The 2011 Guide to Free Or Nearly-Free E-Books .2011 One of the problems which face all librarians adding e-books to their collections is that of bibliographic control: there is no legal deposit for e-books and consequently there is no single place from which new titles can be found. If this is true of commercially published e-books, it is most certainly also true of free e-books... and there are many thousands of free e-books available over the Internet, many of which are of a quality such that librarians might wish to have them in their collections. The 2011 Guide to Free or Nearly-Free e-Books is offered as a tool for librarians and others involved in book selection (e.g. teachers in schools) in all sectors - school, further and higher education, public and special libraries - to facilitate easy access to free e-books and e-book collections which can enhance their digital library.

Actively Caring for People Policing E. Scott Geller, Bobby Kipper. 2017-01-24 A revolutionary new approach to policing that puts people over punishment. Experts have struggled to define the term “police culture.” For most, this label means a reactive approach to keeping people safe by using punitive consequences to punish or detain the perpetrators. The result: More attention is given to the negative, reactive side of policing than a positive, proactive approach to preventing crime by cultivating an interdependent culture of residents looking out for the safety, health, and well-being of each other. In *Actively Caring for People Policing*, authors E. Scott Geller and Bobby Kipper show how police officers can play a critical and integral role in achieving such a community of compassion—an Actively Caring for People (AC4P) culture. With AC4P policing, consequences are used to increase the quantity and improve the quality of desired behavior. Police officers are educated about the rationale behind using more positive than negative consequences to manage behavior, and then they are trained on how to deliver positive consequences in ways that help to cultivate interpersonal trust and AC4P behavior among police officers and the citizens they serve. The result: humanistic behaviorism to enhance long-term positive relations between police officers and the citizens they serve, thereby preventing interpersonal conflict, violence, and harm.

The Undeniable Favor of God Elizabeth Jean Bruce.2017-01-24 A licensed psychologist and trauma expert shares the story of how she met life's challenges and achieved personal fulfillment through faith. Having a sense of purpose significantly contributes to the quality of our lives. Many people experience God-given "callings" to achieve distinctive goals in life. These yearnings give us a sense of fulfillment by showing how we fit into the wholeness of creation. But discovering our purpose and establishing a major long-term goal are only the first steps of the journey. We must also understand what is required of us to reach our final destination, and make sure to note the milestones we achieve along the way. There will be difficult periods during the journey. To see our way through them, it helps to surround ourselves with people who strengthen our emotional, physical, and spiritual well-being. We must also utilize our faith in God, who keeps us fortified to endure disheartening times. Dr. Bruce believes that wonderful things happen as life unfolds. In *The Undeniable Favor of God*, she teaches others how to focus on the beauty, truth, and light of life.

This tongue-in-cheek, yet cautionary book explores the many ways, and great lengths we go to, to shield our public personas, reputations, and most embarrassing and cringe-worthy secrets. With scores of funny and alarming interviews with people who didn't take extreme measures to guard their now-free and feral skeletons, it also outlines the strategies you can take to make sure your secrets never see the light of day. If you don't think you need the key to *The Skeleton Code*, you're treading the dark and increasing crowded waters of that infamous river called Denial.

Enlisting the help of FBI Agent Anne Dvorak, Tomczyk is now tracking a series of violent crimes, eerily similar to those that paralyzed the state decades before. Traditional Window Designs of Kirklareli, Turkey Nevnihal Erdoğan, Izzet Yüksek.2013-08-07
Traditional Window Designs of Kirklareli, Turkey is original research on window design and presents readers the unique culture of Turkey. The theme of this book is based on samples of windows of the late 19th and early 20th century in Kirklareli. A total of 103 homes of traditional style have been observed in the old districts of the city. The windows in these buildings were studied in detail, were photographed and their plan, sectional elevations and views were obtained by scale drawings. Samples from 57 windows that were collected during the research process were selected to be published in this book. Some details are important with their color, with their ornaments and details, with their place in the façade having architectural elements belonging to certain periods, and with carvings of certain symbols. This presentation is a significant step towards creating new designs with respect to cultural continuation and in building protection studies. Thus the book provides a rich illustrated resource for architects, designers and researchers interested in gaining a better understanding of diversity of design characteristics in different neighborhoods of Kirklareli in Turkey.
