Veii Jacopo Tabolli,Orlando Cerasuolo.2019-02-01 Reputed to be the richest city of Etruria, Veii was one of the most important cities in the ancient Mediterranean world. It was located ten miles northwest of Rome, and the two cities were alternately allied and at war for over three hundred years until Veii fell to Rome in 396 BCE, although the city continued to be inhabited until the Middle Ages. Rediscovered in the seventeenth century, Veii has undergone the longest continuous excavation of any of the Etruscan cities. The most complete volume on the city in English, Veii presents the research and interpretations of multiple generations of Etruscan scholars who are at the forefront of the discipline. Their essays are grouped into four parts. The first provides a general overview of archaeological excavation at Veii and discusses the different types of methodologies employed over the years. The second part narrates the history of Etruscan occupation of the city and its role in the greater Mediterranean world. The third section examines the surviving material culture of Veii, including pottery, painting, sculpture, metalworking, and architectural terracottas. Finally, the legacy of Veii is discussed, and a chronology of the site is presented. This pioneering research offers all students of the ancient Mediterranean a new understanding of the development of Veii and its territory from the late Bronze Age to the Roman conquest, as well as of the interactions of Veii with nearby sites and territories in central Tyrrhenian Italy.

Introduction to the Study of the Hindu Doctrines René Guénon.2004-05 René Guénon's Introduction to the Study of Hindu Doctrines can serve as an introduction to all his later works-especially those which, like *Man and His Becoming* according to the Vedanta, *The Symbolism of the Cross*, *The Multiple States of the Being*, and *Studies in Hinduism*, expound the more profound aspects of metaphysical doctrines in greater detail. In Part I Guénon clears away certain ingrained prejudices inherited from the 'Renaissance', with its adulation of the Greco-Roman culture and its compensating depreciation-both deliberate and instinctive-of other civilizations. In Part II he establishes the fundamental distinctions between various modes of thought and brings out the real nature of metaphysical or universal knowledge-an understanding of which is the first condition for the personal realization of that 'Knowledge' which partakes of the Absolute. Words like 'religion', 'philosophy', 'symbolism', 'mysticism', and 'superstition', are here given a precise meaning. Part III presents a more detailed examination of the Hindu doctrine and its applications at different levels, leading up to the Vedanta, which constitutes its metaphysical essence. Lastly, Part IV resumes the task of clearing away current misconceptions, but is this time concerned not with the West itself, but with distortions of the Hindu doctrines that have arisen as a result of attempts to read into them, or to graft onto them, modern Western conceptions. The concluding chapter lays down the essential conditions for any genuine understanding between East and West, which can only come through the work of those who have attained, at least in some degree, to the realization of 'wisdom uncreate'-that intellectual, suprarational knowledge called in the East *jñāna*, and in the West *gnosis*.

Unconventional Flying Objects Hill, Paul R..2014-06-01 Paul Hill was a well-respected NASA scientist when, in the early 1950s, he had a UFO sighting. Soon after, he built the first flying platform and was able to duplicate the UFO's tilt-to-control maneuvers. Official policy, however, prevented him from proclaiming his findings. I was destined, says Hill, to be as unidentified as the flying objects. For the next twenty-five years, Hill acted as an unofficial clearinghouse at NASA, collecting and analyzing sightings' reports for physical properties, propulsion possibilities, dynamics, etc. To refute claims that UFOs defy the laws of physics, he had to make technological sense... of the unconventional object. After his retirement from NASA, Hill finally completed his remarkable analysis. This book, published posthumously, presents his findings that UFOs obey, not defy, the laws of physics. Vindicating his own sighting and thousands of others, he proves that UFO technology is not only explainable, but attainable.

Indonesian Notebook Brian Russell Roberts,Keith Foulcher.2016-03-11 While Richard Wright's account of the 1955 Bandung Conference has been key to shaping Afro-Asian historical narratives, Indonesian accounts of Wright and his conference attendance have been largely overlooked. Indonesian Notebook contains myriad documents by Indonesian writers, intellectuals, and reporters, as well as a newly recovered lecture by Wright, previously published only in Indonesian. Brian Russell Roberts and Keith Foulcher introduce and contextualize these documents with extensive background information and analysis, showcasing the heterogeneity of postcolonial modernity and underscoring the need to consider non-English language perspectives in transnational cultural exchanges. This collection of primary sources and scholarly histories is a crucial companion volume to Wright's *The Color Curtain*.

Venice Saved Simone Weil.2019-06-13 Towards the end of her life, the French philosopher and mystic Simone Weil (1909-43) was working on a tragedy, *Venice Saved*. Appearing here in English for the first time, this play explores the realisation of Weil's own thoughts on tragedy. A figure of affliction, a central theme in Weil's religious metaphysics, the central character offers a unique insight into Weil's broader philosophical interest in truth and justice, and provides a fresh perspective on the wider conception of tragedy itself. The play depicts the plot by a group of Spanish mercenaries to sack Venice in 1618 and how it fails when one conspirator, Jaffier, betrays them to the Venetian authorities, because he feels compassion for the city's beauty. The edition includes notes on the play by the translators as well as introductory material on: the life of Weil; the genesis and purport of the play; Weil and the tragic; the issues raised by translating *Venice Saved*. With additional suggestions for further reading, the volume opens up an area of interest and research: the literary Weil.

Art as Art Ad Reinhardt.1991-06-06 Ad Reinhardt is probably best known for his black paintings, which aroused as much controversy as admiration in the American art world when they were first exhibited in the 1950s. Although his ideas about art and life were often at odds with those of his contemporaries, they prefigured the ascendance of minimalism. Reinhardt's interest in the Orient and in religion, his strong convictions about the value of abstraction, and his disgust with the commercialism of the art world are as fresh and valid today as they were when he first expressed them.

The Optical Unconscious Rosalind E. Krauss.1994-07-25 The Optical Unconscious is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of vision itself. And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The Optical Unconscious will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about smart Jewish girls with their typewriters in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as Anti-Form. These

artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

Towards a Christian Tantra John R. Dupuche.2009 How is it possible to reconcile two facts which seem irreconcilable, and an immersion in the world of Tantra even to the point of initiation? This intriguing account describes an usual spiritual journey which responds honestly and deeply to this mysterious experience, of spirit and body, of discernment and grace, of divine energy and love in all its aspects, during the course of an adventure which links a person to what is essential, unveiling the whole scope, both cosmic and divine, of Life. The author shows how, beyond their obvious differences, the Christian themes of the Word which is expressed as an eternal I am, or of the divine Energy, find striking correspondences in the Tantra, allowing them to resonate together and enrich each other. This work, therefore, follows in the wake of other pioneers such as Henri Le Saux or Christian de Cherg as regards the dialogue with Hinduism and Islam. Consciousness is the Self because God is Love. The essence of tantra is Love.

Why are the Japanese Non-religious? Toshimaro Ama.2005 Why Are the Japanese Non-Religious?: Japanese Spirituality: Being Non-Religious in a Religious Culture, translated here for the first time in English, was first published in Japan in 1996. It has also been translated into Korean and German. Author Toshimaro Ama examines the concept of mushukyo, or lack of specific religious beliefs. According to Ama, the Japanese generally lack an understanding of or desire to commit to a particular organized religion, oftentimes fusing Shinto, Christianity, and Buddhism into a hybrid form of spirituality. The book, which has sold more than 100,000 copies, is widely popular among students of Japanese culture and ethnicity as well as lay readers desiring to learn more about Japanese religious identity.

COVID-19 Conspiracy Theories John Bodner,,Wendy Welch,Ian Brodie.2020-11-21 As the novel coronavirus (Covid-19) spread around the world, so did theories, stories, and conspiracy beliefs about it. These theories infected communities from the halls of Congress to Facebook groups, spreading quickly in newspapers, on various social media and between friends. They spurred debate about the origins, treatment options and responses to the virus, creating distrust towards public health workers and suspicion of vaccines. This book examines the most popular Covid-19 theories, connecting current conspiracy beliefs to long-standing fears and urban legends. By examining the vehicles and mechanisms of Covid-19 conspiracy, readers can better understand how theories spread and how to respond to misinformation.

Revolt Against the Modern World Julius Evola.2018-07-13 With unflinching gaze and uncompromising intensity Julius Evola analyzes the spiritual and cultural malaise at the heart of Western civilization and all that passes for progress in the modern world. As a gadfly, Evola spares no one and nothing in his survey of what we have lost and where we are headed. At turns prophetic and provocative, Revolt against the Modern World outlines a profound metaphysics of history and demonstrates how and why we have lost contact with the transcendent dimension of being. The revolt advocated by Evola does not resemble the familiar protests of either liberals or conservatives. His criticisms are not limited to exposing the mindless nature of consumerism, the march of progress, the rise of technocracy, or the dominance of unalloyed individualism, although these and other subjects come under his scrutiny. Rather, he attempts to trace in space and time the remote causes and processes that have exercised corrosive influence on what he considers to be the higher values, ideals, beliefs, and codes of conduct--the world of Tradition--that are at the foundation of Western civilization and described in the myths and sacred literature of the Indo-Europeans. Agreeing with the Hindu philosophers that history is the movement of huge cycles and that we are now in the Kali Yuga, the age of dissolution and decadence, Evola finds revolt to be the only logical response for those who oppose the materialism and ritualized meaninglessness of life in the twentieth century. Through a sweeping study of the structures, myths, beliefs, and spiritual traditions of the major Western civilizations, the author compares the characteristics of the modern world with those of traditional societies. The domains explored include politics, law, the rise and fall of empires, the history of the Church, the doctrine of the two natures, life and death, social institutions and the caste system, the limits of racial theories, capitalism and communism, relations between the sexes, and the meaning of warriorhood. At every turn Evola challenges the reader's most cherished assumptions about fundamental aspects of modern life. A controversial scholar, philosopher, and social thinker, JULIUS EVOLA (1898-1974) has only recently become known to more than a handful of English-speaking readers. An authority on the world's esoteric traditions, Evola wrote extensively on ancient civilizations and the world of Tradition in both East and West. Other books by Evola published by Inner Traditions include Eros and the Mysteries of Love, The Yoga of Power, The Hermetic Tradition, and The Doctrine of Awakening.

Groundwaters Charles Russell.2011 KEYNOTE:More than 100 years of unschooled artistic genius is gathered in this wide-ranging survey that will delight and inform Outsider Art's rapidly growing audience. Visionary art, art brut, art of the insane, naïve art, vernacular art, raw vision--what do all these and many other categories describe? An art made outside the boundaries of official culture, first recognized more than a century ago by German psychiatrists who appreciated the profound artistic expression in the work of institutionalized patients. Promoted by brilliant museum curators like Alfred Barr and artists like Jean Dubuffet, such work became a wellspring of modern and contemporary art. This volume brings together works by twelve of the most influential self-taught artists to emerge during the past century. Each represents a facet of the outsider art phenomenon, from mental patients like Adolf Wölfli and Martín Ramírez, through vernacular masters like Bill Traylor and Thornton Dial, to artists who seem to be in touch with other worlds, such as Madge Gill and Henry Darger. Related artists are featured along with each key figure, allowing a fuller picture to emerge. This book presents a narrative of the history of outsider art, clarifies predominant theoretical issues, and draws comparisons with the modernist tradition. It brings into focus the enormous contributions self-taught artists have made to our understanding of creative genius and presents them in a book that will enthrall anyone interested in Outsider Art. AUTHOR: Charles Russell is Professor Emeritus of English and American Studies at Rutgers University, Newark. He is a contributing editor to Raw Vision, an international magazine of outsider art, and is on the editorial board of the International Journal of Self-Taught and Outsider Art. Banking and Beyond Caterina Cruciani,Gloria Gardenal,Elisa Cavezzali.2021-08-28 This book explores the evolution of the banking sector and the financing tools it fosters, addressing the impact of new regulations and the ensuing opportunities for financial institutions, firms, and individuals. Written in two parts, the project includes papers presented at the 2019 Annual Conference of the Wolpertinger Club - The European Association of University Teachers in Banking and Finance. The first part addresses the impact of policy changes on banks and financial institutions, particularly the impact of recent changes in European policy. The authors explore how policy has been, and is, communicated and how it shapes new incentives and challenges for the banking sector and institutional and individual investors. The book touches upon the debate on the 'bail-in' vs 'bail-out' options and reviews new opportunities for investors on covered and subordinated bond markets in Europe, covering the new regulatory structure provided by the European authorities. The second part explores new financing tools besides the traditional banking sector available to firms and individuals, examining financing options for firms and individuals, and describing the role that alternative capital-market tools such as mini bonds and crowdfunding are playing within the landscape of SME financing. Arguing that financing decisions can ultimately affect the survival rate of startups, this edited collection will be valuable to those researching both finance and business, but particularly to those studying banking, financial institutions and entrepreneurial finance.

The Archaeology of Hindu Ritual Michael Willis.2014-11-06 In this groundbreaking study, Michael Willis examines how the gods of early Hinduism came to be established in temples, how their cults were organized, and how the ruling elite supported their worship. Examining the emergence of these key historical developments in the fourth and fifth centuries, Willis combines Sanskrit textual evidence with archaeological data from inscriptions, sculptures, temples, and sacred sites. The centre-piece of this study is Udayagiri in central India, the only surviving imperial site of the

Gupta dynasty. Through a judicious use of landscape archaeology and archaeo-astronomy, Willis reconstructs how Udayagiri was connected to the Festival of the Rainy Season and the Royal Consecration. Under Gupta patronage, these rituals were integrated into the cult of Vishnu, a deity regarded as the source of creation and of cosmic time. As special devotees of Vishnu, the Gupta kings used Udayagiri to advertise their unique devotional relationship with him. Through his meticulous study of the site, its sculptures and its inscriptions, Willis shows how the Guptas presented themselves as universal sovereigns and how they advanced new systems of religious patronage that shaped the world of medieval India.

Gnostica, Judaica, Catholica. Collected Essays of Gilles Quispel Gilles Quispel,Johannes van Oort.2008-12-31 This volume brings together a rich and varied collection of essays by Gilles Quispel (1916-2006), Professor of the History of the Early Church at Utrecht University from 1951 until his retirement in 1983. During his illustrious career, Professor Quispel was also visiting Professor at Harvard University in 1964/65, and visiting Professor at the Catholic University of Leuven from 1969 until 1974. The fifty essays collected in this volume testify to most of the prominent themes from Professor Quispel's scholarly career: the writings of the Nag Hammadi library in general and the Gospel of Thomas in particular; Tatian's Diatessaron and its influences; the Hermetica; Mani and Manichaeism; the Jewish origins of Gnosticism; and Gnosis and the future of Christianity. This volume also makes a number of his less known earlier publications (mainly presented under the heading 'Catholica') available to the international community. Until shortly before he died, Professor Quispel remained active in his study of the Gospel of Thomas. He had been one of the first to acquire the Coptic text of the Gospel of Thomas, of which he published the first translation in 1959 and his final translation in 2005. He was also active in researching the Diatessaron, and Valentinus 'the Gnostic'. One of his most recent essays - published for the first time in this volume - is on 'the Muslim Jesus.'

The Three Sovereigns Tradition Dominic Emanuel Steavu-Balint.2010 This dissertation attempts to elucidate the origins and nature of the lost Sanhuang wen (Writ of the Three Sovereigns), and identify its surviving fragments in the Daoist Canon. Through a close examination of these fragments, this study reconstructs various stages in scripture's transmission and traces its development from a single text to a fourteen-scroll corpus replete with mantic methods, cosmological speculations, and elaborate liturgies. The present study pushes beyond conventional views of the Sanhuang by underscoring the pivotal role of alchemy and meditation alongside talismans as defining components of the tradition. It analyzes key notions, such as true form (zhenxing), in the sophisticated conceptual apparatus that governs Sanhuang talismanic, alchemical, and meditative practices. In so doing, this dissertation reveals the profound impact of the Sanhuang wen on the religious landscape of Six Dynasties Jiangnan, and in a larger framework, on the development of Daoism.

Design as Learning Jan Boelen.2019-02-19 Why do design? What is design for? These are forward-looking questions for a creative discipline that seems more slippery to define than ever. In a world of dwindling natural resources, exhausted social and political systems, and an overload of information there are many urgent reasons to reimagine the design discipline, and there is a growing need to look at design education. Learning and unlearning should become part of an on-going educational practice. We need new proposals for how to organise society, how to structure our governments, how to live with, not against, the planet, how to sift fact from fiction, how to relate to each other, and frankly, how to simply survive. The 4th Istanbul Design Biennial, and this publication *Design as Learning* ask: can design and design education provide these critical ideas and strategies? -- Back cover.

Angkor Wat - A Transcultural History of Heritage Michael Falser.2019-12-16 This book unravels the formation of the modern concept of cultural heritage by charting its colonial, postcolonial-nationalist and global trajectories. By bringing to light many unresearched dimensions of the twelfth-century Cambodian temple of Angkor Wat during its modern history, the study argues for a conceptual, connected history that unfolded within the transcultural interstices of European and Asian projects. With more than 1,400 black-and-white and colour illustrations of historic photographs, architectural plans and samples of public media, the monograph discusses the multiple lives of Angkor Wat over a 150-year-long period from the 1860s to the 2010s. Volume 1 (Angkor in France) reconceptualises the Orientalist, French-colonial 'discovery' of the temple in the nineteenth century and brings to light the manifold strategies at play in its physical representations as plaster cast substitutes in museums and as hybrid pavilions in universal and colonial exhibitions in Marseille and Paris from 1867 to 1937. Volume 2 (Angkor in Cambodia) covers, for the first time in this depth, the various on-site restoration efforts inside the 'Archaeological Park of Angkor' from 1907 until 1970, and the temple's gradual canonisation as a symbol of national identity during Cambodia's troublesome decolonisation (1953-89), from independence to Khmer Rouge terror and Vietnamese occupation, and, finally, as a global icon of UNESCO World Heritage since 1992 until today.

Landscapes Clear and Radiant Wen Fong, Hui Wang, Chin-Sung Chang, Maxwell K. Hearn. 2008 Wang Hui, the most celebrated painter of late-seventeenth-century China, played a key role both in reinvigorating past traditions of landscape painting and in establishing the stylistic foundations for the imperially sponsored art of the Qing court. Drawing upon his protean talent and immense ambition, Wang developed an all-embracing synthesis of historical landscape styles that constituted one of the greatest artistic innovations of late imperial China. This comprehensive study of the painter, the first published in English, features three essays that together consider his life and career, his artistic achievements, and his masterwork - the series of twelve monumental scrolls depicting the Kangxi emperor's Southern Inspection Tour of 1689. The first essay, by Wen C. Fong, closely examines Wang Hui's genius for repossessing the past, his ability to engage in an inventive dialogue with previous masters and to absorb their stylistic personae while making works that were distinctly his own. Chin-Sung Chang next traces the entire trajectory of Wang's development as an artist, from his precocious youth in the village of Yushan, through growing local and national fame - first as a copyist, then as the creator of groundbreaking panoramic landscapes - to the ultimate confirmation of his stature with the commission to direct the Southern Inspection Tour project. Focusing on this extraordinary eight-year-long effort, Maxwell K. Hearn's essay discusses the contemporary sources for the scrolls, the working methods of Wang and his assistants (comparing drafts with finished versions), and the artistic innovations reflected in these imposing works, the extant examples of which measure more than two feet high and from forty-six to eighty-six feet long. This publication accompanies the exhibition *Landscapes Clear and Radiant: The Art of Wang Hui (1632-1717)*, held at The Metropolitan Museum of Art, New York, from September 9, 2008, through January 4, 2009.--BOOK JACKET.
