The Knife Man Wendy Moore. 2007-12-18 The vivid, often gruesome portrait of the 18th-century pioneering surgeon and father of modern medicine, John Hunter. When Robert Louis Stevenson wrote his gothic horror story of Dr. Jekyll and Mr. Hyde, he based the house of the genial doctor-turned-fiend on the home of John Hunter. The choice was understandable, for Hunter was both widely acclaimed and greatly feared. From humble origins, John Hunter rose to become the most famous anatomist and surgeon of the eighteenth century. In an age when operations were crude, extremely painful, and often fatal, he rejected medieval traditions to forge a revolution in surgery founded on pioneering scientific experiments. Using the knowledge he gained from countless human dissections, Hunter worked to improve medical care for both the poorest and the best-known figures of the era—including Sir Joshua Reynolds and the young Lord Byron. An insatiable student of all life-forms, Hunter was also an expert naturalist. He kept exotic creatures in his country menagerie and dissected the first animals brought back by Captain Cook from Australia. Ultimately his research led him to expound highly controversial views on the age of the earth, as well as equally heretical beliefs on the origins of life more than sixty years before Darwin published his famous theory. Although a central figure of

the Enlightenment, Hunter's tireless quest for human corpses immersed him deep in the sinister world of body snatching. He paid exorbitant sums for stolen cadavers and even plotted successfully to steal the body of Charles Byrne, famous in his day as the "Irish giant." In *The Knife Man*, Wendy Moore unveils John Hunter's murky and macabre world—a world characterized by public hangings, secret expeditions to dank churchyards, and gruesome human dissections in pungent attic rooms. This is a fascinating portrait of a remarkable pioneer and his determined struggle to haul surgery out of the realms of meaningless superstitious ritual and into the dawn of modern medicine.

Grave Stones Calinda B.2017-12-23
Revenge is a bloody business... Lassi Finn is a thoroughly modern Dublin girl, and the last thing she wants is to spend any time cleaning out her recently deceased Great-Aunt Roberta's cottage in the obscure village of Ballynagaul-or 'Ballynanowhere, ' as Lassi calls it. Her goal is to throw everything away, get some poor local sod to paint and fix the wiring (because the power is temperamental and the wall phone won't work), and then hire the local real estate agent to flip the cottage and add the proceeds to her cottage-in-Barbados fund. The only flaw in her plan is the wee little inconvenience of three mutilated bodies turning up on three consecutive days, all before her first cup of tea. The motives for the killings are a mystery, but their ferocity leaves no doubt as to the rage in the heart of the killer. Without even trying, and certainly unwillingly, Lassi finds herself not only in the middle of the investigation, but also with a big, blood-red target on her back. Somewhere between trying to fend off the advances of a pub keeper who has hit his sell-by date, dodging a creepy detective who seems to know far too much about her, and avoiding an annoyingly helpful neighbor, Lassi must catch a cold-hearted, cold-blooded killer and resist the growing attraction between herself and a handsome young priest with a secret that could destroy them all.

Will you come? . . . Reply at once.” That is how six brave and inquisitive men came to seek a dangerous path to test a scientific theory. On a primitive raft made of forty-foot balsa logs and named “Kon-Tiki” in honor of a legendary sun king, Thor Heyerdahl and five companions deliberately risked their lives to show that the ancient Peruvians could have made the 4,300-mile voyage to the Polynesian islands on a similar craft. For three months, the bold young men made their way across the Pacific at the complete mercy of the ocean. They encountered storms that threatened to tear their raft apart, whales large

Too Late to Say Goodbye Ann Rule.2008-09-04 Written within a cloistered environment to protect sources that have yet to be identified, *TOO LATE TO SAY GOODBYE* is a chilling portrait of two beautiful, successful women whose murders were made to look like suicides. Jenn Corbin appeared to have it all: two little boys, a posh home in the suburbs of Atlanta, and a husband - Dr Bart Corbin, a successful dentist - who was handsome and brilliant. Then, in December 2004, Jenn was found dead with a bullet in her head, apparently by suicide. Only later would detectives learn that another woman in Dr Corbin's past had been found years earlier with nearly the exact same wound to the head, also ruled a suicide. In *TOO LATE TO SAY GOODBYE*, Ann Rule - working in cooperation with victims' families, police investigators, and sources from Georgia to Australia - unravels the now-sensational deaths. What emerges is an incredible tale of jealous

A Libertarian Walks Into a Bear Matthew Hongoltz-Hetling.2020-09-15 A tiny American town's plans for radical self-government overlooked one hairy detail: no one told the bears. Once upon a time, a group of libertarians got together and hatched the Free Town Project, a plan to take over an American town and completely eliminate its government. In 2004, they set their sights on Grafton, NH, a barely populated settlement with one paved road. When they descended on Grafton, public funding for pretty much everything shrank: the fire department, the library, the schoolhouse. State and federal laws became meek suggestions, scarcely heard in the town's thick wilderness. The anything-goes atmosphere soon caught the attention of Grafton's neighbors: the bears. Freedom-loving citizens ignored hunting laws and regulations on food disposal. They built a tent city in an effort to get off the grid. The bears smelled food and opportunity. *A Libertarian Walks Into a Bear* is the sometimes funny, sometimes terrifying tale of what happens when a government disappears into the woods. Complete with gunplay, adventure, and backstabbing politicians, this is the ultimate story of a quintessential American experiment -- to live free or die, perhaps from a bear.
