**Maths Investigations** David Clemson,Wendy Clemson.2004-05-24 A resource providing open-ended maths investigations for use throughout the 7-11 age range, as well as ideas for whole-school work. There are 86 photocopiable sheets, supported by teacher's notes and linked to the primary-school levels of National Curriculum maths.

Open-Ended Maths Activities Peter Sullivan,Pat Lilburn.2004 Open-ended Maths Activities Second Edition is the revised and expanded edition of the best-selling title by Peter Sullivan and Pat Lilburn. It discusses a type of open-ended, problem-solving question called a 'good' question. These questions enhance learning, teaching and assessment and are a useful addition to a teacher's strategies. It includes: practical advice on how to create your own 'good' questions to use within the classroom organised by subject area and levels (upper, middle and junior) the sixteen topics covered are included within Number, Measurement, Space and Chance and Data.

We Can Work it Out! Anitra Vickery,Mike Spooner.2004 This spiral bound photocopiable book contains 25 problem-solving activities, each activity is presented so that it can be cut up to make a collection of cards. The cards are written specifically for children operating at levels 3 to 6 of the National Curriculum in mathematics and as such will be appropriate for use in both primary and early secondary phases of education.

**How I Wish I'd Taught Maths** Craig Barton.2018 Brought to an American audience for the first time, How I Wish I'd Taught Maths is the story of an experienced and successful math teacher's journey into the world of research, and how it has entirely transformed his classroom.

**Maths Problems and Investigations for 5-7 Year Olds** Greg Purcell.2012 Maths Problems and Investigations is a three-book series of reproducible problem-solving activities for use in primary schools. The books gradually increase in difficulty as you progress through the series. Activities engage pupils in problem solving across a wide range of mathematical operations so it is easy to integrate them into your lessons.

Engaging Maths Catherine Attard,John Pattison.2014-02-23 The Everyday Investigations books are a collection of rich, open-ended tasks based on photographs of items that children see in their day-to-day lives.

**Problem Solving and Reasoning Pupil Book 5 (Busy Ant Maths)** Peter Clarke.2018-03-09 Pupils can quickly get to grips with KS2 problem solving and reasoning by completing activities categorised by topic and question type. Fully in line with the new National Curriculum. Problem solving and reasoning have been key focuses within primary maths since the introduction of the 2014 curriculum, and the focus on 'teaching for mastery'. It is essential that all pupils have access to problem solving and reasoning activities. Some key benefits to problem solving in maths include:  
\* Helping pupils grasp diverse mathematical concepts and understand the application of the subject \* Enhancing strategic thinking \* Developing transferable skills This book consists of three different types of mathematical problem solving challenges: 1. Solving mathematical problems. This

involves pupils solving problems 'within' mathematics itself, recognising patterns and relationships, making conjectures and generalisations, and explaining and justifying conclusions. 2. Reasoning mathematically. This involved pupils using logical thinking to solve problems, focusing on making conjectures and generalisations, and explaining and justifying conclusions using appropriate language. 3. Using & applying mathematics in real-world contexts. This involves pupils engaging in challenges that require them to use and apply their mathematical knowledge and skills in open-ended, real-world contexts.

**81 Fresh & Fun Critical-thinking Activities** Laurie Rozakis. 1998 Help children of all learning styles and strengths improve their critical thinking skills with these creative, cross-curricular activities. Each engaging activity focuses on skills such as recognizing and recalling, evaluating, and analyzing.

*Real Life Maths Investigations* Pat Lilburn, Pam Rawson. 1996 Real Life Maths Investigations is a series of three books designed to encourage children to learn mathematics by doing. They use a problem solving approach to mathematics using activities that the children apply to real life situations. The skills and concepts covered relate directly to the National Statements and include the strands of number, space, measurement, chance and data and mathematical tools and procedures. Each unit contains material that will:- develop children's mathematical thinking; encourage children to use maths in situations they meet everyday; cover skills, concepts and applications from all areas of the mathematics curriculum; give children the opportunities to use the three methods of computation - mental, written and calculator; present mathematics in context so children appreciate the importance of the skills they learn; provide children with interesting activities suitable for all levels of ability in the classroom; allow teachers to observe children applying knowledge; and develop an integrated approach to teaching all key learning areas.

**Maths Problem Solving Year 4** Catherine Yemm.2012-11-28 Maths Problem Solving - Year 4 is the fourth of six books in the Maths Problem Solving series. The books have been written for teachers to use during the numeracy lesson. They cover the 'solving problem' objectives from the numeracy framework. This book contains three chapters; Making decisions, Reasoning about numbers or shapes and Problems involving 'real life', money or measures. The books are designed in such a way that each section has six stages of questions to be worked through. Every stage is split into three levels, for example 1a, 1b or 1c, based on achievement. Each corresponding question from these levels follow the same line of questioning, so that when the teacher talks about a certain question, the solution process is the same for each level but the complexity of the sum varies.

Times Tables Ninja for KS2 Sarah Farrell.2022-07-07 The essential book of times tables activities for the primary classroom, perfect for turning all pupils into Grand Masters of Times Tables! From teacher Sarah Farrell and Andrew Jennings, the creator of the bestselling Vocabulary Ninja and Write Like a Ninja. The activities in this photocopiable book give Key Stage 2 pupils all the tools they need to gain fluency in multiplication and division up to their 12 times tables. Each chapter begins with exercises for practising rapid recall, followed by visually engaging activities for applying knowledge to other areas of maths including shape, perimeter, scale factors, fractions and more. Fully aligned to the primary National Curriculum for maths, Times Tables Ninja features an introduction for teachers explaining the Concrete Pictorial Abstract (CPA) approach and the vocabulary to use when teaching times tables. There are certificates at the end of each section to support progression and encourage children to reach the next Ninja level. Written by experienced teacher Sarah Farrell (@SarahFarrellKS2) and edited by Andrew Jennings (@VocabularyNinja), this is the ultimate classroom resource for reinforcing times tables and preparing pupils for SATS and the statutory multiplication tables check.
