The Rays before Satyajit Chandak Sengoopta.2016-05-04 In the history of Indian cinema, the name of Satyajit Ray needs no introduction. However, what remains unvoiced is the contribution of his forebears and their tryst with Indian modernity. Be it in art, advertising, and printing technology or in nationalism, feminism, and cultural reform, the earlier Rays attempted to create forms of the modern that were uniquely Indian and cosmopolitan at the same time. Some of the Rays, especially Upendrakishore and his son, Sukumar, are iconic figures in Bengal. But even Bengali historiography is almost exclusively concerned with the family's contributions to children's literature. However, as this study highlights, the family also played an important role in engaging with new forms of cultural modernity. Apart from producing literary works of enduring significance, they engaged in diverse reformist endeavours. The first comprehensive work in English on the pre-Satyajit generations, *The Rays before Satyajit* is more than a collective biography of an extraordinary family. It interweaves the Ray saga with the larger history of Indian modernity.

From Hindi to Urdu Tariq Rahman.2018-02-10 This book is the first of its kind on the socio-political history of Urdu. It analyses the historiography of the language-narratives about its names, linguistic ancestry, place of birth-and relates it to the politics of identity-construction among the Hindus and Muslims of India during the last two centuries. More importantly, a historical account of the use of Urdu in social domains such as employment, education, printing and publishing, radio, films and television etc. has been provided for the first time. These accounts are related to the expression of Hindu and Muslim identity-politics during the last two centuries. Evolution of Urdu from the language of the laity, both Hindus and Muslims, of the Indian subcontinent during the period between 15th-18th centuries to its standardization into two languages: Persianized Urdu and Sanskritized Hindi are highlighted here. The writer looks at narratives of the names, theories of genealogy and places of origin of the language in relation to the political imperatives of identity-politics of Hindus and Muslims during the nineteenth and twentieth centuries. In a nutshell, historiography is analyzed with reference to its political and ideological dimensions-and a fresh analysis regarding the linguistic history of Urdu is provided.

The Muslim Extremist Discourse Faizullah Jan.2015-11-12 This unique book analyzes the discourse of organizations affiliated with al-Qaeda. It interrogates the discourse of these extremist organizations, which publish their own newspapers. These publications, widely distributed to the local population, play a critical role in securing and maintaining public support for the militant organizations. The book examines how these organizations discursively construct the socio-political reality of their world, in the process defining the Self and the Other. The Self becomes umma, or the global Muslim community, while the Other becomes the West, including the United States, Israel, and India. This book presents an analysis of three historical moments—the assassination of al-Qaeda chief Osama Bin Laden, the controversial YouTube video Innocence of the Muslims, and the shooting of the Pakistani child activist and Nobel Laureate Malala Yousafzai. This analysis reveals the discursive strategies used by the militant organizations to create what Foucault calls regimes of truth and articulate identities of the Self and the Other. The first of its kind, this book provides an insight into the mind-set of extremists. It presents a picture of the world that extremists construct through their own discourse and explains how extremists try to win the hearts and minds of mainstream Muslims in order to expand their support base, seek donations, and find new recruits. Understanding extremist narratives and the ways they feed the broader militant discourse may yield more meaningful and effective strategies for the West to communicate with mainstream Muslims.

Pakistan Rohan Gunaratna, Khuram Iqbal.2012-01-01 As made abundantly clear in the classified documents recently made public by WikiLeaks, Pakistan is the keystone in the international fight against terrorism today. After the US-led coalition targeted terrorist groups operating in Afghanistan, these groups, including al Qaeda and the Taliban, relocated to the Federally Administered Tribal Area of Pakistan. From its base in this remote, inhospitable region of Pakistan, al Qaeda and its associated cells have planned, prepared, and executed numerous terrorist attacks around the world, in addition to supporting and waging insurgencies in Iraq, Afghanistan, Yemen, Somalia, and elsewhere. This book is the first detailed analysis of the myriad insurgent groups working in Pakistan. Written by well-known expert on global terrorism Rohan Gunaratna and Khuram Iqbal, a

leading scholar in Pakistan, the book examines and reviews the nature, structure, and agendas of the groups, their links to activists in other countries, such as India and Iran, and the difficulties of defeating terrorism in this part of the world. Drawing on extensive field research and interviews with government officials and former terrorists, the authors argue that Pakistan faces grave and continuing pressures from within, and that without steadfast international goodwill and support, the threats of extremism, terrorism, and insurgency will continue to grow. This timely and necessary book argues that if the international community is to win the battle against ideological extremism and operational terrorism around the world, then Pakistan should be in the vanguard of the fight.

influential books of the past 20 years, according to the Chronicle of Higher Education—with a new preface by the author It is in no small part thanks to Alexander's account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system. —Adam Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander's *The New Jim Crow*. The Impossible State Wael Hallaq.2012-12-18 Wael B. Hallaq boldly argues that the Islamic state, judged by any standard definition of what the modern state represents, is both impossible and inherently self-contradictory. Comparing the legal, political, moral, and constitutional histories of premodern Islam and Euro-America, he finds the adoption and the practices of the modern state to be highly problematic for modern Muslims. By Islamic standards, the state's technologies of the self are severely lacking in moral substance, and today's Islamic state, as Hallaq shows, has done little to advance an acceptable form of genuine Shari'a governance. The Islamists' constitutional battles in Egypt and Pakistan, the Islamic legal and political failures of the Iranian Revolution, and other similar disappointments underscore this fact. Hallaq then turns to the rich moral resources of Islamic history to prove that political and other crises of Islam are integral to the modern condition of both the East and the West, and by acknowledging these parallels, Muslims can engage more productively with their Western counterparts.

New South Asian Feminisms Srila Roy.2012-12-13 South Asian feminism is in crisis. It is time to rethink the feminist political agenda for the predicaments of the present. This timely volume provides an original and unprecedented exploration of the current state of South Asian feminist politics. It will map the new sites and expressions of feminism in the region today, addressing issues like disability, Internet technologies, queer subjectivities and violence as everyday life across national boundaries, including India, Pakistan, Bangladesh and Sri Lanka. Written by young scholars from the region, this book addresses the generational divide of feminism in the region, effectively introducing a new 'wave' of South Asian feminists that resonates with feminist debates everywhere around the globe.

Pakistan Great Britain: Parliament: House of Commons: International Development Committee.2013-04-04 Britain enjoys a close relationship and has long established ties with Pakistan which has real poverty and serious security problems. But the Committee is concerned that not enough tax is raised in Pakistan to fully finance improvements in the quality of life for poor people. Accordingly, the UK Government is called to: work with other donor countries to encourage joint and concerted efforts to require progress on tax policy and revenue collection within Pakistan; use its influence within the International Monetary Fund to ensure this key institution also presses for urgent reform of Pakistan's tax system; support a nationwide, strategic communication plan within Pakistan to explain the need and benefits of tax policy change and to build domestic political momentum for reform. Furthermore, it is vital for Pakistan, and its relations with external aid donors, that it provides clear evidence that it will own and implement an effective anti-corruption strategy. DFID must likewise set measurable targets against which to measure and confirm positive impacts arising from effective investment in anti-corruption measures. In more detailed comments, the value delivered by the DFID Maternal and New-born Health Programme is acknowledged but scepticism is expressed about recent efforts to 'scale-up' at a provincial level. Closer to home, the Committee also calls on UK DFID to explore innovative ways to work more closely with the UK Pakistani diaspora, to improve their participation in monitoring DFID projects and, where appropriate, to align diaspora funding and remittance flows to Pakistan with DFID supported programmes.
