**Research Anthology on Child and Domestic Abuse and Its Prevention** Management Association, Information Resources.2022-03-11 Every day, both adults and children are victimized in unhealthy relationships. Domestic and child abuse have surged during the COVID-19 pandemic as potential escapes from abuse at home were stripped away. Abuse is a raging global issue; however, with enough research, policy, and social activism, society can aid in the prevention of child and domestic abuse. The Research Anthology on Child and Domestic Abuse and Its Prevention discusses the prevalence of domestic abuse as well as the exploitation of children both at home and beyond. It further presents emerging practices in technology, social work, and criminology to prevent the further exploitation and victimization of adults and children in abusive situations. Covering topics such as foster children, gender-based violence, and trauma analysis, this major reference work is an indispensable resource for social workers, lawmakers, government organizations, non-profit organizations, psychologists, therapists, sociologists, libraries, students and educators of higher education, criminologists, leaders in law enforcement, researchers, and academicians.

The Domestic Sources of China's Foreign Policy Lai Hongyi.2010-04-28 Offers a systemic analysis of the foreign policy of China. This title demonstrates how domestic factors have profoundly shaped China's foreign policy, from the late Mao's era to the reform era, presenting its argument through an analysis of major cases of Chinese foreign policy.

*Growing Up with Domestic Violence* Peter G. Jaffe,David A Wolfe,Marcie Campbell.2011-01-01 This compact and easy-to-read text by leading experts shows practitioners and students how to recognize the impact of intimate partner violence (IPV) on children and youth and to provide effective clinical interventions and school-based prevention programs. Exposure to IPV is defined using examples from different ages and developmental stages. The book describes the effects of exposure to IPV and reviews epidemiology and etiology. Its main focus is on proven assessment, intervention, and prevention strategies. Relevant and current theories regarding the impact of exposure on children and youth are reviewed, and illustrative real-life case studies from the clinical experiences of the authors are described.

Problems of Economic Growth and Planning: The Sudan Example H. Güsten.2012-12-06 In early 1961, the IFO-Institut für Wirtschaftsforschung (Institute for Economic Research) established an African Studies Centre to conduct research into the economic and political problems of developing countries, with special reference to African nations south of the Sahara. Its activities are not confined to the field of economics. The emphasis is on inter-disciplinary cooperation and synthesis. Within the framework of the East African Research Programme, which is supported by the Fritz Thyssen Foundation, agricultural, sociological and legal studies have appeared or are in progress. In the field of economics, problems of economic planning are among the subjects receiving particular attention. Two issues of *Afrika Studien* deal with institutions and instruments of planning: N. AHMAD/ E. BECHER: *Entwicklungsbanken und -gesellschaften in Tropisch Afrika* (Development Banks and Companies in Tropical Africa), *Afrika-Studien* No. 1, and: R. GUSTEN/H. HELMSCHROTT: *Volkswirtschaftliche Gesamtrechnungen in Tropisch Afrika* (National Accounts in Tropical Africa), *Afrika Studien* No. 3. It is hoped that a comprehensive review of methods and results of economic planning in East Africa will be forthcoming in this series in the course of 1967. The present study was made subsequent to investigations conducted by a research team under my guidance in 1961/62; the author of this study, ROLF GUSTEN, was a member of this team.

**Globalizing the Streets** Michael Flynn,David C. Brotherton,David Brotherton.2008 Not since the 1960s have the activities of resistance among lower- and working-class youth caused such anxiety in the international community. Yet today the dispossessed are responding to the challenges of globalization and its methods of social control. The contributors to this volume examine the struggle for identity and interdependence of these youth, their clashes with law enforcement and criminal codes, their fight for social, political, and cultural capital, and their efforts to achieve recognition and empowerment. Essays adopt the vantage point of those whose struggle for social solidarity, self-respect, and survival in criminalized or marginalized spaces. In doing so, they contextualize and humanize the seemingly senseless actions of these youths, who make visible the class contradictions, social exclusion, and rituals of psychological humiliation that permeate their everyday lives.

The Domestic Politics of International Relations Roderic Alley.2018-02-06 This title was first published in 2000. An important comparative study, which considers the domestic/international interface. The book covers climate change in Australia; New Zealand and the abolition of nuclear weapons; the Bougainville conflict and settlement in Papua New Guinea; Decolonization (New Caledonia, East Timor, West Papua); Indigenous Rights (Australia, New Zealand, and Fiji); Governance Reform and Environmental Management challenges in the Pacific Island states. The conclusion evaluates propositions advanced in the introductory chapter regarding the distinctive domestic/international issues raised and argues that, in order to comprehend foreign relations in an increasingly complex world, there is no substitute for a thorough knowledge of distinctive local, social and political dynamics shaping international orientations. The theme of the book is the way that these interactions have operated in the cases examined.

U.S. Health in International Perspective National Research Council,Institute of Medicine,Board on Population Health and Public Health Practice,Division of Behavioral and Social Sciences and Education,Committee on Population,Panel on Understanding Cross-National Health Differences Among High-Income Countries.2013-04-12 The United States is among the wealthiest nations in the world, but it is far from the healthiest. Although life expectancy and survival rates in the United States have improved dramatically over the past century, Americans live shorter lives and experience more injuries and illnesses than people in other high-income countries. The U.S. health disadvantage cannot be attributed solely

to the adverse health status of racial or ethnic minorities or poor people: even highly advantaged Americans are in worse health than their counterparts in other, peer countries. In light of the new and growing evidence about the U.S. health disadvantage, the National Institutes of Health asked the National Research Council (NRC) and the Institute of Medicine (IOM) to convene a panel of experts to study the issue. The Panel on Understanding Cross-National Health Differences Among High-Income Countries examined whether the U.S. health disadvantage exists across the life span, considered potential explanations, and assessed the larger implications of the findings. U.S. Health in International Perspective presents detailed evidence on the issue, explores the possible explanations for the shorter and less healthy lives of Americans than those of people in comparable countries, and recommends actions by both government and nongovernment agencies and organizations to address the U.S. health disadvantage.
