American Higher Education in the Postwar Era, 1945-1970 Roger L. Geiger, Nathan M. Sorber, Christian K. Anderson. 2017-09-01 After World War II, returning veterans with GI Bill benefits ushered in an era of unprecedented growth that fundamentally altered the meaning, purpose, and structure of higher education. This volume explores the multifaceted and tumultuous transformation of American higher education that occurred between 1945 and 1970, while examining the changes in institutional forms, curricula, clientele, faculty, and governance. A wide range of well-known contributors cover topics such as the first public university to explicitly serve an urban population, the creation of modern day honors programs, how teachers' colleges were repurposed as state colleges, the origins of faculty unionism and collective bargaining, and the dramatic student protests that forever changed higher education. This engaging text explores a critical moment in the history of higher education, signaling a shift in the meaning of a college education, the concept of who should and who could obtain access to college, and what should be taught.

James Joyce's *The Dead* Richard Nelson. 2001 Adapted from Joyce's literary masterpiece set in 1904, the last and best known of the short stories collected in *The Dubliners*, this intimate musical portrays a homespun Yuletide party with Irish music, dancing, food, drink and good fellowship. Sparkling songs, many of them traditional sounding Irish melodies that are performed as entertainment by the partygoers, are all original. Christopher Walken starred in a production that moved from Playwrights Horizon to Broadway.

In the Sphere of the Personal: New Perspectives in the Philosophy of Persons Simon Smith, James Beauregard. 2020-10-06 The papers in this collection were originally presented at the 13th International Conference on Persons, held at the University of Boston in August 2015. This biennial event, founded by Thomas O. Buford and Charles Conti in 1989, attracts a host of international scholars, both the venerable and the aspiring. It is widely regarded as the premier event for those

whose research concerns the philosophical tradition known as 'personalism'. That tradition is, perhaps, best known today in its American and European manifestations, although there remains a small but fiercely defended stronghold in Britain. Personalism is not an exclusively Western development, however; its roots are also found in India, China, and Japan. What unites these disparate intellectual cultures may seem quite small. There is little, if any, methodological or doctrinal consensus among them. They are all, however, responses to the impersonal and depersonalising forces perceived to be at work in philosophy, theology, and, most recently, the natural and political sciences. Their common aim is to place persons at the heart of these discourses, to defend the idea that persons are the metaphysical, epistemological, and moral 'bottom line', the vital clue to knowledge of self, reality, and all conceivable values. The authors in this collection do not simply reflect upon this tradition, they put it to work on a range of philosophical and theological problems, both classical and contemporary; problems of free will, personal identity, and the nature of reality, as well as the very current concerns of environmental philosophers, bio- and neuro-ethicists. Their perspectives, too, are many and varied, so offer profound insights into key debates among other philosophical traditions, such as the Kantian, Hegelian, phenomenological, and process schools.

I can thoroughly recommend this book for both experienced and neophyte coaches. Practitioners from other professions and the layperson may also find the skills useful' - Professor Stephen Palmer, Coaching Psychology Unit, City University `This book provides a wealth of information and expertise founded on tried and tested interventions and cannot fail to improve the skill level of existing coaches as well as those entering the Life Coaching arena' - Gladeana McMahon, Head of Coaching Fairplace plc, Co-Director, Centre for Coaching Life coaching is a rapidly growing area with more and more people seeking help to lead satisfying and successful lives. Life Coaching Skills provides a practical introduction to the skills needed to be an effective life coach and incorporates a wide range of practical activities for coaches to use to help their clients develop self-coaching skills. Written by leading skills expert, Richard Nelson-Jones, the book presents a four stage life coaching model based around the core concepts of relating, understanding, changing and client self-coaching. It explores the central skills of coaching used within the model including: establishing the coaching relationship; assessment and goal setting; presentation; demonstration, and consolidation. The main focus of the book is on one-to-one life coaching particularly concerning relationship, work, and health issues. The specific skills needed for working with groups are also discussed and ethical issues and dilemmas related to coaching are explored. Life Coaching Skills is ideal for anyone interested in becoming a life coach and for use in training.

The Life and Work of General Andrew J. Goodpaster C. Richard Nelson.2016-09-29 This biography shows the importance of experienced soldier-scholars with high integrity on national security teams and provides the first systematic mining of the documents Goodpaster wrote on national security. It demonstrates how Goodpaster was able to adapt best practices to a changing political, military, economic and technological environment.

Debating the Presidency Richard J. Ellis,Michael Nelson.2017-01-02 Editors Richard J. Ellis and Michael Nelson have once again assembled a cadre of top presidential scholars to offer a series of pro/con essays that will inspire spirited debate in *Debating the Presidency: Debating the Presidency: Conflicting Perspectives on the American Executive, Fourth Edition* offers a compelling yet concise view of contemporary topics relevant to the American executive. Each pair of debate-resolution style essays is written specifically for this volume, and offers a compelling yet concise view of a topic relevant to the American executive. Editors Richard Ellis and Michael Nelson offer brief chapter introductions that provide context. In this edition, several new arguments are presented on topics

such as executive orders (Pro: Gene Healy, Con: Andrew Rudalevige); abolishment of the vice presidency (Pro: Douglas L. Kriner, Con: Joel K. Goldstein); and the effect of new media on the public's view of the presidency (Pro: Matthew R. Kerbel, Con: Jeffrey E. Cohen).

Joshua Richard D. Nelson.1997-08-01 Richard D. Nelson addresses the textual problems critical to a full understanding of Joshua and offers historical, literary, and theological insights in this balanced commentary. The Old Testament Library provides fresh and authoritative treatments of important aspects of Old Testament study through commentaries and general surveys. The contributors are scholars of international standing.

Scoop Jack Nelson.2013 From a gullible cub reporter with the Daily Herald in Biloxi and Gulfport, to the peerless beat reporter for the Los Angeles Times covering civil rights in the South, Jack Nelson was dedicated to exposing injustice and corruption wherever he found it. Once he realized that segregation was another form of corruption, he became a premier reporter of the civil rights movement. Nelson was, through his steely commitment to journalism, a chronicler of great events, a witness to news, a shaper and reshaper of viewpoints, and indeed one of the most important journalists of the twentieth century.

Debating Reform Richard J. Ellis,Michael Nelson.2019-12-20 Getting students away from spouting opinions about highly-charged partisan issues, *Debating Reform, Fourth Edition* looks at key questions about reforming political institutions, with contributed pieces written by top scholars specifically for the volume. Each pro or con essay considers a concrete proposal for reforming the political system. By focusing on institutions, rather than liberal or conservative public policies, students tend to leave behind ideology and grapple with claims and evidence to draw their own conclusions and build their own arguments. Students will explore how institutions work in their American government text, but this reader helps them to understand how they can be made to work better.

Canine and Feline Endocrinology - E-Book Edward C. Feldman,Richard W. Nelson,Claudia Reusch,J. Catharine Scott-Moncrieff.2014-11-14 No other title offers such dedication to the depth, experience, and focus of endocrinology as *Canine and Feline Endocrinology, 4th Edition*. Comprehensive coverage includes virtually every common and uncommon condition in endocrinology, plus the most updated information on nutrition, geriatric care, pathophysiology, testing procedures, and cost-effective and expedient diagnostic protocols. With its logical, step-by-step guidance for decision making, diagnosis, and prescribing, you will be well-equipped to care for the wide spectrum of endocrine and metabolic disorders in dogs and cats. Expert authorship, including the addition of three world-renowned endocrinology experts — Claudia Reusch, Catharine Scott-Moncrieff, and Ellen Behrend — offers unparalleled guidance on the latest advances in the field. Separation of cats and dogs into separate chapters ensures information on each species is covered to its fullest. Focus on diagnosis and treatment with less discussion on anatomy and physiology allows the book to concentrate on practical, current information that today's clinician most use. Thorough coverage of indications and interpretation of testing procedures in endocrine diseases enables reliable and accurate diagnosis. Detailed discussions of diagnostic strategies and treatment recommendations provide practical, cost-effective, and expedient approaches while ensuring they represent standard of care backed by research and experience. Algorithms on diagnostic and therapeutic approaches provide a practical, logical resource for the busy practitioner needing quick access to information. Logical, step-by-step guidelines aid in accurate decision-making and diagnosis. Comprehensive tables and boxes summarize and clarify key information for quick reference. In-depth discussions from experts in the field include coverage of treatment, monitoring, and management of complications as well as clinical signs, differential diagnoses and diagnostic approaches Extensive reference lists provide readers with sources for additional information on clinical investigative studies Separate chapters devoted to each key topic provide thorough, distinct coverage of all content areas. NEW! Updated content includes the latest information on: thyroid disease; current imaging studies; atypical Addison's disease; atypical

Cushing's disease; idiopathic hypercalcemia in cats; insulin therapy in dogs and cats; diagnostics and treatments; and radiotherapy. NEW! Integration of sound nutrition practices into the treatment of endocrine disorders ensures that you have the knowledge you need to efficiently treat these disorders. NEW! Expanded coverage provides more information on geriatric dogs and cats and the latest findings regarding the treatment of diabetes (two factors which are often interrelated).

Divorce Lawyers at Work Lynn Mather,Craig A. McEwen,Richard J. Maiman.2001-09-13 How do lawyers think about and make the important decisions that constitute the day-to-day practice of law? This book explores that question through an extensive empirical study of lawyers practicing divorce law in New England. The authors emphasize the importance of collegial control in shaping lawyers' decisions and identify a variety of communities of practice that serve as key agents of that control. Offering a new understanding of the nature of lawyers' work in divorce law as well as a new perspective on legal professionalism, this book is required reading for scholars, students, and practitioners.

An Evolutionary Theory of Economic Change Richard R. Nelson.1985-10-15 This book contains the most sustained and serious attack on mainstream, neoclassical economics in more than forty years. Nelson and Winter focus their critique on the basic question of how firms and industries change overtime. They marshal significant objections to the fundamental neoclassical assumptions of profit maximization and market equilibrium, which they find ineffective in the analysis of technological innovation and the dynamics of competition among firms. To replace these assumptions, they borrow from biology the concept of natural selection to construct a precise and detailed evolutionary theory of business behavior. They grant that firms are motivated by profit and engage in search for ways of improving profits, but they do not consider them to be profit maximizing. Likewise, they emphasize the tendency for the more profitable firms to drive the less profitable ones out of business, but they do not focus their analysis on hypothetical states of industry equilibrium. The results of their new paradigm and analytical framework are impressive. Not only have they been able to develop more coherent and powerful models of competitive firm dynamics under conditions of growth and technological change, but their approach is compatible with findings in psychology and other social sciences. Finally, their work has important implications for welfare economics and for government policy toward industry.

On His Own Terms Richard Norton Smith.2014-10-21 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE BOSTON GLOBE, BOOKLIST, AND KIRKUS REVIEWS • From acclaimed historian

Richard Norton Smith comes the definitive life of an American icon: Nelson Rockefeller—one of the most complex and compelling figures of the twentieth century. Fourteen years in the making, this magisterial biography of the original Rockefeller Republican draws on thousands of newly available documents and over two hundred interviews, including Rockefeller's own unpublished reminiscences. Grandson of oil magnate John D. Rockefeller, Nelson coveted the White House from childhood. "When you think of what I had," he once remarked, "what else was there to aspire to?" Before he was thirty he had helped his father develop Rockefeller Center and his mother establish the Museum of Modern Art. At thirty-two he was Franklin Roosevelt's wartime coordinator for Latin America. As New York's four-term governor he set national standards in education, the environment, and urban policy. The charismatic face of liberal Republicanism, Rockefeller championed civil rights and health insurance for all. Three times he sought the presidency—arguably in the wrong party. At the Republican National Convention in San Francisco in 1964, locked in an epic battle with Barry Goldwater, Rockefeller denounced extremist elements in the GOP, a moment that changed the party forever. But he could not wrest the nomination from the Arizona conservative, or from Richard Nixon four years later. In the end, he had to settle for two dispiriting years as vice president under Gerald Ford. In *On His Own Terms*, Richard Norton Smith re-creates Rockefeller's improbable rise to the governor's mansion, his politically disastrous divorce and remarriage, and his often surprising relationships with presidents and political leaders from FDR to Henry Kissinger. A frustrated architect turned master builder, an avid collector of art and an unabashed ladies' man, "Rocky" promoted fallout shelters and affordable housing with equal enthusiasm. From the deadly 1971 prison uprising at Attica and unceasing battles with New York City mayor John Lindsay to his son's unsolved disappearance (and the grisly theories it spawned), the punitive drug laws that bear his name, and the much-gossiped-about circumstances of his death, Nelson Rockefeller's was a life of astonishing color, range, and relevance. *On His Own Terms*, a masterpiece of the biographer's art, vividly captures the soaring optimism, polarizing politics, and inner turmoil of this American Original. Praise for *On His Own Terms* "[An] enthralling biography . . . Richard Norton Smith has written what will probably stand as a definitive Life. . . . *On His Own Terms* succeeds as an absorbing, deeply informative portrait of an important, complicated, semi-heroic figure who, in his approach to the limits of government and to government's relation to the governed, belonged in every sense to another century."—*The New Yorker* "[A] splendid biography . . . a clear-eyed, exhaustively researched account of a significant and fascinating American life."—*The Wall Street Journal* "A compelling read . . . What makes the book fascinating for a contemporary professional is not so much any one thing that Rockefeller achieved, but the portrait of the world he inhabited not so very long ago."—*The New York Times* "[*On His Own Terms*] has perception and scholarly authority and is immensely readable."—*The Economist*

Modern Evolutionary Economics Richard R. Nelson, Giovanni Dosi, Constance E. Helfat, Andreas Pyka, Pier Paolo Saviotti, Keun Lee, Kurt Dopfer, Franco Malerba, Sidney G. Winter. 2018-05-03 Evolutionary economics sees the economy as always in motion with change being driven largely by continuing innovation. This approach to economics, heavily influenced by the work of Joseph Schumpeter, saw a revival as an alternative way of thinking about economic advancement as a result of Richard Nelson and Sidney Winter's seminal book, *An Evolutionary Theory of Economic Change*, first published in 1982. In this long-awaited follow-up, Nelson is joined by leading figures in the field of evolutionary economics, reviewing in detail how this perspective has been manifest in various areas of economic inquiry where evolutionary economists have been active. Providing the perfect overview for interested economists and social scientists, readers will learn how in each of the diverse fields featured, evolutionary economics has enabled an improved understanding of how and why economic progress occurs.

The Lincoln Assassination Harold Holzer,Craig L. Symonds, Frank J. Williams.2014-12-03 Diverse perspectives on Lincoln's assassination, its aftermath, and its place in national memory from some of today's leading Lincoln scholars. The assassination of President Abraham Lincoln remains one of the most significant events in US history. It continues to attract the interest of scholars, writers, and armchair historians, ranging from painstaking new research to wild-eyed speculation. Now leading scholars of Lincoln and his murder offer in one volume their most salient studies and arguments about the assassination, its aftermath, the extraordinary—and complicated—public reaction, and the iconography that Lincoln's murder and deification inspired. Contributors also offer the latest accounts of the pursuit, prosecution, and punishment of the conspirators. Everything from graphic tributes to religious sermons, to spontaneous outbursts on the nation's city streets, to emotional mass-mourning at carefully organized funerals, as well as the imposition of military jurisprudence to try the conspirators, is examined in the light of fresh evidence and insightful analysis. Contributing to this volume are some of the finest scholars specializing in Lincoln's assassination. All have earned well-deserved reputations for the quality of their research, their originality, and their writing. In addition to the editors, contributors include Thomas R. Turner, Edward Steers Jr., Michael W. Kauffman, Thomas P. Lowry, Richard E. Sloan, Elizabeth D. Leonard, and Richard Nelson Current. Soil Survey, San Mateo Area, California Richard J. National Innovation Systems Richard R. Nelson.1993-06-03 The slowdown of growth in Western industrialized nations in the last twenty years, along with the rise of Japan as a major economic and technological power (and enhanced technical sophistication of Taiwan, Korea, and other NICs) has led to what the authors believe to be a techno-nationalism. This combines a strong belief that technological capabilities of a nation;s firms are a key source of their competitive process, with a belief that these capabilities are in a sense national, and can be built by national action. This book is about these national systems of technical innovation. The heart of the work contains studies of seventeen countries--from large market-oriented industrialized ones to several smaller high income ones, including a number of newly industrialized states as well. Clearly written, this work highlights institutions and mechanisms which support technical innovation, showing similarities, differences, and their sources across nations, making this work accessible to students as well as the scholars of innovation.
