and young people in care rarely match the academic achievements of their peers and policy and procedures to address this inequality have not yet remedied the problem. Drawing on ideas from social pedagogy, the authors present a new approach - learning placements and caring schools. They show that education and care must be considered integral to both out of home placements and schools. Packed with practice examples, it includes chapters on early childhood education and care, as well as alternatives to school and higher education, covering everything from birth up to the age of 25. It highlights the potential benefits of a range of learning opportunities, from drama and outdoor activities, to bedtime stories and mentoring as well as providing support for teachers in their role as carer. Chapters include key points, case studies, practice points and useful resources. This is a unique evidence-informed practical guide for students and professionals in the fields of social work, social care, psychology and education.

*From Reader to Reading Teacher* Aebersold, Jo Ann

Aebersold, Mary Lee Field. 1997-03-13 *From Reader to Reading Teacher* is a self-contained, student-centered methods text that connects reading theory to practical classroom activities. The book begins by leading teachers to explore their beliefs and assumptions about the nature of reading and to analyse their own personal reading strategies. By studying the factors that influence both native language and second language reading, the text prepares teachers for a critical examination of the pedagogical issues central to the reading classroom. Teachers learn how to select appropriate reading activities and to plan effective reading lessons. Written in clear, understandable language, this text provides a wealth of examples and exercises, making it ideal for introductory courses on the teaching of second language reading.

Reading Acts Theologically Steve Walton.2022-06-30 Steve Walton has consistently focused his research and scholarship upon the theological perspective of Acts, while considering the book's nature and focus, its portrait of the early Christian communities and their mission in the culturally varied first-century world, and its major theological themes. Walton now collects several of his key essays into an expansive and coherent perspective, bringing together studies published over nearly two decades during his time of study and reflection in the process of writing the Word Biblical Commentary on Acts. The collection begins with an exploration of what 'reading Acts theologically' means, the divine perspective of Acts, and how Luke theologizes through narrative. Walton presents analyses covering the nature of the early Church and the main terms used by the communities; the believers' sharing of possessions; early Christian attitudes to the Jewish temple; decision-making among the earliest Christians; and the church's engagement with the Roman empire and its representatives. This volume studies theological themes in Acts such as Jesus' role as a character in the text while also located in heaven, and the cosmology and anthropology communicated by Acts, thus providing a new reflection on the early Christian understanding of God, Jesus and humanity.

Reading Acts Barbara Ryan,Amy M. Thomas.2002 Drawing on such original sources as diaries, commonplace books, fan mail to authors, booksellers' reports, and student papers, the contributors to Reading Acts recover a wealth of important historical information that expands our understanding of reading in the United States during the nineteenth and early twentieth

centuries. The emphasis throughout is on the act of reading and the attendant proposition that reading acts upon those who read. Covered in this volume are a wide range of fascinating topics, including the cultural agency of women during the early national period; readers' criticisms of the critics in the 1830s; readers' relationships with beloved authors after the Second Industrial Revolution; and attitudes toward single motherhood in the mid-twentieth century as revealed in readers' responses to a True Confessions magazine article. Contributors from diverse fields and disciplines highlight the ways in which human diversity -- and often contrariness -- are reflected in reading habits and enthusiasms. They show how a desire to read and a love of reading have impelled average Americans to voice their opinions, defend their tastes, and confront cultural arbiters whose dictates failed to match their lived experiences. By focusing on documents left by readers deemed ordinary, the essayists raise important questions that existing approaches and methodologies often obscure. Their treatment of key variables in the act of reading -- such as gender, institutional setting, and class -- is consistently fresh, provocative, and illuminating.

**The Piano Shop on the Left Bank** Thad Carhart.2002-03-12  
Walking his two young children to school every morning, Thad Carhart passes an unassuming little storefront in his Paris neighborhood. Intrigued by its simple sign—Desforges Pianos—he enters, only to have his way barred by the shop’s imperious owner. Unable to stifle his curiosity, he finally lands the proper introduction, and a world previously hidden is brought into view. Luc, the atelier’s master, proves an indispensable guide to the history and art of the piano. Intertwined with the story of a musical friendship are reflections on how pianos work, their glorious history, and stories of the people who care for them, from amateur pianists to the craftsmen who make the mechanism sing. The Piano Shop on the Left Bank is at once a beguiling portrait of a Paris not found on any map and a tender account of the awakening of a lost childhood passion. Praise for The Piano Shop on the Left Bank: “[Carhart’s] writing is fluid and lovely enough to lure the rustiest plunker back to the piano bench and the most jaded traveler back to Paris.” -San Francisco Chronicle “Captivating . . . [Carhart] joins the tiny company of foreigners who have written of the French as verbs. . . . What he tries to capture is not the sight of them, but what they see.” -The New York Times “Thoroughly engaging . . . In part it is a book about that most unpredictable and pleasurable of human experiences, serendipity. . . . The book is also about something more difficult to pin down, friendship and community.” -The Washington Post “Carhart writes with a sensuousness enhanced by patience and grounded by the humble acquisition of new insight into music, his childhood, and his relationship to the city of Paris.” -The New Yorker NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST BOOK WORLD

**EU Legal Acts** Marise Cremona, Claire Kilpatrick. 2018-02-08 In this collection of essays, originally presented at the Academy of European Law in Florence, the changing landscape of the EU's legal acts is explored. Further to this, the changing boundaries between legal acts and processes which may create norms but do not create 'law' in the traditional sense are analysed. This landscape is presented in two ways. Firstly, by focusing on the transformations and challenges to the EU's traditional legal acts, in particular since the reconfiguration of the categories of legal acts and the procedures for which they are adopted by the Lisbon Treaty. Secondly, the collection focuses on those acts found at (or beyond) the margin of classic EU legal acts, including acts of Member States such as inter se treaties; self-regulation and collective agreements; so-called soft law; and decision-making outside the normal legislative procedures. The volume endeavours to explain the adaptability of the EU legal order provided that the legal instruments at the Union's disposal appear to be identical to when the Treaty of Rome came into force 60 years ago. It also explores the challenges that the producing and quality of acts pose for the EU's legal order, such as alterations to institutional balance and the roles of the different institutional actors and challenges to the rule of law.

emergence of a 'post-truth', 'big data' world. What we have developed, organisationally and institutionally, seems very fragile. An imperative exists to recover whatever systemic sensibilities we still retain, to foster systems literacy and to invest in systems thinking in practice capability. This will be needed in future at personal, group, community, regional, national and international levels, all at the same time. Systems Practice: How to Act is structured into four parts. Part I introduces the societal need to invest in systems thinking in practice, in contexts of uncertainty and complexity epitomised by the challenges of responding to human-induced climate change. Part II unpacks what is involved in systems practice by means of a juggler isophor; examining situations where systems thinking offers useful understanding and opportunities for change. Part III identifies the main factors that constrain the uptake of systems practice and makes the case for innovation in practice by means of systemic inquiry, systemic action research and systemic intervention. The book concludes with Part IV, which critically examines how systems practice is, or might be, utilised at different levels from the personal to the societal./div

**Reading Acts** William Shiell. 2021-11-15 William Shiell proposes that the book of Acts was performed orally by a lector in the early church following Greco-Roman rhetorical conventions for recitation and delivery rather than directly read by an audience that was minimally literate. Shiell's study outlines the function of the lector in Greco-Roman times as a filter through which an audience would receive a text. He describes the conventions for performers' gestures, facial expressions, and vocal inflections found in material from Greco-Roman literature and art that are mirrored in the book of Acts. He examines how a reading of Acts in this light can fill interpretive gaps left by literary and rhetorical-critical studies that focus on the reading rather than the hearing of biblical texts.
