Forbidden Harbor Teresa Radice,Stefano Turconi.2019-09-15 In the summer of 1807, the Explorer, a ship from Her Majesty's Navy recovers a young shipwreck off the coast of Siam, Abel, who can only remember his name. He soon becomes friends with the first officer, acting as a captain because the commander of the ship has apparently absconded with the ship's treasure. Abel returns to England with the Explorer and finds accommodation at the inn run by the three fugitive captain's daughters. Well before he can recover his memory, however, he will discover something deeply disturbing about himself, and he will understand the true nature of some of the people who helped him. A haunting and intense book that digs into the soul of the protagonists as well as the reader, with a generous helping of good ol' fashioned salty adventure along with many a shanty sung and a sprinkling of magic dust. Presented in a handsome old style, with a worn-looking hardcover, as if taken from a ship captain's library. An uplifting, enthralling escape.

Lions Laura Marsh.2015 An introduction to lions covers where they live, what they eat, and how they communicate, and follows the animal's development from cub to adult.

The State and Life Chances in Urban China Xueguang Zhou.2004-11-29 This book presents a systematic study of social stratification processes in urban China, from 1949 to 1994. Based on the life histories of a sample of urban residents from 20 Chinese cities, this book addresses two themes: (1) the interplay between redistribution and social stratification under state socialism in urban China, especially the impact of the state and state policies on individual life chances, in such areas as education, labor force participation, promotion in organizations, and the distribution of manifest and latent economic benefits; (2) an assessment of sources and extent of China's economic transformation since the 1980s. The author blends sociological analysis and sensitivity to the historical context in interpreting changes and continuity in the 45-year history of state socialist China. This is a comprehensive and rigorous study of social stratification in China.

Little Crab and Very Big Crab live in a tiny rock pool near the sea. Today they're going for a dip in the big ocean. Maybe it's better if they don't go in? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton shows that sometimes a gentle don't worry, I'm here can keep tentative little crabs sidestepping ahead -- and help them discover the brilliant worlds that await when they take the plunge.

Raccoons Samuel I. Zeveloff.2013-07-09 The word raccoon is drawn from the Native American Algonquian language. Their term arakun roughly translates to “he who scratches with his hands.” Anyone who has found a raccoon rummaging around in a once securely closed trash container can attest to how skillful raccoons are with their front paws. In fact, they have four times as many sensory receptors in their forepaw skin as they do in their hindpaws, a ratio similar to that of human hands and feet. Samuel Zeveloff explores this trait and much more in his accessible natural history of raccoons. Written with the general reader in mind, *Raccoons* presents detailed information on raccoon evolution, physical characteristics, social behavior, habitats, food habits, reproduction, and conservation, as well as their relationship with humans and many other topics. The section on distribution and subspecies focuses on the raccoon's current range expansion, and the material on their cultural significance demonstrates this mammal's unique status in different North American cultures.

The Institute Stephen King.2021-06-29 In the middle of the night, in a house on a quiet street in suburban Minneapolis, intruders silently murder Luke Ellis' parents and load him into a black SUV. The operation takes less than two minutes. Luke will wake up at The Institute, in a room that looks just like his own, except there's no window. And outside his door are other doors, behind which are other kids with special talents--telekinesis and telepathy--who got to this place the same way Luke did: Kalisha, Nick, George, Iris, and 10-year-old Avery Dixon. They are all in Front Half. Others, Luke learns, graduated to Back Half, like the roach motel, Kalisha says. You check in, but you don't check out. In this most sinister of institutions, the director, Mrs. Sigsby, and her staff are ruthlessly dedicated to extracting from these children the force of their extranormal gifts. There are no scruples here. If you go along, you get tokens for the vending machines. If you don't, punishment is brutal. As each new victim disappears to Back Half, Luke becomes more and more desperate to get out and get help. But no one has ever escaped from The Institute.

Ape House Sara Gruen.2010-09-07 The wildly entertaining new novel from the bestselling author of *Water for Elephants*. Sam, Bonzi, Lola, Mbongo, Jelani, and Makena are no ordinary apes. These bonobos, like others of their species, are capable of reason and carrying on deep relationships—but unlike most bonobos, they also know American Sign Language. Isabel Duncan, a scientist at the Great Ape Language Lab, doesn't understand people, but animals she gets—especially the bonobos. Isabel feels more comfortable in their world than she's ever felt among humans . . . until she meets John Thigpen, a very married reporter who braves the ever-present animal rights protesters outside the lab to see what's really going on inside. When an explosion rocks the lab, severely injuring Isabel and “liberating” the apes, John's human interest piece turns into the story of a lifetime, one he'll risk his career and his marriage to follow. Then a reality TV show featuring the missing apes debuts under mysterious circumstances, and it immediately becomes the biggest—and unlikeliest—phenomenon in the history of modern media. Millions of fans are glued to their screens watching the apes order greasy take-out, have generous amounts of sex, and sign for Isabel to come get them. Now, to save her family of apes from this parody of human life, Isabel must connect with her own kind, including John, a green-haired vegan, and a retired porn star with her own agenda. *Ape House* delivers great entertainment, but it also opens the animal world to us in ways few novels have done, securing Sara Gruen's place as a master storyteller who allows us to see ourselves as we never have before. BONUS: This edition contains a reader's guide.
