Zoratama Jaime Bedoya Martínez.2017-11-23 The history of pre-Hispanic South America is prolific in narratives of violence perpetuated, in battle and commerce, to an indigenous population. Mostly for the sake of feeding a perverse avarice and yearning for luxury that was the fashion for Old World society at the time. This conquering force overcame great odds and difficulties to satisfy their greed for material treasure and, consequently took out their frustration and discomfort on these communities. Their occupation exhibited the brutality of a society desperate to pay their debts and build their riches with whatever could be extracted from other people, foreign lands. Disregarded by history are the narratives of the daily life of these indigenous people as they built true humane societies and developed myths to satisfy their curiosities of the workings of their natural world. What has been lost to history is the spark of wonder when the European met the American for the first time. Zoratama is that glimpse, told in the passion of a conquistador, for an American beauty: the love, the eroticism, the loss and the tragedy. Jaime Bedoya Martinez's Zoratama constructs the vision for modern Hispanic society through the eyes and passion of consorts of divergent worlds. His view that the legacy of the Muisca has been abandoned is true in that beyond anthropological and archeological studies explaining in detail the life, religion, society of these people, little credit is given to their contributions to current culture. And the assimilation, whether military or societal, of these cultures is anything but polite; the Spaniards greedy and brutal, the Muisca resolute and tribal. Mr. Bedoya beautifully builds an alternate storyline which ultimately argues that commitment to passion and transcendence has no boundaries. Zoratama, the Muisca princess, and Lázaro Fonte, the Spanish conquistador, construct a love story for the ages, replete with spiritual integration and an offspring of a new race.Ultimately, the writer in his true fashion destroys this love, immersed in the tragic myths of both races, in an absurd annihilation of people, family, emotion and sentiment because the ironic metaphor that evolves is the incarnation of a new race, culture and historical footprint.Edward Balderas

Zoratama (the Indian Princess) Jaime Vaca,Jaime Bedoya Martinez.2017-02-09 The reader anxious not only to acquaint himself with a fabulous history and legend, but also to comprehend deeply the great importance of a previous empire and a major civilization, whose roots and vestiges continue to exist. The student, the researcher and those who are especially drawn to this subject matter will be provided with interesting incentives to reflect on and will find, in this work of historical, pedagogic and literary importance a veritable treasure house of art, of love and legend. It is for these reasons that I consider it essential to compose this preface, which will serve as a stimulus for the reading and for a greater acquaintance with this major civilization, which is centered principally in the Colombian Andes. In the indigenous language, the word Muisca signifies person or people. And, according to very serious researchers, the Muisca natives appear to have descended from the Asiatic peoples who populated Central America, whence they obviously continued on to Panama, the territory of which once belonged to Colombia, and from there to Peru, Ecuador and elsewhere. Indeed, the Chibchas or Muiscas may be looked upon as descendants of Asiatics, because their ancestral lawgiver, Chichacum, had straight, black hair, a ruddy complexion, slanted eyes and a great resemblance to these natives. All of which is apart from the fact that certain customs, and the names, with which the Muiscas designated their towns, indicate that they came from somewhere in Central China. Let us consider closely, and without haste, these indigenous names, after having broken them down into their component syllables Zipaquira, Chiquinquirá, Moniquirá and Ramiquirá... all of which surely leads us to a form of syllabic phonetics that is closely similar to the cultural and legendary China, cradle both of the earliest inventions and of a great civilization. By the same token, it has been affirmed that the Phoenicians also settled in America and that they implanted their great civilization here. This culture was then put into practice by the Muisca natives, which ties them to the building of the Temple of the Sun in Sogamoso and to the fabulous constructions of a tile-paved road, three meters in width, which connected the Eastern Plains, from El Meta to Firavitoba in the Andes, by way of which it is known that a great many Eastern caravans proceeded in both directions. In the same way, there is evidence of another branch which led to the Sacred Sanctuary of San Martín for those who rendered adoration to the sun. Further evidence of Phoenician culture is the region of San Agustín in the department of El Huila in Colombia, wherein there exist a great many petroglyphs of fabulous sculptures of stone. According to researchers, the customs of those Eastern indigenous peoples, their culture, their religion, the cotton which originated in the valley of the Nile, the black wheat which resembles sorghum, the use of looms and the manufacture of colored fabrics, the turban, money in the form of coins, commercial activity, credit with interest, the sacrifice of children and the worship of the crocodile were all implanted by those caravans that came from the Old Continent and which created a very old civilization, now vanished, along the Orinoco valley through El Meta and the Ariari of Colombia, and by way of the Upper Amazon valley to Ecuador and Peru. These cultures were later exterminated by the Caribe tribes. The learned Humboldt visited the irrigated zone of Maypure at El Meta, where he found on a rock the depiction of a crocodile 200 meters in length. The Phoenician, as is well known, worshipped the crocodile. At the apex there appears an inscription that defies translation: Athure. Another mysterious inscription was discovered by brother Juan de Santa Gertrudis, which, in Old Latin, is translated: Up to this point we have arrived in the heart of the Andes, in the Department of Nariño, in Colombia.

India As Seen In The Kuttanimata Of Damodara Gupta A.M. Shastri.1996-12-31 The Kuttani-mata of Damodaragupta is one of the few works in the history of classical Sanskrit literature the time and locale of the composition whereof can be ascertained with a fair degree of certainty. We learn from Kalhana that Damodaragupta occupied a high position under the Karkota-Naga king Jayapida Vinayaditya who ruled over Kashmir in the closing years of the eighth and early years of the ninth centuries A.D. A critical study of the internal evidence indicates that the work was probably composed a few years after the close of Jayapida's reign. As indicated by the title, the text aims at exposing the secrets of the whole craft of prostitution in the form of the advice of an experienced bawd (Kuttani) to a courtesan, and from this point of view it occupies a unique place in the whole range of Sanskrit literature; for the account is based not only on the standard erotic texts like Vatsyayana's Kama-sutra but draws copiously upon the poet's personal observation of the actual state of affairs obtaining in post-Jayapida Kashmir. But the poem has a much wider scope than its professed theme and covers the entire gamut of contemporary life of Kashmir in particular and northern India in general in all its varied aspects and as such forms an important source for the study of contemporary Indian society. The present work attempts a critical evaluation of this evidence in the light of relevant literary and archaeological data. In the process new light is thrown on several important questions.

Zoratama La Princesa India: Historia Y Leyenda Ind Bedoya Mart.2017-02-09 Antes de esta importante y maravillosa leyenda, de la que sorpresivamente se ha admirado el poeta, políglota, cordial amigo y traductor de cabecera de mis libros en inglés, señor Don Armando Petrecca, quien según su valioso concepto, ésta es mi obra maestra, hasta ahora, comentario el cual me ha estimulado para escribir este prefacio que inquietará al lector no sólo por conocer una historia y leyenda fabulosa, sino a pulsar la gran importancia de un gran imperio y de una gran civilización de la cual quedan todavía raíces y muchos vestigios, porque además, he considerado que después de este preámbulo, el lector común, el estudiante, el investigador y los aficionados por estos tópicos contarán con elementos de juicio interesantes y encontrarán en este trabajo histórico-educativo-literario, una fuente de tesoros, de arte, de amor y de leyenda, por lo cual me ha parecido indispensable entregar este prefacio que servirá de estímulo para la lectura y para el mayor conocimiento de esta importante civilización asentada principalmente en los Andes colombianos.La palabra muisca, significa en lenguaje nativo persona o gente. Y según muy serias investigaciones los nativos muiscas parecen descendientes de los chinos que poblaron la América Central, y de ahí sin duda pasaron a Panamá, territorio que antes pertenecía a Colombia, Perú, Ecuador y otros lugares.Sí, a los Chibchas o Muiscas los hacen descendientes de los chinos, por cuanto el legisla cultural y legendaria, cuna a la vez de los primeros inventos y de una gran civilización. De la misma manera se afirma que los fenicios también se establecieron en América y que implantaron su gran civilización, que después pusieron en práctica los nativos muiscas, y por lo cual los relacionan con la construcción del Templo del Sol en Sogamoso, y la fabulosa construcción de una vía enlosada de tres metros

de ancha que, unía a los Llanos Orientales desde el Meta, hasta Firavitoba en los Andes, y por lo que también se sabe iban y venían numerosas caravanas orientales. De la misma forma se desprende otro ramal que comunicaba al Santuario Sagrado de San Martín de los que adoraban el sol. De la cultura fenicia es testigo la región de San Agustín en el departamento del Huila en Colombia, donde existen inmensos petroglifos o esculturas fabulosas de piedra. Según los investigadores las costumbres de aquellos orientales, su religión, su cultura, el algodón originario del Nilo, el trigo negro semejante al sorgo, el uso de telares y fabricación de telas coloreadas, el turbante, la moneda, la comercialización, el crédito con intereses, el sacrificio de niños, la adoración del cocodrilo, fueron implantados por esas caravanas venidas del Antiguo Continente, que crearon una antiquísima civilización desaparecida a lo largo del Orinoco por el Meta y el Ariari a Colombia y por el Alto Amazonas al Ecuador y Perú. Culturas que más tarde exterminaron las belicosas tribus caribes. El sabio Humboldt visitó los raudales de Maypure en el Meta donde encontró en una roca la figura de un cocodrilo de 200 metros de largo. Los fenicios, según se sabe adoraban el cocodrilo. En la cúspide aparece intraducible un letrero: Athure. Otro letrero misterioso descubrió Fray Juan de Santa Gertrudis que en latín antiguo traduce: hasta aquí llegamos, en el nudo de los Andes, en el departamento de Nariño en Colombia.
