In a post Covid world, building a strong Online Presence has become a necessity.

Whereas online meetings used to be optional, it is the norm now. A new chapter on Online Presence has been added to give the reader a competitive advantage in this new Virtual online space. A Good professional needs to have strong Language skills. Recognizing this need, the book has a section in every chapter that highlights important words and Business phrases used in the corporate industry along with their meanings. Hacks used for speed learning: Experts quotes | learning milestones | learning mastery: the essentials of the topic | case in point: real world examples for application of the concepts | illustrations and graphics | knowledge check | case studies | applied knowledge based on the case studies | business jargon and Start-up terminologies | English vocabulary building Here are a few questions our readers have asked the author. 1. I am very strong technically. Why must I learn soft skills? There is a popular saying: The first Impression is the last Impression. A good first impression that creates lifelong relationships is created through effective habits and an ability to say the right thing at the right time to the right person. To manage teams, to have good relationships with your bosses and leaders, to get the job and promotion of your dreams, it is important that we learn how to get soft skills. Formal education and technical certifications are not enough. Our technical experience is insufficient. That's where soft skills are important. Technical skills get you through the door, but soft skills help you progress upwards from floor to floor till you reach the corner office! 2. There are so many soft skills books already. What makes this one different? There are 3 main reasons why you should read this book: a. I have almost 20 years of Corporate, Business and Training experience. Starting my career as an Assistant manager with the Taj Hotels, I have experience as a founder of 3 start ups and over 15 years as a Life, Business and Executive Coach. The format of this book is entirely based on case studies experienced by me by interacting with thousands of clients and training sessions. b. Neuroscience is a

very hot field right now with lots of applications in business. For the first time, I have shared new experiences and ideas on 'How to Promote Yourself' by using applied Neuroscience. I have shared how Neuromarketing helps you to handle difficult people, establish rapport and relationships and become expert people managers. c. This book highlights frequently committed mistakes by others, and suggests ways to avoid these. Life changing frameworks are showcased through case studies and examples. These help you to apply these easy methods immediately in your lives and most importantly become part of your basic nature. 3. What can I expect after reading this book? The book is like a GPS for the readers, who want to explore the quickest ways to reach their desired goals. There is no boring theory, no wasted time! It provides professionals who don't have a background on sales to effectively 'sell' their skills. The reader learns how to 'package' their verbal and non-verbal communication to influence others. Short bite-sized business storytelling has been used to keep the reader interested and energized and motivated to apply these skills in their own life. Building a strong Online Presence can make the crucial difference between cracking that interview, influencing unsure clients positively and making the best impression on key stakeholders. This book imparts easy hacks to becoming an online champion. 3. Any other tips for getting the maximum benefit from this book? I will encourage the reader to read a few pages at a time, then try to apply the solutions and come back and fine-tune their approach by reading a few more pages. Read this book over the course of 6-8 weeks for optimal results. To develop these skills, the reader should read about a chapter and guidelines on how to exhibit new behaviour without feeling shy or conscious. Once the reader begins to exhibit appropriate behaviour in all situations: personal and professional then sustained behavior becomes a habit. This then becomes part of the reader's basic nature. WHAT YOU WILL LEARN The book aims to provide the reader with a practical understanding of

corporate and business life. It has been written by an experienced coach and industry professional with a real-world corporate perspective. WHO THIS BOOK IS FOR The book imparts proven coaching techniques and takes the reader on a journey towards exceptional leadership and management. Book helps the reader to apply it immediately in their lives and keep for life. TABLE OF CONTENTS 1. Soft Skills: An Overview 2. Emotional Intelligence 3. Self-Image Management 4. ### **Asian Competitors: Marketing For Competitiveness In The Age Of Digital Consumers** Kotler Philip, Kartajaya

Hermanwan, Hooi Den Huan. 2019-03-15 Today's dynamic and uncertain environment has contributed to the changing nature of markets. In order for companies to keep up, they will need to embark on new wave marketing to ride the wave of opportunities provided by the changes in the environment, such as the digital revolution. This is critical all over the world, but none more so than in Asia. Asia is not only the world's biggest market, but also the fastest growing. It is therefore essential for marketers to understand the dynamics of Asian companies and what they have to offer to the wider world. This book analyzes competitive companies from 18 Asian countries that have successfully practiced new wave marketing and in so doing, provide invaluable lessons that others may find useful. Comprehensive case studies are used not only to describe how some of Asia's best companies compete, but also to analyze the concepts of new wave marketing their actions are based on. This book is unique in its depth and breadth of cases, from companies in the ASEAN region to North-east Asia, including Mongolia and SAARC. The authors of this book, Professor Philip Kotler, arguably the Father of Modern Marketing, Hermawan Kartajaya from Indonesia, and Hooi Den Huan from Singapore, are all experts in their field and have previously produced other bestsellers. This book, with its focus on real life examples of competitive Asian companies in the age of

digitalization, complements the principles and theoretical frameworks of new wave marketing that are detailed in its sister book, Marketing for Competitiveness. Together, these books provide a comprehensive picture of the changing Asian marketing landscape.

**New Language Leader** David Cotton,David Falvey,Simon Kent.2015

**Rethinking Homework** Cathy Vatterott.2018-09-25 In this updated edition, Cathy Vatterott examines the role homework has played in the culture of schooling over the years; how such factors as family life, the media, and homework gap issues based

on shifting demographics have affected the homework controversy; and what recent research as well as common sense tell us about the effects of homework on student learning. She also explores how the current homework debate has been reshaped by forces including the Common Core, a pervasive media and technology presence, the mass hysteria of achievement culture, and the increasing shift to standards-based and formative assessment. The best way to address the homework controversy is not to eliminate homework. Instead, the author urges educators to replace the old paradigm (characterized by long-standing cultural beliefs, moralistic views, and behaviorist philosophy) with a new paradigm based on the following elements: Designing high-quality homework tasks; Differentiating homework tasks; Deemphasizing grading of homework; Improving homework completion; and Implementing homework support programs. Numerous examples from teachers and schools illustrate the new paradigm in action, and readers will find useful new tools to start them on their own journey. The end product is homework that works—for all students, at all levels.

**Assignments Matter** Eleanor Dougherty.2012-09-01 What exactly is an assignment, and why does it matter? How can educators ensure that their teaching meets the rigorous demands of the Common Core State Standards, so that all students are well prepared for college or careers? Drawing from her extensive experience as a teacher coach, author Eleanor Dougherty answers these questions and many more, with two aims in mind: (1) to guide teachers and administrators in crafting high-quality assignments, and (2) to help educators understand the powerful impact that assignments can have on teaching and learning. The book explains the critical differences among assignments, activities, and assessments and thoroughly describes the key elements of an assignment: prompts, rubrics, products, and instructional plans. Readers will learn how to \* Follow a seven-step process for crafting effective assignments; \* Link

assignments to units and courses; \* Devise Anchor assignments for collaboration and consistency across grades; \* Tap into instructional touchstones that can enrich any assignment; \* Create classroom and school environments that support assignment-making; and \* Use assignments as a source of data about teaching and learning. Equipped with the knowledge and expertise gained from *Assignments Matter*, readers will be able to create meaningful learning experiences for their students and come to appreciate the author's belief that assignments may well be the missing link in school reform efforts to improve student achievement.

*Homework Made Simple* Ann K. Dolin.2010 Provides homework tips, tools, and solutions for parents and their children customized by the child's homework profile: the disorganized, the rusher, the procrastinator, the avoider, the inattentive, and the easily frustrated.
