Beginning PL/SQL Donald Bales.2007-10-18 Beginning PL/SQL is a fast-paced and blissfully short introduction to Oracle's PL/SQL language. PL/SQL is the built-in language that every Oracle developer and database administrator simply must know. The book shows readers how to apply object-oriented PL/SQL to production applications. No other book on PL/SQL does this. It gives the reader practical advice on what works and what doesn't, and advises on the performance tradeoffs between doing work in SQL versus in PL/SQL. This book gets readers up-to-speed on the core of the language without wasting time on esoteric and seldom used syntax.

Andy Grove Richard S. Tedlow.2007 Brilliant, brave, and willing to defy conventional wisdom, Andy Grove, the CEO of Intel during its years of explosive growth, is on the shortlist of America's most admired businesspeople. Grove gave Tedlow unprecedented access to his private papers, along with wide-ranging interviews and access to friends and key business associates. The result is not just a life story but a fascinating analysis of how Grove attacks problems. Born a Hungarian Jew in 1936, András István Gróf survived the Nazis only to face the Soviet invasion of his country. He fled to America at age twenty, studied engineering, and arrived in Silicon Valley just in time to become the third employee of Intel. As talented as he was as an engineer, Grove became an even better manager. Tedlow shows us exactly how the penniless immigrant taught himself to lead a major corporation through some of the toughest challenges in the history of business.--From publisher description.

The Betrayal Kim Christian Priemel.2018-05-17 At the end of World War II the Allies faced a threefold challenge: how to punish perpetrators of appalling crimes for which the categories of 'genocide' and 'crimes against humanity' had to be coined; how to explain that these had been committed by Germany, of all nations; and how to reform Germans. The Allied answer to this conundrum was the application of historical reasoning to legal procedure. In the thirteen Nuremberg trials held between 1945 and 1949, and in corresponding cases elsewhere, a concerted effort was made to punish key perpetrators while at the same time providing a complex analysis of the Nazi state and German history. Building on a long debate about Germany's divergence from a presumed Western path of development, Allied prosecutors sketched a historical trajectory which had led Germany to betray the Western model. Historical reasoning both accounted for the moral breakdown of a 'civilised' nation and rendered plausible arguments that this had indeed been a collective failure rather than one of a small criminal clique. The prosecutors therefore carefully laid out how institutions such as private enterprise, academic science, the military, or bureaucracy, which looked ostensibly similar to their opposite numbers in the Allied nations, had been corrupted in Germany even before Hitler's rise to power. While the argument, depending on individual protagonists, subject matters, and contexts, met with uneven success in court, it offered a final twist which was of obvious appeal in the Cold War to come: if Germany had lost its way, it could still be brought back into the Western fold. The first comprehensive study of the Nuremberg trials, *The Betrayal* thus also explores how history underpins transitional trials as we encounter them in today's courtrooms from Arusha to The Hague.

Super PACs Louise I. John Charles Mario Risoli.2012-06-22 'Whenever I look at him, it is as though the Messiah has returned.' That's how Jimmy Murphy, manager of Wales' 1958 World Cup side, described John Charles. In Italy, where he played for Juventus and Roma, Charles was known as Il Gigante Buono - the Gentle Giant - because of his placid temperament. One of the greatest footballers Britain has ever produced, Charles left his native Swansea at 16 to join Leeds United, where his phenomenal strike rate helped the club reach the First Division for the first time in its history. His goal-scoring exploits at Ellan Road then attracted the attention of Juventus, who paid a British record of £65,000 to take him to Turin in 1957. Charles went on to score an incredible 105 goals in 178 appearances for I Bianconeri - the Black and Whites - and helped them to win three Series A titles in five years. In contrast to his humble upbringing in South Wales, he enjoyed a glamorous lifestyle in Italy. However, it was not all glory. A disastrous return to Leeds United in 1962 was followed by a spell at Roma, where he struggled to recapture his past form. The man who was treated as a god in Turin wound down his playing career with Cardiff City before turning to management in the Southern League. This detailed and engrossing biography contains candid interviews with former teammates and family members and follows Charles' life after football, detailing his failed business ventures and his brave fight against cancer.

Corpus Linguistics .2015-06-29 Throughout history, linguists and literary scholars have been impelled by curiosity about particular linguistic or literary phenomena to seek to observe them in action in original texts. The fruits of each earlier enquiry in turn nourish the desire to continue to acquire knowledge, through further observation of newer linguistic facts. As time goes by, the corpus linguist operates increasingly in the awareness of what has gone before. Corpus Linguistics, thirty years on, is less an innocent sortie into corpus territory on the basis of a hunch than an informed, critical reassessment of existing analytical orthodoxy, in the light of new data coming on stream. This volume comprises twenty-two articles penned by members of the ICAME (International Computer Archive of Modern and Mediaeval English) association, which together provide a critical and informed reappraisal of the facts, data, methods and tools of Corpus Linguistics which are available today. Authors reconsider the boundaries of the discipline, exploring its areas of commonality with Sociolinguistics, Language Variation, Discourse Linguistics, and Lexical Statistics and showing how that commonality is potentially of immense benefit to practitioners in the fields concerned. The volume culminates in the report of a timely and novel expert panel discussion on the role of Corpus Linguistics in the study of English as a global language. This encompasses issues such as English as an international lingua franca, 'norms' for global English, and the question of 'ownership', or who qualifies as a native speaker.

In the Province of History Ian McKay, Robin Bates. 2010 Nova Scotia's captivating natural beauty and important place in the history of North America and the Atlantic world make it a premier tourist destination for visitors from around the world. From re-enactments at the Halifax Citadel, monuments to the Explosion of 1917 and Pier 21 and postcards of Peggy's Cove and Cape Breton, the province has cultivated a thriving tourism industry that relies on constructing and marketing the history of the area. In the Province of History studies Nova Scotia's long-standing initiatives to attract visitors, the ways in which the region's history has been presented and misrepresented, and the extent to which even the province's residents have become tourists in their own lives and towns. Using archival sources, novels, government reports, and works on tourism and heritage, Ian McKay and Robin Bates look at how state planners, key politicians, and cultural figures such as Henry Wadsworth Longfellow, long-time premier Angus L. Macdonald, and novelist Thomas Raddall were all instrumental in forming tourism/history. The authors argue that Longfellow's 1847 poem *Evangeline* - on the brutal British expulsion of Acadians from Nova Scotia - became a template a new kind of profit-making history that exalted whiteness and excluded ethnic minorities, women, and working class movements. A remarkable look at the intersection of politics, leisure and the presentation of public history, *In the Province of History* is a revealing account of how a region has both used and distorted its own past.

Baroque Woodwind Instruments Paul Carroll.2017-07-05 The late 17th century through to the end of the 18th century saw rapid progress in the development of woodwind instruments and the composition of a vast body of music for those instruments. During this period a large amount of music for domestic consumption was written for a growing amateur market, a market which has regrown in the latter part of the 20th century. The last 30 years has also seen the standard of performance by professionals on these instruments rise enormously. This book provides a guide to the history of the four main woodwind instruments of the Baroque, the flute, oboe, recorder and bassoon, and this is complemented by a repertoire list for each instrument. It also guides those interested towards a basic technique for playing these instruments - a certain level of musical literacy is assumed - and it can be used by students, professionals and amateurs. Advice is also given on buying a suitable reproduction instrument from a market where now virtually any Baroque instrument can be obtained as a faithful copy. This is the first book of its kind and has its origins in the wind tutors of the 18th century.

Early Funny Cars Lou Hart. 2022-04-15 Blast through the evolving early years of Funny Car drag racing when doorslammers morphed into flip-top rail monsters. The era features historic mounts from Arnie the Farmer Beswick, Al "the Flying Dutchman" Vanderwoude, Jungle Jim Liberman, Don "the Snake" Prudhomme, and many more! The metamorphosis from doorslammers to fiberglass flip-top dragsters wasn't ever a cut and dry plan. As drag racers pushed the envelope for more speed, a series of innovations quickly evolved and refined the genre. Funny Cars cut their teeth in the A/Factory Experimental (A/FX) and Experimental Stock (X/S) classes in 1964 with the 2-percent Mopars that looked funny with their axles moved forward. However, it was Jack Chrisman's supercharged, nitro-fueled 427 Supercharged Factory Experimental (S/FX) Comet Caliente that trailblazed the class on which the NHRA turned its back and the AHRA fully accepted. Showmanship became the draw in the dawn of Funny Car with half-track burnouts and flame-throwing headers that packed fans five deep at the fence. By 1969, the NHRA had no choice but to create a class for

these nitro-breathing, flip-top-sporting rail bruisers, indoctrinating the Funny Car (F/C) class at the Winternationals with 40 cars vying for 16 places in the field. The rest, as they say, is history!

If your library doesn't have a subscription to OverDrive or you're looking for some more free Kindle books, then Book Lending is a similar service where you can borrow and lend books for your Kindle without going through a library. Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). If you are a student who needs books related to their subjects or a traveller who loves to read on the go, BookBoon is just what you want. It provides you access to free eBooks in PDF format. From business books to educational textbooks, the site

features over 1000 free eBooks for you to download. There is no registration required for the downloads and the site is extremely easy to use.
