Daido Moriyama Mark Holborn.2017-09-12 Inspired by the work of an earlier generation of Japanese photographers, especially by Shomei Tomatsu, and by William Klein's seminal photographic book on New York, Daido Moriyama moved from Osaka to Tokyo in the early sixties to become a photographer. He became the leading exponent of a fierce new photographic style that corresponded perfectly to the abrasive and intense climate of Tokyo during a period of great social upheaval. His black and white pictures were marked by fierce contrast and fragmentary, even scratched, frames, which concealed his virtuoso printing. Between June 1972 and July 1973 he produced his own magazine publication, Kiroku, which was then referred to as Record. It became a diaristic journal of his work as it developed. Ten years ago he was able to resume publication of Record, which gradually expanded in extent. To date he has published thirty issues, a number of them including colour. The publication of Record as a book enables work from all thirty issues to be edited into a single sequence, punctuated by Moriyama's own text as it appeared in the magazines. It used to be assumed that Moriyama's peculiarly Japanese style was tied to his Tokyo roots. The evidence of the last ten years demonstrates that Moriyama, a restless world traveller, has been able to apply his unique vision to northern Europe, southern France, the cities of Florence, London, Barcelona, Taipei, Hong Kong, New York and Los Angeles as well as to the alleys of Osaka, and the landscape of Hokkaido. The book ends in Afghanistan.

The Paradox of Photography Pierre Taminiaux.2009 The Paradox of Photography analyzes the discourse on photography by four of the most important modern French poets and theorists (Baudelaire, Breton, Barthes and Valéry). It stresses in particular the importance of this visual language for the development of both new forms of narrative and original critical studies on issues of representation in art. It also reflects upon the integration of photography within the domain of technical modernity while emphasizing its aesthetic identity stemming from the Western tradition of figurative painting.

Photographic images and their reception inevitably converge with the symbolic, cultural, social, and political implications of the act of looking. Here, 40 contributors share their perspectives on photography in Lebanon, evoking its numerous forms of existence. Examining techniques, practices, uses, objects, images, histories, and artistic approaches, the book presents a fascinating collection of 380 photographs produced between the end of the 19th century and today.

Daido Moriyama Takeshi Nakamoto.2019-07-09 'The first thing I always tell anyone who asks me for advice is: Get outside.' - Daido Moriyama Take an inspiring walk with legendary Japanese street photographer Daido Moriyama as he explains his groundbreaking approach to street photography. The Edge of Vision Lyle Rexer.2013 From the beginning, abstraction has been intrinsic to photography, and its persistent popularity reveals much about the medium. Now available in an affordable paperback edition, *The Edge of Vision: The Rise of Abstraction in Photography* is the first book in English to document this phenomenon and to put it into historical context, while also examining the diverse approaches thriving within contemporary photography. Author Lyle Rexer examines abstraction at pivotal moments, starting with the inception of photography, when many of the pioneers believed the camera might reveal other aspects of reality. *The Edge of Vision* traces subsequent explorations--from the Photo-Secessionists, who emphasized process and emotional expression over observed reality, to Modernist and Surrealist experiments. In the decades to follow, in particular from the 1950s through the 1980s, a multitude of photographers--Edward Weston, Aaron Siskind, Barbara Kasten, Ellen Carey and James Welling among them--took up abstraction from a variety of positions. Finally, Rexer explores the influence the history of abstraction exerts on contemporary thinking about the medium. Many contemporary artists--most prominently Penelope Umbrico, Michael Flomen, and Adam Broomberg and Oliver Chanarin--reject classic definitions of photography's documentary dimension in favor of other conceptually inflected possibilities, somewhere between painting and sculpture, that include the manipulation of process and printing. In addition to Rexer's engagingly written and richly illustrated history, this volume includes a selection of primary texts from and interviews with key practitioners and critics, such as Alvin Langdon Coburn, László Moholy-Nagy, Gottfried Jäger, Silvio Wolf and Walead Beshty.

Photography & Society Gisèle Freund.1980 This landmark study explores the intricate and ever-changing relationship between the photographer and the surrounding society. It considers the ubiquitous commercial, social, and political demands with which the photographer must deal and examines how the photographic reactions to these demands have in turn changed the society they reflect--Cover.

FOTOART (English Edition) Domenico Muratore.2020-08-10 Book of photographic art that reports evocative and old images of the city of Milan, of Southern Italy and figurations of various kinds. Such photos have an artistic imprint created in the darkroom with a process that gives each frame a unique quality. The photos were created with the old shooting (film) and printing system, (polyethylene and baritate paper). The vision of such images makes live and share an atmosphere of dream belonging to a recent past.

The Enjoyment of Photography Melanie Gilligan,Rhea Anastas.2015 In photographic works that encompass the full range of the medium's historical and current genres, styles, and techniques, but also through sculpture and writing, the Berlin- and London-based artist Josephine Pryde (born 1967 in Alnwick, Northumberland, UK) offers incisive, often ironic, and provocative commentary on the values, hierarchies, and economies subtending the field of contemporary art against the backdrop of larger societal shifts. Estranging the familiar or conversely expressing the common in a radically unforeseen manner, Pryde's ingenuous choice of subject matter, unusual formal solutions and surprising juxtapositions continue to capture international exhibition audiences.

In the Eye of the Rock'n'roll Hurricane .2015 Neal Preston's legendary music images include some of the most memorable ever made of rock's most iconic stars. If this era could be described as a hurricane, Neal captured this from his unique position in the eye of the Rock'n'Roll hurricane. In a room with five people or 50,000, Neal always seems to find a place of his own, to capture a moment not noticed or looked for by anyone else. His live photography perfectly relays the feeling of having been at that concert, to feel the excitement and energy and to visualise the music and identity of the subject. Neal has toured with Led Zeppelin, The Who, Queen, Fleetwood Mac, Bruce Springsteen, and countless others. This special, limited edition book has been produced in collaboration with The Lightpower Collection and features some of the greatest highlights from Neal's 40-year

career, carefully selected to represent the finest work from his extensive catalogue. Produced to coincide with an exhibition at the Frankfurt Musikmesse in April 2015, this book has accompanying text in English and German.

Photo-Fiction, a Non-Standard Aesthetics François Laruelle.2015-11-01 Twenty years after cultivating a new orientation for aesthetics via the concept of non-photography, François Laruelle returns, having further developed his notion of a non-standard aesthetics. Published for the first time in a bilingual edition, Photo-Fiction, a Non-Standard Aesthetics expounds on Laruelle's current explorations into a photographic thinking as an alternative to the worn-out notions of aesthetics based on an assumed domination of philosophy over art. He proposes a new philosophical photo-fictional apparatus, or philo-fiction, that strives for a discursive mimesis of the photographic apparatus and the flash of the Real entailed in its process of image making. "A bit like if an artisan, to use a Socratic example, instead of making a camera based off of diagrams found in manuals, on the contrary had as his or her project the designing of a completely new apparatus of philo-fiction, thus capable of producing not simply photos, but photo-fictions." One must enter into a space for seeing the vectorial and the imaginary number. Laruelle's philo-fictions become not art installations, but "theoretical installations" calling for the consideration of the possibility of a non-standard aesthetics being of an equal or superior power to art and philosophy, an aesthetics in-the-last-instance that is itself an inventive and creative act of the most contemporary kind.

Camera Lucida Roland Barthes.1981 Examining the themes of presence and absence, the relationship between photography and theatre, history and death, these 'reflections on photography' begin as an investigation into the nature of photographs. Then, as Barthes contemplates a photograph of his mother as a child, the book becomes an exposition of his own mind.--Alibris.

Labyrinth □□□□.2012 Throughout Daido Moriyama's extensive career, he has continually sought new ways of presenting and recontextualizing his work, frequently recasting his images through the use of different printing techniques, installation, or re-editing and reformatting. In each iteration, images both old and new take on changed and newly charged significance. This volume, created during preparations for several international survey exhibitions, offers both the photographer and the viewer the opportunity to consider the photographers life work in a fresh light. The author has returned to his contact sheets from the past five decades, selecting previously known images as well as ones never before published. The pages offer reproductions of original contact sheets; sequences of new contact sheets made from recombined negative strips, which juxtapose images from the 1950s with those from the past ten years; and selections of individual images, both familiar and newly discovered. Together, these offer a compact and comprehensive assembly of the artists oeuvre, tracing recurring motifs and proposing startling new interpretations of some of his most iconic images. Moriyama has always sought meaning in the raw accumulation and gestalt of sequences of images. Labyrinth: Daido Moriyama makes public an exercise in reconsideration that the photographer has assigned to himself. In opening up this private process of re-examination to a wider public, Moriyama continues to challenge the viewer and his own practice, as well as the larger mechanisms by which photography functions and creates meaning.

Thomas Ruff: Transforming Photography .2019-09-03 Over the course of his three-decade career, Thomas Ruff has taken up many approaches to photography in his investigation into the status of the image in contemporary culture. In Thomas Ruff, the artist presents new work that continues his ongoing probe into the history, processes, techniques, and technology of photography. One of the most influential photographers working today, Ruff has redefined photography's conceptual possibilities, simultaneously capturing and challenging the essence of the medium as a means for visual experience. He has investigated various photographic genres, including portraiture, the nude, and landscape and architectural photography, using both analog and digital technologies, and culling imagery from scientific archives, print media, and the internet. Presented here is a selection of Ruff's most well-known works, as well as the newer Tripe/Ruff series, begun in 2018, which draws on negatives of India and Burma taken in the 1850s by an officer in the East India Company army. Also included is a conversation between Ruff and Okwui Enwezor, which took place at Haus der Kunst in Munich, in connection with the artist's retrospective then on view. The conversation, published here for the first time, has been edited for this volume and examines Ruff's artistic practice and inspiration, serving as an engaging and dynamic introduction to the artist. Published on the occasion of the artist's solo exhibition at David Zwirner, Hong Kong, in 2019, Thomas Ruff is available in both English-only and bilingual English/traditional Chinese editions.
