The Raw Food Lifestyle Ruthann Russo.2010-05-18 Ruthann Russo has been a vegetarian and vegan for more than 20 years, and in 2007 became a passionate raw-food enthusiast. She brings that passion to the pages of this comprehensive introduction to raw and live food. In simple, encouraging language, she conveys a wealth of information, from the philosophy of raw-food nutrition, to how it affects the body, to how to transition from a regular diet to one that promotes physical, emotional, and spiritual health. Using examples from her own life, Russo lays out a practical plan for making the switch that starts with realizing the need to change one's diet (and health), and then stresses

small dietary changes to discover what raw foods work, and assessing reactions. She profiles cacao, raw sweeteners, water, pH level of foods, juices versus smoothies, salt, the process of dehydrating food, garlic and onions, and overall food preparation. Russo highlights what supplements (superfoods, vitamins, green products) to include in the diet. She emphasizes the spiritual aspects of the movement as well, exploring meditation, yoga, Buddhism, peacefulness, and fasting.

Juice Therapy Bulus Liviu.2019-12-02 Juice therapy is a naturist practice, from the larger family of practices which include phytotherapy, apitherapy, homeopathy, heliotherapy and others. It appeared and developed as one of the major remedies against aging which is caused by the accumulation of toxins and by the forming of free radicals. It nourishes the body with vitamins and fresh enzymes. Kindle book for just \$0.99. Regularly priced at \$2.99. Read on your PC, Mac, smart phone, tablet or Kindle device. You are about to discover how to heal or at least improve today's most common diseases by juicing with specific ingredients. When foreign substances enter our bodies, our immune system goes into high alert to prevent those substances from causing damage. Our bodies do this through chemical and cellular mechanisms that result in inflammation. However, the inflammation that results is not without its own drawbacks. Think about a mosquito bite or an asthma attack. These are reactions that we can directly observe, but there are many others that occur throughout our bodies that contribute to heart disease, cancer, diabetes and autoimmune diseases such as rheumatoid arthritis or halitosis, to name a few. These inflammatory processes protect us, but can cause disease when the response is severe. A recent study conducted in Italy showed that drinking a fruit juice, rich in phytochemicals, reduced the high levels of inflammatory chemicals after eating a high-fat meal. Two other studies demonstrated that drinking orange juice or a strawberry juice decreased the pro-inflammatory effects of a high-fat, high-carbohydrate meal. Extensive research has revealed that plant-based medicines are the answer to diabetes, obesity, cancer, osteoporosis, heart disease, kidney stones, depression and psychosis, behavioral disorders, liver disease, kidney disease, urinary tract infections, skin problems, bad breath, body odor, Alzheimer's, eye health, longevity, colorectal cancer, Crohn's Disease, asthma and too many other health conditions to name. Once you start drinking plant medicines on a daily basis, your so-called diseases simply start to vanish. This book examines today's most common diseases and provides specific, easy to make juice recipes for each particular affliction.
