Among cameras in its price category, its 16 megapixel sensor, 4K video capture, and 3-inch LCD screen make it a top pick. The use of this camera comes with a few caveats, though, so read on. Such things consist of: Keep your finger off the lens and your finger off the shutter button at all times while using this camera. Never use this camera near water or underwater. A fee will be charged in the event that unintentional damage occurs to your camera during your use of it; this price must be paid in full before we can proceed with your repair request.
