays of power, resources, technologies, networking, and knowledge that cluster around the term development, and the manner in which architects and planners negotiated these thickets in their multiple capacities—as knowledge experts, as technicians, as negotiators, and as occasional authorities on settlements, space, domesticity, education, health, and every other field where arguments for development were made.

PROFESSIONAL PRACTICE, SECOND EDITION KRISHNAMURTHY, K.G.,RAVINDRA, S.V..2022-07-27 An Architect's work conforms not just for the present but has the ability to leave footprints on the sands of time. Such endurance is the outcome of integrity, knowledge and commitment so eminently present in his work. This volume attempts to outline these qualities that go to make an architect a complete professional. This volume defines, the role, duties and responsibilities of architects towards profession and society. Related aspects like tenders, contracts, valuation, causes for dilapidation, management of project work, easements, bye-laws and planning,

Acts related to profession, and lastly various opportunities present today to enlarge the scope of their services have found mention in detail. It recognises the web of relations with clients, contractors, authorities, professional bodies, his own employees and consultants that needs to be networked seamlessly for a successful practice. The value of this edition stands increased with the addition of tables, figures, illustrations, case studies and worked examples apart from appendices and multiple choice questions in a lucid manner adopting summarisation and point of reference techniques for easy absorption and retention for effective use by students and professionals alike. A Walk Through Income Tax Ashwani Goyal.2016-05-27 BASIC CONCEPTS History of Income Tax
The tax was introduced for the first time in India in 1860 by Sir James Wilson in order to cover up losses sustained by the government due to mutiny of 1857. There were many amendments from time to time, at last a separate Income Tax Act was passed in 1886. This Income Tax Act was replaced by Income Tax Act, 1918, which was further replaced by Income Tax Act 1922. Income Tax Act of 1922 was subject to many amendments over a period of time due to which it became very complicated. Therefore in order to simplify and to plug loopholes the government of India referred the matter to law commission in 1956, which submitted its report in September, 1958. But in the meantime the

government of India constituted Direct Tax Inquiry Committee which submitted its report in 1959. Finally in consultation with ministry of law the Income Tax Act, 1961 was enacted which applied to whole of India. Income Tax Act, 1961 has also been subject to many amendments over a period of time either through Finance Act as passed by the Parliament every year or by separate amendment Acts. Till now following important amendment acts have been passed: Taxation Laws Amendment Act, 1984 Direct Taxes Amendment Act, 1987 Direct Taxes Law (Amendment) Act, 1989 Direct Taxes Law (Second Amendment) Act, 1989 Taxation Law Amendment Act, 1991
