Mews' Digest of English Case Law John Mews.1926

Icons of War and Terror John Tulloch,R. Warwick Blood.2012-07-26 This book explores the ideas of key thinkers and media practitioners who have examined images and icons of war and terror. *Icons of War and Terror* explores theories of iconic images of war and terror, not as received pieties but as challenging uncertainties; in doing so, it engages with both critical discourse and conventional image-making. The authors draw on these theories to re-investigate the media/global context of some of the most iconic representations of war and terror in the international 'risk society'. Among these photojournalistic images are: Nick Ut's Pulitzer Prize winning photograph of a naked girl, Kim Phuc, running burned from a napalm attack in Vietnam in June 1972; a quintessential 'ethnic cleansing' image of massacred Kosovar Albanian villagers at Racak on January 15, 1999, which finally propelled a hesitant Western alliance into the first of the 'new humanitarian wars'; Luis Simco's photograph of marine James Blake Miller, 'the Marlboro Man', at Fallujah, Iraq, 2004; the iconic toppling of the World Trade Centre towers in New York by planes on September 11, 2001; and the 'Falling Man' icon - one of the most controversial images of 9/11; the image of one of the authors of this book, as close-up victim of the 7/7 terrorist attack on London, which the media quickly labelled iconic. This book will be of great interest to students of media and war, sociology, communications studies, cultural studies, terrorism studies and security studies in general.

Translation and Stylistic Variation Helen Gibson.2023-09-01 *Translation and Stylistic Variation: Dialect and Heteroglossia in Northern Irish Poetic Translation* considers the ways in which translators use stylistic variation, analysing the works of three Northern Irish poet-translators to look at how, in this variety, the translation process becomes a creative act by which translators can explore their own linguistic and cultural heritage. The volume offers a holistic portrait of the use of linguistic variety - dialect and heteroglossia - in the literary translations of Seamus Heaney, Ciaran Carson, and Tom Paulin, shedding light on the translators' choices but also readers' experiences of them. Drawing on work from cognitive stylistics, Gibson reflects on how and why translators choose to add linguistic variety and how these choices can often be traced back to their socio-cultural context. The book not only extends existing scholarship on Irish-English literary translation to examine issues unique to Northern Ireland but also raises broader questions about translation in locations where language choice is fraught and political. The volume makes the case for giving increased consideration to the role of the individual translator, both for insights into personal choices and a more nuanced understanding of contemporary literary translation practices, in Ireland and beyond. This book will be of interest to scholars working in translation studies, literary studies and Irish studies.

The Political Economy of Risk in Finance and the Military Marc Schelhase.2022-12-12 This book is about risk conceptions, experiences and reflections. It applies the concept of the risk triangle, with its societal, organisational and personal angles, to two areas of inquiry: financial markets and the military, seeking to demonstrate the challenges, dilemmas and, in many ways, also the impossibilities of risk analysis and risk management. Drawing on empirical and micro- and macro-level analysis, this innovative work will appeal to students of political science, economics and business as well as to risk professionals and risk-takers.

Metaphysics and Gender: The Normative Art of Nature and Its Human Imitations Michele Schumacher.2023-03-07 The emergent "science" of transgenderism and related philosophies of gender propose a full-scale inversion of the understanding of God, man, and the created order articulated in classical metaphysics, undermining and parodying both the causality and ontology voiced by Genesis 1:27 ("God created man in His own image, . . . male and female He created them"). Whether through subversive performative identity or by surgical sex change, the divinely made human person is now threatened with abolition and replacement by the self-made man and the man-made woman. In *Metaphysics and Gender*, Michele M. Schumacher offers a corrective to this distorted and distorting outlook, calling for the recovery of an anthropological vision rooted in recognition of the normative divine "art" of nature and of the likeness—and far greater unlikeness—between divine and human causality. Surveying contemporary transgender trends, Schumacher identifies and excavates their conceptual and ideological foundations in the gender theory of Judith Butler, the existentialist feminism of Simone de Beauvoir, and the atheistic existentialism of Jean-Paul Sartre. To the erroneous philosophical presuppositions of these thinkers Schumacher contrasts the metaphysically grounded thought of Aristotle and Thomas Aquinas, advancing their positive account of the good of creation and of the meaning of ethical norms, human freedom and natural inclinations, and embodiment, and mounting a timely and trenchant defense of the divinely created human person.

It is divided into two parts.The first section offers topical discussions on the status of provincial poets, on women's engagement in children's literature, the relation of women writers to their religious backgrounds, the historical backgrounds to women's orientalism, and their engagement in debates on slavery and abolition.The second part surveys the life and careers of individual women - some 47 in all with sections for biography, biographical resources, works, modern editions, archival holdings, critical reception, and avenues for further research. The final sections of each essay offer further guidance for researchers, including "Signatures" under which the author published, and a "List of Works" accompanied, whenever possible, with contemporary prices and publishing formats. To facilitate research, a robust "Works Cited" includes all texts mentioned or quoted in the essay.

A Cultural History of the British Empire John MacKenzie.2022-11-08 A compelling history of British imperial culture, showing how it was adopted and subverted by colonial subjects around the world As the British Empire expanded across the globe, it exported more than troops and goods. In every colony, imperial delegates dispersed British cultural forms. Facilitated by the rapid growth of print, photography, film, and radio, imperialists imagined this new global culture would cement the unity of the empire. But this remarkably wide-ranging spread of ideas had unintended and surprising results. In this groundbreaking history, John M. MacKenzie examines the importance of culture in British imperialism. MacKenzie describes how colonized peoples were quick to observe British culture--and adapted elements to their own ends, subverting British expectations and eventually beating them at their own game. As indigenous communities integrated their own cultures with the British imports, the empire itself was increasingly undermined. From the extraordinary spread of cricket and horse racing to statues and ceremonies, MacKenzie presents an engaging imperial history--one with profound implications for global culture in the present day.

Transformations of Policing Alistair Henry.2017-05-15 *Police and People in London* is still the largest and most detailed study of a police force and its relations with the public that has yet been undertaken in Britain. The twenty-three years since its publication has seen a constantly-accelerating rate of change in the legal framework of policing, in the arrangements for democratic accountability of the police, in the technologies involved in crime and policing, in management structures and methods in the police service, in financial control systems imposed by central government and in methods of assessing police performance. Over the same period, crime control has moved from the bottom to the top of the political agenda, leading

to increasing pressure on the police to be seen to be effective. Transformations of Policing returns to the central issues discussed in 1983 and considers whether the main conclusions need to be revised in the light of what has happened since. It also reviews areas of debate and research that have emerged more recently and highlights areas of turbulence that are creating fundamentally different patterns from before and raising genuinely new questions.

Creating Religious Childhoods in Anglo-World and British Colonial Contexts, 1800-1950 Hugh Morrison, Mary Clare Martin. 2017-01-20 Drawing on examples from British world expressions of Christianity, this collection further greater understanding of religion as a critical element of modern children's and young people's history. It builds on emerging scholarship that challenges the view that religion had a solely negative impact on nineteenth- and twentieth-century children, or that 'secularization' is the only lens to apply to childhood and religion. Putting forth the argument that religion was an abiding influence among British world children throughout the nineteenth and most of the twentieth centuries, this volume places 'religion' at the center of analysis and discussion. At the same time, it positions the religious factor within a broader social and cultural framework. The essays focus on the historical contexts in which religion was formative for children in various 'British' settings denoted as 'Anglo' or 'colonial' during the nineteenth and early- to mid-twentieth centuries. These contexts include mission fields, churches, families, Sunday schools, camps, schools and youth movements. Together they are treated as 'sites' in which religion contributed to identity formation, albeit in different ways relating to such factors as gender, race, disability and denomination. The contributors develop this subject for childhoods that were experienced largely, but not exclusively, outside the 'metropole', in a diversity of geographical settings. By extending the geographic range, even within the British world, it provides a more rounded perspective on children's global engagement with religion.
