How to Teach a Foreign Language Otto Jespersen.2022-06-03 Written by the famous Danish linguist Otto Jespersen, this work has proved to be a valuable contribution to the English language and Linguistics. He presented theoretical considerations of language teaching in this book. As a professor of English at Copenhagen, he led a campaign for basing foreign-language teaching on the use of conversational speech rather than on the textbook study of grammar and vocabulary. He wrote several textbooks used in Denmark and other countries for English teaching. The modern techniques suggested by Jespersen make this work on didactics and pedagogy relevant even today for English teaching.

Lais of Marie De France Marie de France,Wyatt North.2020-01-11 ** A Christian Classic ** ** Active Table of Contents ** This book comes complete with a Touch-or-Click Table of Contents, divided by each section. The Lais of Marie de France are a series of twelve short narrative Breton lais by the poet Marie de France. They are written in the Anglo-Norman and were probably composed in the late 12th century. The short, narrative poems generally focus on glorifying the concept of courtly love through the adventures of their main characters. Despite her stature in Anglo-Norman literature and medieval French literature generally, little is known of Marie herself, though it is thought that she was born in France and wrote in England. Marie de France's lais, told in octosyllabic, or eight syllable verse, are notable for their celebration of love, individuality of character, and vividness of description - hallmarks of the emerging literature of the times. Five different manuscripts contain one or more of the lais, but only one, Harley 978, a thirteenth century manuscript housed in the British Library, preserves all twelve. It has been suggested that if the author had indeed arranged the Lais as presented in Harley 978, that she may have chosen this overall structure to contrast the positive and negative actions that can result from love. In this manuscript, the odd lais — Guigemar, Le Fresne, etc. — praise the characters who express love for other people. By comparison, the even lais, such as Equitan, Bisclavret and so on, warn how love that is limited to oneself can lead to misfortune. The Harley 978 manuscript also includes a 56-line prologue in which Marie describes the impetus for her composition of the lais. In the prologue, Marie writes that she was inspired by the example of the ancient Greeks and Romans to create something that would be both entertaining and morally instructive. She also states her desire to preserve for posterity the tales that she has heard. Two of Marie's lais - Lanval, a very popular work that was adapted several times over the years (including the Middle English Sir Launfal), and Chevrefoil (The Honeysuckle), a short composition about Tristan and Iseult - mention King Arthur and his Knights of the Round Table. Marie's lais were precursors to later works on the subject, and Marie was probably a contemporary of Chrétien de Troyes, another writer of Arthurian tales. You

Beauvoir in Time Meryl Altman.2020-11-23 Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: bad sex, dated views about lesbians, and intersections with race and class. Through close reading of Beauvoir's writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing that Beauvoir is still good to think with today.

Carmen Abroad Richard Langham Smith, Clair Rowden.2020-07-30 From the 'old world' to the 'new' and back again, this transnational history of the performance and reception of Bizet's *Carmen* – whose subject has become a modern myth and its heroine a symbol – provides new understanding of the opera's enduring yet ever-evolving and resituated presence and popularity. This book examines three stages of cultural transfer: the opera's establishment in the repertoire; its performance, translation, adaptation and appropriation in Europe, the Americas and Australia; its cultural 'work' in Soviet Russia, in Japan in the era of Westernisation, in southern, regionalist France and in *Carmen's* 'homeland', Spain. As the volume reveals the ways in which Bizet's opera swiftly travelled the globe from its Parisian premiere, readers will understand how the story, the music, the staging and the singers appealed to audiences in diverse geographical, artistic and political contexts.

Tense Future Paul K. Saint-Amour.2015-03-02 We know that trauma can leave syndromes in its wake. But can the anticipation of violence be a form of violence as well? *Tense Future* argues that it can—that twentieth-century war technologies and practices, particularly the aerial bombing of population centers, introduced non-combatants to a coercive and traumatizing expectation. During wartime, civilians braced for the next raid; during peacetime they braced for the next war. The pre-traumatic stress they experienced permeates the century's public debates and cultural works. In a series of groundbreaking readings, Saint-Amour illustrates how air war prophets theorized the wounding power of anticipation, how archive theory changed course in war's shadow, and how speculative fiction conjured visions of a civilizational collapse that would end literacy itself. And in this book's central chapters, he shows us how Ford Madox Ford, Robert Musil, James Joyce, Virginia Woolf, and other interwar modernist writers faced the memory of one war and the prospect of another, some by pitting their fictions' encyclopedic scale and formal turbulence against total war, others by conceding war's inevitability while refusing to long for a politically regressive peace. Total war: a conflict that exempts no one, disregarding any difference between soldier and civilian. *Tense Future* forever alters our understanding of the concept of total war by tracing its emergence during the First World War, its incubation in air power theory between the wars, and above all its profound partiality. For total war, during most of the twentieth century, meant conflict between imperial nation states; it did not include the violence those states routinely visited on colonial subjects during peacetime. Tacking back and forth between metropole and colony, between world war and police action, Saint-Amour describes the interwar refashioning of a world system of violence-production, one that remains largely intact in our own moment of perpetual interwar.

Divine Names on the Spot II F Porzia, C Bonnet.2023-09-14 English summary: Names, images, and narratives are intimately related and frequently polysemous. As pieces of information on the gods, they convey fragments of knowledge and attempts to interpret the multifaceted complexity of the divine world. In what Robert Parker describes as an archipelago, images and narratives are like

compasses used to approach the mapping of the gods. The different contributions collected in this volume, dealing with the Greek and the Semitic worlds (the two main areas of the Mapping Ancient Polytheisms project), explore connections but also discrepancies between these different semantics, in order to highlight specificities and commonalities in the onomastic and iconographic languages. French description: Les noms, les images et les recits sont intimement lies et volontiers polysemiques. En tant qu'elements d'information sur les dieux, ils vehiculent des fragments de connaissance et constituent autant de tentatives d'interpretation de la complexite multiforme du monde divin. Dans ce que Robert Parker decrit comme un archipel, les images et les recits sont comme des boussoles qui facilitent la cartographie des dieux. Les differentes contributions rassemblees dans ce volume, traitant des mondes grec et semitique (les deux principaux domaines abordes dans le projet Mapping Ancient Polytheisms), explorent les connexions mais aussi les divergences existant entre ces differentes semantiques, afin de mettre en evidence les specificites et les points communs entre langage onomastique et langage iconographique.

Célébrons Nos Réussites Féministes Karen Blackford,Marie-Luce Garceau,Sandra Kirby.1999 Abuses by international corporations, withdrawal of social services and implementation of regressive legislation continue to impoverish women and reduce the quality of their everyday lives: women have reason to be demoralized. Recognizing this challenging and difficult situation, this volume reviews women's successes at feminizing Canadian institutions. It is intended to hearten the women's movement and show the potential for feminist change and suggest ways to realize this potential. Bilingual edition.

Changing Difference Catherine Malabou.2011-09-19 Translated by CAROLYN SHREAD In the post-feminist age the fact that 'woman' finds herself deprived of her 'essence' only confirms, paradoxically, a very ancient state of affairs: 'woman' has never been able to define herself in any other way than in terms of the violence done to her. Violence alone confers her being - whether it is domestic and social violence or theoretical violence. The critique of 'essentialism' (i.e. there is no specifically feminine essence) proposed by both gender theory and deconstruction is just one more twist in the ontological negation of the feminine. Contrary to all expectations, however, this ever more radical hollowing out of woman within intellectual movements supposed to protect her, this assimilation of woman to a 'being nothing', clears the way for a new beginning. Let us now assume the thought of 'woman' as an empty but resistant essence, an essence that is resistant precisely because it is empty, a resistance that strikes down the impossibility of its own disappearance once and for all. To ask what remains of woman after the sacrifice of her being is to signal a new era in the feminist struggle, changing the terms of the battle to go beyond both essentialism and anti-essentialism. In this path-breaking work Catherine Malabou begins with philosophy, asking: what is the life of a woman philosopher?

Leaving Parnassus Seth Adam Whidden.2007 Leaving Parnassus: The Lyric Subject in Verlaine and Rimbaud considers how the crisis of the lyric subject in the middle of the nineteenth century in France is a direct response to the aesthetic principles of Parnassian poetry, which dominated the second half of the century much more than critics often think. The poets considered here rebel against the strict confines of traditional and contemporary poetry and attempt to create radically new discursive practices. Specifically, the close readings of poems apply recent studies of subjectivity in poetry and focus on the works of Paul Verlaine and Arthur Rimbaud to see how each subverts the dominant tradition of French poetry in a unique way. Whereas previous studies considered isolated aspects of each poet's lyric subject, Leaving Parnassus shows that the situation of the lyric is a source of subversion throughout the poets' entire work, and as such it is crucial to our full understanding of their respective innovations.

A History of Disability Henri-Jacques Stiker.2019-12-09 The first book to attempt to provide a framework for analyzing disability through the ages, Henri-Jacques Stiker's now classic A History of Disability traces the history of western cultural responses to disability, from ancient times to the present. The sweep of the volume is broad; from a rereading and reinterpretation of the Oedipus myth to legislation regarding disability, Stiker proposes an analytical history that demonstrates how societies reveal themselves through their attitudes towards disability in unexpected ways. Through this history, Stiker examines a fundamental issue in contemporary Western discourse on disability: the cultural assumption that equality/sameness/similarity is always desired by those in society. He highlights the consequences of such a mindset, illustrating the intolerance of diversity and individualism that arises from placing such importance on equality. Working against this thinking, Stiker argues that difference is not only acceptable, but that it is desirable, and necessary. This new edition of the classic volume features a new foreword by David T. Mitchell and Sharon L. Snyder that assesses the impact of Stiker's history on Disability Studies and beyond, twenty years after the book's translation into English. The book will be of interest to scholars of disability, historians, social scientists, cultural anthropologists, and those who are intrigued by the role that culture plays in the development of language and thought surrounding people with disabilities.

Five Lives in Music Cecelia Hopkins Porter.2012-08-15 Representing a historical cross-section of performance and training in Western music since the seventeenth century, Five Lives in Music brings to light the private and performance lives of five remarkable women musicians and composers. Elegantly guiding readers through the Thirty Years War in central Europe, elite courts in Germany, urban salons in Paris, Nazi control of Germany and Austria, and American musical life today, as well as personal experiences of marriage, motherhood, and widowhood, Cecelia Hopkins Porter provides valuable insights into the culture in which each woman was active. Porter begins with the Duchess Sophie-Elisabeth of Braunschweig-Lueneberg, a harpsichordist who also presided over seventeenth-century North German court music as an impresario. At the forefront of French

Baroque composition, composer Elisabeth-Claude Jacquet de La Guerre bridged a widening cultural gap between the Versailles nobility and the urban bourgeoisie of Paris. A century later, Josephine Lang, a prodigiously talented pianist and dedicated composer, participated at various times in the German Romantic world of lieder through her important arts salon. Lastly, the twentieth century brought forth two exceptional women: Baroness Maria Bach, a composer and pianist of twentieth-century Vienna's upper bourgeoisie and its brilliant musical milieu in the era of Gustav Mahler, Richard Strauss, Arnold Schoenberg, and Erich Korngold; and Ann Schein, a brilliant and dauntless American piano prodigy whose career, ongoing today though only partially recognized, led her to study with the legendary virtuosos Arthur Rubinstein and Myra Hess. Mining musical autographs, unpublished letters and press reviews, interviews, and music archives in the United States and Europe, Porter probes each musician's social and economic status, her education and musical training, the cultural expectations within the traditions and restrictions of each woman's society, and other factors. Throughout the lively and focused portraits of these five women, Porter finds common threads, both personal and contextual, that extend to a larger discussion of the lives and careers of female composers and performers throughout centuries of music history.

Children, Identity and the Past Liv Helga Dommasnes, Melanie Wrigglesworth.2021-02-03 In this volume, fourteen authors representing different academic fields and traditions present their work on children in past societies: how to recognise children in the archaeological record, the conditions of their lives and deaths and how they may have been perceived by their contemporaries. The case studies, from a number of European sites, cover a time-span from the Palaeolithic to the Middle Ages. A central theme in many of the contributions is socialisation and education as part of identity-forming processes. What was it like to be a child in Palaeolithic times? How did the Early Medieval Church approach the teaching of children? Socialisation is a theme echoed also in the two papers dealing with teaching children of today about the past, as the authors discuss how the past can be used in present identity-forming processes. During the last c. 20 years, the archaeology of children has been enriching our understandings of the past. The papers in this volume make us realise that the study of children will have a profound impact on the study of past societies in general, challenging us to reconsider established notions of prehistoric community life. The past will never be the same after its children have entered the scene...
